Dear Sir/Madam

**Tender Clarification (4) for MWP1534TX (Current Transformers (CTs))**

Please find below Eskom's response to the following queries that have been received from various tenderers:

**Query 1**

The NEC3 SC MWP1534TX is not clear in terms of the requirements for a Parent Company Guarantee in clause X4 where it states, "There is no reference to Contract Data in this Option and terms in italics are identified elsewhere in this Contract Data." It is not mentioned anywhere else in the Contract data. Can you please clarify if a Parent Company Guarantee is required?

**Response to query 1**

The requirement for a Parent Guarantee or Performance Bond will be determined by the **outcome** of the financial analysis/evaluation of the financial statements. Pending the Supplier's financial good standing or not finance will recommend the inclusion of a parent guarantee or performance bond in the contract. And the tenderers will be notified during the **negotiations stage** whether they are required to submit the Parent Company Guarantee or not.
