SECTION 3: Background, Overview and Scope of Requirements

1 Background

On 1 October 2024, in line with the Rail Reform mandate, Transnet Freight Rail (TFR) prior to that a vertically integrated operating division of Transnet, was vertically separated into TFR, as a Rail Operating division and Transnet Rail Infrastructure Manager (TRIM) as a separate operating division responsible for the rail network and associated rail infrastructure, notably the sidings portfolio.

The sidings portfolio is a key enabler to connect to the core network from road to rail and a strategic and productive asset. It is a vehicle for economic development, service delivery and transformation. TRIM is mandated to ensure compliance to the Rail Reform mandate set out in the National Rail Policy, 2022 and the Roadmap for the Freight Logistics System in South Africa, 2023.

In the light of the above, TRIM set out to review the processes for leasing / letting TRIM sidings/facilities to ensure the effective utilisation of these properties as strategic enablers. TRIM has also implemented the necessary policies and governance structures to ensure that sidings are awarded in line with the TRIM strategy.

These includes but not limited to a process that:

- Ensure effective management of TRIM Properties as Strategic Enablers for Rail Logistics Solutions through diligent positioning of these to complement an end-to-end efficient logistics service to the market.
- Works with the private sector to unlock investment focused on improved efficiency in the supply chain, reducing complexities and the cost of doing business to enable volume growth from road to rail.
- Ensures sidings enable the TRIM mandate on effective network allocation principles.
- Encourages sustainable development and community upliftment.

2 General

- 2.5 Notwithstanding Clause 2.4 above, the Lessee remains obligated to honour the existing TRIM Slot allocation agreements applicable to the subject facility.
- 2.6 Where relevant, the successful bidder appointed to lease the siding is responsible to directly conclude and/ or manage contracts with Train Operating Companies (TOC)'s or cargo owners who have contracted with TOC/s or are a TOC for all siding-related facility charges and terms and conditions applicable to the use and operation of the siding.

The submission must include a clearly defined project schedule, key milestones, implementation phases, and overall project delivery timelines demonstrating readiness and feasibility of execution.
- 3.10.2 This section carries a total allocation of 5 (five) points. Scoring of the Project Schedule will be conducted using qualitative evaluation methodologies.
- 3.10.3 Bidders must provide measurable and realistic timelines supported by logical sequencing of activities, resource planning, and implementation milestones relevant to rail siding development, rail operations, and associated logistics infrastructure within the rail sector. Information provided must be sector-appropriate and demonstrate alignment with industry standards and operational requirements.
- 3.10.4 Bidders will be scored on the Project Schedule as follows:

PROJECT SCHEDULE LEVEL	SCORING METHODOLOGY
No logical sequencing and scheduling of key milestones	
Level 1 Schedule (Level 1 Schedule is the highest level, called overall project summary level. It includes major milestones or achievements and highlights major activities and key deliverables.)	

PROJECT SCHEDULE LEVEL	SCORING METHODOLOGY
<p>Level 2 Schedule</p> <p>(Level 2 Schedule is the area or system summary (roll-up summary of level 3 schedule). It is also called major summary schedule. 3.11 Commercial Rental Offer

- 3.11.1 Bidders are required to provide bids for rental of the facility at minimum market related rentals. Bidders are allowed to propose bids for rentals above market related rentals.
- 3.11.2 It remains the responsibility of the bidder to ensure that the market related rental proposed in their bids for the facility is informed by the requisite property valuations conducted by an industry competent professional.
- 3.11.3 TRIM will conduct its own market valuation on the facility that will be used to do a comparative analysis against what has been submitted.
- 3.11.4 In cases where there are discrepancies between what has been the bid submission vs the TRIM valuation, this will be dealt with in the contract negotiations phase with the successful bidder.
- 3.11.5 Should TRIM and the Bidder be unable to reach agreement on the minimum rental during the contracting phase, TRIM reserves the right to withdraw the letter of award and proceed to the second ranked bidder. A Letter of Award will be subject to the parties conclude a lease agreement, thus including agreement on the rental amount.

• Verify the validity of all returnable documents
• Verify if the Bid document has been duly signed by the authorised respondent

Step 2: The test for substantive responsiveness will include the following:

• Signed Market Related Rental offer \geq Market Valuation conducted by bidder.
• Completed and Signed Supplier/ Lessee Integrity Pact.

The Prequalification [Stage One, Step 1 and 2] must be passed for a Respondent's Proposal to progress to Stage Two, Functional Evaluation
