Contract Engineer ("who shall be in permanent employ of the tenderer.") **Stage 3 Functionality Evaluation Criteria** Functionality is the terminology used to define the technical ability of the Tenderer, based on experience to deliver the required product in accordance with the specialized quality, reliability, and functionality. The functionality evaluation will be conducted by the Bid Evaluation Committee which comprises of various skilled and experienced members from diverse professional disciplines. The evaluation process will be based on functionality criteria. The criteria will be as follows: Points allocated for Functionality shall be evaluated in accordance with the criteria as listed below. Total Quality points allocated shall be 100. Tenderer must score minimum score per each sub-criterion and an overall minimum threshold 85 points out of 100 is required to be achieved for the tender to be eligible for further evaluation. The quality criteria and maximum score (including the relevant returnable schedule to calculate the score) in respect of each of the criteria are as follows: A detailed explanation of the evaluation scoring is provided further in this document as "**ANNEXURE A - SANRAL – EXPLANATION OF CONSULTANT TENDER EVALUATION SCORING FOR CONVENTIONAL PROJECTS"**

Description of quality criteria	**Mininum (if applicable)**	**Maximum number of Tender evaluation points**
Technical experience in comparable projects (Form B1)		30
Management ability in comparable projects (Form B2)		15
Workplan Appropriateness (WA) to the size and nature of the work (Form C2.4)		30
Quality assurance systems which ensure conformance to Employer's stated requirements (Form B4)		10
Past performance experience on reference projects (Form B6)		15
Total evaluation points for quality (M_S)	*	100

* The minimum number of evaluation points for quality is not less than *85.*

Category 1: Projects that do not require comprehensive engineering input, e.g. RRM and ad-hoc type projects.
Category 2: Projects that require minimal comprehensive engineering input, e.g. Periodic Maintenance, Special Maintenance and some Strengthening type projects.
Category 3: Projects that require comprehensive engineering input, e.g. Improvements, New Works and some Strengthening type projects.)

Key Persons

As part of the quality criteria as specified above, key persons shall be used to calculate the technical experience and managerial ability score. For this purpose the tenderer may propose the same candidate for more than 1 (one) position simultaneously. If this is proposed and the evidence of the candidates' suitability is different for each position in the team then separate Returnable Schedules for each position must be completed.

Each proposed candidate shall complete the relevant B1 and B2 forms included in the Returnable Schedules. The Project Leader (PL) and the Assistant Project Leader (APL) (if applicable) will be limited to participate in a maximum number of 6 (six) conventional contracts in active design phase which will be complete after the award of the Works Contract tender. Design Specialists (DS) and Assistant Design Specialists (ADS) (if applicable) will be limited to participate in a maximum number of 6 (six) conventional contracts in the design phase with the Employer which will be complete after the Detailed Design report is accepted by the Employer.

Tenderers must submit an alternative candidate for those positions identified as being possible areas of conflict by completing separate Returnable Schedules Form B1 and B2 for the alternate. The Employer will not request alternative candidates after tender closure and will interpret the lack of any alternative candidate as an indication the tenderer accepts that it will be impossible to be awarded more projects than the limitations applicable to Key Persons. The Employer reserves the right to select according to its best interest and not the tenderers.

When a proposed candidate for any position is not in the permanent employ of the tenderer but a contracted person, this must be indicated on form B2 and a signed letter of consent from the candidate must be submitted with the relevant B-forms. When a proposed candidate for any position is a permanent staff member of the tenderer, this must be indicated on Form B2 and a signed letter of confirmation must be submitted with the relevant B-forms, together with copies of salary slips of the candidates for last 3 (three) months.

Stage 4 Price and Preference

This is the final stage of the evaluation process and will be based on the PPPFA preference point system. The tender will be evaluated in terms of the Preferential Procurement Policy Framework Act (PPPFA, Act 5 of 2000).

If it is unclear whether the 90/10 or 80/20 system applied, the preference point system to be applied will be based on the lowest acceptable tender.

1. 80/20 preference point system for acquisition of goods and services for Rand value equal to or above R2 000 and up to R50 million

The following formula will be used to calculate the points out of 80 for price:

$Ps = 80(1-(Pt-Pm)/Pm)$

Where:
Ps is the points scored for price of tender under consideration.

Pt is the price of the tender under consideration; and
Pm is the price of the lowest acceptable tender.

2. 90/10 preference point system for acquisition of goods and services for Rand value above R50 million

The following formula will be used to calculate the points out of 90 for price:

Ps = 90(1-(Pt-Pm)/Pm)

Where:
Ps is the points scored for price of tender under consideration.
Pt is the price of the tender under consideration; and
Pm is the price of the lowest acceptable tender.

SANRAL will score specific goals out of 10 or 20. If a bidder fails to meet the Specific goals as outlined on the table below and to submit proof, the bidder will score zero (0) out of 10 or 20. SANRAL will not disqualify the bidder. In terms of this bid/tender, Preference points will be awarded in terms of the table below:

Specific goals	Criteria	10 points		20 points	
		Point allocation	Maximum points	Point allocation	Maximum points
B-BBEE Level *	Level 1	10.00	10.00	20.00	20.00
	Level 2	9.00		18.00	
	Level 3	6.00		14.00	
	Level 4	5.00		12.00	
	Level 5	4.00		8.00	
	Level 6	3.00		6.00	
	Level 7	2.00		4.00	
	Level 8	1.00		2.00	
	Non-compliant contributor	0.00		0.00	

* A valid B-BBEE verification certificate must be submitted as per Returnable Schedule A12.

Criteria for breaking deadlock

If two or more tenders score the same number of points and these tenders are also the highest ranked tenders, the tender with the highest preference points will be recommended for award.

If functionality is part of the evaluation process and two or more tenders score equal total points and equal preference points, the tender that scored the highest points for functionality will be recommended for award.

If two or more tenders score the same number of financial points and preference points and these tenders are also the highest ranked tenders, the tenderer to be recommended for award will be decided by the drawing of lots.

For each project experience listed, a point (out of a maximum 5) from the matrix per project type relevancy and 15 (fifteen) points overall for project type relevancy can be scored for each key person.

2) Period Relevance

For each project experience listed, a point is allocated for the time lapse between the experience gained and the tender closing date. If the experience is within 10 (ten) years of the tender closing a point of 5 (five) is allocated. If the experience is beyond 10 (ten) years but less than 15 (fifteen) years, 2.5 (two and a half) points are allocated. If the experience is longer than 15 (fifteen) years ago, 0 (zero) points are allocated.

If the experience is less than 6 (six) months, a pro-rata point is allocated to that of the point that would have been achieved as the experience is of a limited duration.

A maximum of 5 (five) points per project period relevancy experience and 15 (fifteen) points overall for project type relevancy can be scored for each key person.

3) Position Held

The relevance of the position held during the project experience against the position that is tendered for is evaluated:

A maximum of 5 (five) points per project position held relevancy (technical experience) and 15 (fifteen) points overall for position held relevancy can be scored for each key person.

Therefore, a total of 45 (forty-five) points can be scored for each key person listed in the tender document. The total for all key persons is totaled and this score is then converted back down into a score of a maximum of 30 (thirty) for technical knowledge.

MANAGEMENT KNOWLEDGE (15):

The same returnable schedules as for Technical Knowledge are used to evaluate the Managerial Knowledge.

For management knowledge up to two (2) areas are evaluated:
1) Client
2) Position Held (Only for managerial positions, e.g. PL; CE)

1) Client

The tender is allocated points for the client the work experience was done for:

CLIENT CODE	POINT
National Roads Authority	5
Concessionaire	5
Provincial Authority	5
Relevant SOE	4.5
Metro Council	4.5
Municipality	4
Private	3.75
Other	3.75

A maximum of 5 (five) points per project client relevancy and 15 (fifteen) points overall for client relevancy can be scored.

2) Position Held (Only for managerial positions)

This is only used for certain key positions that are expected to perform a managerial function during the contract. The relevance of the position held during the managerial experience against the position that is tendered for is evaluated:

A maximum of 5 (five) points per project position held relevancy (managerial experience) and 15 (fifteen) points overall for position held relevancy can be scored.

Therefore, a total of 15 (fifteen) – non-managerial positions, and 30 (thirty) points – managerial positions, can be scored for each key position listed in the tender document. The total for all key positions are totaled and this score is then converted back down into a score out of 15 (fifteen) for managerial experience.

QUALITY SYSTEM (10):

The quality assurance system offered by the tenderer is evaluated as follows:

Quality Assurance System Type		
1	System has ISO Certification	10
2	System has been registered for certification	7
3	System is an in-house production	5
4	No Quality system submitted	0

For full ISO certification, a tenderer is awarded 10 (ten) points, for a qualtiy assurance system that has been submitted to ISO for certification, but not yet recieved, 6 (six) points are allocated. If the tenderer's quality assurance system is purely an in-house system, 4 (four) points are allocated.

The total number of points allocated are tallied and a score out of 10 (ten) is awarded.

PAST PERFORMANCE (15):

Past Performance reports must be submitted by the tenderer for any 3 (three) completed projects of **similar** scope in the last 10 (ten) years by the tenderer (any member of the Joint venture).

Past Performance Ratings will be allocated on any one/or a combination of the following Past Performance Assessment reports:

A. CIDB: ANNEX 1 - PSP Performance Report for completed projects

A maximum of 5 (five) points per project and 15 (fifteen) points overall can be scored for past performance as per table below.

CIDB rating	Poor $x < -0.1$	Adequate $-0.1 \leq x < 0.9$	Good $0.9 \leq x < 1.8$	Excellent $x \geq 1.8$
SANRAL score	1	3	4	5

B. Reference letters

A maximum of 5 (five) points per project and 15 (fifteen) points overall can be scored for reference letters as per table below.

Rating	**Poor**	**Adequate**	**Good**	**Excellent**
SANRAL score	1	3	4	5

C. Sworn Affidavit

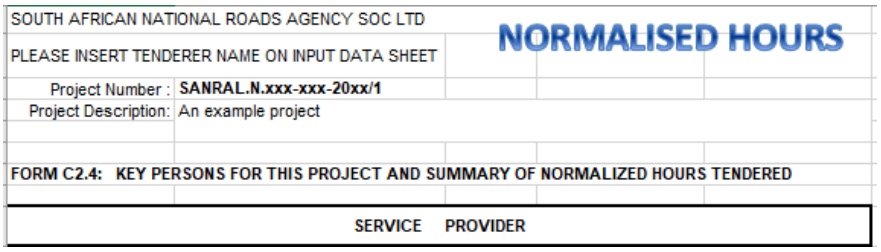

For tenderers with less than 3 (three) completed projects of **similar** scope, a sworn affidavit (refer to Returnable Schedule B6) shall be submitted stating that the tenderer has in the last 10 (ten) years only completed either 0 (zero), 1 (one) or 2 (two) projects, and as a result cannot submit the required 3 (three) past performance project reports. In the event of a submitted sworn affidavit, the following will apply:

a) Submission of 0 (zero) past performance project reports, a rating of *"Adequate"* or 2 (two) points will be applied for all 3 (three) projects.
b) Submission of 1 (one) past performance project reports, the rating as submitted will be applied, and a rating of *"Adequate"* or 2 (two) points will be applied for each of the other 2 (two) projects.
c) Submission of 2 (two) past performance project reports, the ratings as submitted will be applied, and a rating of *"Adequate"* or 2 (two) points will be applied for the other 1 (one) project.

WORKPLAN APPROPRIATENESS (30)

The tender must supply proposed hours that certain identified items in the Pricing Schedule will require. This is used to gauge the tenderer's knowledge and understanding of the amount of work required to perform the scope of work and is compared to the hours tendered by all the other tenderer's hours to represent industry norm.

Each tender submits their hours calculated from various items in the Pricing Schedule:

The following steps are followed:

1) Calculate the mean of all compliant, responsive tenders, excluding those that did not submitted Form C2.4 and those that submitted a blank Form C2.4.
2) Determine 50% above and below the mean to determine the outliers.
3) Re-calculate the mean excluding any outliers identified above.
4) Determine the 80% percentile based on the tenderers of Sum Normalised Hours with Outliers Removed.
5) Allocate points (to all responsive tenders including outliers) out of 30 based on the percentage (%) difference between the tenderers normalised hours and the 80th percentile hours. Any negative values will score 0 (zero) points.
6) The formula used to calculate the points allocated to each compliant responsive tenderer is:

= Workplan Appropriateness points (30)-100*((1-Tenderers hours/80 Percentile hours)*Points drop per % above or below 80 percentile(0,5))

CONCLUSION

The various scores for the 5 (five) criteria are added together to establish the final score for the tenderer and whether the tender makes the required threshold allocated to this project.

PART T2: RETURNABLE SCHEDULES

Notes to tenderer:

1. **Returnable schedules have been based on the CIDB Standard for Uniformity in Construction Procurement and incorporates National Treasury requirements within them. Returnable schedules are separated into the following categories:**
   - **i) Forms, certificates and schedules for completion by the tenderer for use in the quantitative and qualitative evaluation of the tender (Forms A and B).**
   - **ii) A list of other returnable documents for completion by the tenderer and which will subsequently be incorporated into the contract (Section C1).**

2. **Failure to fully complete the relevant returnable documents shall render such a tender offer to be declared non-responsive.**

3. **Tenderers shall note that their signatures appended to each returnable form represents a declaration that they vouch for the accuracy and correctness of the information provided, including the information provided by candidates proposed for the specified key positions.**

4. **Notwithstanding any check or audit conducted by or on behalf of the Employer, the information provided in the returnable documents is accepted in good faith and as justification for entering into a contract with a tenderer. If subsequently any information is found to be incorrect such discovery shall be taken as wilful misrepresentation by that tenderer to induce the contract. In such event the Employer has the discretionary right under contract condition 8.4 to terminate the contract.**
