(SARS), the Companies and Intellectual Property Commission (CIPC) and the payroll system. It will electronically verify a supplier's tax status and enable public sector officials doing business with the state to be identified.

All prospective suppliers can register any time on the CSD website <a href="www.csd.gov.za">www.csd.gov.za</a>. Prospective suppliers may also visit the Provincial Treasury Database office situated at Treasury House, Ground Floor, 145 Chief Albert Luthuli Road, Pietermaritzburg from 08h00 to 15h00, Mondays to Fridays, for any assistance with on-line registration on CSD.

#### 1.0 BACKGROUND

Msunduzi Municipality has invested in and standardized a robust ICT network and security infrastructure that includes Cisco switches, routers, wireless access points (APs), firewalls, and core networking equipment. This infrastructure is deployed across the Municipality's key ICT sites, namely the Primary Data Centre, Disaster Recovery Centre (DRC), and the Hosted environment. In addition, the Municipality utilizes several network monitoring and security management tools, along with annually licensed software solutions, to ensure optimal performance, secure access, and service delivery to end users.

Accordingly, Msunduzi Municipality invites suitably qualified and experienced service providers to submit comprehensive proposals for the provision of end-to-end support, maintenance, supply, and lifecycle management of its enterprise network and security infrastructure. The appointed service provider will work closely with the internal ICT team to ensure high availability, minimize downtime, maintain compliance with industry security standards, and contribute to the Municipality's broader digital transformation initiatives over a three (3) year contract period.

Service providers must demonstrate a thorough understanding of the existing Cisco-based infrastructure and possess the capacity to introduce innovative solutions that enhance connectivity, resilience, and security. The objective is to ensure secure, uninterrupted network services across all municipal locations. Bidders must demonstrate technical and operational excellence in managing complex, mission-critical network environments.

#### DATA SHEET 7: CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1. This Municipal Bidding Document (MBD) must form part of all bids<sup>1</sup> invited.
- 2. Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging). Collusive bidding is a *per se* prohibited meaning that it cannot be justified under any grounds.
- 3. Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
  - a. take all reasonable steps to prevent such abuse;
  - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
  - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bidrigging.
- In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

<sup>&</sup>lt;sup>1</sup> Includes price quotations, advertised competitive bids, limited bids and proposals.

<sup>&</sup>lt;sup>2</sup> Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
