

T2.2-05: Evaluation Schedule: Environmental Management

Evaluation Schedule: Environmental Management

The tenderer shall provide a detailed Environment Management Plan (EMP) specific to the scope of the project. The EMP must identify the possible environmental impacts of the proposed activity; and include measures to minimise, mitigate and manage these impacts. The EMP must include but not limited to the following sections:

1. Dust Management
2. Noise control
3. Management of hazardous chemical and flammable substances
4. Pollution control and spill response
5. Waste Management
6. Environmental education and awareness
7. Housekeeping
8. Environmental Laws and Regulations relevant to the project
9. Protection of the fauna and flora
10. Management responsibilities
11. Protection of sensitive/ no-go areas
12. Monitoring and reporting
13. The EMP must include an environmental policy signed by Top Management which, as a minimum
 - Is appropriate given the purpose and context of the tenderer's business
 - Includes a commitment to fulfil the tenderer's environmental compliance (legal) obligations
 - Includes a commitment to the protection of the environment, including prevention of pollution
 - Provides framework for setting environmental objectives; and
 - Includes a commitment to continual improvement.

The scoring of the Tenderer's Environmental Management submission will be as follows: *

Points	10
Score 0	0= Environmental Management Plan (EMP) for the proposed activities not submitted.
Score 20	2= Environment Management Plan (EMP) generic and irrelevant to the project. EMP submitted does not demonstrate ability to achieve compliance to environmental legal requirements.
Score 40	4= The Environment Management Plan (EMP) submitted, identifies possible environmental aspects, and impacts but does not provide comprehensive mitigation measures. EMP is unlikely to ensure full compliance with all environmental legal requirements.
Score 60	6= Environmental Management Plan (EMP) is relevant to the project but fails to identify all possible environmental aspects and impacts and provide mitigation measures. Less 50% of the prescribed sections are included. EMP is possibly able to ensure compliance with all environmental legal requirements
Score 80	8= Environment Management Plan (EMP) submitted demonstrates a real understanding of the possible environmental aspects and impacts related to the project. 80% or more of the prescribed sections are included with detailed mitigation measures. The EMP is aligned to the project and is likely to ensure compliance with environmental legal requirements.
Score 100	10= The Environmental Management Plan (EMP) submitted includes all the prescribed sections with detailed mitigation measures. All relevant aspects and impacts have been identified. The EMP is completely aligned to the project and is most likely to ensure compliance with all environmental legal requirements.
