**PART A**  
**REQUEST FOR INFORMATION(RFI)**

<b>Description of the works/goods/services</b>	<p>Eskom is faced with the ageing and ailing fleet of power stations which require extensive and innovative maintenance approach to refurbishment of the components of the turbine and generator sets. This, in turn, requires, a turnkey project to procure, supply, install and commission including training for operating and maintenance personnel, of the technologically advanced versatile horizontal WRF 160 CNC Mill Machine with SIEMENS control, latest version thereof, that can load multiple components set on its rotary table and bed, has a universal D' Andre head for multiple angles and positions for indexing. hence multifunctional with various milling attachments of latest technological state of the art capabilities, like long travel span, multiple axis CNC horizontal boring milling machine with CNC Siemens controls, to machine to desired sizes, various medium sized turbine components like HP/BFPT casings, blade carriers, diaphragms, valves, nozzles, steam chests, flanges for bellows and components of similar nature.</p> <p>Various Eskom components for various power stations need to be refurbished during the shutdown for returning to the unit or for use as a spare for the next shutdown, thus this refurbishment requires to be done in a shortest possible span of time hence the need for a faster, versatile, and programmable CNC horizontal boring milling machine with multiple axis and multiple attachments for various activities like milling, facing, grinding and boring/drilling capabilities from a horizontal position of the spindle. During refurbishment the components get welded to build-up various landings or landings need to be reduced to fit the interfacing part thereof, thus necessitate machining of the component to be machined to desired sizes. This requires to be done using a machine that is agile and capable of machining multiple landings and quickly do other various activities as required like drilling, facing, grinding etc.</p>		
<b>Deadline for submission</b>	<b>04<sup>th</sup> October 2023</b>	<b>At (South African Standard Time)</b>	<b>10h00am</b>
<b>Tender Office address</b>	<b>Tender Office ,Unit 5 , Heritage Office Park, Cnr Hunslet Road and lower Germiston Road</b>		

<b>Clarification Meeting</b>	<b>Non-Compulsory clarification Site walk</b> <b>Date: 20<sup>th</sup> September 2023</b> <b>Time : 10h00am</b> <b>Venue: Eskom Rotek Industries</b> <b>Turbo Generation Services “Workshop Area”</b>

Eskom Holdings SOC Ltd ("Eskom") invites you to submit an:

- **Request for information (RFI)** to submit information for the works/goods/services as stated in the table. This RFI is a stand-alone information-gathering and market-testing exercise, intended only to inform and assist Eskom's further deliberation and development of a strategy for the Horizontal boring mill machine. Eskom may request indicative prices if so, stated in this RFI.

Eskom has delegated the responsibility for this **RFI** to the signatory of this document, whose details can be found below.

We look forward to receipt of your response.

Yours faithfully
