Unless the two-envelope system is to be followed, open valid tender submissions in the presence of Tenderers who choose to attend at the time and place stated in the Tender Data. Tender submissions for which acceptable reasons for withdrawal have been submitted will not be opened.

F.20.3 Two-envelope System

Where stated in the Tender Data that a two-envelope system is to be followed, open only the technical proposal of valid tenders in the presence of Tenderers who choose to attend at the time and place stated in the Tender Data and announce the name of each Tenderer whose technical proposal is opened.

Evaluate the quality of the technical proposals offered by Tenderers, then advise Tenderers who remain in contention for the award of the contract of the time and place when the financial proposals will be opened. Open only the financial proposals of Tenderers, who score in the quality evaluation more than the minimum number of points for quality stated in the Tender Data, and announce the score obtained for the technical proposals and the total price and any preferences claimed. Return unopened financial proposals to Tenderers whose technical proposals failed to achieve the minimum number of points for quality.

- (ii) significantly change the Employer's or the Tenderer's risks and responsibilities under the contract, or

Check the highest ranked Tender or Tenderer with the highest number of tender evaluation points after the evaluation of tender offers and check only the Summary:- Calculation of Tender Sum for:

- (ii) Arithmetical errors in line item totals resulting from the product of a unit rate and a quantity or the summation of the amounts.

The Employer must correct the arithmetical errors in the following manner:-

- (i) Where there is a discrepancy between the amount in words and the amounts in figures, the amount in words shall govern;
- (ii) If, in the Summary: Calculation of tendered Fixed Price there is an error in the line item total resulting from the product of the unit rate and the quantity, the line item total shall govern and the rate shall be corrected. Where there is an obviously gross misplacement of the decimal point in the unit rate, the line item total as quoted shall govern and the unit rate shall be corrected.
- (iii) Where there is an error in the total of the amounts either as a result of other corrections required by this checking process or in the Tenderer's addition of prices, the total of the prices shall govern and the Tenderer will be asked to revise selected unit rates to achieve the Tendered total of the amounts. Consider the rejection of a tender offer if the Tenderer does not correct or accept the correction of the arithmetical error in the manner described above."
- (iv) Notify the Tenderer of all errors or omissions that are identified in the tender offer and either confirm the tender offer as tendered or accept the corrected total of prices.

F.20.6 Evaluation of Tender Offers

The procedure for the evaluation of responsive tenders will be in accordance of three (2) phases as per the bid evaluation qualification requirements as stated in the Invitation to Tender and Tender Notice.

Tender offers will only be accepted if:

- (i) the Tenderer is registered on CSD prior submitting the bid and in good standing with the South African Revenue Service (SARS) and has submitted evidence in the form of Tax Compliance Status (TCS) PIN number for verification on e-Filing. Where the recommended or preferred Bidder(s) is not tax compliant, the bidder(s) is afforded an opportunity to rectify their tax affairs within 14 days. A Bidder that fails to rectify its tax matters with SARS (after being given an opportunity to rectify tax matters) will be rejected or eliminated.
- (ii) the Tenderer or any of its Directors is not listed on the Register of Tender Defaulters (as per the CSD Report) in terms of the Prevention and Combating of Corrupt Activities Act of 2004 as a person prohibited from doing business with the public sector;

Before submission of any tender, the Tenderer should check the number of pages, and if any are found to be missing or duplicated, or the figures or writing indistinct, or if the Pricing Data contain any obvious errors, the Tenderer must apply to the Employer's at once to have the same rectified, as no liability will be admitted by the Employer in respect of errors in any tender due to the foregoing.

The primary functions of the CLO shall be to assist the Contractor with the selection and recruitment of labour, to represent the local community in matters concerning the use of labour on the works, and to assist with and facilitate communication between the Contractor, the Principal Agent and the Local Communities.
