TERMS OF REFERENCE FOR ENOCH MGIJIMA LOCAL MUNICIPALITY

LANDFILL SITE EVALUATION

1. PURPOSE

The purpose of the audit is to assess compliance with approved plans, administrative codes, and statutes, and to evaluate the performance of monitoring and engineering services. To evaluate the environmental situation and to complete an environmental inventory of activities and impacts as it occurs in an ongoing basis

2. BACKGROUND

Managing solid waste is one of the most daunting tasks for local governments worldwide. It is complicated by the failure to properly manage the continuing increase in waste generation, on one hand, and the decreasing availability of space for waste disposal, on the other. Failure to properly manage solid waste not only affects public perceptions of governance, but also devalues land and, most importantly, contributes to communicable diseases.

The operation of a landfill results in an obligation to rehabilitate the landfill and prevent any further pollution after closure thereof in terms of section 28 of the National Environmental Management Act, Act 107 of 1998, sections 3(14) – (16) and 4 (10) of Government Notice 718 of 3 July 2009, and the landfill permits issued under section 20 of the Environment Conservation Act, Act 73 of 1989, or the waste management licenses issued under section 50 of the National Environmental Management: Waste Act, Act 59 of 2008.

Sections 122(1) and (3) of the Municipal Finance Management Act (MFMA), Act 56 of 2003, require local authorities to prepare annual financial statements in accordance with the generally recognised accounting practice as prescribed by section 91(1)(b) of the Public Finance Management Act (PFMA), Act 1 of 1999. This should include particulars of any contingent liabilities of the municipality at the end of the year (section 125(2)(c) of the MFMA) such as the municipality's liability for the rehabilitation and closure of landfills under its control.

The PFMA (section 91(1)(b) prescribes the standards set by the Accounting Standards Board. This includes the Standard of Generally Recognised Accounting Practice 19 (GRAP 19) for the provisions of contingent liabilities and contingent assets, which provides detailed guidance on the recognition, measurement, and disclosure of liabilities, which are disclosed as a provision if the amount of the obligation can be measured with sufficient reliability or as a contingent liability if such reliable measurement is not possible (paragraph .16 of GRAP 19). The amount of such liabilities needs to be reviewed annually.

3. OBJECTIVES & GOALS

The specific objective of the environmental audit is to review existing documentation with respect to the management plan of the landfill site and to report on environmental inventory with respect to the management of activities on site

4. SCOPE OF WORK

Over a period of 4 weeks the prospective professional service provider is to develop a GRAP 19 compliant landfill sites report for the sites located in the Enoch Mgijima Local Municipal Area (six landfill sites in total).

5. DELIVERABLES

- Site Visit and Assessment
- Calculate the estimated useful life of the sites
- GRAP 19 landfill site report
- Propose the journals for the adjustment of landfill site provision, the assets, the interest that conform with GRAP.
- The journals must be prepared by a person that has knowledge of GRAP with at least a degree and must have understanding of Auditors general working paper.
- The journals must take into account the IGRAP 2 interpretation of the standards of generally recognised accounting practice changes in existing decommissioning, restoration and similar liabilities.
- The proposed journals must consider the opening balances for the year 2025 and must separately account for the interest, change in discount rate, cost inflation and any other changes.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.

- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.

- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

- 6 ¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
