- b. This is an RFI with pre-qualification to shortlist manufacturers whose factories must be visited for accreditation.
- c. If you believe your company meets our requirements and would like to be considered as a potential manufacturer of any of the goods and services, please respond to the RFI by the submission deadline.
- d. When a manufacturer is accredited, this does not guarantee that a manufacturer will get business from Eskom.
- e. Accredited manufacturers will remain on the register for a period of 4 years from the date of accreditation.
- f. Current Eskom/Eskom Rotek Industries manufacturers are also encouraged to respond to the RFI.
- g. Technical information required in the tables below (**Annexure A**) would need to be fully and clearly provided by manufacturers to be considered for shortlisting and possible accreditation.
- h. The selection of the factories to be visited will be based on the highest scoring factories as per the table in **Annexure B** below, coupled with Eskom's needs and capacity to do the visits. Factories not immediately visited may be considered during further enquiries and will not be excluded from any procurement mechanism/s undertaken by Eskom/ Eskom Rotek Industries in the future.

- j. **National Industrial Participation Programme (NIPP)**

NIPP is a programme that seeks to leverage economic benefits and support the development of South African industry by effectively utilizing the instrument of government procurement. The NIPP programme is mandatory on all government and parastatal purchases or lease contracts (goods and services) with an imported content equal to or exceeding US\$5 million.

The programme is targeted at the South African and foreign industries, enterprises, and suppliers of goods and services to government / parastatals, where the imported content of such goods and services equals to or exceeds US\$5 million. The first customer of NIPP is the South African industry that benefits through the NIPP business plans which, when implemented generate new or additional business activities through one or more of the following: investment, export opportunities, job creation, increased local sales, SMME and BEE promotion, R & D and technology transfer.

Companies with a NIPP obligation are required to sign this obligation agreement with The Department of Trade, Industry and Competition (the dtic) before the contract with Eskom Holdings SOC Ltd, as a purchasing entity, is signed. The obligation agreement governs the relationship between the dtic and supplier. It defines the NIPP obligation value/s, requirements to fulfil the NIPP obligation, performance milestones, performance monitoring processes and the NIPP credit allocation criteria.
