**QUESTION/ANSWERS**

We have encountered significant difficulty in sourcing two specific items due to their limited availability in the current market. Including these items at current pricing levels would substantially affect the competitiveness of our overall tender. Could you please advise if there is any provision to:

**Submit a conditional or provisional quote** for these items, or

**Exclude these specific lines with written justification**, without disqualifying the full submission?

**Price list**

***The SLA for these specific items can cover the risk because as soon as we award the contract, the 750ton will be required in a month or two hence expediting this process is important.***

***They should quote for everything and make sure they will be able to deliver those specific items. The station is in need for this equipment.***

Kindly clarify on the 4 expired certificates and 1 valid certificate, the people I have contacted for their previously expired licenses have told me that the place where they go to renew them takes the expired one I would please like you to advise me on what to do next regarding the lack of expired licenses.

***That means the experience can't be validated and, in that case, points won't be allocated.***
