1. Introduction

NTCSA Division is part of Eskom Group that is mandated for the planning, operating, and maintaining NTCSA assets throughout their economic life, provides access to an interconnected NTCSA system and influences customer demand and behaviour.

NTCSA Division develop optimal plans and engineering solutions for the expansion, maintenance, and refurbishment of the power NTCSA network as well as providing a technology and asset management service to ensure that the integrated power system is reliable, adequate, and secure.

The Division execute projects related to the capital expansion, strengthening and refurbishment of NTCSA assets as well as construction management of NTCSA networks required for the integration of new generators and loads. Ensure a reliable and sustainable NTCSA network through operating, maintaining, and commissioning of new assets.

Eskom's responsibility and commitment is to ensure a safe working environment is in line with its Safety, Health, Environmental and Quality Policy, along with legislative obligations.

This OHS specification is Eskom the minimum requirements which are required to be met for the specific contract and for the duration of the contract period by suppliers and where required, the delivery organisation. Eskom NTCSA's responsibility and commitment is to ensure a safe working environment is in line with its Safety, Health, Environmental and Quality Policy, along with legislative obligations.

This OHS specification is Eskom NTCSA's minimum requirements which are required to be met for the specific contract and for the duration of the contract period by suppliers and where required, the delivery organisation.

The supplier is expected to develop an OHS plan which meets these requirements as well as all the relevant applicable legislation they conform to.

Eskom NTCSA's in no way assumes the supplier's legal responsibilities. The supplier is and remains accountable for the quality and the execution of his/her health and safety programme for his/her employees and appointed supplier employees.

This OHS specification reflects minimum requirements and should not be construed as all encompassing.

Note 1: All the requirements listed hereunder are in relation to the contract and do not supersede or replace any organizational OHS requirements.

Where requirements listed are already in place, then the organisational requirements must be taken cognisance of and listed in the respective OHS plans. If there are any additional Eskom and or legislative requirements listed in the OHS specification, then these must be addressed.

2.4 Related/Supporting Documents

Eskom NTCSA's OHS Act section 37(2) agreement to be signed at procurement during the signing of the NEC contract, it is the responsibility of the supplier to ensure that the 37(2) agreement is signed, and a copy be kept in the supplier file at procurement.

3 Specification

3.1 Scope of work

Supply and delivery of conductor carts to the Live Line Services Department (Simmerpan depot) in NTCSA to the following address: NTCSA Simmerpan, Corner of Power Street & Refinery Road, Germiston, Johannesburg, 1401

Note: The supplier who will be awarded this contract will be known as the "principal supplier" and any supplier appointed by the principal supplier will be known as the "appointed supplier".

3.2 Legal Compliance

3.2.1 Section 37(2) (Legal) Agreement

A section 37(2) agreement must be signed between Eskom NTCSA and the principal supplier at the time of awarding the contract. The principal supplier must ensure that a section 37(2) agreement is compiled between the principal supplier and all their appointed suppliers for the contract.

The original copy of the section 37(2) agreement must be retained by the supplier and a copy retained by the responsible supplier.

A copy of all the agreements must form part of the respective supplier's OHS file

Public

		Review Date	July 2027		

3.2.2 Hazardous work by children (Child Labour)

The constitution of the Republic of South Africa, in the “Bill of Rights” is clear on the rights of children, especially when it comes to:

17.being protected from exploitative labour practices.

18. not to be required or permitted to perform work or provide services that

i. are inappropriate for a person of that child’s age; or

ii. place at risk the child’s well-being, education, physical or mental health or spiritual, moral, or social development and the Basic Conditions of Employment Act, Chapter six Section 43 “Prohibition of employment of children”.

Before resorting to the use of child labour, consideration must be given to the rights of the child in terms of the constitution. Where work is being performed which is not prohibited in terms of the constitution, then such work must be conducted in terms of the OHS Act “Regulations on Hazardous Work by Children in South Africa” with emphasis on paragraph 2 Purpose and Interpretation. Eskom does not condone the use of child labour and therefore all effort must be exercised, and child labour should not be used.

3.2.3 OHS Act

The principal supplier and appointed suppliers shall have an up to date copy of the OHS Act and regulations which will be available to all employees.

3.2.4 Legislative compliance

All suppliers will comply with all the legislation pertaining to this contract being:

- The Constitution of the Republic of South Africa (particularly Section 24 of the Bill of Rights).
- Occupational Health and Safety Act 1993 (Act 85 of 1993) and its Regulations.
- Compensation for Occupational Injuries and Diseases Act.
- National Environmental Management Act 107 of 1998.
- National Road Traffic Act 93 of 1996.

3.3 Eskom NTCSA Requirements

All suppliers shall, before commencement of the project ensure that all their employees are familiar with the relevant Eskom NTCSA’s OHS documentation that is applicable to contract services.

3.3.1 Appointment of a supplier

The principal supplier will be appointed by Eskom NTCSA Live Line Department on the awarding of the contract and will be responsible and accountable for all legislative and Eskom NTCSA’s requirements for the duration of the contract.

Public

When downloaded from the document management system, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorized version on the system. No part of this document may be reproduced in any manner or form by third parties without the written consent of National Transmission Company South Africa SOC Ltd Reg No 2021/539129/30

	OHS Spec Supply and Delivery of conductor carts	Document Identifier	559-824510295	Rev	1
		Effective Date	July 2024		
		Review Date	July 2027		

3.3.2 Appointment of sub-suppliers

The supplier may appoint suppliers to assist in the contract. All appointments shall be done in writing and will form part of the OHS plan that is required to be submitted to Eskom NTCSA. Adequate training and instruction must be given to the appointees and the principal supplier must ensure that all the appointed suppliers understand their roles and responsibilities.

Note: Copies of supplier appointments must be kept in the respective OHS file.

3.3.3 SHEQ policy

A SHEQ policy is a statement of intent and a commitment by the organisation's **GCE /MD** and Senior management in relation to the relevant OHS roles and responsibilities, the achievement of their strategic objectives, values of integrity, customer satisfaction, excellence, and innovation.

The principal supplier and all appointed suppliers, if already not in place, will be required to compile an organisational SHEQ policy in line with their OHS responsibilities. The policy must be signed by the organisation's CE or the appointed assistant to the GCE/MD OHS Act Section 16(2). The policy must be displayed in a prominent place within the workplace. A copy of the policy must be filed in the supplier OHS files and attached as an annexure in the OHS Plan.

3.3.4 COID

The principal supplier and all his/her appointed suppliers shall be registered with an appropriate employment compensation commissioner and have available a valid letter of good standing (LoG) from such commissioner. The obligation lies with the suppliers to ensure that the LoG remain valid throughout the contract period. A copy of the LoG must be filed in the supplier OHS files.

3.4 Substance Abuse

1. Alcohol and substance abuse poses a significant threat to any business, more so in industrial incidents and the driving of vehicles. Eskom is therefore, entitled to take reasonable steps to ensure that intoxicated persons are identified and prevented from entering Eskom NTCSA's Simmerpan premises.
2. General Safety Regulation 2A is clear on the legal stance regarding intoxication.
3. **The alcohol and drug permissible level is 0%.**
4. All suppliers shall comply with Eskom's procedure 32-37 ("Substance Abuse Procedure"), taking into account that this is an Eskom Life-saving Rule number 4: BE SOBER", this means anyone entering the Eskom NTCSA premises will be subjected to ad hoc alcohol testing.
5. Suppliers are encouraged to compile their own manual and to carry out regular alcohol testing of their own employees. The legislative alcohol level is deemed to be zero.
6. Test records must be treated as "Confidential" and filed in the employees' personal file.

Public

		Effective Date	July 2024		
		Review Date	July 2027		

3.5 Occupational Health, Hygiene and Rehabilitation

All suppliers are required to develop an Occupational Health, Hygiene and Rehabilitation program. The program is intended to ensure that the risks to health are identified and controlled.

3.5.1 Medicals

Note: Eskom NTCSA will only accept medical surveillances conducted by an Occupational Health Practitioner who holds a qualification in occupational health.

1. Principle suppliers must ensure that their employees and their appointed supplier employees have a medical surveillance program whereby their employees undergo entry, periodic and exit medical fitness examinations.
2. In order for the appropriate medical examinations to be conducted, each employee must have a man/person job specification, which must indicate the description of work, list of hazards and potential occupational exposure limits, physical hazards and required physical attributes.
3. Medical fitness certificates shall be renewed annually for employees who are working on site. This shall be maintained until completion of the contract.
4. The Principal Supplier must ensure that his / her employees and appointed supplier employees have undergone pre-entry medical examination before starting work on the contract.
5. The principal supplier shall provide a documented process for managing those employees who are issued with a conditional certificate of fitness.

3.6 Appointments

For the duration of the contract, the principal supplier and all appointed suppliers shall appoint competent employees who will meet the requirements of the OHS Act. Where appointments are made, suppliers shall ensure that the appointees have been suitably trained and or informed of their responsibilities before getting them to accept such appointment. The relevant statutory appointments shall be made in accordance with the requirements of the OHS Act which includes the requirement of a competent person being appointed in the relevant roles. The statutory appointments should include but not limited to: Fire Fighter and Evacuation warden, First Aider, incident investigator, risk assessor, SHE representative, project supervisor or supplier and 16(2) appointments.

3.7 Slips, Trips and Fall

Slips, trips and falls accidents are preventable. It is critical to frequently survey your work environment to avoid potential issues. Slips, trips and falls can happen in any workplace. They can occur at the entry of a building, in the kitchen, during loading of material and even as you walk outside the building. Slips, trips and falls are the leading cause of workplace accidents and injuries. The supplier is expected to do the following:

1. Identify hazards that could contribute to slips, trips and fall incidents and develop a risk register.

Public

When downloaded from the document management system, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorized version on the system. No part of this document may be reproduced in any manner or form by third parties without the written consent of National Transmission Company South Africa SOC Ltd Reg No 2021/539129/30

	OHS Spec Supply and Delivery of conductor carts	Document Identifier	559-824510295	Rev	1
		Effective Date	July 2024		
		Review Date	July 2027		

2. Conduct workplace safety induction/awareness to make all employees aware of dangers in their work environment and also encourage reporting of unsafe conditions
3. Conduct workplace inspections to identify hazards and ensure corrective actions are implemented
4. Conduct behavioural safety observations to identify and correct unsafe conditions and behaviours.
5. Discuss slips, trips and falls incidents (case studies) to raise awareness.
6. Communicate defects reporting process to all employees to ensure proper housekeeping

3.8 Risk Assessments

It is a legal requirement in terms of Section 8 (2)(d) of the OHS Act for an employer to carry out risk assessments to establish what hazards to the health and safety of persons are attached to any work which is performed, any article or substance which is, handled, stored, transported. A risk assessment is defined as an identification of the hazards present in an organisation and an estimate of the extent of the risks involved, taking into account whatever precautions are already being taken. It is essentially a three stage process:

- identification of all hazards.
- evaluation of the risks.
- measures to control the risks.

Risk assessments are required to be maintained. This means that significant changes to a process or activity, or any new process or activity should be subjected to a risk assessment and that if new hazards become known during the work process, then these should also be subjected to risk assessments. Risk assessments for long term processes should be periodically reviewed and updated. Method statements or written safe work procedures are an effective method as information and record of the way jobs / tasks must be performed. Prior to start of work, risk assessments on every job / task are ideal to allow managers and employees to assess any inherent risks that could have been overlooked during the initial risk assessment or any changes that might have occurred in a period of absence. In particular, if a job / task is extended over a day or halted due to inclement weather.

3.9 Safe Work Procedures and Practices /Safe Operating

There must be written safe work procedures for all activities, the safe work procedures must be aligned with the risk assessments.

3.10 Personal Protective Equipment Requirements

1. The Principal supplier must provide a detailed programme that includes the issuing, maintenance and replacement of PPE for all his employees and appointed suppliers on site.
2. All suppliers shall comply with the requirements of GSR 2 of the OHS Act.

Public

When downloaded from the document management system, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorized version on the system. No part of this document may be reproduced in any manner or form by third parties without the written consent of National Transmission Company South Africa SOC Ltd Reg No 2021/539129/30

	OHS Spec Supply and Delivery of conductor carts	Document Identifier	559-824510295	Rev	1
		Effective Date	July 2024		
		Review Date	July 2027		

3. The risk based PPE matrix must be compiled detailing the types of PPE that is required to be issued to employees performing the respective tasks.
4. Where there are unusual instances where particular activities require additional type of PPE, then a risk assessment must be conducted where such PPE requirements will be identified, and the issuing be carried out.
5. All suppliers shall ensure that their visitors wear and use the correct PPE whilst on worksites.
6. Where PPE is required and visitors are not in possession of, then it is the individual supplier's responsibility to provide the PPE.
7. All PPE purchased and used by all supplier employees including visitors must comply with the relevant SANS standards.
8. Where deemed as a requirement, then high visibility vests shall be worn.

3.11 Incident Investigation

All incidents shall be investigated in terms of OHS Act General Administrative Regulations 8 and 9, using Eskom Procedure 32-95 as a reference, and where injuries as contemplated in sections 24 and 25 have been sustained, be reported to the Department of Labour.

Suppliers shall use the standard General Administrative Regulation Annexure 1 "Recording of an Incident" form for all incident investigation reports. The objective of incident investigation should not only be a legal requirement but should establish why and how the incident occurred and find out the real root cause of the incident and to decide on precautionary measures that are required to address the root cause to prevent any further recurrences of the same or similar incidents.

3.12 Emergency Management

The art of emergency preparedness and response is to minimise the effects of any emergency and to restore normal activities as soon as practical. Periodic emergency drills must be undertaken to test the effectiveness of the plan. This must be recorded and provided on request.

3.12.1 Non-Conformance and Compliance

1. Any non-compliance to any health and safety requirement in this SHE specification is subject to discipline in terms of the Eskom Procurement and Supply Management Procedure.
2. Principal suppliers are required to implement a non-conformance procedure (if not already in place) for issuing to suppliers for transgressions. The procedure can include "quality" related non-conformance issues. Similarly, appointed suppliers must implement a non-conformance procedure.
3. The procedure for the issuing and closing off of non-conformance reports shall be strictly adhered to.
4. Supplier project management must monitor the close out non-conformances issued, in not doing so, any recommendations made may not be implemented.

Public

When downloaded from the document management system, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorized version on the system. 	OHS Spec Supply and Delivery of conductor carts	Document Identifier	559-824510295	Rev	1
		Effective Date	July 2024		
		Review Date	July 2027		

5. Where non-conformances are issued by Eskom Simmerpan then one of the close-out steps of the procedure will be for the offender to be called by the responsible supplier to explain the non-conformance issued and what plan is in place to prevent a recurrence of the non-conformance.
6. Should the supplier fail to provide adequate PPE to their employees for the tasks being performed and/or to visitors; failure to enforce the wearing of such PPE will be viewed as a transgression of the legislative and Eskom requirements

4 Acceptance
