EVALUATION SHEET

Contractor Name:

TENDERERS ARE ADVISED TO CAREFULLY READ THE GUIDANCE NOTES HIGHLIGHTED IN YELLOW BELOW.

Score out of:

100 points

Item-1		Company resources and competencies		SCORED		Comments	
1.1	Company profile incl an organogram reflecting resources that will be involved in this contract. The organogram should indicate names, designations/positions of the whole team from Management level up to skilled labour) Half points will be awarded if one of the aforementioned is omitted. Partial points will be awarded if one is provided however lack info required eg. designations or names are missing.			10			
1.2	Proof of thrust boring competencies of key technical staff (detailed CVs), The CV's should incl. current role as well as previous thrust boring work experience for the individual and proof of relevant training such as certificates obtained. Minimum of 3 CV's is required for each of these resources i.e Machine operator, Foreman/Supervisor and Project/Contract Manager. (6.67 points for each CV provided)			20			
Subtotal : Item-1				30			
Each of the three CV's needs to stipulate the resource's current role within the company. Note that it is important that the CV reflect the skills level required i.e. Machine operator, foreman/supervisor or Project manager.

TOTAL SCORE MARK = 100

Tenderers who do not meet Eskom's technical requirements within the Threshold will result in the tenderer not being evaluated further

Minimum Points
Threshold is 70

TOTAL SCORED point) =

CONTRACTUAL REQUIREMENT: At contract award it will be required by the winning bidder to provide proof (e.g. lease agreement) that they will be able to establish a local office – within one month of contract award - to meet turnaround times for thrust boring projects e.g. minor works. Noting that minor works projects are typically low value customer projects where rapid response or turnaround time is required. The local offices should be established within one month of contract award. Eskom reserves the right at certain intervals to inspect premises to ensure that these offices are fully functional."
