SPECIFICATIONS OF GOODS REQUIRED

Background

Lynnfield is a wastewater works that is located within Lynnfield Park Umgeni Water intends to construct new carports

Description of goods/ services required

Establish and mark out work area

The working area should be carefully measured and marked out using pegs and line, before any work begins. This pegging out should make allowance for site access, stockpile areas for base material, asphalt and excavated waste material awaiting removal, Mark the points for excavation for carport uprights and kerbs.

Remove existing vegetation

Within the demarcated working area, remove all existing vegetation including roots.

Excavate subgrade to required depth including marking out and preparation for footings for carport uprights

Excavation should include the removal of material for concrete footings to accommodate uprights of new carports (Dimensions – 400mm x 500mm x 500mm).

Install uprights for carports

Install uprights for all the poles. Position correctly and check measurements including heights and levels. Thereafter, cast each pole in 25Mpa concrete (400mm x 500mm x 500mm).

New Carports installation

Install 3 x triple carports (7,8m x 5,5m each), and 2 x duel carports

Details are as follows:

Uprights – 76mm x 76mm x 2,5mm pre-galvanized square steel tubing.

Roof structure – 150mm x 50mm x 2,5mm pre-galvanised lip channel will form the main frame of the roof support.

Roof – Install 0,58mm IBR profile chromo deck roof sheeting. Colour - Buffalo brown (N-094121). Roof sheeting to be screwed down using tek screws with galvanized rubber backed washes.

Fascia's & barge boards – Finish off the sides with 0,58mm chromo deck Fascia's / barge boards.

Gutters – Install aluminium long span gutters with 80mm Ø pvc down pipes, one on either end of the carport.

Work Instructions

Mark-up positions of carport uprights, excavate for footings and install uprights in correct positions and fill concrete.
