

Clarifications

Tender Number: E2864NTCSAKZNOU – Supply and Delivery of Gas Analysers for East Grid (KZN)

- **The technical/functionality evaluation criteria;Any technical scoring matrix or weighting applicable;Minimum qualifying technical score (if applicable);**
- Technical evaluation criteria is from page 25 onwards. The A schedule is what is required and the B schedule is what the supplier needs to fill in i.e. the last column. For example, for the accuracy of 2%, the supplier must stipulate the actual accuracy of their equipment from the OEM standard. It could be 0.5%, 1% etc.
- This must be accompanied by a datasheet for the portable gas analyser from the OEM
- If there are any deviation you specify while matching the specs by writing on schedule B the deviation.
- Technical Score must be 100%

The Tax evaluation questionnaire is not on the tender web page

Not required for this transaction. Our template had lot of standard items, but the tax questionnaire is not applicable as this is supply and delivery.
