

Request for Proposal (RFP)

Executive Summary Template – Ash Beneficiation

(To be completed by all bidders and submitted as the first page of the proposal)

1. Bidder Information

Item	Details
RFP Number	E0126RFPBMSERI
Legal Entity Name	
Trading Name (if applicable)	
Registration Number	
Contact Person	
Contact Email	
Contact Number	

2. Proposal Overview

Brief Description of the Proposed Solution

(Summarise the proposed ash utilisation/beneficiation solution, including scope such as mine void filling, cement-grade ash, export, or other applications. Maximum 150 words.)

3. Power Station Selection

(Select the power station(s) from the list provided by Eskom. Only stations confirmed as available in the RFP clarification bulletin may be selected.)

Power Station Name	Ash Type (Bottom / Mixed Legacy / Clinker)	Proposed Rate per Ton	Proposed Duration
Lethabo Power Station			
Kendal Power Station			
Kusile Power Station			
Majuba Power Station			
Matimba Power Station			
Matla Power Station			
Kriel Power Station			
Komati Power Station			

Power Station Name	Ash Type (Bottom / Mixed Legacy / Clinker)	Proposed Rate per Ton	Proposed Duration
Grootvlei Power Station			
Camden Power Station			
Hendrina Power Station			

4. Multiple Offers Declaration

- ☐ The bidder confirms that different commercial offers are proposed per power station, as reflected above.
- ☐ The bidder confirms that a uniform commercial offer is proposed across all selected power stations.

5. Capacity and Implementation Readiness

Item	Response
Estimated annual ash handling capacity	_____ tonnes per annum
Estimated mobilisation period after award	_____ months
Indicative project duration	_____ years

6. Assumptions and Dependencies

(List key assumptions made based on Eskom-provided information, including indicative ash volumes, logistics access, and permitting dependencies.)

7. Compliance Declaration

The bidder confirms that: - All information provided in this executive summary is accurate and aligned with the detailed proposal. - Power station selections are based solely on Eskom Rotek Industries issued RFP and clarification information. - Final ash volumes are subject to post-award verification and detailed assessment.

Name & Surname	Signature	Date

Note: This Executive Summary will be used for initial proposal screening and commercial evaluation. Detailed technical, financial, and contractual information must be provided in the full proposal submission.
