## **1. INTRODUCTION**

The Department has during 2023/24 developed a comprehensive IT Digital Strategy to provide a comprehensive ICT enabling environment that facilitates service delivery. The Eastern Cape Department of Human Settlements as a public sector, heavily relies on its information and communication technology (ICT) infrastructure to support critical business operations and ensure a secure and resilient environment that safeguards the confidentiality, integrity, and availability of its critical information. The ICT Digital Strategy implementation plan entails initiatives that support business processes through digitization and automation. The Electronic Construction Management System (eCMS) is a digital tool meant to manage/monitor onsite construction projects from inception to completion.
