SPECIAL CONDITIONS OF CONTRACT

GT/GDH/011/2022: THE SUPPLY, DELIVERY, INSTALLATION, COMMISSIONING AND MAINTENANCE OF GALLIUM FLUIDIC LABELLING MODULE FOR STEVE BIKO ACADEMIC HOSPITAL.

1. THE PURPOSE

The purpose of this tender is to appoint a service provider for the supply, delivery, installation, commissioning and maintenance of gallium fluidic labelling module for Steve Biko Academic hospital.

2. THE BACKGROUND

This request for a 68Gallium fluidic labelling module is based on sound academic, radiation protection and economic principles and is supported by the Departments of Nuclear Medicine, Radiography and Physics. It will also indirectly benefit the referring departments (especially urology, surgery and oncology) who frequently refer patients for targeted radionuclide therapy. It is a major technological advancement in theranostics as it allows the technologist to label a variety of Ga-68-based tracers (which are used in theranostics approaches for oncology patients) without operator interference, leading to a consistent, high quality product independent of operator skill and experience. Due to the faster labelling, there is less tracer loss and more patients can be imaged from a single labelling, making this a cost-effective way of labelling. Importantly, the radiation exposure to the hot lab staff is also significantly decreased. Procurement of this equipment will lead to long-term cost savings for the hospital and significantly improve the quality of patient care as well as reduce the radiation exposure to staff.

Use of an automated Ga-68 labelling system ensures a consistent and reliable GMP-compliant final product in a shorter time with fewer wastage. We could image more patients with a variety of cancers each day and assess their eligibility for targeted radionuclide therapies. Importantly this automated system also significantly reduces the amount of staff radiation exposure.

3. LEGISLATIVE AND REGULATORY FRAMEWORK

The general conditions are available on the National Treasury website (www.treasury.gov.za).

SBD 9**CERTIFICATE OF INDEPENDENT BID DETERMINATION**

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
