1. PURPOSE

- 1.1 The purpose of this terms of reference is to appoint an independent service provider to render technical and quality assurance services in respect of procurement processes undertaken by the Department of Forestry, Fisheries and the Environment (DFFE) for a period of 36 months.

2. INTRODUCTION AND BACKGROUND

- 2.1 The Public Finance Management Act, 1999 (Act 1 of 1999, the PFMA) promotes economy, efficiency, effectiveness, and transparency in the use of state resources and amongst its key objectives in this regard is the elimination of waste and corruption.
- 2.2 DFFE has a responsibility to drive financial management discipline including the promotion of a good public procurement system that ensures that the Accounting Officer complies with the principles of Section 217 of the Constitution, i.e., fairness, integrity, transparency, efficiency, competition, and equity.
- 2.3 In addition to these principles, the DFFE has a responsibility to the public it serves to ensure that it's procurement processes are efficient, i.e. is done in the least amount of time using the least number of human resource hours to achieve the highest volume and quality of successfully concluded procurement processes, and effective, i.e. delivers the desired value for money quantity and quality of goods and services on time and on budget.
- 2.4 Although the DFFE believes that its public procurement system has been designed and is increasingly being implemented in a way that meets these requirements and those of the Preferential Procurement Policy Framework Act (PPPFA) and all related legislation, the Department also believes that there is always room for improvement. Indeed, the DFFE believes that continuous improvement and the implementation of best practice in it's procurement processes will improve the efficiency and effectiveness of its public service delivery and eliminate audit queries.
- 2.5 To this end, the DFFE is convinced that continuous improvement and the implementation of best practice will be facilitated and enhanced through professional independent assessments and technical inputs and advice that ensures that procurement processes are conducted in a manner that is fair, impartial, accountable and cost-effective whilst meeting the highest standards of integrity, uprightness and honesty.
- 2.6 Thus, with a view to ensuring best practice and continuous service delivery improvements the DFFE requires an independent assessment of its individual procurement processes to identify any potential areas of non-compliance, inefficiency, inadequacy, or possible improvement including documented proposed response actions which can be implemented during the process and in future processes.

3. OBJECTIVES

- 3.1 The overall objective of this intervention is a measurable improvement in all aspects of the DFFE's procurement processes through the appointment of a professional independent service provider to -
 - 3.1.1 Render technical and quality assurance services at the bid specification and bid recommendation (evaluation) stages of the Department's procurement processes in order to ensure that all processes and procedures followed are consistent with applicable regulations, instruction notes, guidelines and best practice principles that guarantee that these important procurement stages are fair, equitable, transparent, competitive, and cost-effective; and
 - 3.1.2 Assist in continuous improvement in the efficiency and effectiveness of DFFE's procurement process by enhancing and maintaining organisational capacity through skills transfer, systems improvement (e.g. protocols, standard operating procedures, checklists, templates, etc.) and periodic systems reviews and client surveys.

4. SCOPE AND EXTENT OF WORK

- 4.1 Approximately 400 procurement processes will be subjected to the appointed service provider's technical and quality assurance services every year. Of these, around 150 of these tenders will be in respect of projects with a value below R1 million, around 200 will be associated with tenders between R1 and R20 million, and 50 will be for tenders with a value of over R20 million.
- 4.2 In respect of the first objective (3.1.1 above), the appointed service provider is expected to render technical and quality assurance services at the bid specification and bid recommendation stages of the Department's procurement processes. The appointed service provider will expertly review both the process and products of these stages in order to ensure that all processes and procedures followed are consistent with applicable regulations, instruction notes, guidelines and best practice principles that guarantee that these important procurement stages are fair, equitable, transparent, competitive, and cost-effective –
 - 4.2.1 The review will assess process compliance, including, but not limited to compliance with: (i) national policy, legislation, regulation, and National Treasury Instruction Notes (including, but not limited to: the Public Finance Management Act (No 1 of 1999, the PFMA); the Preferential Procurement Policy Framework Act (No 5 of 2000, the PPPFA) and its regulations; and Construction Industry Development Board (CIBD) and Department of Trade, Industry and Competition (the dtic) prescripts); (ii) DFFE Policies, protocols and standard operating procedures; and (iii) current best practice;

- 4.2.2 The review will assess the quality of the products produced by these two stages, namely, the draft Bid Specification or Terms of Reference (ToR) generated by the Bid Specification Committee (BSC) and the Tender Evaluation generated by the Bid Evaluation Committee (BEC).
- 4.2.3 In respect of the Bid Specification stage of the procurement process, the review will assess whether the draft tender documentation, especially the ToR, will facilitate a fair, equitable, transparent and competitive tender process that will ensure the cost-effective delivery of the required goods or services. Specific attention should be paid to the review of the efficacy, fairness and reasonableness of evaluation criteria.
- 4.2.4 When the ToR and other tender documentation in the procurement file is assessed to be in full compliance with the requirements outlined in 4.2.1 above, the appointed service provider will compile and submit a Bid Specification Review Report (see 5.1.1 below) which will also serve as a Bid Specification Quality Assurance Certificate.
- 4.2.5 Should a ToR or other tender documentation be found not to be in full compliance with requirements outlined in 4.2.1 above, the appointed service provider will highlight the problem areas together with suggestions for possible solutions and return the reviewed documents to the BSC through the office of the Chief Director: Demand and Acquisition Management.
- 4.2.6 Review assessment outputs in the form of returned marked-up documentation (see 4.2.5 above) or Bid Specification Review Reports (see 4.2.4 above) must be submitted to the office of the Chief Director: Demand and Acquisition Management no later than five (5) working days following the submission of the documents or revised documents to the appointed service provider for review.
- 4.2.7 In respect of the Bid Recommendation Stage of the procurement process, the review will assess whether the tender evaluation was unbiased, consistent, fair and transparent and that its recommendations were fully justified and defensible. Statistical analysis should be applied to highlight any significant scoring inconsistencies between BEC members.
- 4.2.8 The bid evaluation review will also assess, among others: the authenticity and applicability of all documents submitted in respect of preferential procurement considerations; the consistency, fairness and transparency of any bid briefing sessions and tender closing and opening procedures; and due diligence findings including the identification of fictitious and prohibited suppliers and the bidder's potential relationship with organs of state, employees, or family.
- 4.2.9 When the Bid Recommendation and other bid evaluation documentation in the procurement file is assessed to be in full compliance with the requirements outlined in 4.2.1 above, the appointed

service provider will compile and submit a Bid Evaluation Review Report (see 5.1.2 below) which will also serve as a Bid Evaluation Quality Assurance Certificate.

4.2.10 Review assessment outputs in the form of non-compliance reports or Bid Evaluation Review Reports (see 4.2.9 above) must be submitted to the office of the Chief Director: Demand and Acquisition Management no later than five (5) working days following the submission of the evaluation documentation to the appointed service provider for review.

4.2.11 Following the successful conclusion of the bid evaluation stage, the draft Bid Adjudication Committee (BAC) submission must be reviewed to ensure that the full evaluation process is reported accurately and correctly, and that the procurement file contains a complete and accurate set of all required records and documents.

4.2.12 All reviews will be documented in reports to be submitted to the Department's Chief Director: Demand and Acquisition Management which provide, among others, an executive summary of findings and recommendations.

4.2.13 The appointed service provider may be required to present their review findings and recommendations to the Chief Director: Demand and Acquisition Management, her staff and/or the affected BSC or BEC.

4.2.14 The appointed service provider must keep a record of recurrent problems identified by the reviews which will be used as an input into the realisation of the second objective (see 4.3.2 below).

4.2.15 The appointed service provider will attend and observe bid receipt, bid storage, bid screening, and bid opening processes to ensure that these processes are fair, consistent and comply with applicable policies, procedures, and prescriptions of the Department to prevent irregular expenditure.

4.3 In respect of the second objective (3.1.2 above), the appointed service provider is expected to design and implement interventions aimed at enhancing and maintaining the DFFE's procurement process organisational capacity. To this end, the appointed service provider will –

4.3.1 Track procurement process turn-around times, identifying all possible systemic or recurrent process bottlenecks, unnecessary steps, risks, and any other issues that have a significant negative impact on procurement process efficiency or effectiveness.

4.3.2 Compile and submit one (1) annual and three (3) quarterly procurement status reports every year that detail, among others: (i) recurrent problems identified by the reviews with recommendations on how these problems can be addressed in the short-, medium- and long-
