NOTE: If the information required regarding each item cannot be inserted in the space provided on either page 1, 2, 3, 4 or 5 of this form, additional information may be provided on a photocopy of this form.

The *Gauteng Provincial Treasury (GPT) is acting as Common Service Provider or buying organisation on behalf of all Gauteng Provincial Government Customer Departments / Institutions. The goods / services are therefore required by the Customer Department / Institution, as indicated on RFP 01.

"Firm" prices are deemed to be fixed prices, which are only subject to the following statutory changes, namely VAT and any levy related to customs and excise. "Non-firm" prices are all prices other than "firm" prices and which are either subject to Rate of Exchange claims and/or subject to published indices or documentary evidence.

In case of a contract being awarded as a result of this RFP, all applications for price adjustments must be referred to the GPT, Private Bag X112, Marshalltown. 2107. Price adjustments shall not be backdated and shall be applicable from date of approval by the GPT. The successful supplier shall submit an application, in writing and supported by documentary proof, to the GPT thirty (30) days before the effective date of any price adjustment, whether based on RoE (par. 1), formula(e) (par. 1 and/or 2) or documentary proof (par. 3).

NOTE: Non-firm prices may be loaded when calculating comparative prices.

1. CLAIMS SUBJECT TO RATE OF EXCHANGE (RoE)

In case of bid prices being subject to Rate of Exchange (RoE) variations, please specify the amount, as well as the applicable rate of exchange at the time of bidding applicable to each item.

Price adjustments, based on changes in the rate of exchange, shall only be considered if the change, based on the previous rate, had moved by more than 5%.

1.1 COMPILING THE RoE FORMULA - Cost breakdown structure

A cost breakdown in terms of local & imported components must be submitted for each item as follows:

Imported portion	%	Local portion	%	Total	100%
------------------	---	---------------	---	-------	------

Whatever breakdown chosen in terms of local and imported components cannot be changed over the duration of any contract awarded based on this RFP.

1.2 AMOUNT(S) SUBJECT TO RoE VARIANCE - IMPORTED PORTION OF RoE FORMULA

2. CLAIMS SUBJECT TO PUBLISHED INDICES

For all items to which non-firm prices apply, bidders must submit a cost breakdown, which indicates the proportion of the prices subject to adjustment.

Item N^o

(as per item number on RFP 06 Price Schedule)

Where price adjustments based on an escalation formula is chosen as the method of price adjustment, variations in the actual costs for whatever reason are for the account of the successful bidder. This implies that:

- formula-based adjustments (as per this method in par 2) and
- proven cost increases (as per the method in par 3) cannot both be entertained at the same time for the same cost element.

2.1 METHOD 1: FORMULA BASED ADJUSTMENTS

2.1.1 The escalation (or price adjustment) formula shall provide for a minimum fixed element of at least 15% of the price, which shall not be subject to adjustment. The following standard formula structure is prescribed for calculating escalation / price adjustments:

IN CASES OF PERIOD CONTRACTS, NON FIRM PRICES WILL BE ADJUSTED (LOADED) WITH THE ASSESSED CONTRACT PRICE ADJUSTMENTS IMPLICIT IN NON FIRM PRICES WHEN CALCULATING THE COMPARATIVE PRICES

IN THIS CATEGORY PRICE ESCALATIONS WILL ONLY BE CONSIDERED IN TERMS OF THE FOLLOWING FORMULA:

$$Pa = (1 - V)Pt \left(D1 \frac{R1t}{R1o} + D2 \frac{R2t}{R2o} + D3 \frac{R3t}{R3o} + D4 \frac{R4t}{R4o} \right) + VPt$$

Where:

Pa	=	The new escalated price to be calculated.
(1-V)Pt	=	85% of the original bid price. Note that Pt must always be the original bid price and not an escalated price.
D1, D2..	=	Each factor of the bid price eg. labour, transport, clothing, footwear, etc. The total of the various factors D1, D2...etc. must add up to 100%.
R1t, R2t.....	=	Index figure obtained from new index (depends on the number of factors used).
R1o, R2o	=	Index figure at time of bidding.
VPt	=	15% of the original bid price. This portion of the bid price remains firm i.e. it is not subject to any price escalations.

The following index/indices must be used to calculate your bid price:

Index	Dated	Index	Dated	Index	Dated

Provincial Supply Chain Management

Non-firm Prices

Page 3 of 5

2.1.2 Cost breakdown structure

A percentage (%) cost breakdown for each item must be submitted according to the following example – actual figures to be added to the table (2nd column) in par. 2.1.3 below:

– the various elements specified in this paragraph will form the series (D1, D2 ... up to Dn) in the formula to be indicated in par 2.1.1 above.

EXAMPLE OF COST BREAKDOWN STRUCTURE

Direct labour 25%**
 Direct material 30%**
 Transport 25%**
 Other overheads 20%**

Total 100%

FURNISH A BREAKDOWN OF YOUR PRICE IN TERMS OF ABOVE-MENTIONED FORMULA. THE TOTAL OF THE VARIOUS FACTORS MUST ADD UP TO 100%.

FACTOR (D1, D2 etc. eg. Labour, transport etc.)	PERCENTAGE OF BID PRICE

Whatever breakdown of index series are chosen cannot be changed over the duration of any contract awarded based on this RFP.

2.2 APPLICATION OF THE PRICE ADJUSTMENT FORMULA

2.2.1. Fixed price period

GPG suggests an initial fixed period of at least six (6) months from the effective date of any agreement, which may be awarded as a result of this RFP. Specify from what date the first price adjustment would be applicable (as per item number on RFP 06 Price Schedule)

2.2.2 Frequency of price adjustments after fixed price period

GPG suggests quarterly adjustments, after the initial fixed price period. Longer periods than three (3) months (quarterly) between adjustments will be considered even more favourably.

(as per item number on RFP 06 Price Schedule)

Provincial Supply Chain Management

Non-firm Prices
Page 4 of 5

3. METHOD 2: ADJUSTMENTS BASED ON DOCUMENTARY PROOF

Price adjustments shall also be considered based on independent trust worthy documentary proof of cost, price variances or payments (forward cover cost).

GPG would however prefer claims based on published indices (as per the method in par 2 above), as a result of the fact that the confidentiality regarding source and price of goods can be maintained with a formula. Providing substantiating or supporting documentation (as per this method in par 3) often reveals information that may be considered confidential by the bidder.

Please again note that

- formula-based adjustments (as per the method in par 2) and
- proven cost increases (as per this method in par 3) cannot both be entertained at the same time for the same cost element.

3.1. Amount(s) subject to change based on documentary proof –

Please specify for each item individually.

Item N ^o	
Amount	

(as per item number on RFP 06 Price Schedule)

3.2.1. Fixed price period

GPG suggests an initial fixed period of at least six (6) months from the effective date of any agreement, which may be awarded as a result of this RFP. Specify from what date the first price adjustment would be applicable.

(as per item number on RFP 06 Price Schedule)

3.2.2 Frequency of price adjustments after fixed price period
