SECTION 3: BACKGROUND, OVERVIEW AND SCOPE OF REQUIREMENTS

1 BACKGROUND

Transnet Port Terminal's core business is the handling of bulk and dry bulk commodities, either entering or exiting via the Richards Bay harbour premises. A network of conveyors, storage areas and transfer houses form the bulk of the infrastructure for the port operations. In addition, ship un-loaders, mobile stackers, reclaimers and ship loaders are some of the larger equipment that is used by the terminal to handle cargo.

In order to achieve the handling of these high volumes, the port requires continuous operation and hence there is a requirement at all times for a rigging crew to be available timeously to support the technical team to respond to breakdowns.

The works consists of rigging services and crane hire for TPT on an ad hoc basis for a fixed term of thirty-six (36) months. Rigging services and crane hire is required when the technical team is performing these tasks; splicing, pulley repairs, replacing bearings, pulley lagging, lifting mechanical drives and heavy components.

The provision of rigging services is essential in ensuring that the response time for repairs is kept at a minimum during breakdowns and crane hire costs are controlled.

It is important to note that, there is no alternative to the service provision, the service is essential and most technical repair and maintenance work cannot be completed without the rigging service.

2 EXECUTIVE OVERVIEW

Whereas Transnet is seeking a partner(s) to provide solutions for its Rigging and Crane Hire Services to Transnet Port Terminals, it also seeks to improve its current processes for providing these Services to its end user community throughout its locations.

The selected Service provider(s) must share in the mission and business objectives of Transnet. These mutual goals will be met by meeting contractual requirements and new challenges in an environment of teamwork, joint participation, flexibility, innovation and open communications. In this spirit of partnership, Transnet and its Service provider(s) will study the current ways they do business to enhance current practices and support processes and systems. Such a partnership will allow Transnet to reach higher levels of quality, service and profitability.

Specifically, Transnet seeks to benefit from this partnership in the following ways:

- 2.1 Transnet must receive reduced cost of acquisition and improved service benefits resulting from the Service provider's economies of scale and streamlined service processes.
- 2.2 Transnet must achieve appropriate availability that meets user needs while reducing costs for both Transnet and the chosen Service provider(s).
- 2.3 Transnet must receive proactive improvements from the Service provider with respect to provision of Services and related processes.
- 2.4 Transnet's overall competitive advantage must be strengthened by the chosen Service provider's leading edge technology and service delivery systems.
- 2.5 Transnet end users must be able to rely on the chosen Supplier/Service provider's personnel for service enquiries, recommendations and substitutions.

2.6 Transnet must reduce costs by streamlining its acquisition of Services, including managed service processes on a Group basis.

TOTAL SCORE:	100

6.6 STEP FIVE: Post Tender Negotiations (if applicable)

- Respondents are to note that Transnet may not award a contract if the price offered is not market-related. In this regard, Transnet reserves the right to engage in PTN with the view to achieving a market-related price or to cancel the tender. Negotiations will be done in a sequential manner i.e.:
 - first negotiate with the highest ranked bidder or cancel the bid, should such negotiations fail,
 - negotiate with the 2nd and 3rd ranked bidders (if required) in a sequential manner.
- In the event of any Respondent being notified of such short-listed/preferred bidder status, his/her bid, as well as any subsequent negotiated best and final offers (BAFO), will automatically be deemed to remain valid during the negotiation period and until the ultimate award of business.

Thereafter the final contract will be concluded with the successful Respondent(s).

SECTION 10: SBD 9- CERTIFICATE OF INDEPENDENT BID DETERMINATION

1. Section 4(1)(b)(iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging). Collusive bidding is a per se prohibition meaning that it cannot be justified under any grounds. Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
2. Transnet will take all reasonable steps to prevent abuse of the supply chain management system and to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
3. This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
4. In order to give effect to the above, the following certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:
