### Scope of Supply

Reference number.....

## PROCUREMENT AND CAPTURING OF ACCES GAME AT THE PETROSA GTL REFINERY NATURE RESERVE

### 1. Introduction

PetroSA operates a Gas to Liquid Refinery located in the Western Cape near Mossel Bay. The PetroSA facility also have a Nature Reserve. The amount of springbuck and zebras increased to numbers exceeding the field carrying capacity and must be reduced to more sustainable numbers.

This document covers the request to receive a tender for the procurement of the allocated amount of springbuck and zebras to be removed by method of live capturing.

### 2. Scope of supply

PetroSA await tenders for the procurement of 100 springbuck and 21 Zebra.

The springbuck and zebras must be remove by method of live capturing.

The capturing and removal permits, capturing process, associated equipment, transport, transport arrangements and cost is for the tenderer to arrange **at no cost or risk to PetroSA.**

The ratio of the remaining springbuck not be captured must be two males to eight female.

The ratio of the remaining zebras not captured must be two males to five female.

All damages to the PetroSA game park facilities and fences will be for the account of the approved tenderer.

The date of capturing shall be approved by PetroSA and the use of a helicopter shall be approved by PetroSA.

### 3. Exclusions from scope of work

None.

### 4. Vendor document requirement list

On tender award, the PetroSA approved tenderer shall supply PetroSA with approved copies of the Capturing and removal permits approved by Cape Nature and any other government authorities as stipulated in the South African Provincial or South African National law.

The approved copies must be available to PetroSA before the capturing process can be arrange.
