## GENERAL NOTES

Laundry lines may not be visible from the street or any common area.  
Refuse storage areas to remain fully concealed.  
Areas for storage of boats, trailers, caravans etc. to be screened from public view.  
No Wendy Houses or freestanding storage units will be allowed.  
Aerials and satellite dishes are to be below the roof overhang and unobtrusive in position and colour.  
Satellite dishes may not be fixed against any projecting architecture  
A feature of the house e.g. the chimney, and may not interfere with the aesthetics of the house.  
Solar panels will be allowed. A data or specification sheet of the units must be provided for aesthetic approval by the design review committee  
Solar panels to lie flush with the roof with all pipes concealed. The frame and fittings to be the same colour as the roof.  
Air conditioning units must be hidden at lower level or demarcated areas.  
No visible air conditioning units are allowed. The piping used should be the same colour as the wall. If air conditioning units can't be installed as per above, new plans must be submitted to the design review committee, for approval  
No radio masts to be erected.  
Generators must be installed in such a way that it does not create a nuisance to neighbours. Generators must be visibly screened and indicated on plans.  
External waste or water pipes are not allowed above one metre from ground level or in an unscreened area visible from the street, waterway or park.  
Stub vent stacks and auto vents are encouraged to achieve the above result.  
Internal sewerage ducts to be min. 220mm deep and min. 440mm wide. No external ducts will be allowed.  
Gas bottle installations, including roof covering are to be obscured from public view and behind a min. 1.8m screen wall.
