## **PART C1:      AGREEMENTS & CONTRACT DATA**

---

<b>Contents:</b>	<b>No of pages</b>
<b>C1.1 Form of Offer and Acceptance</b>	<b>3</b>
<b>C1.2a Contract Data provided by the <i>Employer</i></b>	<b>9</b>
<b>C1.2b Contract Data provided by the <i>Contractor</i></b>	<b>1</b>

## C1.1 Form of Offer & Acceptance

### Offer

The Employer, identified in the Acceptance signature block, has solicited offers to enter into a contract for the procurement of:

### Repair of BOP and BMH system during commissioning at Kusile Power Station Project

The tenderer, identified in the Offer signature block, has examined the documents listed in the Tender Data and addenda thereto and by submitting this Offer has accepted the Conditions of Tender.

By the representative of the tenderer, deemed to be duly authorised, signing this part of this Form of Offer and Acceptance the tenderer offers to perform all of the obligations and liabilities of the *Contractor* under the contract including compliance with all its terms and conditions according to their true intent and meaning for an amount to be determined in accordance with the *conditions of contract* identified in the Contract Data.

Option A	The first forecast of the total Defined Cost plus the Fee exclusive of VAT is	<b>R</b>
	Value Added Tax @ 15% is	<b>R</b>
	The offered total of the amount due inclusive of VAT is <sup>1</sup>	<b>R</b>
	(in words) Fifty One Million Six Hundred and Fifty Eight Thousand Four Hundred and Two Rand and Fifty Cents	

This Offer may be accepted by the Employer by signing the Acceptance part of this Form of Offer and Acceptance and returning one copy of this document including the Schedule of Deviations (if any) to the tenderer before the end of the period of validity stated in the Tender Data, or other period as agreed, whereupon the tenderer becomes the party named as the *Contractor* in the *conditions of contract* identified in the Contract Data.

Tenderer's CIDB registration number:

<sup>1</sup> This total is required by the *Employer* for budgeting purposes only. Actual amounts due will be assessed in terms of the *conditions of contract*.

## Acceptance

By signing this part of this Form of Offer and Acceptance, the Employer identified below accepts the tenderer's Offer. In consideration thereof, the Employer shall pay the Contractor the amount due in accordance with the *conditions of contract* identified in the Contract Data. Acceptance of the tenderer's Offer shall form an agreement between the Employer and the tenderer upon the terms and conditions contained in this agreement and in the contract that is the subject of this agreement.

The terms of the contract, are contained in:

Part C1	Agreements and Contract Data, (which includes this Form of Offer and Acceptance)
Part C2	Pricing Data
Part C3	Scope of Work: Service Information

and drawings and documents (or parts thereof), which may be incorporated by reference into the above listed Parts.

Deviations from and amendments to the documents listed in the Tender Data and any addenda thereto listed in the Returnable Schedules as well as any changes to the terms of the Offer agreed by the tenderer and the Employer during this process of offer and acceptance, are contained in the Schedule of Deviations attached to and forming part of this Form of Offer and Acceptance. No amendments to or deviations from said documents are valid unless contained in this Schedule.

The tenderer shall within two weeks of receiving a completed copy of this agreement, including the Schedule of Deviations (if any), contact the Employer's agent (whose details are given in the Contract Data) to arrange the delivery of any securities, bonds, guarantees, proof of insurance and any other documentation to be provided in terms of the *conditions of contract* identified in the Contract Data at, or just after, the date this agreement comes into effect. Failure to fulfil any of these obligations in accordance with those terms shall constitute a repudiation of this agreement.

Notwithstanding anything contained herein, this agreement comes into effect on the date when the tenderer receives one fully completed and signed original copy of this document, including the Schedule of Deviations (if any).

		right.
X18.5	The <i>end of liability date</i> is	<b>0 months after the end of the <i>service period</i>.</b>
<b>X19</b>	<b>Task Order</b>	
X19.5	The <i>Contractor</i> submits a Task Order programme to the <i>Service Manager</i> within	<b>5 days of receiving the Task Order</b>
<b>X20</b>	<b>Key Performance Indicators</b>	
X20.2	A report of performance against each Key Performance Indicator is provided at intervals of	<b>[1] One month</b>
<b>Z</b>	<b>The <i>additional conditions of contract</i> are</b>	<b>Z1 to Z11 always apply.</b>

**Z1 Cession delegation and assignment**

- Z1.1 The *Contractor* does not cede, delegate or assign any of its rights or obligations to any person without the written consent of the *Employer*.
- Z1.2 Notwithstanding the above, the *Employer* may on written notice to the *Contractor* cede and delegate its rights and obligations under this contract to any of its subsidiaries or any of its present divisions or operations which may be converted into separate legal entities as a result of the restructuring of the Electricity Supply Industry.

**Z2 Joint ventures**

- Z2.1 If the *Contractor* constitutes a joint venture, consortium or other unincorporated grouping of two or more persons or organisations then these persons or organisations are deemed to be jointly and severally liable to the *Employer* for the performance of this contract.
- Z2.2 Unless already notified to the *Employer*, the persons or organisations notify the *Service Manager* within two weeks of the Contract Date of the key person who has the authority to bind the *Contractor* on their behalf.
- Z2.3 The *Contractor* does not alter the composition of the joint venture, consortium or other unincorporated grouping of two or more persons without the consent of the *Employer* having been given to the *Contractor* in writing.

**Z3 Change of Broad Based Black Economic Empowerment (B-BBEE) status**

- Z3.1 Where a change in the *Contractor's* legal status, ownership or any other change to his business composition or business dealings results in a change to the *Contractor's* B-BBEE status, the *Contractor* notifies the *Employer* within seven days of the change.
- Z3.2 The *Contractor* is required to submit an updated verification certificate and necessary supporting documentation confirming the change in his B-BBEE status to the *Service Manager* within thirty days of the notification or as otherwise instructed by the *Service Manager*.
- Z3.3 Where, as a result, the *Contractor's* B-BBEE status has decreased since the Contract Date the *Employer* may either re-negotiate this contract or alternatively, terminate the *Contractor's* obligation to Provide the Service.
- Z3.4 Failure by the *Contractor* to notify the *Employer* of a change in its B-BBEE status may constitute a reason for termination. If the *Employer* terminates in terms of this clause, the procedures on termination are P1, P2 and P4 as stated in clause 92, and the amount due is A1

and A3 as stated in clause 93.

## **Z4 Confidentiality**

- Z4.1 The *Contractor* does not disclose or make any information arising from or in connection with this contract available to Others. This undertaking does not, however, apply to information which at the time of disclosure or thereafter, without default on the part of the *Contractor*, enters the public domain or to information which was already in the possession of the *Contractor* at the time of disclosure (evidenced by written records in existence at that time). Should the *Contractor* disclose information to Others in terms of clause 25.1, the *Contractor* ensures that the provisions of this clause are complied with by the recipient.
- Z4.2 If the *Contractor* is uncertain about whether any such information is confidential, it is to be regarded as such until notified otherwise by the *Service Manager*.
- Z4.3 In the event that the *Contractor* is, at any time, required by law to disclose any such information which is required to be kept confidential, the *Contractor*, to the extent permitted by law prior to disclosure, notifies the *Employer* so that an appropriate protection order and/or any other action can be taken if possible, prior to any disclosure. In the event that such protective order is not, or cannot, be obtained, then the *Contractor* may disclose that portion of the information which it is required to be disclosed by law and uses reasonable efforts to obtain assurances that confidential treatment will be afforded to the information so disclosed.
- Z4.4 The taking of images (whether photographs, video footage or otherwise) of the Affected Property or any portion thereof, in the course of Providing the Service and after the end of the *service period*, requires the prior written consent of the *Service Manager*. All rights in and to all such images vests exclusively in the *Employer*.
- Z4.5 The *Contractor* ensures that all his subcontractors abide by the undertakings in this clause.

## **Z5 Waiver and estoppel: Add to core clause 12.3:**

- Z5.1 Any extension, concession, waiver or relaxation of any action stated in this contract by the Parties, the *Service Manager* or the *Adjudicator* does not constitute a waiver of rights, and does not give rise to an estoppel unless the Parties agree otherwise and confirm such agreement in writing.

## **Z6 Health, safety and the environment: Add to core clause 27.4**

- Z6.1 The *Contractor* undertakes to take all reasonable precautions to maintain the health and safety of persons in and about the execution of the *service*. Without limitation the *Contractor*:
- accepts that the *Employer* may appoint him as the "Principal Contractor" (as defined and provided for under the Construction Regulations 2014 (promulgated under the Occupational Health & Safety Act 85 of 1993) ("the Construction Regulations") for the Affected Property;
  - warrants that the total of the Prices as at the Contract Date includes a sufficient amount for proper compliance with the Construction Regulations, all applicable health & safety laws and regulations and the health and safety rules, guidelines and procedures provided for in this contract and generally for the proper maintenance of health & safety in and about the execution of the *service*; and
  - undertakes, in and about the execution of the *service*, to comply with the Construction Regulations and with all applicable health & safety laws and regulations and rules, guidelines and procedures otherwise provided for under this contract and ensures that his Subcontractors, employees and others under the *Contractor's* direction and control, likewise observe and comply with the foregoing.
- Z6.2 The *Contractor*, in and about the execution of the *service*, complies with all applicable environmental laws and regulations and rules, guidelines and procedures otherwise provided

for under this contract and ensures that his Subcontractors, employees and others under the *Contractor's* direction and control, likewise observe and comply with the foregoing.

**Z7 Provision of a Tax Invoice and interest. Add to core clause 51**

- Z7.1 Within one week of receiving a payment certificate from the *Service Manager* in terms of core clause 51.1, the *Contractor* provides the *Employer* with a tax invoice in accordance with the *Employer's* procedures stated in the Service Information, showing the amount due for payment equal to that stated in the payment certificate.
- Z7.2 If the *Contractor* does not provide a tax invoice in the form and by the time required by this contract, the time by when the *Employer* is to make a payment is extended by a period equal in time to the delayed submission of the correct tax invoice. Interest due by the *Employer* in terms of core clause 51.2 is then calculated from the delayed date by when payment is to be made.
- Z7.3 The *Contractor* (if registered in South Africa in terms of the companies Act) is required to comply with the requirements of the Value Added Tax Act, no 89 of 1991 (as amended) and to include the *Employer's* VAT number 4740101508 on each invoice he submits for payment.

**Z8 Notifying compensation events**

---

- Z8.1 Delete the last paragraph of core clause 61.3 and replace with:

If the *Contractor* does not notify a compensation event within eight weeks of becoming aware of the event, he is not entitled to a change in the Prices.

---

**Z9 Employer's limitation of liability**

- Z9.1 The *Employer's* liability to the *Contractor* for the *Contractor's* indirect or consequential loss is limited to R0.00 (zero Rand)
- Z9.2 The *Contractor's* entitlement under the indemnity in 82.1 is provided for in 60.1(12) and the *Employer's* liability under the indemnity is limited to compensation as provided for in core clause 63 and X19.11 if Option X19 Task Order applies to this contract.

**Z10 Termination: Add to core clause 91.1, at the second main bullet point, fourth sub-bullet point, after the words "against it":**

- Z10.1 or had a business rescue order granted against it.

**Z11 Ethics**

For the purposes of this Z-clause, the following definitions apply:

Affected Party	means, as the context requires, any party, irrespective of whether it is the <i>Contractor</i> or a third party, such party's employees, agents, or Subcontractors or Subcontractor's employees, or any one or more of all of these parties' relatives or friends,
Coercive Action	means to harm or threaten to harm, directly or indirectly, an Affected Party or the property of an Affected Party, or to otherwise influence or attempt to influence an Affected Party to act unlawfully or illegally,

Collusive Action	means where two or more parties co-operate to achieve an unlawful or illegal purpose, including to influence an Affected Party to act unlawfully or illegally,
Committing Party	means, as the context requires, the <i>Contractor</i> , or any member thereof in the case of a joint venture, or its employees, agents, or Subcontractors or the Subcontractor's employees,
Corrupt Action	means the offering, giving, taking, or soliciting, directly or indirectly, of a good or service to unlawfully or illegally influence the actions of an Affected Party,
Fraudulent Action	means any unlawfully or illegally intentional act or omission that misleads, or attempts to mislead, an Affected Party, in order to obtain a financial or other benefit or to avoid an obligation or incurring an obligation,
Obstructive Action	means a Committing Party unlawfully or illegally destroying, falsifying, altering or concealing information or making false statements to materially impede an investigation into allegations of Prohibited Action and
Prohibited Action	means any one or more of a Coercive Action, Collusive Action Corrupt Action, Fraudulent Action or Obstructive Action.

Z 11.1 A Committing Party may not take any Prohibited Action during the course of the procurement of this contract or in execution thereof.

Z 11.2 The *Employer* may terminate the *Contractor's* obligation to Provide the Service if a Committing Party has taken such Prohibited Action and the *Contractor* did not take timely and appropriate action to prevent or remedy the situation, without limiting any other rights or remedies the *Employer* has. It is not required that the Committing Party had to have been found guilty, in court or in any other similar process, of such Prohibited Action before the *Employer* can terminate the *Contractor's* obligation to Provide the Service for this reason.

Z 11.3 If the *Employer* terminates the *Contractor's* obligation to Provide the Service for this reason, the procedures and amounts due on termination are respectively P1, P2, P3 and P4, and A1 and A3.

Z 11.4 A Committing Party co-operates fully with any investigation pursuant to alleged Prohibited Action. Where the *Employer* does not have a contractual bond with the Committing Party, the *Contractor* ensures that the Committing Party co-operates fully with an investigation.

## **Annexure A: Insurance provided by the Employer**

*These notes are provided as guidance to tendering contractors and the Contractor about the insurance provided by the Employer. The Contractor must obtain its own advice. Details of the insurance itself are available from the internet web link given below.*

1. Services provided in a TSC3 contract could include some element of construction or refurbishment as well as a continuous maintenance or operational service activity. If an event occurs which causes loss or damage, a claim could be made either against the *Employer's* "works" type policy which may be in place for the *Employer's* portion of the Affected Property concerned or against the *Employer's* assets policy which may be in place for the *Employer's* portion of the Affected Property concerned, or both.
2. The cover provided and the deductibles under the works policy are different to those under the assets policy. Each policy has a range of applicable deductibles depending on the location of the Affected Property and the nature of the insurable event.
3. The *Contractor* is required in terms of Contract Data for clause 83 to provide cover for the deductibles in the insurance provided by the *Employer*. This can be provided from his own resources on a 'self insured' basis or obtained by him from his own insurers. In order to assess the extent of this cover, tendering contractors and their brokers should consult the internet web link given below and scroll to '**Format TSC3**' to establish both the cover and the deductibles in relation to the *service* provided in terms of this contract.
4. Tendering contractors should note that cover provided by the *Employer* is only per the policies available on the internet web link listed below and may not be the cover required by the tendering contractor or as intended by each of the listed insurances in the left hand column of the Insurance Table in clause 83.2. In terms of clause 83.1 "the *Contractor* provides the insurances stated in the Insurance Table except any insurance which the *Employer* is to provide". Hence the *Contractor* provides insurance which the *Employer* does not provide and in cases where the *Employer* does provide insurance the *Contractor* insures for the difference between what the Insurance Table requires and what the *Employer* provides.
5. If Marine Insurance is required the *Contractor* needs to obtain a copy of the latest edition of Eskom's Marine Policies Procedures found at internet website given below.
6. Further information and full details of all Eskom provided policies and procedures may be obtained from:

[http://www.eskom.co.za/Tenders/InsurancePoliciesProcedures/Pages/EIMS\\_Policies\\_  
From\\_1\\_April\\_2014\\_To\\_31\\_March\\_2015.aspx](http://www.eskom.co.za/Tenders/InsurancePoliciesProcedures/Pages/EIMS_Policies_From_1_April_2014_To_31_March_2015.aspx)

## C1.2 Contract Data

### Part two - Data provided by the *Contractor*

Clause	Statement	Data
10.1	The <i>Contractor</i> is (Name): Address	
11.2(8)	The <i>direct fee percentage</i> is The <i>subcontracted fee percentage</i> is	% %
11.2(14)	The following matters will be included in the Risk Register	
11.2(15)	The Service Information for the <i>Contractor's</i> plan is in:	
21.1	The plan identified in the Contract Data is contained in:	
24.1	The key people are:  1 Name: Job: Responsibilities: Qualifications: Experience:  2 Name: Job Responsibilities: Qualifications: Experience:	
CV's (and further key person's data including CVs) are in		
<b>A</b>	<b>Price contractor with price list</b>	
11.2(12)	The <i>price list</i> is in	The pricing data part

## PART 2: PRICING DATA

### TSC3 Option A

Document reference	Title	No of pages
C2.1	Pricing assumptions: Option A	1
C2.2	The <i>price list</i>	

## C2.1 Pricing assumptions: Option A

### How work is priced and assessed for payment

Clause 11 in the core and Option E clauses of the NEC3 Term Service Contract (TSC3) state:

<b>Identified and defined terms</b>	11	
	11.2	(12) The Price List is the <i>price list</i> unless later changed in accordance with this contract.
		(18) The Price for Services Provided to Date is the Defined Cost which the <i>Contractor</i> has paid plus the Fee.
		(24) The Prices are the amounts stated in the Price column of the Price List. If no Price List is included, the Prices are the Defined Cost plus the Fee.

Payments are made at Defined Cost plus Fee (See core clauses 11.2(5), 11.2(6) and 11.2(8)). As this Option is used when the definition of work is likely to be inadequate for pricing purposes, it may not be practical to establish a Price List.

### Function of the Price List

In this Option the Price List (if any) is used only as a means of forecasting the final outcome.

### Preparing the *price list* (if any)

It will be assumed that the tendering contractor has read Pages 14 and 15 of the TSC3 Guidance Notes before preparing the *price list*. Items in the *price list* may have been inserted by the *Employer* and the tendering contractor should insert any additional items which he considers necessary.

### Format of the *price list*

Entries in the first four columns in the *price list* in section C2.2 are made either by the *Employer* or the tendering contractor. For Option E the Price List is used only for forecasting Defined Cost.

If the *price list* includes an amount for the item which is not adjusted if the quantity of work in the item changes, the tendering contractor enters the amount in the Price column only, the Unit, Expected Quantity and Rate columns being left blank.

If the *price list* includes an amount for an item of work which is the rate for the work multiplied by the quantity completed, the tendering contractor enters the rate which is then multiplied by the Expected Quantity to produce the Price, which is also entered.

If the *price list* includes an item proportional to the length of time for which a service is provided, a unit of time is stated in the Unit column and the expected length of time (as a quantity of the stated units of time) is stated in the Expected Quantity column.

## C2.2 the *price list*

See attached as Annexure J

## **1. Introduction**

Kusile Power Station Commissioning Department (Group Capital Division), herein referred to as “the project”, has decided to form a partnership with a competent contractor to perform all the repairs that will include, electrical, C&I and mechanical on the Balance of Plant (BOP) and Bulk Material Handling (BMH) plants before handover to Generation Division (Gx). This document describes the detail of the Scope of Work for specific areas of the power plant, standards, quality requirements, specifications and the terms and conditions.

## **2. Supporting Clauses**

### **2.1 Scope**

#### **2.1.1 Purpose**

The document defines the scope of work for the repairs of the BOP and BMH systems prior to hand over to Generation Division.

It is therefore imperative that the successful and suitably qualified Contractor aligns their organisation fully to these specified scope activities and processes laid down in this document.

#### **2.1.2 Applicability**

This document is applicable to Kusile Power Station Project. This document shall be applicable to both the common plant for Balance of Plant (BOP) and Bulk Material Handling (BMH) systems and the unitised sections of the BOP and BMH plants during the commissioning phase until hand over to Gx.

#### **2.1.3 Effective date**

This document is effective from the date of authorisation until superseded by the latest revision or nullified by the employer.

### **2.2 Normative/Informative References**

Parties using this document shall apply the most recent revision of the documents listed in the following paragraphs.

### 2.2.1 Normative

- [1] Act No. 73 of 1989: Environment Conservation Act, 1989
- [2] Act No. 14 of 2009: National Environmental Laws Amendment Act, 2009

### 2.3 Definitions

Definition	Explanation
Availability:	Period when a system is operating satisfactory when used under specified conditions
Contractor:	Contractor contracted to provide a specific service to Eskom, Kusile Power Station. Also referred to herein as 'Contractor'
Employer:	Eskom, or Eskom Kusile Power Station or its representative
Design Baseline	The state of plant configuration which depicts the plant requirements and design at a specified point in time and is defined in the approved product configuration information.
First line maintenance	This is maintenance activities carried out by a resident maintainer through preventative maintenance, basic corrective maintenance that is practically feasible to execute onsite, and planned or routine maintenance. It also includes maintenance done by a person who is not the OEM of the equipment but with technical expertise to repair the damaged item without sending it to the OEM.
Repair	Responding to the breakdown of the equipment and undertaking work to correct the problem in order to return the equipment to a working condition

## 2.4 Abbreviations

Abbreviation	Explanation
<b>BOM</b>	Bill of Material
<b>CPP</b>	Condensate Polishing Plant
<b>DSTI</b>	Daily Safety Task Instruction
<b>HV:</b>	High Voltage (>33000V) [Note: For PSR and ORHVS, HV refers to anything >1000V]
<b>LV:</b>	Low Voltage (< 1000V)
<b>MV</b>	Medium Voltage (1000V<MV<33000V)
<b>NEC:</b>	New Engineering Contract
<b>OEM:</b>	Original Equipment Manufacturer
<b>OHSA</b>	Occupational Health and Safety Act
<b>ORHVS:</b>	Operating Regulations for High Voltage Systems
<b>PPE:</b>	Personal Protective Equipment
<b>PSR:</b>	Plant Safety Regulations
<b>PTM</b>	Protection Testing and Metering (Eskom department)
<b>PTW:</b>	Permit to Work
<b>QA:</b>	Quality Assurance
<b>QC:</b>	Quality Control
<b>QCP:</b>	Quality Control Plan
<b>SHE:</b>	Safety, Health, Environment
<b>SOW:</b>	Scope of Work
<b>URS:</b>	User Requirement Specification
<b>VSD:</b>	Variable Speed Drive

## 2.5 Roles and Responsibilities

### 2.5.1 Contractor

- a) All contractor employees shall comply with Eskom's policies and site regulations, adherence to Eskom's Life Saving Rules, adherence to Eskom Incident Investigation and/or Occurrence Management Procedure, Smoking Policy, zero tolerance on alcohol usage, etc. These requirements will be detailed during the induction training process.
- b) The Contractor shall utilise trained and competent resources for the execution of the works
  - i. Plant optimisation and commissioning
  - ii. BOM compilation

- c) The Critical Staff as identified must meet minimum requirements of Eskom job descriptions, with additional requirements specified.
- d) All staff brought onto site in connection with this SOW should be able to fluently speak, understand and write in English.
- e) Proof of qualification is to be supplied on request by the Employer for the Critical Staff identified.
- f) The Contractor ensures that all staff being brought to Kusile PS site has a valid fitness certificate based on the specified plant person-job specification.
- g) The contractor shall employ in and about the execution of the works only such persons that are careful, competent and efficient in their several trades and callings and the Employer shall be at liberty to object to and require the contractor to remove from the works forthwith any person employed by the contractor in or about the execution of the works who, in the opinion of the Employer, misconduct's himself/herself or is incompetent or negligent in the proper performance of his/her duties and such person shall not be again employed for the works without the written permission of the Employer.
- h) Provide daily supervision of all related plant through trained and competent personnel to ensure that inspections & work activities are conducted daily.
- i) Ensures proper behaviour of personnel under his/her supervision as per the Kusile culture.
- j) Ensures training of all personnel under his/her supervision. The training required will include but not limited to Eskom safety training requirements, related plant training and Kusile culture.
- k) Ensures high morale of staff and competency.
- l) Ensures that throughout the duration of the contract, they conform and adhere to the safety, health and environment regulations.
- m) A comprehensive risk assessment/DSTI shall be done prior to any work being carried out.
- n) If a Permit to Work is required for working on plant and/or equipment, on completion of the work the relevant piece of plant/equipment shall be properly re-commissioned prior to the clearance of the Permit to Work.

- o) The contractor shall be responsible or held liable for any defects arising from operational faults within twenty-four hours (24 hrs.) after an intervention, provided that the equipment has been placed into service.
- p) The contractor shall be held responsible or held liable for any defects arising from poor workmanship performed by their staff or use of inferior spare parts. The guarantee periods shall be:
  - i. Poor workmanship within 48 hours period from time that the equipment is put into operation.
  - ii. Defective spares within a period of 6 months from time the equipment is put in service.

## 2.6 Process for Monitoring

This specification will be reviewed when necessary.

## 2.7 Related/Supporting Documents

- [1] 414-43-EM-SP: Kusile Power Station Units & Auxiliary Maintenance Scope of Work Revision 1.

## 3. Works information

The contractor shall perform the repair on the auxiliary plant BOP and the BMH systems during commissioning as per the SOW. The scope will include the provision of spares.

### 3.1 Applicable Plant Areas

SYSTEM	Inline equipment
Mill Reject & SSC Makeup Water	valves, actuators, pumps, motors, control valves, strainers, expansion joints, air vents, flowmeter, NRV
Ash Dump Dam Makeup	valves, actuators, air vents, NRV, flowmeter
Ash Dump Dust Suppression	valves, actuators, pumps, motors, control valves, strainers, expansion joints, air vents, VSD, sprinklers, PRV, flowmeter
Coarse Ash Conveyor Belt Washing	valves, actuators, pumps, motors, control valves, strainers, expansion joints, air vents, flowmeter

Fly Ash Conditioning	valves, actuators, pumps, motors, control valves, strainers, expansion joints, air vents, flowmeter
Dust Handling Plant	valves, actuators, pumps, motors, control valves, strainers, expansion joints, air vents, flowmeter,
Raw Water Supply	Back flow re-enter, valves, actuators, flowmeter, surge tanks, Diesel pumps, strainers, expansion joints, air vents, pressure relief valves, Control panels
Demineralised Water Supply	valves, actuators, pumps, motors, control valves, strainers, expansion joints, air vents, flowmeter, PRV
Potable Water	valves, actuators, pumps, motors, control valves, strainers, expansion joints, air vents, safety showers, flowmeter, PRV
Dirty Drain Recovery	valves, actuators, pumps, motors, control valves, strainers, expansion joints, air vents, flowmeter,
De-Gritting Sump Pump	valves, actuators, pumps, nozzles, control panels, cranes
FGD Water Supply	valves, actuators, pumps, motors, control valves, strainers, expansion joints, air vents, back flow preventers
Turbine Lube Oil Storage & Generation	valves, actuators, centrifuge, strainers, flowmeter, desiccant vents, relief valves, monorail, tanks
Hydrogen Supply	valves, actuators, tanks,
Auxiliary Cooling Water - Open Cycle	valves, actuators, pumps, motors, control valves, strainers, expansion joints, air vents, flowmeter, Heat exchangers, VSD, Fans, gearboxes, monorail
Auxiliary Cooling Water - Closed Cycle	valves, actuators, pumps, motors, control valves, strainers, expansion joints, air vents, flowmeter, Heat exchangers, tanks, monorails
Process/Service Air	valves, actuators, compressors, dryers, receivers, filters, desiccant
Control Air	valves, actuators, compressors, dryers, receivers, filters, desiccant
Nitrogen Supply and Storage	valves, actuators, tanks, pump, motors, trolley, strainers

Oxygen Supply and Storage	valves, actuators, tanks, pump, motors, trolley, strainers
Dirty Oil Collection and Storage	valves, actuators, tanks, pump, motors, trolley, strainers
Fire Fighting and Floor Washing	valves, actuators, pumps, motors, control valves, strainers, expansion joints, air vents, flowmeter, diesel engine, control panels, deluge valves, check valves, sensing lines, tank
Electrical plants	All associated electrical plants
Coarse Ash Conveyors	Motor, Gearbox, couplings, Control and Instrumentation equipment, electrical components, chute, actuators, conveyor protections, VSD idlers, pulleys, moving head and take-up winch
Terrace coal plant	Motor, Gearbox, couplings, Control and Instrumentation equipment, electrical components, chute, actuators, conveyor protections, VSD, idlers, pulleys, moving head and take-up winch
Condensate Polishing Plant	Pumps, Valves, Vessels, Resin traps, Pre-polishing filters, C&I and electrical equipment
Unitized Sample conditioning and analysis system	Isokinetic Probes; Primary and secondary sampling panel; Sample coolers; Chiller Unit including chilled water tank; Pumps; Compressors; Valves; Online analyzers; Associated C&I and electrical components
Process Drain Recovery System	Completion of the outstanding works on the Process Drain Recovery System
Wastewater Treatment Plant	Pumps; Mixers; Blowers; Valves; Back-washable Strainers; Clarifier Drive, Lift and Impeller; Filter Presses; Tanks and Pressure Vessels; Centrifuges; Heat Exchangers; Thermo-compressors; Brine Concentrator; Hydro-cyclones; Crystallizer; Sodium Sulfate Feeder; Electrical Panels and Electrical equipment; C&I Instrumentation and equipment
Mobile Demineralised water	Pumps; Mixers; Blowers; Valves; Back-washable Strainers; Clarifier Drive, Lift and Impeller; Filter Presses; Tanks and Pressure Vessels; Centrifuges; Heat Exchangers; Thermo-compressors; Brine Concentrator; Hydro-cyclones; Crystallizer; Sodium Sulfate Feeder;

	Electrical Panels and Electrical equipment; C&I Instrumentation and equipment
--	---

## **3.2 Applicable SOW**

### **3.2.1 Electrical Scope**

**3.2.1.1 Electrical repair of the following equipment: The repairs interventions to be performed during the period of the Contract include, but not limited to the following:**

- a) MV and LV Motors
- b) MV Variable Speed Drives
- c) Lighting and Small Power System
- d) Auxiliary Electrical Equipment and Panels in Mechanical Plants
  - Fault finding and repairs during equipment failure

### **3.2.2 Control & Instrumentation Scope (C&I)**

**3.2.2.1 C&I repair of the following equipment: The repairs interventions to be performed during the period of the Contract include, but not limited to the following**

- Fault finding and repairs during equipment failure on all associated systems

### **3.2.3 Mechanical scope**

**3.2.3.1 Mechanical repair of the following equipment: The repairs interventions to be performed during the period of the Contract include, but not limited to the following**

- i. Pumps (including all related accessories, e.g. couplings, gearboxes and Seals)
- ii. Valves (including all related Safety Valves / Pressure Relief Valves)
- iii. Piping (including all fittings)
- iv. Pneumatic systems
- v. Electromechanical actuators
- vi. Strainers
- vii. Pressure vessels
- viii. Filters
- ix. Orifices

- x. Plate Heat exchangers (including all related accessories ,e.g. fans)
- xi. Blowers
- xii. Diesel Engines
- xiii. Cooling tower fans, basins and accessories
- xiv. Gearbox
- xv. Winch
- xvi. Conveyors belts and related accessories
- xvii. Compressors (All compressed air plants including Oxygen , Nitrogen and Hydrogen)
- xviii. Submersible pumps
- xix. Evaporators
- xx. Lubricants
- xxi. Welding
- xxii. Mixers
- xxiii. Gas transfer membrane
- xxiv. Variable Speed drives

#### **3.2.4 Detail Scope of Work**

Deliverables against this Contract includes and is not limited to the following:

- a. Unplanned repair of the plant as and when required.
- b. Procurement of spares in accordance with the specifications. An up-to-date spares inventory list must be kept, and provided to the Employer upon request.
- c. Perform repairs on faulty or defective areas of the plant and equipment.
- d. Record keeping of all repairs work performed and submission of a copy of such records to the Employer.
- e. Develop a schedule plan of activities for all repairs work to be performed as part of an outage during commissioning. The schedule must be submitted to the Employer for review and acceptance.
- f. Ensure that during repairs, all the works performed comply with the Plant Safety Regulation and any other regulation relevant for the task.
- g. Ensure that a quality control process is followed for all repair of the works.

- h. Conduct Technical Risk Assessments of the plant.
- i. Provide plant and equipment required to perform the specific task when conducting repairs on the plant.

### **3.1 Scope Conditions and Work Preparations**

#### **3.1.1 Scope conditions**

- a) The Contractor shall carry out the work in accordance with the Employer's instruction.
- b) The Contractor shall submit all stand-alone reports on the work done to the Employer not later than 7 working days after completion of the work or after a period formally agreed on with written proof by both the Employer and the Contractor.
- c) The Contractor shall be responsible for the management of refurbishable items and repairs for equipment that is associated with this scope or work.
- d) The Contractor shall comply with the Employer's request to the Contractor for ensuring that an accurate description of spare parts is maintained in the Employer's stores and the Contractor shall inform the Employer of any changes.
- e) The Contractor may be requested to support the Employer's personnel by providing cross sectional drawings and part numbers for stock identification and subject to the Employer's access control procedures, assists in checking the stock holding and the Contractor shall comply with the request.
- f) The Contractor in conjunction with the OEM shall recommend to the Employer the optimal spares that should be kept at Kusile Power Station and that includes:
  - i. Spares required for repair of the plant
  - ii. Minimum number of spares to be kept for emergency
  - iii. Serviceability of spares in the stores

- g) The Contractor shall ensure that he always maintains a 24-hour standby roster.
- h) The Contractor's resources shall work on the plant during normal running conditions and when the plant is on any type of outage.

### 3.2 Continuous Improvement

- a) The Contractor shall participate in improvement programs and root cause investigations/analysis as stipulated by the Employer.
- b) The Contractor shall participate in improvement programs pertaining to plant equipment.

### 3.3 Quality and Documentation Control

- a) The Contractor shall submit QCP's which will be reviewed and overseen by the Employer and will ensure that the relevant documentation is available on site to manage the scope and related programs.
- b) The Contractor shall ensure that all measuring and test equipment is calibrated at all times & proof thereof must be readily available.
- c) The Contractor shall adhere to all 'Quality References' and 'Standards' applicable to this SOW.
- d) The contractor shall utilise the Employer's quality documentation management system and processes.

## 4. Constraints on how the Contractor provides the Services.

The *Contractor* will provide the services for repair of BOP and BMH systems during commissioning. The services duration will be for 12 months period (06 November 20203 until 30 November 2024). The detailed activities to be carried out and deliverables to be produced will be agreed between the *Employer* and *Contractor* during the course of the contract.

The *Contractor* shall at all times ensure that the service provided to undertake the *Services* have the necessary competence and availability to perform the roles and tasks to which they are assigned effectively and efficiently. Should at any time the *Employer* consider this not to

be the case then the Employer may inform the *Contractor* and request the *Contractor* to take action to address the situation.

## 5. Management meetings

Meetings of a general nature may be convened and chaired by the *Employer's Agent*.

## 6. Records and forecasting of expenses

Records and forecasting of expenses will be required on monthly bases. Hourly claimed rate should be supported by timesheets and the invoices/receipts for all claimed expenses to be reimbursed at cost. In addition, the following must be adhered to:

- The timesheets must be signed by the relevant assigned manager in the relevant project.

## 7. Invoicing and payment

The *Contractor* shall address the tax invoice to:

Eskom Holdings SOC Limited  
Kusile Power Station  
Suite 46  
Postnet  
Highveld Mall  
Emalahleni  
1035  
Attention: Khulekile Khoza  
Tel: 017 612 6431

### **ONLY ORIGINAL INVOICES WILL BE ACCEPTED**

Vat 4740101508

### **The following must be stated on the Tax Invoice:**

- Name and address of the *Contractor* and the Employer;
  - The contract number and title;
  - *Contractor's* VAT registration number;
  - The *Employer's* VAT registration number 4740101508;
  - Description of service provided for each item invoiced based on the Price List;
- Total amount invoiced excluding VAT, the VAT and the invoiced amount including VAT

## 8. Quality Requirements

### 8.1 Overview

- 1) The fundamental objective of the set of quality requirements stated within this contract is to ensure that the *Contractor* produces goods/products/services that the *Employer* are wholly satisfied with whilst ensuring that work is done right the first time. To achieve this, the *Contractor* shall ensure that three approaches are taken. These are as follows:
  - a) Ensuring that the *Contractors* Quality Management System (QMS) is set up and maintained
  - b) Quality Assurance
  - c) Quality ControlThese are broad areas each with numerous requirements.
- 2) The *Contractor* shall comply with all requirements specified in the Eskom standard, 240-10565800 "Supplier Quality Management: Specification" [1]. It is of utmost importance that this standard be complied with.

### 8.2 Quality Management System Requirements

- 1) The supplier shall submit objective evidence of a developed QMS that complies with ISO 9001 (or the latest applicable revision). The Contractor shall comply with the requirements of 240-105658000 "Supplier Quality Management: Specification". Compliance to Category 3 requirements is mandatory. The following documents (approved/signed copies) shall be submitted:
  - a) Quality management system manual or a document that defines and describes the QMS and its scope
  - b) Quality Policy
  - c) Quality Objectives
  - d) Control of documented information
  - e) Records required by ISO 9001 standard (List of Records)
  - f) Internal audit procedure
  - g) Control of nonconformity outputs
  - h) Nonconformity and Corrective action procedure
  - i) Documented information for Control of Externally Provided Processes, Products and Services.
  - j) Information for roles, responsibilities and authorities
- 2) The Quality Management System shall drive the *Contractor's* business management processes to ensure that all of the *Employers* requirements are fully met on a consistent basis.
- 3) The *Contractor* shall comply with all requirements specified in section 3.1 of the Supplier Quality Management Specification.
- 4) The *Employer* has the right to conduct formal audits on any or all parts of the *Contractor's* Quality Management System as well as any documentation, materials, or equipment associated with the work, at any time and at any project work location.
- 5) The *Employer* also has the right to carry out assessments and audits on the *Contractor's* sub-contractors at planned intervals.

- 6) In the event that the *Employer* is dissatisfied with the *Contractor's* work for any reason, the *Employer* has the right to conduct additional audits of the *Contractor*.
- 7) The *Contractor* shall address all audit findings to the satisfaction of the *Employer* within a time frame acceptable to the *Employer*.

### 8.3 Quality Assurance Requirements

- 1) The *Contractor* shall ensure that Quality Assurance is performed at all levels and phases of work carried out for the *Employer*.
- 2) The *Contractor* shall use processes to ensure that quality is built into their products/services i.e., its business processes are organized such that quality is built into the process of producing goods and rendering services.
- 3) The *Contractor* shall ensure that it can be relied on to deliver quality goods and services without the need for the *Employer* to have to inspect all the time.

### 8.4 Quality Control Requirements

- 1) Quality Control is a product-oriented set of activities for ensuring quality in products/services. These activities focus on inspection and identifying defects before these reach the *Employer*.
- 2) The *Contractor* shall ensure that Quality Control is performed at all levels and phases of work carried out for the *Employer*.
- 3) The *Contractor* shall comply with all requirements specified in section 3.4 of the Supplier Quality Management Specification [1].
- 4) The *Contractor* shall complete a Quality Control Plan (QCP) and Inspections and Test Plan (ITP) before contract award. This shall be reviewed and signed off by the *Employer* within 30 days after contract award.
- 5) The *Contractor* shall submit the following documents within 30 days after the contract date, prior to the commencement of work, for acceptance by the *Employer*:
  - a) QCPs and ITPs for review and acceptance by Eskom prior to the commencement of any work, inclusive of subcontracted work, within 30 days after contract award.
  - b) The sub- contractor QCPs and ITPs shall be submitted for review and comment by the *Contractor* and by the *Employer* within 30 days after the award of the tender. All *Contractor* and *Employer* comments shall be resolved prior to commencing work.
  - c) The QCPs and ITPs show each activity/requirement of the Works Information.
  - d) Data book index for acceptance by the *Employer*.

Note: these documents are to be compiled in line with Eskom's requirements and will have to be discussed with, and approved by the *Employer* prior to any work commencing.
- 6) The *Contractor* shall make use of the Kusile Project RFI/PA001 Process to request the *Employers* personnel to perform inspections. The *Contractor* shall ensure that all inspections have been "Passed" by their in-house quality control representative prior to requesting the *Employers* personnel to perform any inspection.
- 7) In the event of poor quality, re-work or incidents where products inspected by the *Employer* fail to meet requirements, the *Contractor* shall receive a Non-conformance (NCR) if deemed so by the *Employer*. The *Contractor* shall be liable for the *Employers* costs of re-inspection as well as be liable to pay penalties as specified in this contract.

#### 8.4.1 Inspections

- 1) The *Contractor* shall be responsible for the inspection of all the Works that is performed and the *Employer* only verifies that the Works is acceptable.
- 2) The *Contractor* conducts all inspections in accordance with the accepted QCP / ITP.
- 3) The *Contractor* provides suitably qualified personnel to conduct on-and-offsite inspections
- 4) The *Contractor* ensures that all Works are inspected and approved before the *Employer* is invited for the inspections.
- 5) The *Contractor* provides a minimum of 5 working days' notice for local inspections (onsite and offsite). The notice contains copies of the Contractor's inspection reports.
- 6) For onsite inspections, the *Contractor* shall send a Request for Inspection (RFI) reminder 4 hours prior to the inspection so that the Quality Department may mobilise to perform the inspection. This shall be done via the Communication Interface Memorandum. This is over and above the aforementioned 5 working days' notice period.
- 7) Damages as a result of the *Contractor's* failure to comply with the inspection requirements as specified in this section will be borne by the *Contractor* and no compensation event or variation order will arise out of this.

#### 8.5 Quality Plan

- 1) The *Contractor* shall submit a Quality Plan within 30 days of contract award for acceptance by the *Employer*.
- 2) The *Contractor* shall comply with all requirements specified in sections 3.2, 3.3 and 3.4 of the Supplier Quality Management Specification.
- 3) The *Contractor* shall submit a detailed contract organogram showing the quality personnel to be used in the Contract. The *Contractor* shall provide CVs of the quality management employees who will be responsible for quality on site.

#### 8.6 Quality Documentation Requirements

- 1) For all products and services, the *Contractor* shall submit the following quality documents as a minimum:
  - a) Data book Index
  - b) Method statement (describing how work will be executed)
  - c) Equipment list
  - d) Drawings
  - e) ITPs, QCPs and check sheets
  - f) Inspection notifications accompanied by their inspection report
  - g) Updated onsite, off site and offshore inspection schedules
  - h) Inspection and or factory acceptance test dates as applicable
  - i) Inspections completed / outstanding.
  - j) Inspection and test reports
  - k) Weekly and monthly contract quality progress report
  - l) Materials used
  - m) Material certificates
  - n) Data sheets

- o) Equipment list
  - p) Welding documents (if applicable) include Welding Procedure Specification (WPS), Procedure Qualification Record (PQR), welder qualifications, Welding Procedure Qualification Record (WPQR), welding consumables and all other documents required by relevant welding standards
  - q) Quality Plan (as earlier described)
  - r) Non-conformance and Defects registers and reports
- 2) The *Contractor* shall submit data books for all work for acceptance by the *Employer* if applicable. These are defined as follows:
- H1 – Fabrication
  - H2 – Construction
  - H3 - Commissioning
- 3) The *Contractor* shall submit data books in accordance with the *Employers* requirements. The *Employers* requirements vary depending on the type of component or system hence the *Contractor* shall modify the data books to meet the requirements of the *Employer*.
- 4) The *Contractor* shall submit 2 hard copies of data books and one software copy (on a DVD/CD).
- 5) Components may only be released for delivery to site once the H1 data book(s) has been accepted by the *Employer* if applicable.
- 6) Commissioning may only commence once the H2 data book(s) has been accepted by the *Employer* if applicable.
- 7) The *Contractor* shall ensure that all data book(s) have been submitted to and accepted by the *Employer* as per the *Employers* requirements and meet the time frames specified by the *Employer*.
- 8) Failure of the *Contractor* to submit data book(s) and obtain the *Employer's* approval at 100 % work completion shall prevent payment.
- 9) Failure of the *Contractor* to submit H1 data book(s) and obtain the *Employer's* approval prior to construction will prevent payment.
- 10) Failure of the *Contractor* to submit H2 data book(s) and obtain the *Employer's* approval prior to Commissioning will prevent payment.
- 11) Failure of the *Contractor* to submit H3 data book(s) and obtain the *Employer's* approval prior to takeover will prevent payment.
- 12) Failure of the *Contractor* to submit all data book(s) and obtain the *Employer's* approval will prevent take-over of the Works by the Employer.
- 13) The *Employer* has 28 days to review a data book from the time the *Contractor* transmits the data book to the document controller until feedback is received.
- 14) The *Contractor* shall specify the review status and discipline on the transmittal when transmitting data books to the Employers Doc control.

## 8.7 Contract Execution

- 1) Correspondence shall be directed to the *Employer*, and periodic quality review meetings shall be convened by *Employer* with the *Contractor*.

- 2) The mandatory quality review meetings are to be convened by the nominated project quality manager or his/her representative for the *Contractor*.
- 3) Quality Management employee's responsibilities shall include but are not limited to the following:
  - a) Implementation of the QMS on site
  - b) Administration of QA/QC systems on site
  - c) Verification of approval status of Subcontractor's QCP and procedures
  - d) On-and -offsite inspections
  - e) Co-ordination, inspection and verification of the *Employer's* intervention points
  - f) Review of *Contractor* testing and inspection documents (procedures, test results)
  - g) Weekly and monthly progress reporting on quality performance
- 4) The *Contractor* shall comply with section 5 of the Supplier Quality Management Specification.
- 5) Monthly quality performance and management reports shall be prepared by the *Contractor* during contract execution. The content of these reports shall be agreed by the *Employer* when submitted to the *Employer* on a monthly basis.

#### 8.8 Quality Reporting

- 1) The *Contractor* shall submit a monthly quality report, on the last working day of the month. The report includes but not limited to the following:
  - a) A register of NCRs and defects
  - b) Updated QCP / ITP register
  - c) QA monthly report summary
  - d) Planned and completed local and foreign inspection dates
  - e) Completed and outstanding Inspections
  - f) Audit findings report

#### 8.9 Supplier Quality Performance Monitoring Phase

- 1) During the contract execution phase, the *Contractor* shall be monitored by the *Employer* for performance on quality-related aspects. The outcomes of such monitoring will enable the *Employer* to take any appropriate actions pertaining to the *Contractor*.
- 2) The monitoring shall be carried out periodically by the *Employer* or at predetermined intervals during the execution of a contract.
- 3) The monitored key performance areas include the following:
  - a) Quality
  - b) Delivery
  - c) Design
  - d) Cost
  - e) Management system

- 4) Subsequent key performance indicators associated with these areas will include the following:
  - a) Nonconformity monitoring
  - b) Audit and assessment evaluation scoring
  - c) Management system compliance and accreditation
  - d) Achievement of delivery targets as per contractual agreements
  - e) Process improvements
  - f) Corrective and preventive action response and closure

#### 8.10 Preservation, Shipping and Transportation to be addressed

- 1) The *Contractor* is responsible for ensuring that all products are preserved in their appropriate manner as described in their specifications or in Eskom preservation, shipping and transportation procedures as applicable.
- 2) The *Contractor* shall submit the preservation, shipping and transportation procedures to the *Employer* for review and acceptance.
- 3) The *Employer* may choose to witness the packaging, loading and offloading of the products depending on their criticality, this will be indicated in the intervention points on the QCP / ITP document.
- 4) The *Contractor* shall ensure that all storage requirements for products are properly implemented to preserve the products against adverse conditions, deterioration, damages, etc. Storage and preservation procedures for the different products must be submitted to the *Employer* for review and acceptance.
- 5) The *Employer* may request to inspect the stored products at any given point during the storage period of the product.
- 6) Requirements for preservation, shipping and transportation are addressed in 240-105658000 [1].

#### 8.11 General Quality Requirements

- 1) The *Contractor* shall comply with all requirements specified in section 6 of the Supplier Quality Management Specification.
- 2) All documents shall be approved by the *Employer*. If the *Employer* is dissatisfied with a document, then it is the *Contractors* responsibility to ensure that the *Employers* requirements are met.
- 3) All planning Quality Assurance and Quality Control documents shall be submitted for approval by the *Employer* within 30 days of contract award.
- 4) The *Contractor* shall make use of qualified and experienced Quality Controllers to ensure that products/services are of a high quality prior to inspection by the *Employers* quality representative(s).
- 5) The *Contractor* shall ensure that all defects and NCRs are addressed correctly and timeously.
- 6) Defects and NCRs shall be closed within a time frame or period specified or accepted by the *Employer*.

- 7) When NCRs and Defects notifications are issued, the Contractor shall acknowledge receipt within (5) working days and include the Root cause(s), Correction(s) and Corrective action(s) and proposed implementation dates to the *Employer* as per the contract response period.
- 8) The corrective actions will include the implementation and completion dates. Progress on all NCRs and Defect notifications issued to the *Contractor* must be reported to the *Employer* on weekly basis.
- 9) The Contractor's quality manager keeps a register of all NCRs and Defect notifications issued.
- 10) Deviations from the Contract are treated as a non-conformance.
- 11) Records of NCRs and Defect notifications are kept and form part of the data book records.
- 12) During the contract execution phase, the *Contractor* will be monitored by the *Employer* for performance on quality related aspects. The monitoring will be in the form of audits and assessments. The *Employers* quality department will be involved in every assessment to ensure that all NCRs and Defects raised are closed or the necessary penalties are implemented as stipulated contractually.
- 13) The Contractor is accountable for the quality of the output and liable for any failures.
- 14) The interventions points include all witness, hold, verification, surveillances and review points required by the Employer. The Contractor's failure to allow the intervention points will constitute a non-conformance. The *Employer* has the right to approve or reject intervention points and may add or remove these points as desired.
- 15) The Contractor shall only be paid subject to meeting and *Employer* approval of all quality requirements and three copies of the data books accepted by the *Employer*.
- 16) The *Contractor* shall provide all information, material and records required to comply with the Eskom Quality Management System and such further information, material and records as may be requested by the *Employer* from time to time.
- 17) The *Contractor* shall ensure that no inspections are missed and all schedules are observed.
- 18) The *Contractor* shall comply with all relevant Eskom governance documents (codes, standards etc.) whether specified in this contract or not.
- 19) The *Contractor* shall make use of an Authorised Certification Authority such as SABS to certify *Contractor* QMS if applicable.
- 20) The *Contractor* shall make use of Recognised International Accreditations such as SANAS which accredits the Authorised Certification Authority if applicable.
- 21) The quality requirements shall be met by the contractor and all sub-contractors.

## 9. The Parties use of material provided by the Contractor

### ***Employer's purpose for the material***

Clause 70.1 states that the *Employer* has the right to use the material provided by the *Contractor* for the purpose stated in the Scope. Such material will amongst other things be used by the *Employer* for strategic planning.

## 10. Safety and Health Management

The *Employer* expects the *Contractor* to engage in safety culture initiatives in line with the Eskom Life Saving Rules, Safety and Quality Requirements Standard.

The *Contractor* and all sub-consultants shall comply with the requirements listed in Employer's standard document, 'Eskom Safety, Health, Environment and Quality Policy 32-727', for all the Employer Health and Safety requirements.

The *Employer* places emphasis on the provision of a comprehensive Health and Safety file per the attached checklist for this contract. The Project Health and Safety file shall comply with the requirements of the OSH Act.

The *Contractor* shall develop and submit a Health and Safety file for this contract. This shall describe the project health and safety requirement and shall also describe the requirement for continued compliance to the requirement of the OSH Act.

## 11. Working on the Employer's property

### ***Employer's entry and security control, permits, and site regulations***

- The Contractor shall comply to the Employer's entry and security control, permits, and site regulations
- All employees working on the Eskom Power Station Site must complete induction before work can start.
- Personal Protective Equipment (PPE) must be worn at all-times except in the PPE free zones.
- All employees must comply to Eskom Life Saving Rules:
  - Open, isolate, test, earth, bond and/or insulate before touch.
  - Hook up on heights
  - Buckle Up
  - Permit to work
  - Be sober.

### **People restrictions, hours of work, conduct and records**

The *Contractor* shall keep records of their people working on the *Employer's* property, including those of his Sub-consultants. The *Employer's Agent* shall have access to these records at any time. These records may be needed when assessing the monthly payment.

## 12. Things provided by the Employer

The *Employer* shall provide work space for the *Contractor* to use during performance of the *services* at any of the Eskom offices.

## 13. Acceptance

This document has been seen and accepted by:

Name	Designation
Mandla Nhlengethwa	Delivery Manager Bulk Handling Material
Cobus Prinsloo	Manager Dust Handling Plant Units 4-6
Tumisho Railo	Project Engineering Manager
Fanie Foster (Acting)	Delivery Manager BOP
Chris Baclay	Senior Manager Projects Oversight/Delivery

## 14. Revisions

Date	Rev.	Compiler	Remarks
