

Technical Criteria:

SCOPE OF WORK: Asphalt Surfacing construction for all the Construction Sites at Eskom Rotek Industries across the country.

TECHNICAL SUITABLE IF THE TOTAL SCORE IS EQUAL TO OR GREATER THAN 80%

KPA – Area of Evaluation	Weight (%)	KPI – Criteria Evaluation Indicator	Criteria Evaluation Requirements	Source	%				Score	TOTAL RATING
						Kick in	Average	Ceiling		
Scheduling and Programming	20	Schedule of works detailing turn around time for delivery of commodity.	A program of work to illustrate the duration to complete surfacing of 7km road and a QCP with method statement and ITPs	Signed program showing milestones and deliverable dates and signed Method Statement describing how the scope will be executed.	20	Above 5 days with or without method statement = 0%	3 to 5 days with method statement = 10%	2 days with method statement = 20%		
Company capabilities		Work experience (similar scope)	2 similar projects which were successfully completed that involves base priming, tack coat and construction of a bituminous surfacing.	Copies of completion certificates/ contract documents/ purchase orders/testimonial letters with a project number or contract number which can be followed up on	30	0 project =0%	1 project =20%	2 projects =40%		

	40	Company organogram	Organogram showing company structure from top management down to the relevant resources that will be involved with the SOW.	Signed company organogram	10	No signed organogram =0%		Signed organogram =10%		
					60%					
Technical Personnel	40	Site Agent	Minimum qualification: A Civil Engineering qualification to be attached and a CV with at least 1 year experience in related work.	Copy of qualifications and a CV indicating the number of years' experience , job outputs and industry worked in.	15	No attached CV or incomplete CV =0%		Relevant qualification + minimum 1 year experience or more = 25%		
		Quality Controller	Minimum qualification: A Certificate in Quality of Construction materials qualification record to be attached and a CV with at least 3 years' experience in related work.	Copy of qualifications and a CV indicating the number of years' experience, job outputs and industry worked in.	15	No attached CV or incomplete CV =0%		Relevant qualification + minimum 1 year experience or more = 25%		
		Site Supervisor	Minimum qualifications: Supervision related training	Copy of qualifications and a CV indicating the number of years'		No attached CV or incomplete CV =0%		Relevant qualification + minimum 1 year		

			plus safety related training (HIRA or OSH Act or legal liability) and at least 5 years' experience in related work. The Supervisor to be in a possession of a valid Legal Liability and First Aid certified by the MHS Act	experience, job outputs and industry worked in	10			experience or more = 25%
