

SIC24023CIDB (HOAC VAR 52802) - ENQUIRY

Bidder's Enquiry:

With regards to the above-mentioned request for proposal – Emmanuel NVT would like to know what type of screening machine is needed for the maintenance testing of railway track.

If it is in line with NDT services, then Emmanuel NVT would like to tender for this work, if it is possible?

Response:

It is for Ballast cleaning of the railway track.

It is not in line with Non-Destructive Testing.

Bidder's Enquiry:

Request for tender extension by 4 weeks

Response:

Extension cannot be granted due to the urgency of the required service.
