GENERAL REQUIREMENTS

The works, as described, requires the services of professional service providers in the categories of Environmental Assessment Practitioners (EAP) – Maintenance Management Plans. This assignment will be in terms of a Framework Agreement entered into and a Service Level Agreement will be signed with the service provider for a period of 36 months.

The client will be Casidra, the implementing entity for the Western Cape Department of Agriculture for all environmental authorization requirements on behalf of Water User Associations/Landowners. Environmental adoption can take anything from 3 to 4 months. In order to expedite this process for the farmers to be able to continue with farming activities, this time frame needs to be shortened. Since there are standard times that are taken into account when the application is made, this period can greatly be reduce by reducing the time needed for procurement of EAP services through this Framework Agreement.

This framework agreement project scope will consist of drafting of a river maintenance and management plan
