Re-TENDER FOR THE PROPOSAL OF 132/11KV ESKOM LEACHES BAY SUBSTATION 40MVA
CAPACITY UPGRADE

T1 TENDERING PROCEDURES

T1.1 Introduction

T1.2 Tender Notice and Invitation to Tender

T1.3 Tender Data

T1.4 Standard Conditions of Tender

T1.1 INTRODUCTION

The proposal to develop an Industrial Development Zone (IDZ) in East London has been adopted as a result of the Department of Trade and Industry's policy to provide incentives for the development of IDZ's at locations that have good access to harbours and / or airports. The East London Industrial Development Zone (SOC) Ltd (ELIDZ) was formed for the purpose of establishing the East London Industrial Development Zone.

The ELIDZ is made up of representatives of Buffalo City Municipality, Provincial Government, the Eastern Cape Development Corporation, business, labour and parastatals. The current electricity supply to Zone 1 is from the Leaches Bay 132/11kV 2 x 20MVA substation. The Eskom Leaches Bay substation is supplied by 2 x 132kV lines with a transfer capacity of 80MVA. The Leaches Bay substation has fourteen 11kV Feeders currently installed.

The current ELIDZ electrical network is divided into Four supply Zones with limited interconnection between them. Each Zone has a dedicated switching station from which all its MV/LV substations are connected. Zone 1A has Two switching stations due to its high electricity demand and available land still to be developed. The substation feeds Two switching stations within the development Zone and has Two Feeders which feeds residential areas outside of the Development Zone, within Buffalo City Metropolitan Municipality.

The existing Eskom Leaches Bay substation and the downstream ELIDZs, MV network; has inefficient spare capacity for future load growth to provide the bulk supply for the new tenants and the existing tenants expansion at East London Development Zone. The Industrial Development Zone aims to obtain an additional power supply through creating a redundant power connection and upgrading of Eskom Leaches Bay substation by upgrading the existing substation to include a Third transformer bay with a 40MVA capacity. This will assist in achieving an end state 40MVA firm power supply capacity to the ELIDZ.

The upgrading of the substation to accommodate the additional capacity includes upgrade of ancillary equipment; namely the AC/DC board, Vamp protection panel, Feeder protection on switchboard, transformer protection and metering panels. The scope of works for this package will form part of the Customer Application no.3 Scope of Works. All upgrades will be completed as per the Eskom self-build policy, where the developer shall design, procure and pre-commission the primary and secondary scope of works.

T1.2 TENDER NOTICE AND INVITATION TO TENDER

The ELIDZ is the duly appointed operator of the East London Industrial Development Zone, a multi-million-rand infrastructure and bulk services development initiated by the Department of Trade and Industry (DTIC) that is part of the government's micro-economic reform strategy. The zone is already operational and currently houses a number of manufacturers that supply products for the local and international markets.

The East London Industrial Development Zone SOC Ltd (ELIDZ) invites tenders for experienced service providers for integrating the supply, install and commissioning of the Eskom Leaches Bay 132/11kV substation upgrade located at the ELIDZ within the West Bank area of the Buffalo City Metropolitan Municipality.

Tender Reference No.	Tender Description / Name	Closing Date / Time
ES/24/ELEC/LEACHESBAY/ 40MVA/04	Re-TENDER FOR THE PROPOSAL OF 132/11kV ESKOM LEACHES BAY SUBSTATION 40MVA CAPACITY UPGRADE	18September 2025 @ 12:00 noon

It is estimated that tenderers must have a CIDB contractor grading of 7EP or higher.

The Services include the following summarized scope of work:

The Scope of work

The works comprises of the supply, delivery, installation, testing and commissioning of all Primary and secondary plant equipment for the construction for an additional 132/11kV 40MVA transformer bay, 11kV Switchboard upgrade (2x transfer feeders, 1x bus section and 1x incomer feeder) and related ancillaries. All equipment for this project to be supplied to Eskom specifications and standards. All Installation to be in accordance with the applicable South African codes, local codes and ordinances, Eskom specific equipment Sapp no. apply for ordering.

The contractor should go through the issued BOQ, drawings and Eskom specifications to get a deep understanding of the detailed scope of work and materials to be supplied as enlisted on **APPENDIX C**.

Resource Management

1. The activities each member to be involved in may be indicated in the project programme.
2. The estimated time the member will be involved in the relevant activities must also be indicated on the project programme.

BRIEFING MEETING

Note: A Compulsory Briefing with representatives of the Employer will take place Virtually via Microsoft Teams on 31 July 2025 starting at 12h00. Participants will be required to use the following details to join Meeting ID: 377 014 999 719 9 and Passcode: Fw9mF2Jt

BID CONDITIONS:

Preferences are offered to tenderers who meet the functionality criteria.

Only tenderers who meeting the following conditions are eligible to submit tenders;

- Tenderers are required to submit a Valid SARS Tax Clearance Certificate with their tender, or the relevant SARS pin code which will allow the ELIDZ to confirm the tenderers tax status on-line
- Tenderer must be registered on Central Supplier Database (CSD) from National Treasury and MAAA number must be provided
- Tenderers should submit a Valid original or certified B-BBEE certification. Companies with annual turnover less than R10 million to submit an accountant or SARS letter confirming turnover.
- Tenderers to provide certified copy of Company Registration Certificate
- The tenderer or any of its directors is not listed on the Register of Tender Defaulters in terms of the Prevention and Combating of Corrupt Activities Act of 2004 as a person prohibited from doing business with the public sector.
- A registered office within the Buffalo City municipal boundaries will be given preference.
- The tenderer must submit a bank rating equal to and or better than a C. (Note letter from Bank to exclude tendered amount).
- Tenderers to provide Letter of Good Standing from Compensation Commissioner
- Tenderers must submit technical and financial proposals in two separate envelopes clearly marked "Envelope A -Technical Proposal "and "Envelope B – Financial Proposal". Then the financial proposal will only be opened should the technical proposal be found to be acceptable.
- Non- signed "Form of Offer" the financial proposal in "Envelope B" submission will result in the disqualification of the tender.
- Inclusion of Price Offer and/ or any other price related details in "Envelope A -Technical Proposal "will result in the disqualification of the tender.
- The successful Tenderer will be required to have sufficient and competent staff available to commence full time operations in accordance with the contract with effect from the Commencement Date, failing which the contract will be awarded to the next most preferred Tender.
- Registration with the CIDB in the category 7EP/higher is compulsory for companies wishing to submit tenders.
- All returnable documents and schedules as listed in T2.1 OF Volume 2 of 2: List of Returnable Documents.
- Provide **Eskom approved vendor number** for Eskom Holdings SOC Ltd (Eastern Cape) confirming the service provider is an approved Eskom Contractor Failure to confirm this will result in disqualification.
- Submit confirmation of compliance with **ORHVS level/outcome 3** for site agent with Eskom Holdings SOC Ltd (Eastern Cape). Failure to confirm this will result in disqualification.
- Submit signed declaration of 90% Local content production, for electrical equipment.
- The successful tenderer is encouraged to sub-contract a minimum of 30% of the value of the contract labor component to designated SMME from within BCMM area. SMME profile should meet 51% Black ownership. Database for selection provided by ELIDZ.
- Final award decision may be subjected to Eskom's final comments and/or recommendation.

POPIA

By submitting this tender, the bidder hereby consents to providing the ELIDZ with personal information as provided in the Protection of Personal Information Act 2013 (POPIA).

The ELIDZ undertakes to:

1. It will take all reasonable steps and precautions to preserve the integrity of bidders Personal Information and to prevent any corruption or loss of such data.
2. It will not do any of the following: copy, compile, collect, collate, process, store, transfer, alter, delete, interfere with or in any other manner use the bidders Personal Information as described in the Act for any purpose other than with the express prior written consent of the bidder.

3. Utilize the personal information provided for the purposes of assessment of the tender submitted by the bidder and contracting with the successful bidder as the case may be.
4. It will immediately inform the bidder in writing if any Personal Information relating to it has been compromised. The ELIDZ undertakes to immediately inform the bidder in writing as to how it will manage such compromise and what steps will be taken to rectify the situation.
5. Due and reasonable care of the bidder's personal information and not to share the said personal information with any third party unless you have authorized such disclosure, or the release of such information is required by law.
6. At all times strictly comply with its obligations under Data Protection Legislation.
7. Subject to legislative, regulatory, contractual and other legitimate conditions, the respective bidder has certain rights in terms of how their information is processed. The bidder can request access to information or guidance on how to lodge a complaint from or direct a request to exercise afforded rights to the ELIDZ Information Officer, or his/her deputy/ies, or the Information Regulator.
8. It will maintain guidelines, policies or procedures for the retention or destruction of data and will retain it only as long as necessary for the identified purposes or to meet legal requirements or policies.
9. It shall implement and maintain, at its cost and expense, appropriate, reasonable technical and organizational measures to prevent loss of damage to or unauthorized destruction of Personal Information and unlawful access to or Processing of Personal Information. The ELIDZ shall not incur any liability for costs, loss or damage arising from the use of inaccurate or incomplete data provided by or on behalf of the bidder.

EVALUATION

The evaluation will be guided by the ELIDZ procurement policy. Points will be awarded on the basis of Price and Specific Goals.

Score breakdown will be either:

- ☐ 80 or 90 Points for Price
- ☐ 20 or 10 Points for Specific Goals

All tenders not providing compulsory responsive documentation and with functionality scoring less than 70%, will not be considered for the next stage of tender evaluation

TENDER DOCUMENT & SUBMISSION

The Tender Document will be available for download on 25 July 2025 at www.elidz.co.za under opportunities & Dispatch website under opportunities.

It will be the responsibility of the respondent to ensure that the RFT documents reaches the ELIDZ. All tender documents are to be submitted online at <https://tenderportal.elidz.co.za> before the closing date and time . Only PDF documents must be uploaded with a maximum size limit of 30 MB per file.

Hard copy document submission will not be considered.

TENDER ENQUIRIES

Queries relating to this tender may be addressed to:

Contact person: A. Mzantsi

Contact No: 043 702 8200

Email: anathi@elidz.co.za

All tender/bids documents are to be submitted online at <https://tenderportal.elidz.co.za> before the

closing date and time. Only PDF documents must be uploaded with a maximum size limit of 30 MB per file.”

The closing time for receipt of tenders is 12:00 hrs. on 18 September 2025 Online. Physical, Telegraphic, telephonic, telex, facsimile, e-mail and late tenders will not be accepted.

Questions relating to the Tender will be accepted until 13h00 pm on 07 August 2025 with responses by 08 August 2025

	The period of six months may only be reduced should all tenders received be rejected as non-responsive.										
F.2.1	The following tenderers who are registered with the CIDB, or are capable of being registered prior to submissions, are eligible to submit tenders: a) Contractors who have a contractor grading designation equal to or higher than a contractor grading designation determined in accordance with the sum tendered for a 7EP class of construction work. Joint Ventures (JV) are eligible to submit tenders providing that: <ul style="list-style-type: none"> every member of the joint venture is a registered contractor in terms of these Regulations and the lead partner has a contractor grading designation of not lower than one level below the required grading designation in the class of construction works under consideration and possesses the required recognition status; and the category of registration of the joint venture, determined in accordance with subregulation (6) is equal to or higher than the category of registration specified in accordance with subregulation (3)." A lead partner has a contractor grading designation equal or higher than 6EP class of construction work; and The combined contractor grading designation calculated in accordance with the Construction Industry Development Regulations is equal to or higher than a contractor grading designation determined in accordance with the sum tendered for a 7EP class of construction work; and A Joint Venture agreement is submitted together with the tender indicating shareholding percentage All parties to a Joint Venture should meet bid condition requirements to be acceptable. In Bids where consortia/joint venture/ sub-contractors are involved; each tendering party must submit a separate proof of TCS/PIN/CSD number. Where there is no designated sector, ELIDZ may decide to include a specific bidding condition that only locally produced goods or services with a stipulated minimum threshold for local production and content, will be considered, on condition that such prescript and threshold(s) are in accordance with the specific standards determined by the DTI in consultation with the National Treasury.										

	In the event that the successful Bidder has been awarded the contract with value above R 5 000 000.00 for the same goods/services on a consecutive basis, the successful bidder will be required to submit a Supplier development plan for SMMEs to be agreed with the ELIDZ.
F.2.7	The arrangements for a compulsory site clarification meeting are: Date : 31 July 2025 Starting time : 12h00
F2.12.1	All alternative tender offers shall be referred to in Section T2.2.1 – Alterations to Tender.
F2.12.2	Should the Tenderer wish to offer alternative designs and/or construction materials, he shall include with this Tender's full details thereof, including a complete bill of quantities, formal design calculations, and full details of all alternative components proposed to be included in the Works. Refer also to the Contract Data in this regard. Failure to properly comply with this clause, thereby preventing the Employer and/or the Employer's Agent to properly assess the full implications of the alternative tender, is likely to disqualify the alternative offered from further consideration. No submission by the Contractor after award for additional payment or time for completion of Works relating to the alternative offer will be considered. The tendered rates submitted shall be considered to reflect the full and final cost implications of the alternative offer.
F2.13.2	The tender document: "It will be the responsibility of the respondent to ensure that the tender/bid reaches the ELIDZ. All tender/bids documents are to be submitted online at https://tenderportal.elidz.co.za before the closing date and time. Only PDF documents must be uploaded with a maximum size limit of 30 MB per file."
F2.13.3	Only the original tender submission is required.
F2.13.4	Only authorised signatories may sign the original and all copies of the tender offer where required in terms of F2.13.3.
F2.13.5	It will be the responsibility of the respondent to ensure that the RFP reaches the
F2.13.6	A two-envelope procedure will be followed.
F2.13.8	Accept that the Employer will not assume any responsibility due to an incorrect e-mail address being used by the tenderer or late or non-delivery of e-mail due to load shedding, network disruptions or server downtime. In submitting this tender the tenderer accepts that should there be any unforeseen circumstances with submission of tenders the Employer reserves the right to request that all tenders received held secure and unopened until such time that all matters have been resolved. The Employer reserves the right to not accept a late tender submission should they be of the opinion that there was no material reason related to the electronic method of submission that prohibited submission within the tender period.
F2.13.9	Tenderers are required to submit all returnable documents to be completed as per
F2.14	The ELIDZ will disqualify any submission which is not suitably endorsed, or which is not comprehensively completed.
F2.15.1	Submissions that are not received on or before the closing time will, in terms of the ELIDZ procurement policy, not be considered.
F.2.16	The tender offer validity period is 120 days.
F2.16.1	If the tender validity expires on a Saturday, Sunday or public holiday, the tender shall remain valid and open for acceptance until the closure of business on the following working day.
F2.16.5	Accept that should the Tenderer unilaterally withdraw his tender during this period, the Employer shall, without prejudice to any other rights he may have, be entitled to accept any less favourable tender for the Works from those received, or to call for fresh tenders, or to otherwise arrange for the execution of the Works, and the Tenderer shall pay on demand any additional expense incurred by the

	Employer on account of the adoption of the said courses, as well as either the difference in cost between the tender withdrawn (as corrected in terms of Clause 3.9 of the Conditions of Tender) and any less favourable tender accepted by the Employer, or the difference between the tender withdrawn (as corrected) and the cost of execution of the Works by the Employer as well as any other amounts the Employer may have to pay to have the Works completed.
	Accept that if requested, the Tenderer shall within seven (7) days of the date upon which he is requested to do so, submit a full report from his banker as to his financial standing. The Employer may, in its discretion, and subject to the provisions of Section 4(1)(d) of the State Tender Board Act 86 of 1968, condone any failure to comply with the foregoing condition. Accept that the Employer or his agent, reserves the right to approach the Tenderer's banker or guarantor(s) as indicated in the tender document, or the bankers of each of the individual members of any joint venture that is constituted for purposes of this Contract, with a view to ascertaining whether the required guarantee will be furnished, and for purposes of ascertaining the financial strength of the Tenderer or of the individual member of such venture.
F2.19	Access to premises will not be required.
F2.20	Add the following to the Clause: Accept that the Employer or his Agent, reserves the right to approach the Tenderer's banker or guarantor(s) as indicated in the tender document, or the bankers of the individual members of any joint venture that is constituted for purposes of this Contract, with a view to ascertain whether the required guarantee will be furnished, and for purposes of ascertaining the financial strength of the Tenderer or of the individual member of such joint venture. Only guarantees that are submitted in the format provided will be accepted.
F2.23	<p>The tenderer is required to submit with his tender:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Tenderers are required to submit a Valid SARS Tax Clearance Certificate with their tender, or the relevant SARS pin code which will allow the ELIDZ to confirm the tenderers tax status on-line <input type="checkbox"/> Tenderer is required to provide a CSD registration certificate at closing of tender. Proof of registration on CSD – MAAA number. <input type="checkbox"/> Tenderers should submit a valid original or certified B-BBEE certification. Companies with annual turnover less than R10 million to submit an accountant or SARS letter confirming turnover. <input type="checkbox"/> Tenderers to provide certified copy of Company Registration Certificate <input type="checkbox"/> Tenderers to provide Letter of Good Standing from Compensation Commissioner <input type="checkbox"/> All returnable documents and schedules as listed in 1.2. <input type="checkbox"/> The tenderer must submit a bank rating equal to and or better than a C. (Note letter from Bank to exclude tendered amount). <input type="checkbox"/> Tenderers must submit technical and financial proposals in two separate envelopes clearly marked "Envelope A -Technical Proposal "and "Envelope B – Financial Proposal". Then the financial proposal will only be opened should the technical proposal be found to be acceptable. <input type="checkbox"/> Non- signed "Form of Offer" the financial proposal in "Envelope B" submission will result in the disqualification of the tender. <input type="checkbox"/> Inclusion of Price Offer and/ or any other price related details in "Envelope A -Technical Proposal "will result in the disqualification of the tender. <input type="checkbox"/> Proof of Registration with the CIDB in the category 7EP or higher. <input type="checkbox"/> Provide Eskom approved vendor number for Eskom Holdings SOC Ltd (Eastern Cape) confirming the service provider is an approved Eskom Contractor Failure to confirm this will result in disqualification. <input type="checkbox"/> Submit confirmation of compliance with ORHVS level/outcome 3 for the site agent with Eskom Holdings SOC Ltd (Eastern Cape). Failure to confirm this will result in disqualification. <input type="checkbox"/> All returnable documents and schedules as outlined in this tender including the functionality evaluation criteria No.1 to No.5 supporting documentation. <input type="checkbox"/> Submit signed declaration of 90% Local content production, for electrical equipment. <input type="checkbox"/> The successful tenderer are encourage to sub-contract a minimum of 30% of the value of the contract labor component to designated SMME from within BCMM area. SMME profile should meet 51% Black ownership. Database for selection provided by ELIDZ.

	<input type="checkbox"/> The preferred bidder will be awarding the tender subject that their vendor status with Eskom is in good standing.																								
F3.4	Tender submissions will be opened in public immediately after the stipulated closing time and date.																								
F3.11	<p>Tender evaluation will be carried out using the 80/20 or 90/10 preference point system, where:</p> <ul style="list-style-type: none"> ▪ A maximum of 80 points are allocated for financial offer. ▪ A maximum of 20 points are allocated for specific goals. <p style="text-align: center;">OR</p> <ul style="list-style-type: none"> ▪ A maximum of 90 points are allocated for financial offer. ▪ A maximum of 10 points are allocated for specific goals. <p>The above-mentioned evaluation will be subject to offers being responsive and passing the functionality criteria prescribed in the attached schedule.</p> <p>Table: Specific Goals Points Conversion</p> <table> <tr> <th>Estimated Rand Value inclusive of Vat</th><th>Specific Goals and Point allocation</th></tr> <tr> <td rowspan="6">Above R1 000 000 up to R50 000 000</td><td>80 points for price</td></tr> <tr> <td>10 points - 51% and above Black owned suppliers</td></tr> <tr> <td>5 points - 25% up to 50% Black owned suppliers</td></tr> <tr> <td>0 points below 25% Black owned suppliers</td></tr> <tr> <td>5 points for Eastern Cape Based suppliers</td></tr> <tr> <td>0 points outside Eastern Cape</td></tr> <tr> <td></td><td>1 point for 51% and above Youth owned suppliers</td></tr> <tr> <td></td><td>1 point for 51% and above Women owned suppliers.</td></tr> <tr> <td></td><td>3 points for SMME's (EME or QSE)</td></tr> </table> <p style="text-align: center;">OR</p> <table> <tr> <th>Estimated Rand Value inclusive of Vat</th><th>Specific Goals and Points Allocation</th></tr> <tr> <td rowspan="4">Above R50 000 000</td><td>90 points for price</td></tr> <tr> <td>3 points - 51% and above Black owned suppliers</td></tr> <tr> <td>1 points - 25% up to 50% Black owned suppliers</td></tr> <tr> <td>0 points below 25% Black owned suppliers</td></tr> <tr> <td></td><td>2 points for Eastern Cape Based</td></tr> </table>	Estimated Rand Value inclusive of Vat	Specific Goals and Point allocation	Above R1 000 000 up to R50 000 000	80 points for price	10 points - 51% and above Black owned suppliers	5 points - 25% up to 50% Black owned suppliers	0 points below 25% Black owned suppliers	5 points for Eastern Cape Based suppliers	0 points outside Eastern Cape		1 point for 51% and above Youth owned suppliers		1 point for 51% and above Women owned suppliers.		3 points for SMME's (EME or QSE)	Estimated Rand Value inclusive of Vat	Specific Goals and Points Allocation	Above R50 000 000	90 points for price	3 points - 51% and above Black owned suppliers	1 points - 25% up to 50% Black owned suppliers	0 points below 25% Black owned suppliers		2 points for Eastern Cape Based

<u>Quality/Functionality Evaluation</u>			
<p>The score achieved for functionality will be assessed using the following criteria, each of which will be scored individually up to the maximum number of points indicated (failure to submit the relevant information will result in zero scores for that section):</p>			
DETAILED BREAKDOWN OF FUNCTIONALITY POINTS			
Details		SCORE	MAXIMUM SCORE
Criteria 1. Applicant's Expertise and Resources			50
1.1 Project Manager			20

Experience	Submit a Curriculum vitae on the following:		15
	The Project Manager has in excess of 10 years' relevant work experience.	15	
	The Project Manager has between 8- and 10-years' relevant work experience.	5	
	The Project Manager has between 6- and 8-years' relevant work experience.	3	
Qualification	Submit certified certificates on the following:		5
	Pr. CM Professional Registration Certificate (SACPCMP)	5	
	Project Management Qualification or PMP Certification.	3	
	Diploma or equivalent in Electronics/ Mechanical Engineering/Software Engineering/Electrical Engineering	2	
1.2 Engineer			20
Experience	Submit a Curriculum vitae on the following:		15
	The Engineer has an excess. of 15 years' relevant work experience	15	
	The Engineer has between 10- and 15- years work experience 2	5	
	The Engineer has less than 10 years' relevant work experience	3	
Qualification	Submit certified certificates on the following:		5
	Degree (B-TECH, B-ENG or BSC) or equivalent in Electrical Engineering or above with professional registration (Pr. Eng/Pr Tech Eng).	5	
	Degree (B-TECH, B-ENG or BSC) or equivalent in Electrical Engineering only.	3	
1.3 Technician			10

Experience	<p>Submit a Curriculum vitae on the following:</p> <p>The Technician or Electrician has an excess. of 15 years' relevant work experience</p> <p>The Technician or Electrician has between 10- and 15-years work experience 2.</p> <p>The Technician or Electrician has less than 10 years' relevant work experience</p>	<p>5</p> <p>3</p> <p>2</p>	5
Qualification	<p>Submit certified certificates on the following:</p> <p>Diploma or National Technical Diploma equivalent in Electrical Engineering.</p> <p>Trade tested only</p>	<p>5</p> <p>3</p>	5
Criteria 2. Relevant Company Experience			15
2.1. Relevant Experience			
<p>Attach a proof of similar size(132kV/11kV 40MVA) HV Substation construction projects completed for Eskom.</p> <p>A maximum average of 5 points can be scored for each confirmed similar project in progress or carried out in the past 5 years (Form P06 to be completed for each project with an accompanied reference letter to score a maximum 15 points)</p>		15	15
Criteria 3. Methodology Statement (Maximum 10 Pages)			30
3.1. Methodology Statement indicating how the project will be conducted. Company required to provide detailed method statements, which demonstrate the manner in which work is carried out typically on an installation contract of this nature (Transformers, Cables, Switchgear, Control panels, AC/DC supply and Building Extension) and should cover a minimum of four core activities.			
3.1.1 132kV Transformer Bay installation complete with installation, wiring, testing and commission.		10	10
3.1.2 11 kV or higher Metal Clad Switchgear with VCB CB installation, retrofitting and testing and 11 kV or higher MV Cable works (pulling, laying, jointing, terminating, testing, etc.)		6	6

3.1.3 Eskom approved scheme Protection implementation installation, wiring and testing Battery tripping unit with Lead Acid batteries, installation, wiring and testing.	6	6
3.1.4 High Voltage Substation building civil, protection of existing services excavations, oil holding dam, barricading/hording, construction method.	8	8
Criteria 4. Health and Safety		5
4.1 Attach OHS Officer CV and proof of relevant SHE construction training.	5	5
	Total Points Scored	Maximum Points
TOTAL EVALUATION SCORE FOR FUNCTIONALITY		100
PERCENTAGE POINTS SCORED	%	100%
Tender offers scoring less than 70 points out of 100 points for quality/functionality will be regarded as non-responsive and not considered further.		
<u>Financial Offer Evaluation</u> The score achieved for financial offer will be determined using formula 2 (option 1) as follows: $\text{Points awarded} = 80/90 \left[1 - \frac{P - P_m}{P_m} \right]$ Where P = the comparative offer of the tender offer under consideration P _m = the comparative offer of the lowest responsive tender		
<u>Preference Evaluation Criteria</u> A maximum of twenty or ten (20)/ (10) points will be awarded to a tenderer for achieving Specific goal objectives. Specific goals points shall be computed using a relevant scorecard as guided by the company's annual turnover. This is in accordance with the new Codes of Good Practice. Specific goals evaluation shall be done based only on the information submitted in the ELIDZ Procurement Handbook. No points will be awarded for achieving Specific goals objectives if the total percentage scored for BBBEE is less than 30%. All tenders with functionality less than 70% of the total functional requirements will not be considered for the next stage of tender evaluation. ELIDZ reserves the right to negotiate if preferred bidder's proposal exceeds ELIDZ project estimate. The tender will be awarded to the bid with the highest number of points. A tender may be awarded to a bidder that did not score the highest number of points if reasonable and justifiable grounds exist. Any contract offered by the ELIDZ will be based on the correctness of information submitted by the service providers. Any misrepresentation of facts by a service provider may lead to disqualification. Should such misrepresentation be uncovered after the commencement of the contracted work, the ELIDZ reserves the right to terminate the contract and recover all payments made to that service provider and any costs that may have been incurred in the process. ELIDZ reserves the right to have the tenderer's Black Economic Empowerment Credentials verified by an independent agency. (Procurement Handbook – Annexure: 1 must be fully completed and supplementary information may be completed by service providers with a turnover of less than R10m and be accompanied by sworn affidavit turnover is less than R10m). In the event that the successful Bidder has been awarded the contract with value above R 5 000 000.00 for the same goods/services on a consecutive basis, the successful Bidder will be required to submit a Supplier development plan for SMMEs to be agreed with the ELIDZ.		
F3.13.1	Tender offers will only be considered if:	

	<p>a) the tenderer or any of its directors is not listed on the Register of Tender Defaulters in terms of the Prevention and Combating of Corrupt Activities Act of 2004 as a person prohibited from doing business with the public sector; and</p> <p>b) the tenderer has:</p> <ul style="list-style-type: none"> i. abused the Employer's Supply Chain Management System; or ii. failed to perform on any previous contract and has been given a written notice to this effect. iii. is not under restrictions, or has principals who are under restrictions, preventing participating in the ELIDZ procurement, iv. c) has the legal capacity to enter into the contract, v. d) is not insolvent, in receivership, under Business Rescue as provided for in chapter 6 of the Companies Act, 2008, bankrupt or being wound up, has his affairs administered by a court or a judicial officer, has suspended his business activities, or is subject to legal proceedings in respect of any of the foregoing, vi. e) complies with the legal requirements, if any, stated in the tender data, and i. f) is able, in the opinion of the ELIDZ, to perform the contract free of conflicts of interest. <p>c) All returnable documents and schedules as listed in 1.2.1 have been completed and submitted with this document.</p> <p>d) the tenderer has in his or her possession an original valid Tax Clearance Certificate issued by the South African Revenue Services</p> <p>e) the tenderer in possession of a valid or certified BBBEE certificate</p> <p>f) the tenderer or any of its directors is not listed on the Register of Tender Defaulters in terms of the Prevention and Combating of Corrupt Activities Act of 2004 as a person prohibited from doing business with the public sector.</p> <p>g) The tenderer must submit a bank rating equal to and or better than a C. (Note</p> <p>h) letter from Bank to exclude tendered amount).</p> <p>i) Inclusion of Price Offer and/ or any other price related details in "Envelope A -Technical Proposal" will result in the disqualification of the tender.</p> <p>j) the tenderer has not:</p> <ul style="list-style-type: none"> i. abused the Employer's Supply Chain Management System; or ii. failed to perform on any previous contract and has been given a written notice to this effect. <p>k) Tenderers to provide a valid Letter of Good Standing from Compensation Commissioner</p> <p>l) Proof of Company Registration is submitted with this tender.</p> <p>m) Proof of Registration with the CIDB in the category 7EP or higher is submitted with this tender.</p> <p>n) All returnable documents and schedules as listed in T2.1 OF Volume 2 of 2: List of Returnables, have been completed and submitted with this document.</p> <p>o) The tenderer has registered on CSD. Proof of registration on CSD – MAAA number is required.</p> <p>p) The tender has provided an Eskom approved vendor number for Eskom Holdings SOC Ltd (Eastern Cape) confirming the service provider is an approved Eskom Contractor Failure to confirm this will result in disqualification.</p> <p>q) Submitted confirmation of compliance with ORHVS level/outcome 3 for the site agent with Eskom Holdings SOC Ltd (Eastern Cape). Failure to confirm this will result in disqualification.</p> <p>r) Completed all returnable documents and schedules as outlined in this tender including the functionality evaluation criteria No.1 to No.5 supporting documentation.</p> <p>s) Submit signed declaration of 90% Local content production, for electrical equipment.</p> <p>t) The successful tenderer are encouraged to sub-contract a minimum of 30% of the value of the contract to designated SMME from within BCMM area. SMME profile should meet 51% Black ownership. Database for selection provided by ELIDZ.</p> <p>u) Final award decision may be subjected to Eskom's final comments and/or recommendation</p> <p>v) Tenderers must submit technical and financial proposals in two separate envelopes clearly marked "Envelope A -Technical Proposal" and "Envelope B – Financial Proposal". Then the financial proposal will only be opened should the technical proposal be found to be acceptable.</p> <p>w) Non- signed "Form of Offer" the financial proposal in "Envelope B" submission will result in the disqualification of the tender.</p>
F3.13	<p>Replace the first sentence in the sub-clause with:</p> <p>"The Employer has the right not to accept any tender or to not accept the lowest priced tender and may accept the tender offer that in the opinion of the Employer presents the lowest risk and/or provides the best value to the Employer."</p>
F.3.18	<p>The number of paper copies of the signed contract to be provided by the employer is 1 (one).</p>

T1.4 Standard Conditions of Tender (CIDB July 2015) (See attachments)

T2 RETURNABLE SCHEDULES

The Tenderer must complete the following returnable documents in all respect and provide all information as required. Failure to do so WILL result in the Tenderer being scored zero for the applicable category

T2.1 LIST OF RETURNABLE DOCUMENTS

PREFERENCE POINTS CLAIM FORM IN TERMS OF THE PREFERENTIAL PROCUREMENT REGULATIONS 2022 (SBD 6.1)

This preference form must form part of all tenders invited. It contains general information and serves as a claim form for preference points for specific goals.

NB: BEFORE COMPLETING THIS FORM, TENDERERS MUST STUDY THE GENERAL CONDITIONS, DEFINITIONS AND DIRECTIVES APPLICABLE IN RESPECT OF THE TENDER AND PREFERENTIAL PROCUREMENT REGULATIONS, 2022

1. GENERAL CONDITIONS

1.1 The following preference point systems are applicable to invitations to tender:

- the 80/20 system for requirements with a Rand value of up to R50 000 000 (all applicable taxes included); and
- the 90/10 system for requirements with a Rand value above R50 000 000 (all applicable taxes included).

1.2 **To be completed by the organ of state**

- a) The applicable preference point system for this tender is the 80/20 or 90/10 preference point system.

1.3 Points for this tender (even in the case of a tender for income-generating contracts) shall be awarded for:

- (a) Price; and
(b) Specific Goals.

1.4 **To be completed by the organ of state:**

The maximum points for this tender are allocated as follows:

	POINTS
PRICE	80 or 90
SPECIFIC GOALS	20 or 10
Total points for Price and SPECIFIC GOALS	100

1.5 Failure on the part of a tenderer to submit proof or documentation required in terms of this tender to claim points for specific goals with the tender, will be interpreted to mean that preference points for specific goals are not claimed.

- 1.6 The organ of state reserves the right to require of a tenderer, either before a tender is adjudicated or at any time subsequently, to substantiate any claim in regard to preferences, in any manner required by the organ of state.

2. DEFINITIONS

- (a) **“tender”**
means a written offer in the form determined by an organ of state in response to an invitation to provide goods or services through price quotations, competitive tendering process or any other method envisaged in legislation;
- (b) **“price”** means an amount of money tendered for goods or services, and includes all applicable taxes less all unconditional discounts;
- (c) **“rand value”** means the total estimated value of a contract in Rand, calculated at the time of bid invitation, and includes all applicable taxes;
- (d) **“tender for income-generating contracts”** means a written offer in the form determined by an organ of state in response to an invitation for the origination of income-generating contracts through any method envisaged in legislation that will result in a legal agreement between the organ of state and a third party that produces revenue for the organ of state, and includes, but is not limited to, leasing and disposal of assets and concession contracts, excluding direct sales and disposal of assets through public auctions; and
- (e) **“the Act”** means the Preferential Procurement Policy Framework Act, 2000 (Act No. 5 of 2000).

3. FORMULAE FOR PROCUREMENT OF GOODS AND SERVICES

3.1. POINTS AWARDED FOR PRICE

3.1.1 THE 80/20 OR 90/10 PREFERENCE POINT SYSTEMS

A maximum of 80 or 90 points is allocated for price on the following basis:

$$\begin{array}{ccc}
 \mathbf{80/20} & \mathbf{or} & \mathbf{90/10} \\
 \\
 \mathbf{Ps = 80 \left(1 - \frac{Pt - P_{min}}{P_{min}} \right)} & \mathbf{or} & \mathbf{Ps = 90 \left(1 - \frac{Pt - P_{min}}{P_{min}} \right)}
 \end{array}$$

Where

- Ps = Points scored for price of tender under consideration
 Pt = Price of tender under consideration
 Pmin = Price of lowest acceptable tender

3.2. FORMULAE FOR DISPOSAL OR LEASING OF STATE ASSETS AND INCOME GENERATING PROCUREMENT

3.2.1. POINTS AWARDED FOR PRICE

A maximum of 80 or 90 points is allocated for price on the following basis:

$$\begin{array}{ccc} \mathbf{80/20} & \mathbf{or} & \mathbf{90/10} \\ \\ \mathbf{Ps = 80 \left(1 + \frac{Pt - P_{max}}{P_{max}} \right)} & \mathbf{or} & \mathbf{Ps = 90 \left(1 + \frac{Pt - P_{max}}{P_{max}} \right)} \end{array}$$

Where

- Ps = Points scored for price of tender under consideration
Pt = Price of tender under consideration
Pmax = Price of highest acceptable tender

4. POINTS AWARDED FOR SPECIFIC GOALS

4.1. In terms of Regulation 4(2); 5(2); 6(2) and 7(2) of the Preferential Procurement Regulations, preference points must be awarded for specific goals stated in the tender. For the purposes of this tender the tenderer will be allocated points based on the goals stated in table 1 below as may be supported by proof/ documentation stated in the conditions of this tender:

4.2. In cases where organs of state intend to use Regulation 3(2) of the Regulations, which states that, if it is unclear whether the 80/20 or 90/10 preference point system applies, an organ of state must, in the tender documents, stipulate in the case of—

- (a) an invitation for tender for income-generating contracts, that either the 80/20 or 90/10 preference point system will apply and that the highest acceptable tender will be used to determine the applicable preference point system; or
- (b) any other invitation for tender, that either the 80/20 or 90/10 preference point system will apply and that the lowest acceptable tender will be used to determine the applicable preference point system,

then the organ of state must indicate the points allocated for specific goals for both the 90/10 and 80/20 preference point system.

Table 1: Specific goals for the tender and points claimed are indicated per the table below.

(Note to organs of state: Where either the 90/10 or 80/20 preference point system is applicable, corresponding points must also be indicated as such.)

Note to tenderers: The tenderer must indicate how they claim points for each preference point system.)

The specific goals allocated points in terms of this tender	Number of points allocated	Number of points claimed
Black owned supplier	10 points (51-100%) 5 points (25-50%)	
Eastern Cape Based supplier	5 points	
51% and above Youth owned supplier	1 point	
51% and above Women owned supplier	1 point	
SMME's (EME or QSE)	3 points	

The specific goals allocated points in terms of this tender	Number of points allocated	Number of points claimed
Black owned supplier	10 points (51-100%) 5 points (25-50%)	
Eastern Cape Based supplier	5 points	
51% and above Youth owned supplier	1 point	
51% and above Women owned supplier	1 point	
SMME's (EME or QSE)	3 points	

DECLARATION WITH REGARD TO COMPANY/FIRM

4.3. Name _____ of
company/firm.....

4.4. Company registration number:
.....

4.5. TYPE OF COMPANY/ FIRM

- ☐ Partnership/Joint Venture / Consortium
- ☐ One-person business/sole propriety
- ☐ Close corporation
- ☐ Public Company
- ☐ Personal Liability Company
- ☐ (Pty) Limited
- ☐ Non-Profit Company
- ☐ State Owned Company

[TICK APPLICABLE BOX]

4.6. I, the undersigned, who is duly authorised to do so on behalf of the company/firm, certify that the points claimed, based on the specific goals as advised in the tender, qualifies the company/ firm for the preference(s) shown and I acknowledge that:

- i) The information furnished is true and correct;
- ii) The preference points claimed are in accordance with the General Conditions as indicated in paragraph 1 of this form;
- iii) In the event of a contract being awarded as a result of points claimed as shown in paragraphs 1.4 and 4.2, the contractor may be required to furnish documentary proof to the satisfaction of the organ of state that the claims are correct;
- iv) If the specific goals have been claimed or obtained on a fraudulent basis or any of the conditions of contract have not been fulfilled, the organ of state may, in addition to any other remedy it may have –
 - (a) disqualify the person from the tendering process;
 - (b) recover costs, losses or damages it has incurred or suffered as a result of that person's conduct;
 - (c) cancel the contract and claim any damages which it has suffered as a result of having to make less favourable arrangements due to such cancellation;
 - (d) recommend that the tenderer or contractor, its shareholders and directors, or only the shareholders and directors who acted on a fraudulent basis, be restricted from obtaining business from any organ of state for a period not exceeding 10 years, after the *Audi alteram partem* (hear the other side) rule has been applied; and
 - (e) forward the matter for criminal prosecution, if deemed

necessary.

DECLARATION OF BIDDER'S PAST SUPPLY CHAIN MANAGEMENT PRACTICES (SBD 8)

- 1 This Standard Bidding Document must form part of all bids invited.
- 2 It serves as a declaration to be used by institutions in ensuring that when goods and services are being procured, all reasonable steps are taken to combat the abuse of the supply chain management system.
- 3 The bid of any bidder may be disregarded if that bidder, or any of its directors have-
 - a. abused the institution's supply chain management system;
 - b. committed fraud or any other improper conduct in relation to such system; or
 - c. failed to perform on any previous contract.
- 4 **In order to give effect to the above, the following questionnaire must be completed and submitted with the bid.**

Item	Question	Yes	No
4.1	<p>Is the bidder or any of its directors listed on the National Treasury's Database of Restricted Suppliers as companies or persons prohibited from doing business with the public sector?</p> <p>(Companies or persons who are listed on this Database were informed in writing of this restriction by the Accounting Officer/Authority of the institution that imposed the restriction after the <i>Audi alteram partem</i> rule was applied).</p> <p>The Database of Restricted Suppliers now resides on the National Treasury's website(www.treasury.gov.za) and can be accessed by clicking on its link at the bottom of the home page.</p>	Yes <input type="checkbox"/>	No <input type="checkbox"/>

4.1.1	If so, furnish particulars:		
4.2	Is the bidder or any of its directors listed on the Register for Tender Defaulters in terms of section 29 of the Prevention and Combating of Corrupt Activities Act (No 12 of 2004)? The Register for Tender Defaulters can be accessed on the National Treasury's website (www.treasury.gov.za) by clicking on its link at the bottom of the home page.	Yes <input type="checkbox"/>	No <input type="checkbox"/>
4.2.1	If so, furnish particulars:		
4.3	Was the bidder or any of its directors convicted by a court of law (including a court outside of the Republic of South Africa) for fraud or corruption during the past five years?	Yes <input type="checkbox"/>	No <input type="checkbox"/>
4.3.1	If so, furnish particulars:		
4.4	Was any contract between the bidder and any organ of state terminated during the past five years on account of failure to perform on or comply with the contract?	Yes <input type="checkbox"/>	No <input type="checkbox"/>
4.4.1	If so, furnish particulars:

CERTIFICATE OF INDEPENDENT BID DETERMINATION (SBD 9)

I, the undersigned, in submitting the accompanying bid:

(Bid Number and Description)

in response to the invitation for the bid made by:

(Name of Institution)

do hereby make the following statements that I certify to be true and complete in every respect:

I certify, on behalf

of: _____ that:

(Name of Bidder)

1. I have read and I understand the contents of this Certificate;
2. I understand that the accompanying bid will be disqualified if this Certificate is found not to be true and complete in every respect;
3. I am authorized by the bidder to sign this Certificate, and to submit the accompanying bid, on behalf of the bidder;
4. Each person whose signature appears on the accompanying bid has been authorized by the bidder to determine the terms of, and to sign the bid, on behalf of the bidder;
5. For the purposes of this Certificate and the accompanying bid, I understand that the word "competitor" shall include any individual or organization, other than the bidder, whether or not affiliated with the bidder, who:

(a) has been requested to submit a bid in response to this bid invitation;

- (b) could potentially submit a bid in response to this bid invitation, based on their qualifications, abilities or experience; and
 - (c) provides the same goods and services as the bidder and/or is in the same line of business as the bidder
- 6. The bidder has arrived at the accompanying bid independently from, and without consultation, communication, agreement or arrangement with any competitor. However communication between partners in a joint venture or consortium³ will not be construed as collusive bidding.
- 7. In particular, without limiting the generality of paragraphs 6 above, there has been no consultation, communication, agreement or arrangement with any competitor regarding:
 - (a) prices;
 - (b) geographical area where product or service will be rendered (market allocation)
 - (c) methods, factors or formulas used to calculate prices;
 - (d) the intention or decision to submit or not to submit, a bid;
 - (e) the submission of a bid which does not meet the specifications and conditions of the bid; or
 - (f) bidding with the intention not to win the bid.
- 8. In addition, there have been no consultations, communications, agreements or arrangements with any competitor regarding the quality, quantity, specifications and conditions or delivery particulars of the products or services to which this bid invitation relates.
- 9. The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.

³ Joint venture or Consortium means an association of persons for the purpose of combining their expertise, property, capital, efforts, skill and knowledge in an activity for the execution of a contract.

10. I am aware that, in addition and without prejudice to any other remedy provided to combat any restrictive practices related to bids and contracts, bids that are suspicious will be reported to the Competition Commission for investigation and possible imposition of administrative penalties in terms of section 59 of the Competition Act No 89 of 1998 and or may be reported to the National Prosecuting Authority (NPA) for criminal investigation and or may be restricted from conducting business with the public sector for a period not exceeding ten (10) years in terms of the Prevention and Combating of Corrupt Activities Act No 12 of 2004 or any other applicable legislation.

**TENDER FOR THE PROPOSAL OF 132/11kV ESKOM
LEACHES BAY SUBSTATION 40MVA CAPACITY
UPGRADE**

CRITERIA 1 – INSERT/ATTACH UNDER THIS PAGE

CV'S OF PROPOSED KEY STAFF

Tenderer to provide either of the following:

- **CV of Project Manager and Relevant Qualifications and Certifications**
- **CV of Engineer and Relevant Qualifications and Certifications**
- **CV of Technician and Relevant Qualifications and Certifications**

CRITERIA 2– INSERT/ATTACH UNDER THIS PAGE

PROOF OF COMPANY RELEVANT EXPERIENCE

2.1 Tenderer's to attach completion certificates only for points.

CRITERIA 3– INSERT/ATTACH UNDER THIS PAGE

3.1 METHODOLOGY STATEMENT

- 3.1.1 132kV Transformer Bay installation complete with installation, wiring, testing and commission.**
- 3.1.2 11 kV or higher Metal Clad Switchgear with VCB CB installation, retrofitting and testing and 11 kV or higher MV Cable works (pulling, laying, jointing, terminating, testing, etc.)**
- 3.1.3 Eskom approved scheme Protection implementation installation, wiring, and testing Battery tripping unit with Lead Acid batteries, installation, wiring and testing.**
- 3.1.4 High Voltage Substation building civil, protection of existing services excavations, oil holding dam, barricading/hording, construction method.**

CRITERIA 4: Health and Safety

4.1 Attach OHS Officer CV and proof of relevant SHE training.

FORM P01: CONTRACTOR GENERAL INFORMATION

FORM P01: CONTRACTOR GENERAL INFORMATION

Name of tendering entity:

Section 1 : Contact Details:

Address:	
Tel No:	()
Fax No:	()
E-mail address:	

Section 2 : Legal entity: (Mark with an X)

Sole proprietor	
Partnership	
Close corporation	
Company (Pty) Ltd	
Joint Venture	

(In the case of a Joint Venture, provide details on joint venture members:)

Joint Venture member	Type of entity (as defined above)

FORM P01: CONTRACTOR GENERAL INFORMATION (Cont.)

Section 3 : General Particulars

Income Tax reference number:

(In the case of a joint venture, provide for all joint venture members.)

VAT registration number:

(In the case of a joint venture, provide for all joint venture members.)

District Municipality in which the enterprise is registered:

(In the case of a joint venture, provide for all joint venture members.)

Registration number at Department of Labour:

(In the case of a joint venture, provide for all joint venture members.)

Company or close corporation registration number:

(In the case of a joint venture, provide for all joint venture members.)

CIDB registration number:

(In the case of a joint venture, provide for all joint venture members.)

For joint ventures the following must be attached:

- Written power of attorney for authorised signatory
- Pro-forma of the joint venture agreement.
- The major partner to satisfy at least 40 percent of the turnover amount given in P04, and each other partner at least 25 percent of the amount.

FORM P01: CONTRACTOR GENERAL INFORMATION (Cont.)**Section 4 : Record in the service of the state**

Indicate by marking the relevant boxes with a cross, if any sole proprietor, partner in a partnership or director, manager, principal shareholder or stakeholder in a company or close corporation is currently or has been within the last 12 months in the service of any of the following:

- a member of any municipal council
- a member of any provincial legislature
- a member of the National Assembly or the National Council of Province
- a member of the board of directors of any municipal entity
- an official of any municipality or municipal entity
- an employee of any provincial department, national or provincial public entity or constitutional institution within the meaning of the Public Finance Management Act, 1999 (Act 1 of 1999)
- a member of an accounting authority of any national or provincial public entity
- an employee of Parliament or a provincial legislature

If any of the above boxes are marked, disclose the following:

Name of sole proprietor, partner, director, manager, principal shareholder of stakeholder	Name of institution, public office, board or organ of state and position held	Status of service (tick appropriate column)	
		Current	Within last 12 months

FORM P01: CONTRACTOR GENERAL INFORMATION (Cont.)**Section 5 : Record of spouses, children and parents in the service of the state**

Indicate by marking the relevant boxes with a cross, if any spouse, child or parent of a sole proprietor, partner in a partnership or director, manager, principal shareholder or stakeholder in a company or close corporation is currently or has been within the last 12 months in the service of any of the following

- a member of any municipal council
- a member of any provincial legislature
- a member of the National Assembly or the National Council of Province
- a member of the board of directors of any municipal entity
- an official of any municipality or municipal entity
- an employee of any provincial department, national or provincial public entity or constitutional institution within the meaning of the Public Finance Management Act, 1999 (Act 1 of 1999)
- a member of an accounting authority of any national or provincial public entity
- an employee of Parliament or a provincial legislature

If any of the above boxes are marked, disclose the following:

Name of spouse, child or parent	Name of institution, public office, board or organ of state and position held	Status of service (tick appropriate column)	
		Current	Within last 12 months

FORM P01: CONTRACTOR GENERAL INFORMATION (Cont.)

The undersigned, who warrants that he / she is duly authorised to do so on behalf on the enterprise:

- i) authorises the Employer to obtain a tax clearance certificate from the South African Revenue Services that my / our tax matters are in order;
- ii) confirms that neither the name of the enterprise or the name of any partner, manager, director or other person, who wholly or partly exercises, or may exercise, control over the enterprise appears on the Register of Tender Defaulters established in terms of the Prevention and Combating of Corrupt Activities Act of 2004;
- iii) confirms that no partner, member, director or other person, who wholly or partly exercises, or may exercise, control over the enterprise, has within the last five years been convicted of fraud or corruption;
- iv) confirms that I / we are not associated, linked or involved with any other tendering entities submitting tender offers and have no other relationship with any of the tenderers or those responsible for compiling the scope of work that could cause or be interpreted as a conflict of interest; and
- v) confirms that the contents of this questionnaire are within my personal knowledge and are to the best of my belief both true and correct.

Project title:	TENDER FOR THE PROPOSAL OF 132/11KV ESKOM LEACHES BAY SUBSTATION UPGRADE
Contract No:	ES/24/ELEC/LEACHESBAY/ 40MVA/04

	PART 1: DATA PROVIDED BY THE EMPLOYER
	CONDITIONS OF CONTRACT
	<p>The General Conditions of Contract for Construction Works (2015) [hereinafter referred to as GCC 2015], published by the South African Institution of Civil Engineer's Agenting, is applicable to this Contract.</p> <p>Where the SERVICE PROVIDER has incurred any liability to the CLIENT, whether arising from or under this Agreement or otherwise howsoever arising, the CLIENT may, without notice to the SERVICE PROVIDER set-off the amount of such liability against any liability of the CLIENT to the SERVICE PROVIDER arising from or under this Agreement, whether either such liability is liquidated or unliquidated, present, or future, accrued or contingent, unless otherwise agreed to in writing by the CLIENT.</p>
	CONTRACT SPECIFIC DATA
	<p>In terms of clause 1.1.1.8 of the General Conditions of Contract for Construction Works, Third Edition (2015), the following contract specific data, referring to the General Conditions of Contract for Construction Works, Third Edition (2015) are applicable to this Contract:</p> <p>The Contract Data consists of two parts. Part 1 contains information provided by the Employer, while Part 2 contains information to be provided by the Contractor.</p>

CLAUSES	Compulsory Data
1.1.1.3	"Certificate of Completion" means the certificate issued by the Employer's Agent stating the date on which completion of the Works was achieved. Certificates of Completion will not be issued for portions or phases of the Works.
1.1.1.13	The Defects Liability Period for the Works shall be 730 calendar days.
1.1.1.14	<p>This clause shall apply mutatis mutandis to any portion or phase of the Works that may be described in the Scope of Works or in the Contract Data, or agreed subsequently between the Contractor and the Employer, and committed to writing.</p> <p>The time for achieving Practical Completion, including the 28 days allowance for finalisation of documentation in terms of Clause 5.3.2 and Clause 5.3.3, is 576 days (Days Includes Long lead time of 7 months to purchase materials and strictly 12 months construction).</p>
1.1.14	The name of the "Employer" is East London Industrial Development Zone SOC Ltd.
1.2.2	<p>The address of the Employer is</p> <p>Physical Address:</p> <p>Lower Chester Road, Sunnyridge</p>

	<p>Buffalo City (East London)</p> <p>5201</p> <p>Postal Address:</p> <p>P.O. Box 5458</p> <p>Greenfields</p> <p>5208</p> <p>Telephone: (043) 702 8200</p>
1.1.15	The name of the Employer is: East London Industrial Development Zone SOC Ltd – represented by Bigen Africa Services (Pty) Ltd
1.1.1.16	<p>The address of the Employer's Agent is</p> <p>Physical Address:</p> <p>Allan Cormack Street</p> <p>The Innovation Hub</p> <p>Pretoria</p> <p>0087</p> <p>Postal Address:</p> <p>PO Box 29</p> <p>The Innovation Hub</p> <p>Pretoria, 0087</p> <p>Telephone: (012) 842 8700</p> <p>Fax: (012) 843 9000/1</p>
1.1.1.26	The pricing strategy is Fixed price rate but re-measurable
1.1.1.35	'Construction Work Permit' means a statutory permit as defined in relevant legislation, and where required for the Works, to be provided to the Contractor by the Employer before commencement of the Works.
1.2.1	<p>1.2.1.3 Sent by facsimile, electronic or any like communication irrespective of it being during office hours or otherwise.</p> <p>1.2.1.4 Posted to the Contractor's address and delivered by the postal authorities.</p> <p>1.2.1.5 Delivered by a courier service or messenger and signed for by the recipient or his representative.</p>

2.4.1	<p>The documents forming the Contract are to be taken as mutually explanatory of one another. For the purposes of interpretation, the priority of the documents shall be in accordance with the following sequence, listed from highest to lowest priority:</p> <ul style="list-style-type: none"> a) Form of Offer and Acceptance b) Contract Data c) General Conditions of Contract d) Drawings e) Variations and Additional Clauses to Particular Specifications and Standard Specifications f) Particular Specifications g) Standard Specifications h) Bill of Quantities i) any other documents forming part of the Contract <p>If an ambiguity or discrepancy between the documents is found, the Employer's Agent shall provide the necessary clarification or instruction.</p>
3.2.3	<p>The Employer's Agent is, in terms of his appointment by the Employer for the design and administration of the Works included in the Contract, required to obtain the specific approval of the Employer for the execution of the following duties:</p> <p>3.2.3.1 The issuing of an order to suspend the progress of the Works, the extra cost resulting from which order is to be borne by the Employer in terms of Clause 5.11 or the effect of which is liable to give rise to a claim by the Contractor for an extension of time under Clause 5.12 of these conditions.</p> <p>3.2.3.2 The issuing of an instruction in terms of Clause 6.3, the estimated effect of which will be to increase the Contract Price by an amount exceeding R100 000,</p> <p>3.2.3.3 The valuation of all variation orders in terms of Clause 6.4,</p> <p>3.2.3.4 The adjustment of the sum(s) tendered for General Items in terms of Clause 6.11.</p>
3.2.4	<p>The Employer's Health and Safety Agent, appointed in terms of the Construction Regulations promulgated under the Occupational Health and Safety Act, is authorised to act as his representative relating to the responsibilities imposed by the Occupational Health and Safety Act on the Employer. Such an agent shall be responsible to the Employer's Agent in terms of these Conditions of Contract.</p>
4.1.2	<p>The Contractor shall provide the following to the Employer's Agent for retention by the Employer or his assignee in respect of all works designed by the Contractor:</p> <p>4.1.2.1 A Certificate of Stability of the Works signed by a registered Professional Engineer confirming that all such works have been designed in accordance with the appropriate codes of practice.</p> <p>4.1.2.2 Proof of registration and of adequate and current professional indemnity insurance cover held by the designer(s).</p> <p>4.1.2.3 Design calculations should the Employer's Agent request a copy thereof.</p>

	<p>4.1.2.4 Engineering drawings and workshop details (both signed by the relevant professional engineer), in order to allow the Employer's Agent to compare the design with the specified requirements and to record any comments he may have with respect thereto.</p> <p>4.1.2.5 "As-Built" drawings in.dgn (Microstation) electronic format after completion of the Works.</p> <p>The Contractor shall be responsible for the design of the Temporary Works.</p>
4.3.3	<p>The Contractor shall comply with the Occupational Health and Safety Specification prepared by the Employer in terms of the Construction Regulations, 2014 promulgated in terms of Section 43 of the Occupational Health and Safety Act (Act No. 85 of 1993).</p> <p>Without limiting the Contractor's obligations in terms of the Contract, the Contractor shall before commencement of the Works or any part thereof, be in the possession of an approved Health and Safety Plan.</p> <p>The Contractor shall submit an approved Health and Safety Plan to the Employer's Agent within 14 days from the Commencement Date.</p>
4.3.4	<p>Contractor's liability as mandatory</p> <p>Notwithstanding any actions which the Employer may take, the Contractor accepts sole liability for due compliance with the relevant duties, obligations, prohibitions, arrangements and procedures imposed by the Occupational Health and Safety Act, 1993 (Act 85 of 1993), and all its regulations, including the Construction Regulations, 2014, for which he is liable as mandatory. By entering into this Contract it shall be deemed that the parties have agreed in writing to the above provisions in terms of Section 37 (2) of the Act.</p>
4.3.5	<p>Contractor to notify Employer</p> <p>The Employer retains an interest in all inquiries conducted under this Contract in terms of Section 31 and/or 32 of the Occupational Health and Safety Act, 1993 (Act 85 of 1993) and its Regulations following any incident involving the Contractor and/or Sub-Contractor and/or their employees. The Contractor shall notify the Employer in writing of all investigations, complaints or criminal charges which may arise pursuant to work performed under this Contract in terms of the Occupational Health and Safety Act, 1993 (Act 85 of 1993) and Regulations.</p>
4.3.6	<p>Contractor's Designer</p> <p>The Contractor and his designer shall accept full responsibility and liability to comply with the Occupational Health and Safety Act, 1993 (Act 85 of 1993) and the Construction Regulations, 2014 for the design of the Temporary Works and those part of the Permanent Works which the Contractor is responsible to design in terms of the Contract.</p>
4.13	<p>"As-Built Information"</p> <p>The Contractor shall submit to the Employer's Agent complete as-built data in accordance with Clause C3.5.1.11 under Part C3.5 of the Contract for all work completed. Failure by the Contractor to submit the as-built data shall be just cause for the Employer to withhold any further payment certificates and the Practical Completion Certificate.</p>

	The work completed shall mean all work as per the Scope of Works including any additional works issued in terms of the Contract. The as-built data shall be submitted in the format as prescribed in Clause C3.5.1.11 under Part C3.5 of this Contract."
5.8.1	The special non-working days are statutory public holidays.
5.8.1	The year-end break will be as stipulated by South African Federation of Civil Employer's Agenting Contractors (SAFCEC).
Appendix 3	The time to deliver the Deed of Guarantee is 21 days. The liability of the Guarantee shall be R4 000 000.00 of the Tender Sum.
1.3.5	The Employer will become the owner of the information, documents, advice, recommendations, and reports collected, furnished and/or compiled by the Contractor during the course of, and for the purposes of executing this Contract, all of which will be handed over to the Employer on request, but in any event on the termination and/or cancellation of this Contract for whatever reason. The Contractor relinquishes its retention or any other rights to which it may be entitled.
1.3.6	The copyright of all information, documents, advice, recommendations and reports compiled by the Contractor during the course of and for the purposes of finalising the Works will vest in the Employer, must be regarded as confidential and may not be reproduced or distributed or made available to any person outside the Employer's service, or to any institution in any way, and may not be published either during the currency of this contract or after termination thereof without the prior written consent of the Employer. The Employer shall have the right to use such material for any other purpose without the approval of, information or payment to the Contractor.

1.3.7	The copyright of all electronic aids, software programmes etc. prepared or developed in terms of the Contract shall vest in the Employer, who shall have the right to use such material for any other purpose without the approval of, information or payment to the Contractor.
1.3.8	In case of the Contractor providing documents, electronic aids, software programmes or like material to the Employer, the development of which has not been at the expense of the Employer, copyright shall not vest in the Employer. The Contractor shall be required to indicate to which documents, electronic aids, software programmes or like material this provision applies.
4.6.1	The Contractor hereby indemnifies the Employer against any action, claim, damages or legal cost that may be instituted against the Employer on the grounds of an alleged infringement of any copyright or any other intellectual property right in connection with the Works outlined in this Contract.
5.3.1	The documentation required before commencement with Works Execution are: <ul style="list-style-type: none"> • Environmental and Health and Safety Plan (Refer to Clause 4.3.3) • Initial programme (Refer to Clause 5.6) • A detailed cashflow forecast (Refer to Clause 5.6.2.6) • Security (Refer to Clause 6.2) • Insurance (Refer to Clause 8.6)
5.3.2	The time to submit the documentation required (Refer to Clause 5.3.1) before commencement with Works execution is 14 days.
5.3.3	Replace both periods of “7 days” in Clause 5.3.3 with “14 days”.
5.3.4	“Notwithstanding anything stipulated to the contrary in these Conditions, the Contractor shall not be entitled to any claim or extension of time arising from any delay in obtaining a Construction Works Permit which has been duly applied for, unless such delay exceeds 84 consecutive days.”
5.4.1	Replace the word “On the Commencement date” with the words “Within 14 days of the Contractor submitting to the Employer’s Agent an acceptable health and safety plan required in terms of the Occupational Health and Safety Act, 1993 (Act 85 of 1993)”
5.4.2	The access and possession of Site shall not be exclusive to the Contractor but as set out in the Scope of Works and/or Site Information.
5.6.1	In this regard the Contractor shall have regard for the phases and sub-phases (if applicable) for the Works, which shall also be the order in which the Permanent Works shall be constructed, unless otherwise agreed between the parties and committed to

	<p>writing. If phased construction is applicable, the phases and sub-phases will be described in the Scope of Works and/or will be indicated on the Phasing Plan which forms part of the Drawings.</p> <p>The Contractor shall deliver his Programme of work within 14 days from the Commencement Date.</p>
5.7.1	<p>Delete the last paragraph of the clause and replace with the following:</p> <p>No instruction by the Employer's Agent to the Contractor to improve his rate of progress in this regard will qualify for additional compensation, unless the instruction explicitly states that the Contractor is entitled to additional compensation and cites the amount of such compensation or the basis upon which it is to be determined.</p>
5.9.1	<p>"On the date that the Contractor is given access to and possession of the site, the Employer's Agent shall deliver to the Contractor three (3) copies, at no cost to the Contractor, of the drawings and any instructions required for the commencement of the Works. The cost of any additional copies of such drawings and/or instructions, as may be required by the Contractor, will be for the account of Contractor.</p>
7.6.4	<p>Replace the words "within a reasonable time" with the words "within the period stipulated by the Employer's Agent in such order..."</p>

7.9.1	<p>Add the following at the end of this clause:</p> <p>Such losses or damages may be recovered from the Contractor by deducting the same from any amounts still due under this Contract or under any other contract presently or hereafter existing between the Employer and the Contractor and for this purpose all these contracts shall be considered one indivisible whole.</p>
8.6.1.1	The Contractor shall only be required to insure the Works in so far as this comprises new construction. He shall however be required to insure whatever plant, vehicles, tools, equipment and materials are utilised in the execution of his maintenance activities.
8.6.1.1.2	The Employer will not supply any materials.
8.6.1.1.3	The insurance is not required to cover professional fees.
8.6.1.3	<p>Public Liability Insurance shall have a limit of Indemnity of not less than R10 million for any one event. The Public Liability Insurance cover must be extended to include:</p> <ul style="list-style-type: none"> ▪ Spread of fire ▪ Damage to underground services ▪ Surrounding property
6.5.1	The percentage allowance to cover overhead charges on labour and supervision is 33%, and on material cost the percentage allowance is 10%.
5.7.2	<p>Add the following to the end of the second paragraph:</p> <p>“Which costs may be deducted from any payments due to the Contractor in terms of the Contract or any other Contract, within the two-year period, existing between the Employer and the Contractor and for this purpose all these shall be considered on indivisible whole”</p>
5.8.1	<p>The non-working days are Sundays.</p> <p>Special non-working days shall be all South African statutory public holidays and the year-end break (which commences on 16 December and ends on 05 January).</p>
5.12.5	<p>Extension of time due to Abnormal Rainfall</p> <p>Extension of time for Practical Completion of the Contract in the event of abnormal rainfall shall only be allowed in accordance with the following formula. No additional extension of Time for Practical Completion caused by abnormal climatic conditions will be allowed, irrespective of the cause thereof or the effect it may have on the execution of the Works:</p> $V = (Nw - Nn) + (Rw - Rn)/20$ <p>Where:</p> <p>V = Extension of time in calendar days for the calendar month under consideration</p> <p>Nw = Actual number of days during the calendar month under consideration on which a rainfall of 10mm and more is recorded</p>

R_w = Actual total rainfall in mm recorded during the calendar month under consideration

N_n = Average number of days, derived from rainfall records, on which a rainfall of 10mm and more was recorded during the relevant calendar month as per the data tabulated hereinafter

R_n = Average total rainfall in mm for the relevant calendar month, derived from rainfall records, as tabulated hereinafter

Where the extension of time due to abnormal rainfall has to be calculated for portion of a calendar month, pro rata values shall be used. Should V be negative for any particular month, and should its absolute value exceed the corresponding value of N_n , then V shall be taken as being equal to minus N_n . The total extension of time to be granted shall be the algebraic sum of all the monthly extensions, provided that if this total is negative then the time for completion shall not be reduced due to subnormal rainfall.

Rainfall records for the period of construction shall be taken on Site. The Contractor shall provide and install all the necessary equipment for accurately measuring the rainfall. The Contractor shall also provide, erect and maintain a security fence plus gate, padlock and keys at each measuring station, all at his own cost. The Employer's Agent or his Representative shall take and record the daily rainfall readings. The Contractor shall be permitted to attend these readings, in the company of the Employer's Agent's Representative. Access to the measuring gauge(s) shall at all times be under the Employer's Agent's control.

The rainfall records applicable to this Contract are those recorded at Weather Station East London Weather Station. The following values of N_n and R_n shall apply:

Month	R_n (mm)	N_n (days)
January	87	9
February	87	9
March	96	10
April	89	8
May	37	5
June	36	4
July	40	4
August	50	5
September	62	6
October	83	9
November	88	9
December	88	10
Total		

5.5.1

The contract period for the Works is **Two years**.

	<p>(Note: The contract term will be a maximum period of 2 years, subject to the condition that should the contract value (awarded amount) be achieved prior to the lapse of the 2-year period that the contract will terminate, and the appointed service provider will have no expectation or right to continuation or extension of the contract).</p>
5.13	<p>5.13.1 If the Contractor fails by the Due Completion Date to complete the Works, or any specific portion thereof that is identified in the Scope of Works to the extent which entitles him in terms of Clause 5.14.2 to receive a Certificate of Practical Completion for the Works, then the Contractor shall be liable to the Employer for the sum(s) stated below as (a) penalty(ies) for every day which shall elapse between the Due Completion Date for the Works or the specific portion of the Works and the actual Date of Practical Completion of the Works or of the specific portion.</p> <p>The penalty for delay shall be: 0.05 % of Contract Amount per day.</p> <p>5.13.2 If before the issue of a Certificate of Practical Completion for the whole of the Works, or for any specific portion thereof that is identified in the Scope of Works, any further part of the Works has been:</p> <p>5.13.2.1 certified as complete in terms of a Certificate of Practical Completion; or</p> <p>5.13.2.2 occupied or used by the Employer, his agents, employees or other contractors (not being employed by the Contractor);</p> <p>then the appropriate penalty for delay referred to in Clause 5.13.1 above shall be reduced by the amount which is determined by the Employer's Agent to be appropriate under the circumstances.</p> <p>5.13.3 The imposition of penalties in terms of Clause 5.13.1 shall not relieve the Contractor from his obligation to complete the Works, nor from any of his obligations and liabilities under the Contract.</p> <p>5.13.4 All penalties for which the Contractor becomes liable in terms of Clause 5.13.1 shall be accumulative. The Employer may, without prejudice to any other method of recovery, do</p> <p>5.13.5 The imposition of any penalties in terms of Clause 5.13.1 shall not limit the right of the Employer's Agent of the Employer to act in terms of Clause 9.2.</p>
5.13.6	<p>If the Contractor shall, without the prior written permission of the Employer's Agent, in respect of any portions of the Works which are prescribed in the Scope of Work to be executed using labour intensive construction methods, or for which the maximum size and capacity of mechanical plant and equipment is restricted in terms of the Contract:</p> <ul style="list-style-type: none"> • fail to execute such portions of the Works, or any parts thereof, utilising labour-intensive construction methods strictly in accordance with the provisions of the Contract; or • utilise in the execution of such portions of the Works, or any parts thereof, mechanical plant or equipment which is in conflict with the terms of the Contract; or • utilise in the execution of such portions of the Work, workers drawn from sources other than those allowed in terms of the Contract; <p><i>then the Contractor shall be liable to the Employer for the percentage stated below of the value of the Works so executed in conflict with the provisions of the relevant Scope of</i></p>

	<p><i>Work, as a penalty for non-compliance.</i></p> <p><i>The penalty for non-compliance is: 15% of the value of Works specified.</i></p> <p><i>The imposition of penalties in terms of this clause shall not relieve the Contractor from his obligation to complete the Works, nor from any of his obligations and liabilities under the Contract.</i></p>
5.16.3	<i>The latent defect period is 10 years after the issue of the Final Approval Certificate.</i>
6.2.2	<p><i>If the Contractor fails to select the security to be provided, or if the Contractor fails to provide the selected security within the time period stated in Clause 5.3.2, or if the performance guarantee shall differ substantially from the pro forma, it shall legally be deemed that the Contractor has selected a security of a Cash deposit of R4 000 000.00 plus retention of 5% of the value of the Works without limiting the Employer's right to terminate the Contract in terms of Clause 9.2.</i></p>
6.2.3	<p><i>If the Contractor has selected a performance guarantee as security, he shall ensure that it remains valid and enforceable until the Certificate of Completion is issued. A fixed expiry date performance guarantee will not be accepted.</i></p> <p><i>The performance guarantee shall be provided by a financial service provider approved by the Employer. Guarantees submitted must be issued by either an insurance company duly registered in terms of the Short-Term Insurance Act, 1998 (Act 35 of 1998) or by a bank duly registered in terms of the Banks Act, 1990 (Act 94 of 1990)</i></p> <p><i>The financial institution shall be an authorised financial service provider as contemplated in the Financial Advisory and Intermediary Services Act, 2002 (Act No 37 of 2002) (FAIS Act). In addition, the financial institution shall also be a licensed authorised financial services provider with the Financial Sector Conduct Authority of South Africa (FSCA).</i></p> <p><i>The financial institution/financial services provider shall have the following credit rating from one of the registered credit rating agencies mentioned:</i></p> <ul style="list-style-type: none"> • <i>Insurance companies: A claim paying ability rating of A- or above (Fitch, Global Credit Rating or Standard & Poor) or A3 or above for Moody's Investor's Service; and</i> • <i>Banks: A short-term rating of F1 or above for Fitch Ratings, A1 or above for Global Credit Rating, A-1 or above for Standard & Poor or P-1 or above for Moody's Investor's Service.</i> <p><i>Guarantees must be issued on the pro-forma attached as Annexure A to the Contract Data. No alterations or amendments of the wording of the pro forma will be accepted.</i></p>
6.8.2	<i>Contract Price will be adjusted annually as per the escalation rates declared in the priced bill of quantities year on year</i>
6.8.3	<i>Price Adjustments for variations in the cost of special materials will not be allowed.</i>
6.8.4	<i>In line 8 delete the words "between the Employer and the Contractor".</i>

6.10.1.5	The percentage advance on materials not yet built into the Permanent Works is 80%.
6.10.3	The percentage retention on the amount due to the Contractor is 5%.
6.11.1.3	Delete “15 per cent” and replace it with “25 per cent”.
8.6.1.3	The limit of indemnity for liability insurance is 20 000 000 per event, the number of events being unlimited.
10.5.3	The number of Adjudication Board Members to be appointed is one (1).
10.5.3	The number of Adjudication Board Members to be appointed is one (1).
7.8.1	The Defects Liability Period is 12 months.
9.3.3	<p>Add the following at the end</p> <p>After cancellation of the Contract by the Contractor, the Contractor, when requested by the Employer to do so, shall not be entitled to refuse to withdraw from the Works on the grounds of any lien or a right of retention or on the grounds of any right whatsoever.</p>
10.4.2	Dispute resolution shall be by means of mediation.
10.7	Disputes are to be referred for final settlement to litigation.
11.0	<p>Amendments to be in writing</p> <p>“No amendments of this Contract or of any provisions or terms hereof and no waiver or relaxation or suspension of any of the provisions or terms of this Contract shall be of any force or effect unless reduced to writing and signed by both the parties hereto.”</p>

CONTRACT PRICE ADJUSTMENT SCHEDULE

Clause	Contract Data																																	
1.1	<p>The application of a Contract Price Adjustment factor will not apply to this Contract. The price adjustment formula provided in the General Conditions of Contract will apply, together with the following coefficients and the definition of the relevant indices indicated below if applicable.</p> <p>X=0,15 a=[a] b=[b] c=[c] d=[d]</p> <p>[See SEIFSA Guidelines for coefficients]</p> <p>Mo = SEIFSA Index of Production Price (Electrical Engineering Materials) as ruling at date of Tender.</p> <p>Mt = SEIFSA Index of Production Price (Electrical Engineering Materials) ruling for month prior to month during which work was performed.</p>																																	
1.2	<p>The following definitions of the relevant indices shall apply to this Contract:</p> <p>"L" is the "Labour Index" and shall be the Consumer Price Index CPI for the province of Eastern Cape Province, as published by Statistics South Africa in the Statistical Release, P0141 , Table A - Consumer Price Index: Main indices; Geographic indices.</p> <p>"P" is the "Plant Index" and shall be the "Plant and Equipment" indices, as published by Statistics South Africa in the Statistical Release, P0151.1 Table 4 - Mining and construction plant and equipment price index.</p> <p>"M" is the "Materials Index" and shall be the "Civil engineering material- total" as published by Statistics South Africa in the Statistical Release, P0151.1 Table 6 - Civil engineering material price indices.</p> <p>"F" is the "Fuel Index" and shall be the "Diesel" indices as published by Statistics South Africa in the Statistical Release, P0142.1, Table 1 - PPI for final manufactured goods; Coke, petroleum, chemical, rubber and plastic products.</p>																																	
1.3	The base month shall be the month before the close of tender.																																	
1.4	<p>RATE OF EXCHANGE VARIATIONS</p> <p>No Contract Price Adjustment will be applicable to this contract as whole. The Tenderer must therefore allow for changes in the Rate of Exchange in his unit prices. Provision will however be made for Rate of Exchange changes on only long lead items listed in the table below. Rate of exchange will apply to imported material to cater for upward and downward fluctuations in cost.</p> <p>Note - The country of manufacturing origin's exchange rate shall be used i.e. a USD – ZAR exchange rate will not be accepted for equipment not manufactured in the USA. Indicate the exchange rate and country of manufacturing applicable to the respective equipment.</p> <p>*Tenderer to list applicable items</p> <p>Rate of change</p> <table><tr><th>EQUIPMENT</th><th>FOREIGN CURRENCY (E.g., R16.30 = 1 Euro)</th><th>MANUFACTURING ORIGIN (E.g., Europe)</th></tr><tr><td>132kV & 11 kV Circuit Breakers</td><td></td><td></td></tr><tr><td>Surge Arrestor</td><td></td><td></td></tr><tr><td>11kV Feeder Protection (Protection Schemes)</td><td></td><td></td></tr><tr><td>132kV Post Type CT's</td><td></td><td></td></tr><tr><td>132kV Surge Arrestor (MCOV 84kV)</td><td></td><td></td></tr><tr><td>11kV Surge Arrestor (MCOV 12kV)</td><td></td><td></td></tr><tr><td>11kV Feeder No. 15 & 16 Switchboard Panels</td><td></td><td></td></tr><tr><td>11kV Transformer No.3 switchboard Panel</td><td></td><td></td></tr><tr><td>300A NECRT</td><td></td><td></td></tr><tr><td>132kV outdoor cable end support</td><td></td><td></td></tr></table>	EQUIPMENT	FOREIGN CURRENCY (E.g., R16.30 = 1 Euro)	MANUFACTURING ORIGIN (E.g., Europe)	132kV & 11 kV Circuit Breakers			Surge Arrestor			11kV Feeder Protection (Protection Schemes)			132kV Post Type CT's			132kV Surge Arrestor (MCOV 84kV)			11kV Surge Arrestor (MCOV 12kV)			11kV Feeder No. 15 & 16 Switchboard Panels			11kV Transformer No.3 switchboard Panel			300A NECRT			132kV outdoor cable end support

C3 **SCOPE OF WORK**

C3.1 **DESCRIPTION OF THE WORKS**

C3.1.1 **Employer's Objectives**

The East London Industrial Development Zone SOC Ltd (ELIDZ) is the duly appointed operator of the East London Industrial Development Zone, and as such has an obligation to ensure that the various facilities and services that they own and control are at all times fully operational and able to perform the function for which they were intended.

Accordingly, the ELIDZ has a need to enter into contracts with suitable service providers who are able to carry out substation upgrade duties for both the primary and secondary plant. This will be achieved through creating a redundant power connection and upgrading the Eskom Leaches Bay existing substation to include a Third transformer bay with a capacity of 40MVA and subsequently, assist in achieving an end state 40MVA firm power supply capacity to the ELIDZ.

C3.1.2 **Overview of the Works**

The Leaches Bay 132/11kV existing substation will be upgraded to accommodate a 40MVA firm power requirements of the East London Industrial Development Zone. The preferred bidder will be required to increase the power capacity of ELIDZ through establishing a Third 132/11kV Transformer Bay as shown on D-EC-1973 Sheet 1A Rev 7, Sheet 7 Rev 1 and Sheet 8 Rev 1 including the extension of the existing 132kV Tubular busbar and the installation of the 2x132kV busbar isolators.

In addition to the above-mentioned primary plant works, the service provider will be required to install cables from the transformer cable end support to the 11kV Indoor feeder panel, extend Leaches Bay MV Internal Switchboard to include additional 1x11kV 2500A incoming feeder, 1x11kV 2500A bus section and 2x11kV 2500A outgoing transfer switch feeder breaker as detailed on D-EC-1973 Sheet 1D Rev 0.

Currently, there are Fourteen outgoing Feeders, Two 11kV incomers and One 11kV Bus-Section at the substation. The 3CF-4100F scheme will be implemented on the new panels and will be modified to work with indoor breakers. The transformer will utilise a 5TM-3100 protection scheme which will be integrated with the 5JB-3200 scheme. The contractor should go through the issued BOQ, drawings and Eskom specifications to get a deep understanding of the detailed scope of work and materials to be supplied as enlisted on Annexure B.

C3.1.3 **Extent of works**

The scope of works for this project covers the upgrade of the ELIDZ 132kV/11kV substations from primary plant, earth work, secondary plant and civil works, either through establishment, replacement or refurbishment of electrical and civil works. Therefore, this document provides a detailed engineering processes and relevant standards that will be adhered to during the construction phase of this project through compliance with stakeholder requirements and technical risks identified for this design phase and ensuring a continued reliable supply of electricity to the ELIDZ substation in the long term.

Leaches Bay Substation is an existing substation and currently equipped with 2x20MVA 132/11kV Transformer and has been initially designed to accommodate an additional 132/11kV, 40MVA Third Transformer which could ultimately provide a firm 80MVA 11kV supply capacity. The 11kV MV network feeds the ELIDZ Leaches Bay substation and currently, has Fourteen

11kV Feeder capacity on the switchboard (SBV3s). Twelve (12) Feeders are utilised to supply ELIDZ and Two Feeders to supply Buffalo City Metro (BCM) load, therefore leaving no spare feeders.

The current ELIDZ electrical network is divided into Four supply zones with limited interconnection between them. Each zone has a dedicated switching station from which all its MV/LV substations are connected. Zone 1A has two switching stations due to its high electricity demand and available land still to be developed.

This project is required to allow Leaches Bay substation to supply the additional load demand through its 11kV feeders to the ELIDZ as outlined in the customer's application. For Leaches Bay to supply additional load to the ELIDZ, the present design suits for the establishment of a 40MVA transformer at the spare transformer bay.

Any deviations and/or additions considered advisable by a tenderer in view of the contemplated duty of the set should be clearly indicated in the tender and included in this tender. All works to include transport of equipment to site as well as the safe removal, transport and disposal of replaced equipment and materials by the contractor at a legal disposal site, external to ELIDZ, within the local municipality.

Should the need arise, the rendered service may be extended to include one or more portions of new works undertaken on behalf of the ELIDZ. This additional work shall be undertaken at billed rates wherever possible.

The quantities shall not be interpreted as indicating the overall scope of work to be undertaken under the contract, and the ELIDZ representative otherwise known in this contract as the Engineer shall instruct the Service Provider as to the actual extent of work to be carried out under each billed item. The service is to ensure the works is completed within the stipulated period and will not be compensated for any project overrun expenditure. All equipment is to be Eskom approved.

The scope of work for Leaches Bay Substation Primary Plant is as follows:

Civil Work Scope:

Supply and install the following equipment foundations as per the foundation layout drawing (D-EC-1973-5, Rev2) and Eskom D-DT specifications:

- 4x 132kV Tubular Busbar Foundation.
- 1x 132kV Breaker Foundation.
- 2x 132kV Isolator Foundation.
- 3x Medium Equipment Support Foundation – CT
- 4x Medium Equipment Support Foundation – PI
- 1x 11kV NECR'T/AUX. TRFR Fondation
- 1x 22kV Isolator Foundation
- 2x Road Crossing Foundation
- 1x MV Cable Sealing End Foundation
- 5x 14m Lighting/Lightning mast foundation
- Cast a 40MVA Transformer Plinth, slipway and build a transformer bound wall
- Build 2x PIU (5JB-3200) Plinth
- Establishment of an access road to deliver transformer/transformer rigging.

Extend the existing 750mm wide LV cable trenches with covers to near each new equipment of the transformer bay as shown on D-EC-1973-12, Rev 1 and D-EC-1735 Sheet 1 Rev 4.

Demolish the existing Oil Holding Dam, Supply and install a new Oil Holding Dam of 32 000 litres Oil Capacity.

Remove the existing layer of yard stone in the area where construction work is to be carried out. Stockpile and re-spread the yard stone to a layer thickness of 100mm after the work has been completed. Spray weed killer on all the stoned areas once all the stoning has been completed.

Earth Work Scope:

Connect the new equipment of the new 3rd transformer bay to the existing earth mat by at least two 50x3mm flat copper strap as indicated on D-EC-1973-4, Rev 1.

All new equipment are to be earthed using the foundation HD bolts. The earth tails (flat copper) comes on the side of the foundations to the earth mat as indicated on D-DT-5240 Sheet 6 Rev 3. Install earthing balls on the equipment steelwork supports as detailed on D-EC-1973 Sheet 4 Rev 1, final position of earthing balls is to be negotiated with the Customer Network Centre.

The isolator mechanical boxes and handles are to be earthed in accordance with the manufacture's isolator specification

Carry out additional earth resistivity and continuity test to ensure continuity between each existing element and the earth mat. Assess the existing earth mat and equipment bonding integrity.

Steel Erection Scope:

Supply, assemble, erect and bolt in position the following equipment steelworks as per the steelwork layout drawing (D-EC-1973-6, Rev 1) and Eskom D-DT specifications:

- 4x 132kV Tubular Busbar Support.
- 1x 132kV Breaker Support.
- 1x 132kV Isolator Standard Support.
- 1x 132kV Isolator Inline Support.
- 3x 2.5 Medium Equipment Support– CT
- 4x 2.5 Medium Equipment Support– PI
- 3x M1 Medium Equipment Cap– CT
- 4x M1 Medium Equipment Cap– PI
- 1x 11kV NECR'T/AUX. TRFR Support.
- 1x 22kV Isolator Support.
- 1x 11kV Surge Arrestor Bracket
- 2x Road Crossing Support.
- 1x MV Cable Sealing End Support
- 5x 14m Lighting/Lightning mast
- 2x YMK PIU (5JB-3200) Steelwork Assembly

Install equipment labels and phasing discs for the new transformer bay. The positions of the phasing discs are indicated on D-EC-1973 Sheet 6 Rev 1.

Equipment Erection Scope:

Take delivery or Supply (as applicable), erect, bolt in position and commission the following equipment as per the electrical equipment layout drawing (D-EC-1973-7, Rev 1) and Eskom D-DT specifications:

- 1x 132kV Breaker.
- 3x 132kV Current Transformer.
- 1x 132kV Isolator Standard.
- 1x 132kV Isolator Inline.
- 10x 132kV Post Insulators
- 3x 132kV station class Surge Arrestors.
- 1x 132/11kV 40MVA Two winding Transformer.
- 1x 11kV NEC/NER/AUX TFR.
- 6x 11kV Surge arrestors.
- 1x 22kV Isolator.
- 6 x 66kV Post insulators.
- 1x PIU (5JB-3200).
- 3x Indoor 11kV Feeders (SBV3s)
- 1x Indoor 11kV Bus section (SBV3s)

Remove the existing 400W/230V floodlights from the existing lighting/lightning masts, Supply and install new 60W/230V 44x LED Flood lights on the existing and the new masts.

Extend the existing 132 kV tubular busbar and install 2x 132 kV Busbar Isolators.

Extend 11kV Board to accommodate 1x incoming feeder, 2x outgoing transfer feeders and 1x section breaker.

Install new 12x1 core 630 mm² XLPE cables from the transformer cable end support to the 11kV MV Indoor incoming feeder panel.

The Isolator JB bracket and equipment are to be mounted on Busbar 1 isolator (IS16) and Busbar 2 isolator (IS15).

Current Transformer JB is to be mounted on CT20 on the trench side as per D-EC-1973 Sheet 6 & 12.

The Orientation of the breaker is to be such that Pole A, is connected to Red Phase.

All equipment mounted on equipment supports are to be as per the BOQ & Project Specification.

Conductors & Clamps:

Electrical phasing e.g. (R W B) of the new 132/11kV transformer bay is to be done as per D-EC-1938.

The new 132/11kV transformer bay equipment are to be stringed with a single bull conductor on the 132kV side and a covered twin bull conductor on the 11kV side. All associated jumpers and clamps connecting to the stringer are to be installed as per D-EC-1973 Sheet 8 Rev1.

Testing, Pre-commission and commission Scope:

Pre-commission the new Primary Plant, 1x 40MVA 132/11kV Transformer, 1x 132kV Breaker, 2x 132kV Isolators, 1x Complete Sets 132kV Post Type Current Transformers, 1x NECR-T and 1x 22kV Isolator on the Transformer No. 3 Bay.

Testing and commission of the 1C-4x630mm² cables from the cable end support to the incoming feeder panel in the control room.

The scope of work for Leaches Bay Substation Control Plant is as follows:

Protection Scope:

- Extend Leaches Bay MV board to include additional 1x11kV-2500A incoming feeder, 1x11kV-2500A Bus section breaker and 2x11kV-2500A outgoing transfer switch feeder breaker (SBV3s).
- Supply and Install Transformer 3 1x 11kV 2500A Incomer switchgear Panel.
- Supply and install a new 5JB—3200 (PIU) & 5TM3100 Transformer & Tap change Protection Scheme (Include recorder Points and sacrificial relays).
- Supply and Install 1x 11kV 2500A Bus Section Panel and Link to Buszone scheme. Supply and Install 2x 11kV 2500A offboard Transfer Feeders with 3CF-4100F with Solkor N Protection.
- Link 3rd Transformer bay to 132kV Bus Zone Scheme
- Use spare vamp 3BP-4901 protection scheme to accommodate the 2 x feeder schemes.
- Supply and Install new control cables for protection schemes and commission all the protection schemes.
- Supply and Install, gland, ferrule and terminate all the new control technology cables as per cabling and cable block diagrams.
- Supply and Install all control cabling to busbar and feeder links.
- Mount and earth the new 11kV Transformer Incomer switchgear panel, protection scheme, bus section panel and transfer feeder Panels in the Control Room as per Control Room Layout.
- The protection panels must be earthed using a 2 x (25 x 3mm) flat copper earth tails per panel, bolted to the panel and main trench earth. Each weld has to be witnessed by the clerk of works, numbered and photographed (before and after bitumen painting) by the contractor and priced as part of the installation of the earth tails.

SCADA Scope:

- Expand the existing IDF verticals to cater for new protection, metering and DC installations.
- Integrate new schemes onto the existing D20 RTU (Config 08, 10m VME)
- Accommodate supervisory alarms and control signals on the new D20 and IDF.

Metering Scope:

- Supply and Install class 0.5 stats meter for new transformer with Vecto III.
- Provide cabling, pre-commission and commission new metering installations.

DC Scope:

- Decommission and remove the existing 110VDC battery bank and charger and provide Eskom with Safe Environmental Disposal certificate.
- Supply and replace the existing “FCP 21 cells 161AH with New 52 cells” 170AH lead Acid Battery Bank with 30A 110V switch mode Charger.
- Supply and install Battery Terminating Device and Inter-row Connectors to fit new 110V 52 x Lead Acid cells in the battery room according to Eskom standards.
- Supply, Install and Commission all necessary cabling from the Battery Charger to The Battery Bank and to the AC/DC distribution Panel.
- Install, gland, ferrule and terminate all new control technology cables as per cabling – and cable block diagrams.

- Supply and Install Battery Stand
- Supply and Install Safety Signs
- Provide all relevant documents

Telecoms Scope:

- Supply and Install Fibre Optic Patch Box 2552A - by 3M for Transformer PIU Junction Box.
- Supply and Install 12 core 1310nm multimode All Dielectric CST fibre (50/125um), 12 Core 1310nm 50/125um Duplex multimode Patch leads 3meter(ST/ST), and Heavy Duty Duct fibre 6 core 1310nm Multi Mode (50/125um)
- Supply and Install 32mm Optex sub duct, 6 Way ODF (Patch Panel, 6 Way termination box, CAT6 Copper Ethernet Cable and Cable Splicing (Including kit)
- Connect and commission all protection circuits using the newly installed fibre optic cable.
- The supplier shall provide all equipment necessary to test the fibre during commissioning and a test report should be compiled on completion.
- Each individual fibre shall be tested. Hand over documentation shall be submitted in hard as well as electronic format.
- The contractor shall provide a list of test equipment and calibration certificates for acceptance by Eskom before commencing of work.
- Supply and Install a Meinberg Lantime M320 GPS Clock with ancillaries in existing remote engineering panel.
- The handover documents should include:
 - ✓ Test results
 - ✓ Number of joint boxes and position on the line
 - ✓ Sagging chart
 - ✓ Type of cable and specification (manufacturer name)
 - ✓ Type of hardware and manufacture name.

AC/DC Scope:

- Supply and Install Yard Change over AC Board without distribution (Includes control module, single and dual, distribution module and termination module with steel structure and automatic transfer switch). The Yard AC Board to be wall Mounted as shown on the control room layout.
- Supply and Install, gland, ferrule and terminate all the new control technology cables as per cabling - and cable block diagrams.
- Provide all cabling to lighting masts from AC YARD BOX.

Note:

- Supervisory cables to be installed and cable ends to be terminated as per Eskom agreed specifications.
- Supplier to supply all material like cables Krone, cable ties, etc.
- ALL Protection panels must be tested.
- All tests must be performed from Power-On to the Primary Plant circuit breaker for all controls.
- Handover certificate and records to be supplied to Eskom.
- All cables must be labelled.
- *Contractor to supply all material like cables, cross connection, coax cable, glands, connectors, lugs, KRONE, KRONE labels, cable markings and cable ties etc.*

Isolator/Current Transfer Junction Box Scope:

- Supply and install a Double circuit Busbar isolator junction with inserts box on Transformer No. 3 HV Busbar isolators and a single circuit isolator junction box on Transformer No.3 MV isolator junction box.
- Supply and install HV CT's junction box with inserts on Transformer No. 3 HV CT.

Testing, Pre-commission and commission Scope:

- Pre-commission and commission the new 5JB—3200 PIU & 5TM3100 Transformer & Tap Changer Protection Scheme to the 132/11kV Transformer No.3.
- Pre-commission and commission the 1x 11kV 2500A Incomer switchgear Panel, 1x 11kV 2500A Bus Section and 2x 11kV 2500A Transfer Feeders with 3CF-4100F with Solkor Protection.
- Pre-commission and commission the control technology cables from the AC/DC Distribution Panel.
- Pre-commission and commission all isolator connections.
- Test and commission all the metering equipment and current transformers.
- All Protection panels must be tested.
- All tests must be performed from the POWER-ON to the Primary Plant circuit breaker for all controls.
- Database configuration of the station on POWER-ON.
- Commissioning of the station to POWER-ON.

Pre-commission and final commissioning in collaboration with Eskom

The abovementioned scoping is a high-level description(scope) of the works to be carried out and the details may be found on Annexure C which is the Eskom functional detailed design package (specifications & Drawings) which the contractor must essentially price on for this contract. The contractor is to ensure that the pricing includes all ancillaries, accessories, and equipment to ensure functionality of the entire of the transformer bay, related feeder bays and bus sections. etc

C3.1.4 Location of the Works

The East London Industrial Development Zone is located within Buffalo City on the western side of the Buffalo River, between the East London port and airport. The locality of the Eskom Leaches Bay substation is on Chester Road, Siyakha, East London. The Works are located in the East London development Zone at approximately LAT 33°3'5.38"S and LONG 27°50'47.55"E (see images below).

C3.1.5 Temporary Works

The provision of any temporary works of whatever nature, required for execution of the scheduled items, shall be the responsibility of the Contractor, and the cost thereof shall be included in the rates for the respective items of work.

C.3.2 ENGINEERING

Design

Works designed by, per design stage:
Concept, feasibility and overall process

Engineer

Basic engineering and detail layouts to bid stage
 Final design to be approved for construction stage
 Temporary works
 Preparation of as-built drawings

Engineer
 Engineer**
 Contractor
 Contractor

Employer's Design

The permanent works included in this contract has been designed by the Employer. The engineer has prepared detailed layout drawings and single line diagrams which he believes adequately address the clients' requirements and site limitations. The detail of the works is indicated on the drawings and in the specifications. The Tenderer may submit alternative offers for designs prepared by himself subject to the conditions specified in the Contract Data.

Contractor's Design

The temporary works included in this contract together will be designed by the Contractor. The 132kV Transformer Scheme (5TM-3100 & 5JB3200) control plant design and drawings as per Eskom standards shall be completed by the contractor. Allowance for engineering shall be made by the contractor.

Drawings

The Contractor shall use only the dimensions stated in figures on the Engineers Drawings in setting out the Works, and dimensions shall not be scaled from the Drawings, unless required by the Engineer. The Engineer will, on the request of the Contractor in accordance with the provisions of the Conditions of Contract, provide such dimensions as may have been omitted from the Drawings.

The Contractor shall ensure that accurate as-built records are kept of all infrastructure installed or relocated during the contract. The position of sleeves, cables, pipe bends, duct ends and all other underground infrastructure shall be given by co-ordinates. Where necessary, levels shall also be given. A marked-up set of drawings shall also be kept and updated by the Contractor. This information shall be supplied to the Engineer's Representative on a regular basis.

The Contractor shall be required to complete the as-built/record drawings before a Certificate of Completion will be issued. Provision is made in the schedule of quantities for this.

All drawings provided by the contractor shall be of an appropriate engineering standard and to the approval of the Engineer. The contractor shall keep and maintain an up-to-date drawing register on site. A working copy of all contract drawings shall be available at all times on site for the engineers use. The Drawings prepared by the Employer for the permanent Works are tabulated below :

Drawing Number	Title Description	Rev No.
D-EC-1973-1A	Station Electric Diagram	5
D-EC-1973-1B	Station Electric Diagram -Transformer 1 Incomer	5
D-EC-1973-1C	Station Electric Diagram -Transformer 2 Incomer	4
D-EC-1973-1D	Station Electric Diagram -Transformer 3 Incomer	0
D-EC-1973-2	Site Plan & Future Extension	1
D-EC-1973-4	Earth mat Layout	1
D-EC-1973-5	Foundation layout	2
D-EC-1973-6	Steelwork Layout	1
D-EC-1973-7	Electrical Equipment Layout	1

D-EC-1973-12	Trench & Fence Layout	1
D-SR-121-03	Control Building Switchgear Room and Relay Room Panel Arrangement	1

Refer to all drawings and provided under the **Eskom functional detailed design package on Annexure C.**

The Employer reserves the right to issue amended and/or provide additional drawings during the Contract.

Information Issued at Award Stage to Successful Tenderer

Accessible data of full detailed design package from Eskom with Construction drawings will be issued upon award.,

C3.3 PROCUREMENT

C3.3.1 Procurement Principles

The Employer decided to adopt the Standard of Uniformity in Construction Procurement published by the Construction Industry Development Board (CIDB) for his procurement process.

The Standard for Uniformity in Construction Procurement establishes minimum requirements that:

- Promote cost efficiencies through the adoption of a uniform structure for procurement documents, standard component documents and generic solicitation procedures;
- Provide transparent, fair and equitable procurement methods and procedures in critical areas in the solicitation process;
- Ensure that the forms of contract that are used are fair and equitable for all the parties to a contract; and
- Enable risk, responsibilities and obligations to be clearly identified.

Contractors Personnel

The Contractor shall limit the utilisation of his permanently employed personnel to that of key personnel only on the Works, as defined below, and shall execute and complete the Works utilising a temporary workforce employed directly by the Contractor and/or by his sub-contractors, using the assistance of the Labour Desk(s), from the various communities that are established in proximity to the Works or which will be consumers from the Scheme.

Without derogating from the Contractor's obligations to complete the Works within the specified time for completion in terms of the General Conditions of Contract, the numbers in each category of the Contractor's key personnel, as stated by the Contractor in the Returnable Schedules, will be strictly controlled during the contract period and any increase in numbers will be subject to the prior approval of the Employer.

Key personnel means all contracts managers, site agents, site clerks, materials and survey technicians, quantity surveyors, trainers, supervisors, foremen, skilled plant operators, brick layers, welders, shutter hands and the like, and all other personnel in the permanent employ of the Contractor or his sub-contractors who possess special skills, and/or who play key roles within the Contractor's or his subcontractor's operations.

The Engineer may at his discretion, upon receipt of a written and fully motivated application from the Contractor, and where he deems the circumstances so warrant, authorise in writing that the

Contractor may utilise in the execution of the Works, workers not being his key personnel but who are in his permanent employ. Without limiting the generality of application of this sub-clause, circumstances which may be considered by the Engineer to warrant authorization of the use of the Contractor's permanent employees other than key personnel, include:

- a) The unavailability from local sources of sufficient numbers of temporary workers and/or sub-contractors to execute the Works, provided always that the Contractor has satisfied the Engineer that he has exercised his best endeavours and taken all reasonable actions to recruit sufficient temporary workers and sub-contractors from local sources.
- b) The unavailability within the temporary worker pool and/or from subcontractor sources available to the Contractor in terms of the Contract, of sufficient skills necessary to execute the Works or specific portions thereof, in situations where the completion period allowed in the Contract is insufficient to facilitate the creation of the necessary skills through the provision of suitable training as contemplated in the Contract.
- c) Any other circumstances which the Engineer may deem as constituting a warrant.

Temporary Workforce

The Contractor shall employ labour from the local communities through the Labour Desk(s). Accordingly, the workforce that is employed on Site shall consist of local residents, except for approved key staff in the permanent employ of the Contractor, to the maximum extent that is compatible with the requirements of Clause 2.3.2.

The contractor shall assist in identifying available local labour and, where available, semi-skilled labour as well as local sub-contractors.

Although the Contractor shall adhere to the statutory minimum wage rates, he is however at liberty to negotiate additional incentive payments based on performance.

A contract of employment or subcontract should be signed between the Contractor and each of his employees or sub-contractors, as the case may be. Likewise contracts of employment must be entered into between each such sub-contractor, and each of the specific subcontractor's employees. Employment and subcontract agreements shall make clear reference to at least the following conditions:

- The minimum agreed wage rate per hour in respect of labourers;
- The agreed pay rate per unit of production where applicable;
- UIF and WCA payments;
- Minimum working hours per day;
- Start and end times of a daily shift;
- Lunch break times;
- Company Policy regarding :
 - Rain time
 - Sickness and absenteeism
 - Disciplinary matters
 - Grievances
- Method and frequency of payment;
- Date of Payslips.
- Work clothes and safety equipment to be issued.

Labour Intensive Construction

Labour Intensive Construction shall mean the economically efficient employment of as great a portion of labour as is technically feasible to produce a standard of construction as demanded by the Specifications with completion by the Due Completion Date, thus the effective substitution of labour for equipment. The provision of any temporary works of whatever nature, required for execution of the scheduled items, shall be the responsibility of the Contractor, and the cost thereof shall be included in the rates for the respective items of work.

Appropriate portions of the Works included in the Contract shall be executed using labour intensive construction methods. These portions of the Works shall be constructed utilising only locally employed labour and/or the labour of local sub-contractors, supplemented to the extent necessary and unavoidable by the Contractors key personnel as provided for in clause 2.3.2, unless otherwise instructed by the Engineer. The locally employed labour should be resourced from the local labour desk based in the vicinity of the site. The portions of the Works to be executed using labour intensive construction methods are:

- clearing and grubbing of the Site;
- bedding, selected fill, laying, backfilling and compaction of all pipe, cable trenches irrespective of depth, but assisted by mechanical compaction equipment in order to achieve the specified densities;
- reinstatement of all fill, shoulder and pavement layers at road crossings, but using mechanical compaction equipment in order to achieve the specified densities;
- transportation and spoiling of all trench materials, where the disposal site is located within 20 metres of source;
- removal of oversized materials to the edge of the roadway during the construction of roads and streets;
- laying, testing of cables, including all fittings
- construction of all manholes, cleaning eyes, kerb inlets, junction boxes, culvert floors, end structures and balustrades, valve chambers, thrust blocks, pipeline markers and the like (earth-, concrete-, brick- and metalworks), but excluding the mixing of concrete and transporting of same to the point of pouring;
- construction of concrete interlocking block pavement;
- kerbing;
- road marking and signage;
- dismantling and re-erection of fences; and
- cleaning and tidying up of the Site.

In respect of those portions of works which are not listed above, the construction methods adopted and plant utilised shall be at the discretion of the Contractor, provided always that the construction methods adopted and plant utilised by the Contractor are appropriate in respect of the nature of the Works to be executed and the standards to be achieved in terms of the Contract.

Handover & Training

The Service provider is to ensure that the plant is erected and commissioned with Eskom personnels presence, this is to ensure where necessary, skills transfer on operation and maintenance of the equipment.

Proof of Compliance with the Law

Service Provider to abide by all relevant and applicable legislation / s and all applicable regulations pertaining to the required services and site.

Meetings frequency for upgrade

Work Order or the check list will be kept for the following.

- Inception meeting
- Bi-Weekly progress reports
- Handover meeting
- Site Diaries

C3.3.2 Subcontracting

The Contractor shall appoint such authorities and/or specialist subcontractors and suppliers as may be designated or nominated by the Employer or the Engineer for those portions of the Works specified in the Scope of Works. The contractor will be governed by the policies and procedures of the local municipality for the procurement of services.

The Contractor shall sub-let to local emerging sub-contractors' appropriate portions of the works that are designated in 2.3.4 as being reserved for labour intensive construction methods.

As required by the Conditions of Contract, the Contractor shall be responsible for all work carried out by sub-contractors (whether nominated by the Employer or selected by the Contractor) on his behalf. The Engineer will not liaise directly with any such sub-contractor, nor will he become involved in any problems and/or disputes related to payments, programming, workmanship, etc, unless provided for in the Conditions of Contract. Such problems and/or disputes shall remain the sole concern of the Contractor and his sub-contractors. The subcontractors must be from within the local community unless the works are specialised and the skill set cannot be found within the community, then only will the contractor be permitted to source a subcontractor externally subject to the client's approval.

C3.4 CONSTRUCTION

C3.4.1 Standard Specifications

The Standard Specifications on which this contract is based are the South African Bureau of Standard's Standardized Specifications for Civil Engineering Construction (SABS 1200). (Note: "SABS has been changed to "SANS"; the SABS 1200 specifications are due to be replaced in the foreseeable future by SANS 2001 amongst other specifications).

Although not bound in nor issued with this Document, the relevant sections of the standard specifications shall form part of this Contract. These documents are available at the Contractor's expense from the SA Bureau of Standards, Private Bag X191, PRETORIA, 0001. The applicable SABS 1200 Standardized Specification for this Contract shall be the following:

- | | | |
|----|---|------------------|
| A | - | General |
| AB | - | Engineers office |
| C | - | Site clearance |
| D | - | Earthworks |
| LB | - | Bedding (cables) |
| LC | - | Cable ducts |

National and International Standards

SANS 470	Concrete poles
SANS 1063	Street lights regulation
SANS 10142	Wiring of premises (Part 1 and 2)
SANS 1411	Materials of insulated electric cables and flexible cords.
SANS 1029	Miniature substations
SANS 1507	Electric cables with extruded solid dielectric insulation for fixed installations (all parts)
SANS 97	Impregnated paper insulated metal-sheathed cables for rated voltages 3, 3 /3,3 kV to 19/33 kV (excluding pressure assisted cables)
SANS 10198	The selection, handling and installation of electric power cables of rating not exceeding 33 kV (all parts)
SANS 1885	Rules for application of standard wire numbering ANNEX A
SANS 475:2006	Luminaires for interior lighting, streetlighting and floodlighting – Performance requirements
SANS 121:2011	Hot dip galvanized coatings on fabricated iron and steel articles.
NRS 018	Fittings and connectors for low-voltage overhead power lines using aerial bundled conductors.

The Occupational Health and Safety Act 85 of 1993

The relevant regulations of the Buffalo City Municipality and Eskom.

All standards and specifications are subject to revision, and Tenderers are encouraged to investigate the possibility of applying the most recent editions of the standards comprising of Eskom DT Standards, IEC, ISO and SANS standards for substation and control systems which not limited to as tabulated below:

C3.4.2 VARIATIONS AND ADDITIONAL CLAUSES TO THE STANDARD AND PARTICULAR SPECIFICATIONS

The following variations and additions to the Standard and Particular Specifications will be applicable to this Contract:

The various documents listed in section 2.2.4.2 shall be treated as mutually explanatory. However, should any requirement of section 2.2.4.3 conflict with any requirement of the Standardised Specifications or with any requirement of the Particular Specifications, then the requirement of section 2.2.4.3 shall prevail.

PSA GENERAL

PSA1 QUALITY (Clause 3.1)

All material used in the Works shall, where such mark has been awarded for a specific type of material, bear the SABS mark. Alternatively, the Contractor shall furnish the Engineer with certificates of compliance of materials, which bear the official mark of the appropriate standard.

PSA2 PLANT (Clause 4.3)

Except where the use of plant is essential in order to meet the specified requirements by the Due Completion Date, the Contractor shall use only hand tools and equipment in the construction of those portion(s) of the Works that are required in terms of the Scope of Works to be constructed using labour intensive construction methods. All construction equipment required for the project shall be provided by the contractor. All equipment shall be fit for purpose and where applicable carry the necessary certification that it has been inspected and maintained in accordance with the OHS Act i.e. all hydraulic lifting equipment.

PSA3 SITE FACILITIES

PSA3.1 SITE FACILITIES AVAILABLE

PSA3.1.1 Contractor's Camp

A Site will be made available by the Employer for the Contractor's camp and depot adjacent to the site. The exact location of the site should be request from the Engineer prior to the contractor establishing site. Full access to council staff/Eskom Staff shall be available at all times at the substation to allow for normal switching and maintenance operations of existing infrastructure.

PSA3.1.2 Source of Water Supply

The Contractor shall be responsible under the Contract for the supply and distribution at his cost of all water that he may require for purposes of constructing the Works. Accordingly, the Contractor shall pay all connection fees and consumption charges, and at his cost provide all connections, consumption meters, pipework, storage tanks, transport and other items associated with the supply of water for the Works.

Should water be supplied by the water utility, The Contractor shall, subject to the approval of the Engineer, make any necessary arrangements with the water utility for the connection(s), and shall provide in his tender for the payment of all charges

and costs that are associated with making water available for purposes of constructing the Works.

PSA3.1.3 Source of Power Supply

The Contractor shall be responsible under the Contract for the supply and distribution at his cost of all electricity that he may require for purposes of constructing the Works for no electricity connection is available.

Should electricity be supplied by the power utility, The Contractor shall, subject to the approval of the Engineer, make any necessary arrangements with the power utility for the connection(s), and shall provide in his tender for the payment of all charges and costs that are associated with making electricity available for purposes of constructing the Works.

PSA3.1.4 Housing

The Contractor shall be permitted to house Key Personnel only within his camp site(s). At the commencement of the Contract, the Contractor shall inform the Engineer of his intentions regarding the housing of Key Personnel on Site, and he shall thereafter ensure that all such accommodation is kept neat and tidy, hygienic and properly controlled at all times. Should at any stage of the Contract the Employer and/or the Engineer be of the opinion that the housing of Key Personnel within the camp site(s) of the Contractor is causing disturbance or inconvenience to the landowner or the Employer, then the authority granted by this clause for the Contractor to house Key Personnel on Site may be withdrawn, either partially or entirely.

The Contractor shall at all times conform to all requirements contained in law or bylaws, as well any other requirements set by the controlling local authority.

PSA3.2 SITE FACILITIES REQUIRED

PSA3.2.1 For the Contractor

Whatever may be required for the satisfactory execution of the Contract as set out in Schedule 8.3.2 – Bill of Quantities.

NAME BOARDS (Clause 3.1)

A name board conforming to the standard requirements of the South African Association of Consulting Engineers must be provided and erected on site, details to be provided by the Engineer.

OFFICE BUILDING (Clause 3.2 and Clause 5.2)

The Contractor shall provide Office accommodation, meeting facility, ablution facilities for male and female, carports, cleaning and maintenance, as well as 24

hour security for the office for the duration of the contract period. The Contractor shall provide insurance for the above-mentioned period for the buildings, equipment as well as the contents of the buildings at the replacement cost for new buildings/equipment and all contents.

PSA3.2.2 For the Engineer

As specified under Section PSA.

PSA3.2.3 Sanitary facilities

Male and female Flush toilets or Chemical toilets shall be provided and maintained for the use of the Contractor's personnel at all camp sites that the Contractor may establish for construction of the Works. In addition, the Contractor shall at all times during construction of the Works provide adequate sanitary facilities on site so that all employees are at all times within easy reach of sanitary facilities. The flush toilets or chemical toilet facilitates for male and female is to be provided for every 100m radius.

PSA4 ADJUSTMENT OF PRELIMINARY AND GENERAL TIME-RELATED ITEMS (Clause 8.2.2)

PSA4.1 Replace the note on the end of the clause with the following:

Note: An approved extension of time shall not necessary qualify the Contractor to receive additional payment for each relevant time related item at the original tendered unit rate for such item. Should the Engineer grant extension of time with additional payment, the additional payment will be calculated pro rata to the extension of time in relation to the time for achieving Practical Completion for the Works at the date when the agreement came into effect.

PSA4.2 Should the Time for Completion be automatically extended due to abnormal weather conditions occurring during execution of the Contract as provided for in the Conditions of Contract, adjustment to the total for time-related preliminary and general items will be applicable as specified in Clause PSA4.1.

PSA5 HEALTH AND SAFETY

The maintenance of safe work practice at all times and in all sections of the execution of the works is embedded in the day to day site activities of all the Contractor's management, staff and workforce on the contract.

The introduction of the Construction Regulations in 2014 requires from the Employer to ensure that the Contractor has made adequate provision for the execution of the works within the specifications of said regulations. The contractor shall comply to the Health and Safety Specification outlined as per Eskom OHS standards and bound into **Appendix A** of this document.

It must be noted that the lists below are not exhaustive and that many items have

been traditionally priced by the Contractor as an integral part of his Preliminary and General items or as part of the overhead costs of other items. The tender document, although not detailed with regards the Construction Regulations, requires that the Contractor ensures adherence to the Occupational Health and Safety Act (Act 85 of 1993) the Construction Regulations, 2014.

PSA5.1 Fixed-charge Items

Monthly Progress Payment Certificates shall be submitted to the Engineer's Representative on Site not later than the 20th of each month (or as agreed between the Contractor and the Engineer). All quantity calculations and certificates submitted by the Contractor for checking shall be in accordance with the standard forms supplied by the Engineer. Contractor's monthly invoice shall only be issued after acceptance of claim by Engineer. All quantity calculations and certificates submitted by the Contractor for checking shall be in accordance with the standard forms supplied by the Engineer. Claims shall be a measured and no forecast claims shall be accepted.

Add the following new Clause (Clause 8.3.5):

Compliance with the Occupational Health and Safety Act (Act 85 of 1993) and its regulations and with the Employer's and Eskom's Health and Safety Specifications.	<u>Unit</u> Sum
------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------------

The fixed charge item shall include but shall not be limited to the following:

- Preparation of Health and Safety Plan,
- Establishment of Health and Safety File,
- Health and Safety Training
- Personal Protective Clothing and Equipment
- Establishment of Safety Administration
- Signage to demarcate site as a restricted construction area
- Other Health and Safety Fixed-charge Obligations

PSA5.2 Time-related Items

Add the following new Clause (Clause 8.4.6): Compliance with the Occupational Health and Safety Act. Sum (Act 85 of 1993) and its regulations and with the Employer's Health and Safety Specifications.	<u>Unit</u>
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------

The time related item shall include but shall not be limited to the following:

- The employment cost of all health and safety personnel including consultants, health and safety officers, inspectors, supervisors and issuers required in terms of the Contractor's Health and Safety Plan,
- Updating the Health and Safety Plan as needed,
- Carrying out of periodic own audits and follow-up audits,
- Compiling ongoing risk assessments and risk assessment reports as required by the Works,
- Convening of regular safety meetings with the Safety Representatives,

- Accompanying and supporting the Employer or his Safety Agent during ad hoc audits,
- Compilation of monthly safety reports and statistics for the Employer or his Safety Agent,
- Implementation and maintenance of Training
- Maintenance of personal protective clothing and equipment
- Maintenance of fences, signs and barricades
- Access control to construction site
- Implementation and maintenance of safety administration
- Other Health and Safety Time-related Obligations

PSA6 ENVIRONMENTAL MANAGEMENT PLAN

According to the NEMA regulations, the contractor should comply with the Environmental Authorisation (RoD), the Environmental Management Plan (EMP) as well as Best Practices. The Contractor shall comply with all the conditions of the Environmental Agents (MDA) requirements as the EMP is still in process. The contractor is to adhere to environmental control officers requirements. The EMP report for this project is in Appendix D.

PSA6.1 Fixed-Charge Items

Add the following Clause (Clause 8.3.7):

Compliance with Environmental Management Plan and Record of Decision

Unit
Sum

The sum tendered shall cover all costs, overheads, profits and charges incurred in complying with all the conditions of the Environmental Management Plan and Record of Decision bound.

PSA6.2 Time-related Items

Add the following Clause (Clause 8.4.8):

Compliance with Environmental Management Plan and Record of Decision

Unit
Sum

The sum tendered shall cover all costs, overheads, profits and charges incurred in complying with all the conditions of the Environmental Management Plan and Record of Decision bound.

PSA7 SUMS STATED PROVISIONALLY (Clause 8.5)

PSA7.1 Contract Price Adjustment

A Provisional Sum shall be included in the Summary of Schedules for Contract Price Adjustment. No percentage mark-up will be applicable to any payments made using contingency money other than the mark up included in prices for variations determined in terms of the Conditions of Contract. The Contract Price Adjustment

will only be allowed for the increases relevant to the CPI index applicable to this document.

PSA7.2 Contingencies

A Provisional Sum shall be included in the Summary of Schedules for contingencies. No percentage mark-up will be applicable to any payments made using contingency money other than the mark up included in prices for variations determined in terms of the Conditions of Contract. The Provisional Sum will only be allowed for additional scope of works and is subject to the Engineers approval.

PSA8 Engineers Requirements (Not applicable to this contract)

PSA8.1 Telephone cost

The Engineer's representative will provide his own cellular telephone for the contract.

PSA8.2 Site Office consumables

The provisions for site office consumables are not applicable to this contract.

PSA8.3 Electronic office equipment

The provisions for electronic office equipment are not applicable to this contract.

PSA8.4 Accommodation of the Engineers Representative

The provisions for the engineer's representative accommodation are not applicable to this contract.

PSA8.5 Acceptance Control Testing

The provisions for the acceptance control testing are not applicable to this contract.

In addition to the abovementioned amount, provision is made in Schedule 2 for a mark-up on any payments made by the Contractor in this regard. The mark-up shall be regarded as full compensation for overheads, charges and profits as provided for in the Conditions of Contract.

PSA8.6.1 Dayworks

Add the following to the general specification:

Work will be classified as daywork only if the Engineer considers no other rate in the schedule of quantities appropriate for payment purposes.

An instruction regarding all work to be carried out under daywork in terms of clause 37(2) of the General Conditions of Contract will be issued at the discretion of the

Engineer. Some or all the items priced under daywork in the schedule of quantities may possibly not be required for this contract.

Before ordering any material, the Contractor shall submit quotations to the Engineer for his approval, and shall submit such receipts or vouchers to the Engineer as may be necessary for proving the amount claimed.

PSA9 Existing Services

PSA9.1 Cross cut and Locating existing services

A Provisional Sum must be included in Schedule B for cross cutting and locating of existing services. The contractor is to ensure that the provision sums for the existing services is not exceed. The contractor is to take care when pricing as the provision sum allowance is fixed.

In addition to the abovementioned amount, provision is made in Schedule B for a mark-up on the amount to be paid. The mark-up shall be regarded as full compensation for overheads, charges and profits as provided for in the Conditions of Contract

PSA9.2 Relocating existing services

The contractor is to ensure that the provision sums for the relocating of existing services is not exceeded. The contractor is to take care when pricing as the provision sum allowance is fixed.

All due care must be taken not to damage unknown services. Reference must be made to wayleave agreements/existing drawings for possible services in the areas of construction. All available wayleave agreements will be issued to the successful bidder if they exist. Drawings are to be used as a guide and may not be the exact position of the services illustrated.

Use of detection equipment for the location of underground services

It is anticipated that detection equipment will be required for the location and mapping of underground cables/services on the site, the contractor shall make due allowance in his rate for the use of his own equipment.

Treatment of existing services

Existing cabling will need to be exposed by hand and temporarily relocated during the construction phase, this may involve the extension/ support/protection/ re-termination of the cables until such time that they can be routed to the planned permanent location.

Damage to services

The contractor shall at his own cost effect the repairs to any electrical services or any other service previously indicated to him damaged by himself, his employees or any subcontract worker employed on this contract.

The contractor shall record all damages in the site diary and shall also report any

incidents which result in a loss of supply (electricity, water, sewer) to the Eskom control immediately. Photographs of the damage shall also be taken for record purposes.

Where the damage has also resulted in an injury the necessary safety steps and reporting procedures shall be followed.

Reinstatement of services and structures damaged during construction

Once the electrical circuit has been made safe and the damages inspected by the employer or his representative, the contractor will be advised to complete the repairs with immediate effect in order that power may be restored to any affected areas as soon as possible.

Damage to other services shall also be repaired as soon as possible to avoid any disruption to other users.

PSA9.3 Facilitation of Wayleave extension

A Provisional Sum must be included in Schedule B for Facilitation of all Wayleave extension services. The contractor is to ensure that the provision sums for the relocating of existing services is not exceeded. The contractor is to take care when pricing as the provision sum allowance is fixed.

In addition to the abovementioned amount, provision is made in Schedule 2 for a mark-up on the amount to be paid. The mark-up shall be regarded as full compensation for overheads, charges and profits as provided for in the Conditions of Contract

PSA10 Community Requirements

PSA10.1 CLO/LDO remuneration

A Provisional Sum must be included in Schedule 2 for the appointment and payment of a community liaison officer (CLO). The appointment of the CLO is to be approved by the local councillor and Project steering committee. If required, the contractor is to also obtain approval from the municipal mayoral committee.

In addition to the abovementioned amount, provision is made in Schedule 2 for a mark-up on the amount to be paid. The mark-up shall be regarded as full compensation for overheads, charges and profits as provided for in the Conditions of Contract.

PSA10.2 Accredited and approved training courses for Local personnel

A Provisional Sum must be included in Schedule B for payments to be made to facilitators for the training of unskilled persons in generic skills. Payment to the Contractor will be based on invoices certified by the Engineer and issued by training facilitators with the certificates of the personnel's trained to the Contractor for work undertaken in terms of this item.

The training facilitations services should be sourced from within the Local community 1st, should the service not be available within the local community, then

only is the service to be outsourced.

In addition to the above amount, provision is made in Schedule B for a mark-up on any payments made by the Contractor in this regard. The mark-up shall be regarded as full compensation for overheads, charges and profits as provided for in the Conditions of Contract.

PSA11 Specialist Services

PSA11.1 Specialist training

A Provisional Sum must be included in Schedule 2 for payments to be made to specialists for the training of unskilled or semi-skilled persons in industry accredited management and generic skills. Payment to the Contractor will be based on invoices certified by the Engineer and issued by training specialists to the Contractor for work undertaken in terms of this item.

The personnel's services should be sourced from within the Local community 1st, should the service not be available within the local community, then only is the specialist service to be outsourced subject to the Engineers approval.

In addition to the above amount, provision is made in Schedule B for a mark-up on any payments made by the Contractor in this regard. The mark-up shall be regarded as full compensation for overheads, charges and profits as provided for in the Conditions of Contract.

PSA11.2 Land Surveyor

A Provisional Sum must be included in Schedule 2 for payments to be made to Land Surveyor on the contract. Payment to the contractor will be based on invoices certified by the Engineer and issued by specialist to the Contractor for work undertaken in terms of this item.

The personnel's services should be sourced from within the Local community 1st, should the service not be available within the local community, then only is the specialist service to be outsourced subject to the Engineers approval.

In addition to the above amount, provision is made in Schedule 2 for a mark-up on any payments made by the Contractor in this regard. The mark-up shall be regarded as full compensation for overheads, charges and profits as provided for in the Conditions of Contract.

PSA11.3 Features requiring special attention.

The existing services are to be protected or relocated as necessary to ensure continued supply to consumers throughout the project.

The entire works shall be carried out in accordance with the requirements of all the relevant Government Acts and Regulations.

The contractor shall provide suitable and safe access to all parts of the works as may be required for construction purposes or for inspection by the engineer.

All precautions shall be taken to protect both workmen and local residents/businesses in terms of the OSH Act throughout the implementation of this project. Where adequate safety measures and precautions are not being observed, the engineer may order the contractor to comply with minimum safety requirements at the contractor's expense, and compliance with such an order will not absolve the contractor from any of his responsibilities and obligations under the contract.

(a) Site maintenance

During progress of the work and upon completion thereof, the Site of the Works shall be kept and left in a clean and orderly condition. The Contractor shall store materials and equipment for which he is responsible in an orderly manner, and shall keep the Site free from debris and obstructions.

(b) Testing and quality control (building and Civil works)

(I) Contractor to engage services of an independent laboratory

Notwithstanding the requirements of the Specifications pertaining to testing and quality control, the Contractor shall engage the services of an approved independent laboratory to undertake all testing of materials, the results of which are specified in, or may reasonably be inferred from, the Contract. These results will be taken into consideration by the Engineer in deciding whether the quality of materials utilised and workmanship achieved by the Contractor comply with the requirements of the Specifications. The afore-going shall apply irrespective of whether the specifications indicate that the said testing is to be carried out by the Engineer or by the Contractor.

The Contractor shall be responsible for arranging with the independent testing laboratory for the timeous carrying out of all such testing specified in the Contract, at not less than the frequencies and in the manner specified. The Contractor shall promptly provide the Engineer with copies of the results of all such testing carried out by the independent laboratory.

For the purposes of this clause, an "independent laboratory" shall mean an "approved laboratory" (as defined in sub-clause PSA 7.2) which is not under the management or control of the Contractor and in which the Contractor has no financial interest, nor which has any control or financial interest in the Contractor.

(II) Additional testing required by the Engineer

In addition to the provisions of sub-clause C3.4.2.5(b)(i): Contractor to engage services of an independent laboratory, the Engineer shall be entitled at times during the Contract to require that the Contractor arrange with the independent laboratory to carry out any such tests, additional to those described in sub-clause C3.4.2.5(b)(i), at such times and at such locations in the Works as the Engineer shall prescribe. The Contractor

shall promptly and without delay arrange with the independent laboratory for carrying out all such additional testing as required by the Engineer, and copies of the test results shall be promptly submitted to the Engineer.

(III) Costs of testing

(a) Tests in terms of sub-clause C3.4.2.5(c)(i)

The costs of all testing carried out by the independent laboratory in accordance with the requirements of sub-clause C3.4.2.5(b)(i), above shall be borne by the Contractor and shall be deemed to be included in the bidden rates and prices for the respective items of work as listed in the Schedule of Quantities and which require testing in terms of the Specifications. No separate payments will be made by the Employer to the Contractor in respect of any testing carried out in terms of sub-clause C3.4.2.5(b)(i).

Where, as a result of the consistency of the materials varying or as a result of failure to meet the required specifications for the work, it becomes necessary to carry out additional tests (eg re-tests on rectified work and/or replacement materials), the costs of such additional testing shall be for the Contractor's account.

(b) Additional tests required by the Engineer

The costs of any additional tests required by the Engineer in terms of sub-clause C3.4.2.5(b)(ii): Additional testing required by the Engineer, shall be reimbursed to the Contractor against substitution of the Provisional Sum allowed therefore in the Schedule of Quantities; provided always that the costs of any such additional tests ordered by the Engineer, the results of which indicate that the quality of the materials utilised and/or the standard of workmanship achieved are/is not in accordance with the specifications, shall not be reimbursable to the Contractor.

Eskom requires for the Line works that ALL crimping tools by the contractor is to be tested by CSIR, A few crimps will need to be made of each size and an approval certificate is required by CSIR prior to the crimping tools being used on the Eskom line and substation.

(c) Opening up and closing down of designated borrow pits

Measurement and payment for opening up and closing down designated borrow pits, including removing and stockpiling overburden and restoring the Site, shall be made under item 8.3.4 of SANS 1200 D. This item applies to all borrow material required under this Contract.

The requirements of sub-clause 5.2.2.2 of SANS 1200 D regarding the opening up, maintenance and closing down of borrow pits shall be adhered to.

(d) Access to properties

The Contractor shall organise the work to cause the least possible inconvenience to the public and to the property owners adjacent to or affected by the work, and except as hereunder provided, shall at all times provide and allow pedestrian and vehicular access to properties within or adjoining or affected by the area in which he is working. In this respect the Contractor's attention is drawn to Clause 17.1 of the Conditions of Contract.

If, as a result of restricted road reserve widths and the nature of the work, the construction of bypasses is not feasible, construction shall be carried out under traffic conditions to provide access to erven and properties.

Notwithstanding the foregoing, the Contractor may, with the prior approval of the Engineer (which approval shall not be unreasonably withheld), make arrangements with and obtain the acceptance of the occupiers of erven and properties to close off part of a street, road, footpath or entrance temporarily, provided that the Contractor duly notifies the occupiers of the intended closure and its probable duration, and reopens the route as punctually as possible. Where possible, such streets, roads, footpaths and entrances shall be made safe and reopened to traffic overnight. Such closure shall not absolve the Contractor from his obligations under the Contract to provide access at all times. Barricades, traffic signs, drums and other safety measures appropriate to the circumstances shall be provided by the Contractor to suit the specific conditions.

(e) Existing Industrial areas

Electricity and water supply interruptions in existing industrial areas shall be kept to a minimum. The contractor shall along with his project programme prepare a planned outage schedule, any changes to the outage schedule shall be agreed and approved 6 weeks in advance of any particular outage so that businesses in the area may be properly notified. Supplies shall be normalised by 16:00 on the same day unless by special agreement to the contrary.

(f) Labour Intensive Requirements (EPWP) Employment of local labour

This contract is specialised and requires specialist technical expertise therefore little opportunity for labour Intensive construction methods exists. However, it is the intention that this Contract should make maximum use of the local labour force that is presently under-employed. To this end the Contractor shall limit the utilisation on the Contract of non-local employees to that of key and technically qualified personnel only and to employ and train local labour to the extent necessary for the execution and completion of this Contract.

The Contractor shall fill in the form entitled Key Personnel in the Forms to be completed by the Bidder. The data stated on the above-mentioned form will be strictly monitored during the Contract period and any deviations there from shall be subject to the prior approval of the Engineer, which approval shall not be unreasonably withheld.

The employment of casual labour will be done in co-operation with community leaders and local structures. The bidder shall ensure that all remuneration paid to employees is in line with the relevant sectorial determination in terms of the Basic Conditions of Employment Act, No 75 of 1997, as determined by the Department of Labour

(g) Monthly statements and payment certificates

The statement to be submitted by the Contractor in terms of Clause 49 of the Conditions of Contract shall be prepared by the Contractor at his own cost, strictly in accordance with the standard payment certificate prescribed by the Engineer, in digital electronic computer format. The Contractor shall, together with a copy of the digital electronic computer file of the statement, submit two (2) A4 size paper copies of the statement.

For the purposes of the Engineer's payment certificate, the Contractor shall subsequently be responsible, at his own cost, for making such adjustments to his statement as may be required by the Engineer for the purposes of accurately reflecting the actual quantities and amounts which the Engineer deems to be due and payable to the Contractor in the payment certificate.

The Contractor shall, at his own cost, make the said adjustments to the statement and return it to the Engineer within three (3) normal workings days from the date on which the Engineer communicated to the Contractor the adjustments required. The Contractor shall submit to the Engineer three (3) sets of A4 size paper copies of such adjusted statement, together with a copy of the electronic digital computer file thereof.

Any delay by the Contractor in making the said adjustments and submitting to the Engineer the requisite copies of the adjusted statement for the purposes of the Engineer's payment certificate will be added to the times allowed to the Engineer in terms of sub-clause 49.4 of the Conditions of Contract to submit the signed payment certificate to the Employer and the Contractor. Any such delay will also be added to the period in which the Employer is required to make payment to the Contractor.

(h) Construction in restricted areas

Working space will sometimes be restricted. The construction method used in these restricted areas largely depends on the Contractor's Plant. Notwithstanding, measurement and payment will be strictly according to the specified cross-sections and dimensions irrespective of the method used, and the rates and prices bidden will be deemed to include full compensation for any difficulties encountered by the Contractor while working in restricted areas. No extra payment, or any claim for payment due to these difficulties will be considered.

(i) Notices, signs, barricades and advertisements

All notices, signs and barricades, as well as advertisements, may be used only if approved by the Engineer. The Contractor shall be responsible for their supply, erection, maintenance and ultimate removal and shall make provision for this in his offered rates.

The Engineer shall have the right to instruct the Contractor to move any sign, notice or advertisement to another position, or to remove it from the Site of the Works if in his opinion it is unsatisfactory, inconvenient or dangerous.

(j) Workmanship and quality control

The onus to produce work that conforms in quality and accuracy of detail to the requirements of the Specifications and Drawings rests with the Contractor, and the Contractor shall, at his own expense, institute a quality control system and provide suitably qualified and experienced engineers, foremen, surveyors, materials technicians, other technicians and technical staff, together with all transport, instruments and equipment to ensure adequate supervision and positive control of the Works at all times as per Eskom requirements.

The cost of supervision and process control, including testing carried out by the Contractor, will be deemed to be included in the rates offered for the related items of work.

The Contractor's attention is drawn to the provisions of the various Standardized Specifications regarding the minimum frequency of testing required. The Contractor shall, at his own discretion, increase this frequency where necessary to ensure adequate control.

An Eskom Clerk of Works will be designated to the project and hold points will need to be adhered to prior to proceeding with following deliverables. The Eskom Clerk of works will sign off quality, test, and check sheets on all works prior to proceeding with new items on the programme in conjunction with the Engineer.

On completion and submission of every part of the work to the Engineer for examination and measurement, the Contractor shall furnish the Engineer with the results of the relevant tests, measurements and levels to demonstrate the achievement of compliance with the Specifications.

(k) Nature of Ground and Subsoil Conditions

The Geo-technical report will be provided by the contractor. After the geo-technical studies has been conducted, the contractor must determine whether any ground water seepage is encountered within any of the trial holes up to the depths investigated, or whether the water table is possibly close to the bottom of the hole.

Whether the soils present on site up to the depths investigated will it be easily excavated by normal equipment.

And lastly the report must show whether the soils encountered shall be considered suitable for use as compacted fill.

NB; THE GEOTECH STUDY WILL BE CONDUCTED BY THE CONTRACTOR IF REQUIRED.

(l) Construction programme to be submitted with tender

Timeous completion of the Works is deemed to be essential. Bidders shall, with their offers, submit a preliminary programme showing a breakdown of the civil, electrical and structural portions of the work indicating from start to finish how the individual activities interrelate and are interdependent on and with the electrical portions of the work, in order that the whole of the works (electrical and civil) are completed on time (as required by the Conditions of Contract).

The manpower and plant resources to be provided for each section of the civil, electrical and structural portion of the works should also be provided with the

programme, which may be in the form of a bar chart indicating the critical path network.

Acceptance of the Bid shall not imply that the proposed programming and planning are approved. Final details of planning and programming must be submitted to the Engineer for approval in accordance with the Conditions of Contract.

- (J) Refer to drawings and specifications provided under the Eskom functional detailed design package on Annexure B For the particular specifications relevant to this contract.

PSA11.4 OEM Installation and Commissioning of Transformer Scheme

A Provisional Sum must be included in Schedule B for the Installation and Commissioning of the Transformer 5JB-3200 & 5TM3100 Scheme which shall be installed and commissioned by Original Equipment Manufacturer (OEM). The Contractor is to ensure that the OEM installs and commissions the schemes in accordance with the Eskom standards. The OEM Provisions for supervision (Including transport, labour, accommodation and meals) shall be catered for. This contractor shall be responsible for the quality of works coupled and will take full responsibility for the workmanship. The contractor shall install the equipment and run all cabling to the equipment within the transformer bay.

PSA11.5 Clerk of Works

A Provisional Sum must be included in Schedule B for an external Clerk of works who will be designed by the Engineer to oversee the quality of works in accordance to Eskom standards completed by the contractor. Ultimately the Clerk of Works must report to the clients representative also known as the Engineer. The provision shall allow for the Clerk of works monthly remuneration and disbursements for the period of the construction until completion. The contractor shall make his own separate provision for supervision on site as part of the contract.

PSA11.6 Grading of access road/ Specialized rigging

A Provisional Sum must be included in Schedule B for an option to design and construct a temporary access road via the substation Western entrance due to clearance issues underneath the 11kV overhead busbar arrangement. Alternatively, specialised rigging equipment must be hired to lift the transformer safely into position in the yard. The provision is to complete all works related to ensuring the transformer is placed into position in the yard. Provisions should also including any environmental screening, surveying or any other additional services are required to ensure compliance and maintenance of quality in placing the transformer.

C3.5 MANAGEMENT

Management of The Works

a) ***Planning and Programming***

Within 14 days of the Commencement Date and prior to commencement of any operations on site, the Contractor shall prepare and submit to the Engineer a Project Plan that provides full details of the sequence and timing of the scheduled activities required in terms of the contract. This shall cover the entire contract period, and shall be amended and revised as necessary until approved by the Engineer.

In addition, one week before the end of each month, the Contractor shall submit a list of work to be carried out during the following month, together with the anticipated expenditure, using the relevant items from the Bills of Quantities. The list shall include both scheduled activity items and unscheduled additional work items as requested by the Engineer and shall form the basis of the work to be carried out.

b) ***Sequence of the Works***

The sequence of work shall be carried out strictly in accordance with the project plan and monthly schedule as detailed above.

Certain other aspects of unscheduled work may be required from time to time in response to call-outs.

All works where system outages are required will have to be formally corresponded 6 weeks in advance to the ELIDZ representative otherwise known in this contract as the Engineer.

c) ***Methods and Procedures***

Prior to the commencement of any work on the site the service provider shall submit method statements for each separate maintenance, repair or installation activity that he is required to undertake. The method statements shall be submitted to the Engineer for approval at least 10 days prior to the scheduled start of the activity. The method statements shall set out the procedures to be followed in carrying out the activity and shall include details of compliance with Occupational Health and Safety. This method statement should also include Environmental aspects where applicable.

The Contractor shall ensure that his staff and workers are properly trained in the safe and effective use of any equipment, plant or materials necessary to undertake the work.

d) ***Quality Control***

The Contractor shall ensure that the appearance of his staff is neat and tidy, and he shall provide them with appropriate and easily identifiable uniforms, preferably with the Contractor's logo, to enable them to be recognised at all times while on site.

The Contractor shall provide whatever samples of materials are required for approval prior to commencement and shall undertake all necessary tests that are required in terms of the applicable specification to ensure that his workmanship meets the required standard.

e) ***Other Service Providers***

Various other maintenance activities and construction contracts will be underway concurrently with this contract. The Contractor may be required to co-ordinate his activities together with the activities of the other contractors, and shall be notified of specific requirements by the Engineer.

f) *Testing, Completion, Commissioning*

Each separate activity included in the contract shall be fully tested and independently commissioned on completion and shall immediately thereafter be made available for use by the ELIDZ or Eskom. The tests are to comply the standard tests recommend by the IEC , Eskom DT Standards and SANS. The contractor is to engage with the Engineer and Eskom Clerk of works to give notice for request for approval at various hold points in the project prior to proceeding to the next listed activity.

g) *Communications*

All communication of whatever nature shall be through the Engineer. The procedure for call-outs shall be discussed and agreed between the Contractor and the Engineer prior to commencement.

Categorisation of call-outs and relevant response times are described in clause b) above.

h) *Key Personnel*

Within 14 days of the Commencement Date and prior to commencement of any operations on site, the Contractor shall submit to the Engineer detailed CV's of his key personnel together with their relevant contact details. Should the key personnel not be the same as those included in the tender submission, then the Contractor shall be required to provide personnel with equivalent or better qualifications and experience.

i) *Management Meetings*

The Contractor shall be required to attend a monthly meeting during which all aspects relating to the progress, scope, expenditure, OHS and general administration of the contract will be discussed. The Contractor shall ensure that his representative at the meeting has the necessary understanding and authority to make decisions regarding these issues.

j) *Payments*

All payments to the Contractor shall be by means of electronic transfer and the Contractor shall provide his banking details to the Engineer for the contractor's remuneration.

- The Contractor shall draw up and submit his claim using the agreed quantities.
- The Engineer shall check the claim and certify the amount to be paid.
- The Contractor shall provide a VAT invoice to the Engineer for the certified amount.
- The Engineer shall submit the claim, the VAT invoice and the payment certificate to the Employer.
- The Employer undertakes to make payment of all amounts due to the contractor within 30 days from receipt of an invoice from the Engineer.
- All invoices are to be submitted for the attention of the Clients Representative who will in turn deliver the authorized invoices to Accounts.
- Claims to be in to the engineer for evaluation by the 20th of each month to allow for sufficient time for processing of the claim for month end.

k) Records

The Contractor shall be required to provide a detailed report following each scheduled progress inspection on an Excel spread sheet or Word document in both hard and electronic format. The report shall be in a format to be agreed with the Engineer and shall contain the following:

- A record of completed activities undertaken.
- A daily record of resources (Both personnel and equipment) utilised on site.
- Status Quo Equipment tracker outlining delivery dates for hardware and software.
- OHS and Environmental Compliance Status Quo.

The report shall be submitted within seven days of the scheduled inspection. Eskom standards and procedures in terms of reporting shall be adhered to.

l) Permits

The Contractor is required to obtain identity tags and access cards from the ELIDZ for all his staff that enter the site and also from Eskom. He shall make prior arrangements with the ELIDZ and Eskom to obtain the tags timeously, as no member of his staff shall be allowed on site without the identity tag clearly displayed.

m) Proof of Compliance with the Law

The Contractor shall be required to comply with all regulations and laws of whatever nature that are applicable to his operations throughout the duration of the contract, and shall produce documentary evidence when requested for all aspects, including, but not limited to:

- Valid proof of registration with the Compensation Commissioner
- Proof of registration for income tax and VAT
- Compliance with the Occupational Health and safety Act and Construction Regulations. Eskom additional OHS Regulations and Environmental regulations.

Health and Safety Requirements***Risk Analysis***

The Contractor shall perform a Risk Analysis to determine the severity of the risks exposed to during the course of this contract. In terms of the identified risk classification, preventative actions should be implemented. Included in this should be safe working procedures, etc.

The Risk Analysis should include all risks identified by the contractor; as well as a risk assessment of all work carried out from an elevated position. The contractor is also responsible to identify any other risks unique to the specific project that may not be part of the generic list supplied by Eskom.

Risks can be evaluated by using a risk assessment matrix.

Typical Risks

- Load equipment Injury/Damage/Loss
- Travel to/from worksite Injury/Damage/Loss
- Construction stands Injury/Damage/Loss
- Install equipment Injury/Damage/Loss
- Prepare equipment for installation (off site) Injury/Damage/Loss
- Do pre-commissioning (off site) Injury/Damage/Loss
- Commissioning (on site) Injury/Damage/Loss
- Poisonous or dangerous insects like bees, spiders etc. Injury/Damage
- Poisonous and / or dangerous animals, snakes, material or objects.
- Dangerous situations and terrain e.g. hijack area, restricted area etc.

Requirements for the Health and Safety File.

The Health and Safety file contains various documents that relates to the entire history of the project. The Contractor should ensure that this file is kept up to date. On completion of the construction work, the Contractor shall hand over the file to the Employer on request.

The Health and Safety file should contain the following folders, and relevant documents should be filed under these folders:

- A copy of the OHS Act, 1993 and its regulations.
- The Tunnelling Regulations as published under the Mine Health and Safety Act, 1996, in case of tunnelling being done.
- All agreements in terms of section 37(2) between the client and principle Service Provider.
- Tender documentation.
- Copies of all health and safety plans.
- Any other risk assessment not foreseen at the time the health and safety plan was done.
- All letters of appointment.
- Copy of notification of construction work.
- Inspection registers or checklists.
- Certificates of Compliance for electrical installations.
- Monthly audit reports.
- Drawings and Designs.
- Fall Protection plan.
- Detailed structural engineering survey of structures to be demolished.
- In case of scaffolding used: a certificate of a system design for suspended scaffolding together with proof that it was forwarded to the Department of Labour.
- Inspection records of designers.
- Safe work procedures.
- Evacuation plans

Acceptance of the Service Provider's Health and Safety Plan

Intervals for periodic audits:

The Employer may conduct periodic audits to ensure that the Contractor's Health and Safety Plan is implemented and maintained at the Construction site.

The Contractor's Agreement:

The Service Provider agrees to implement the Health and Safety Plan as outlined above and as stipulated in the Construction Regulations (2003). In addition the Service Provider undertakes

maintain and to hand over a comprehensive Health and Safety File to the Employer on completion of the project, containing.

- Emergency contact details
- Medical records
- Maintenance records for Machinery and equipment
- Incident investigations reports and notifications thereof
- Annexure 2's (Incident recording forms)
- Material Safety Data Sheets of Chemicals
- Minutes of H&S Committee meetings
- Training Records
- Personal Protective Equipment Records
- Examination & test records of equipment

The above is not an exhaustive list. The Contractor shall add any other documentation that is regarded as reasonable and relevant.

Risk Identified by Design:

At all instances, access to high-voltage apparatus and equipment must be strictly controlled; no person shall carry out work of any description, on any part of high-voltage apparatus, unless:

- those parts are opened and,
- those parts are isolated,
- all practical steps are taken to lock such apparatus off from all live conductors;
- safety tested,
- effectively and adequately connected to earth at all points of disconnection from supply to such apparatus,
- and earthed on both sides of the workplace;
- barricaded (screened off) to prevent danger – warning notices affixed;
- Released for work by the issue of a work permit.

The risk analysis and workers register must be completed in conjunction with the relevant Regulations to safeguard the continuity of supply and obey safety rules and operating regulations.

Risk Identified on site:

Every employee or service provider not authorized shall work under the authority of an authorized person and take reasonable care for the health and safety of him/her and other persons who may be affected by his acts or omissions, and obey the health and safety rules and procedures.

If any situation which is unsafe or unhealthy comes to his/her attention, as soon as possible or practicable, such situation must be reported to the authorized person.

Control must be exercised over system conditions and operating procedures at all times.

Possible risks for the Work at these points:

Before attempting any work at the designated substation or premises, care must be taken that the following steps are carried out:

- Trenches, care must be taken not to be injured in open trenches.
- Electricity: 220VAC points isolated before working on SCADA equipment.

- Open or loose electric wires.
- 132/88kV and 11kV points of operation.
- Ground level: For SCADA and DC projects nobody must leave ground level at any time.

Cardinal Rules:

- Any person who performs any work on the distribution network shall ensure that the network has been opened, isolated, tested and earthed as per the ORHVS. All work must be performed between two visible working earths. This rule shall exclude all work being performed as live work operation.
- Any person who must for any reason perform work higher than two meters above ground level must wear a fall arrest system, and be attached to an anchor point at all times.
- Any person driving a vehicle or being a passenger whilst busy with the performance of their duties will at all times wear the seatbelt provided in the vehicle.
- Any person driving a vehicle whilst busy with the performance of his/her duties will under no circumstances be under the influence of intoxicating liquor or drugs.

East London IDZ

TENDER FOR THE PROPOSAL OF 132/11KV ESKOM LEACHES BAY SUBSTATION 40MVA
CAPACITY UPGRADE

C4 SITE INFORMATION

C4.1 Existing Services

C4.2 Existing Buildings

C4.3 Environmental Restrictions

C4 SITE INFORMATION**C4.1 EXISTING SERVICES**

The Site is Eskom Leaches bay which is an Eskom owned substation. The substation locality can be found on the google link <https://maps.app.goo.gl/fhyo6RopCqjWESLA6>

HV/MV overhead lines, MV/LV Cables and control cables exist within the site and the location of the electricals services are shown on the drawings provided. However, the exact location of the physical service on site may differ in certain instances. The contractor is to ensure that care is taken when excavating or carrying out construction works to ensure that no existing services are impacted during construction. Should there be any discrepancy on existing services on site, the contractor is to inform the project manager of this risk.

In the event of a discrepancy between physical condition and the information on a drawing, the Contractor shall notify the Project Manager immediately. Furthermore, the project manager should be informed immediately if the physical condition found on site is such that there is a deviation from the drawing which requires a change in the design of the works or result in a possible compensation event.

C4.2 EXISTING BUILDINGS

Should the Contractor require drawings of any existing building to enable him to undertake his activities on site, then he shall request these from the Employer's Agent, who will make the necessary arrangements with the ELIDZ or other consultants for the provision of the record drawings for these buildings.

C4.3 ENVIRONMENTAL RESTRICTIONS

Certain areas within the ELIDZ have been designated as "Environmentally sensitive areas". Drawings indicating the location and extent of these areas can be obtained by request from the Engineer. Under no circumstances shall the Contractor enter or use these areas for any purpose whatsoever, without the specific written approval of the Engineer. Please see Appendix B for minimum EMP compliance requirements.
