Provision of Professional Services for Construction Monitoring & Contract Administration of IPTN - C3 Corridor, Work Package 5: Crossroads Construction which includes Culvert Widening and Associated Works, KwaMashu

RESPONSE TO EMAIL QUERIES:

Item	Sender	Query	Response
1	SMEC	Please clarify if CPG partners are to be identified now in our Tender Submission and where such information should be attached.	Yes, these should be included alongside the main Consultant's company details.
2	SMEC	"Proof of Participation/Case Studies and Contact Details of Clients of the relevant projects must also be provided". Will letter of appointments suffice for this?	No, appointment letters will not be considered as project may never have been completed or completed satisfactorily.
3	SMEC	Can a key resource be used in more than one discipline if they have the relevant qualification and experience?	Resources that are specifically marked for 100% utilisation may not be assigned to more than 1 position. Others are at the tenderer's discretion.
4	SMEC	Please see attached email containing letter dealing with the CPG clarifications in terms of "The Preferential Procurement Regulations 2017, regulation 9"	The said letter is being referred to appropriate officials who will address it.
5	Samani	Can you please confirm if this is that the only addendum that was sent out? There are multiple attachments on e-tenders therefore I would just like to verify.	Yes, at this point there is only 1 addendum.
6	Nankhoo	Please can you also advise if resources may be repeated. i.e. can the Employers agent and the Project Manager/ Project Executive be the same person?	Resources that are specifically marked for 100% utilisation may not be assigned to more than 1 position. Others are at the tenderer's discretion.

7	Nankhoo	Regarding the architectural Specialist – the requirement for professional registration on the addendum is Pr Eng or PrTechEng. Is this correct as the architects normally require a PrArch or similar.	Noted. A correction will be issued. Thank you.
8	HHO	What works is included in the R20m budget vs R144m? I need to understand if we only tendering percentage fees for civil and structural engineering or do we include the full team of professionals for the percentage fees?	<p>The R20m budget is for th full team for these services in regard to the <u>station alone</u>:</p> <ul style="list-style-type: none"> • Detailed Design & Drawings • Full Specifications • Detailed Construction Costs • Local & other authority drawings submissions, approvals & reports • Services co-ordination <p>But the supervision for the station is included in the R144m, i.e. don't price separately or additionally for the supervision of the station construction.</p>
9	HNCE	Attendance register for briefing – I presume a blank signature for Employers Rep won't disqualify us?	Yes, this will not disqualify as the meeting was online and non-compulsory.
10	HNCE	a. Wrt the Team (Addendum 1): The weighting sums up to 0,92. Surely this should sum up to 1,0?	Noted. A correction will be issued.
11	HNCE	b. Traffic Officer & COW – the table is blank. I presume no returnables are required in this regard?	Noted. A correction will be issued.
12	HNCE	c. EA & PM – it is my understanding that in addition to being registered with SACPCMP, being registered with ECSA is just an advantage, not a pre-requisite. Please clarify.	For these resources the project management registration is required, and the engineering registration is an advantage.
