

## **Clarification Questions**

### Question

1. We respectfully request that the minimum submission timeline for the project deliverables be extended from four (4) weeks to eight (8) weeks. Due to the technical complexity of the required assessments and the need to conduct fieldwork across multiple regions of the country, the current timeframe appears insufficient to ensure the level of quality and accuracy expected. An extended timeline would facilitate a more thorough, robust, and compliant execution of the scope of work as outlined

### Answer:

Unfortunately, we cannot change the deliverables timelines.
