SCOPE OF WORK

INTRODUCTION TO THE NRF

The National Research Foundation Act, Act 23 of 1998, establishes the National Research Foundation ("NRF") as the juristic person that makes this bid invitation and will contract with the awarded bidder. The Public Finance Management Act classifies the organisation as a Schedule 3A Public Entity.

CONTEXT OF THIS PROCUREMENT

Fraud, corruption, and other unethical irregularities pose significant risks to the NRF's assets, service delivery

efficiency, and organisational reputation. In response, the NRF Board and Corporate Executive Committee remain committed to upholding a culture of ethical behaviour, integrity, openness, and fairness, consistent with the NRF Values.

To strengthen this commitment, the NRF seeks to appoint a qualified service provider to conduct a comprehensive Ethics Risk assessment. The purpose of this initiative is to identify and evaluate ethical vulnerabilities across governance, operations, and service delivery; provide actionable insights to mitigate fraud, corruption, and irregularities; and reinforce accountability, integrity, and transparency at leadership level. By proactively assessing ethical risks, the NRF strengthens its commitment to safeguarding assets, enhancing organisational reputation, and ensuring ethical governance consistent with NRF Values.

- Monitoring and assurance: absence of dashboards, registers, or KPIs to track ethical compliance.
