BID NUMBER: KZN/CRES/07/2021/010/T	

As explained in more detail in the attached SBD 6.1 (BBBEE Preference Points Claim Form) in and as prescribed in terms of the Preferential Procurement Policy Framework Act (PPPFA), Act 5 of 2000 and its Regulations, Respondents are to note that PRASA will award “preference points” to companies who provide valid proof of their B-BBEE status using either the latest version of the generic Codes of Good Practice or Sector Specific codes (if applicable).

Note: Failure to submit valid and original (or a certified copy of) proof of the Respondent’s compliance with the B-BBEE requirements stipulated in this RFP (the B-BBEE Preference Points Claim Form) at the Closing Date of this RFP, will result in a score of zero being allocated for B-BBEE.

5.1 B-BBEE Joint Ventures or Consortiums

Respondents who would wish to respond to this RFP as a Joint Venture [**JV**] or consortium with B-BBEE entities, must state their intention to do so in their RFP submission. Such Respondents must also submit a signed JV or consortium agreement between the parties clearly stating the percentage [%] split of business and the associated responsibilities of each party. If such a JV or consortium agreement is unavailable, the partners must submit confirmation in writing of their intention to enter into a JV or consortium agreement should they be awarded business by PRASA through this RFP process. This written confirmation must clearly indicate the percentage [%] split of business and the responsibilities of each party. In such cases, award of business will only take place once a signed copy of a JV or consortium agreement is submitted to PRASA.

Respondents are to note the requirements for B-BBEE compliance of JVs or consortiums as required by **SBD 6.1** [the B-BBEE Preference Point Claim Form] and submit it together with proof of their B-BBEE Status as stipulated in the Claim Form in order to obtain preference points for their B-BBEE status.

Consolidated BBBEE certificate for Joint Venture is required. As per the implementation guide preferential procurement regulations 2017 pertaining to the preferential procurement policy framework act no 5 of 2000 march paragraph 9 BROAD BASED BLACK ECONOMIC EMPOWERMENT (B-BBEE) STATUS LEVEL CERTIFICATES sub paragraph 9.3 and 9.4 states that:

APPOINTMENT OF PROFESSIONAL SERVICES CONSULTANTS FOR CROSSMOOR CORRIDOR - CROSSMOOR TO HAVENSIDE STATION FOR A FIXED TERM OF 3 YEARS	
BID NUMBER: KZN/CRES/07/2021/010/T	

A trust, consortium or joint venture (including unincorporated consortia and joint ventures) must submit a consolidated B-BBEE status Level Verification certificate for every separate tender.

Note: Failure to submit a valid, original and consolidated B-BBEE certificate for the JV or a certified copy thereof at the Closing Date of this RFP will result in a score of zero being allocated for B-BBEE.

5.2 Subcontracting

As an organ of state, PRASA fully endorses Government's transformation and empowerment objectives and when contemplating subcontracting Respondents are requested to give preference to companies which are Black Owned, Black Women Owned, Black Youth Owned, owned by Black People with Disabilities, EMEs and QSEs including any companies designated as B-BBEE Facilitators¹.

- an EME or QSE;
- an EME or QSE which is at least 51% owned by Black People;
- an EME or QSE which is at least 51% owned by black people who are youth;
- an EME or QSE which is at least 51% owned by black people who are women;
- an EME or QSE which is at least 51% owned by black people with disabilities;
- an EME or QSE which is at least 51% owned by black people living in rural or underdeveloped areas or townships;
- an EME or QSE which is at least 51% owned by black people who are military veterans; or
- a cooperative which is at least 51% owned by black people.

A bid that fails to meet this pre-qualifying criteria will be regarded as an unacceptable bid. Respondents are required to select suppliers to subcontract to from a list that PRASA will make

¹ The Minister of the Department of Trade and Industry has the power to designate certain Organs of State or Public Entities as B-BBEE Facilitators. For example, the South African National Military Veterans' Association (SANMVA) has been designated as a B-BBEE Facilitator. As such they will be treated as having rights of ownership held 100% by Black People, 40% by Black Women and 20% by Black designated groups.

available listing all suppliers registered on the approved database of National Treasury for the required goods/services in respect of the applicable designated groups.

Respondents are required to submit proof of the subcontracting arrangement between themselves and the subcontractor. Proof of the subcontracting arrangement must include a subcontracting agreement.

Respondents are to note that it is their responsibility to select competent subcontractors that meet all requirements of the bid so that their bid is not jeopardised by the subcontractor when evaluated. Respondents are responsible for all due diligence on their subcontractors.

Respondent/s are discouraged from subcontracting with their subsidiary companies as this may be interpreted as subcontracting with themselves and / or using their subsidiaries for fronting. Where a Respondent intends to subcontract with their subsidiary this must be declared in their bid response.

The successful Respondent awarded the contract may only enter into a subcontracting arrangement with PRASA's prior approval. The contract will be concluded between the successful Respondent and PRASA, therefore, the successful Respondent and not the sub-contractor will be held liable for performance in terms of its contractual obligations.

In terms of **SBD 6.1** of this RFP [the B-BBEE Preference Point Claim Form] Respondents are required to indicate the percentage of the contract that will be sub-contracted as well as the B-BBEE status of the sub-contractor/s.

SECTION 2

BACKGROUND OVERVIEW AND SCOPE REQUIREMENTS

1 INTRODUCTION AND BACKGROUND

PRASA intends activating passenger railway services within the subject corridor. This is part of the national Priority Corridor Recovery initiative of PRASA RAIL. Part of this initiative is to ensure that immovable railway infrastructure is in good working condition during the service reactivation process.

This document serves a submission for request for proposal for the appointment of a multi-disciplinary team of consultants. On a three-year fixed term contract. The appointed contract will be expected to provide stage 1 up to stage 6

The identified projects cover National Station Improvement Programme (NSIP), National Station Upgrade Programme (NSUP) and Work Place Improvement Programme (WPIP).

The tenderers are individually and randomly expected to familiarise themselves with the different stations and workplaces, as the subject stations and workplaces vary in characters, size, state of decay, and the general extent of rehabilitation/restorations.

1.1 STATUS QUO

The passenger railway services offered by PRASA at the subject corridors are not at par with the normal operations of passenger rail service. The railway infrastructure at these facilities has been rendered functionally obsolete due to the acts of vandalism that occurred over the past three years. PRASA infrastructure such as railway tracks and related overhead track equipment, ticket office buildings, platform surfaces, lighting equipment, ablution facilities, retail/commercial facilities, parking, etc. has been damaged beyond use.

PRASA CRES strategy has pointed to a need for rapid development of the Rail Top Priority Corridors, in line with the Service Resumption and the Infrastructure Investment and Development in these Corridors.

FOR A FIXED TERM OF 3 YEARS

BID NUMBER: KZN/CRES/07/2021/010/T

Vandalized and ageing infrastructure must be refurbished and upgraded, while PRASA CRES has to provide capacity ahead of demand; as well as rehabilitate its Workplaces (in line with the WPIP Capital Expenditure). This necessarily creates a need for increase capacity and resources to deliver within a 3 year-period for property investments that have not been made.

The submission of the Kwa Zulu Natal Region, request the CFST to consider and approve a multi-disciplinary team of consultants to the above mentioned consultancy or professional services to the Crossmoor corridor , defined as including 5 National Station Improvement Programme (NSIP) from Crossmoor station to Havenside station and 1 Work Place Improvement Projects (WPIP) at Crossmoor station.

1.2 PROBLEM STATEMENT

PRASA has identified the 15 priority Rail corridors where stations and facilities have been vandalised and is in need of quick and timeous rectification of these stations.

The 15 corridors (including KwaZulu Natal Region) are as below:

4.2 PROJECT BENEFITS TO PRASA

PRASA will have access to consortium of professional, qualified and registered service providers to assist in adding the capacity required to execute the service resumption projects for the region.

The required resources will be available to PRASA from the beginning of the project to the completion of the project to ensure consistency of design and implementation through the projects within specific corridors.

PRASA will benefit by refurbishing and upgrading various stations with the subject corridor to regain the functionality. As the outcome of the refurbishment process, the functionality of the railway stations will be restored, hence stations will be operable.

APPOINTMENT OF PROFESSIONAL SERVICES CONSULTANTS FOR CROSSMOOR CORRIDOR - CROSSMOOR TO HAVENSIDE STATION FOR A FIXED TERM OF 3 YEARS	
BID NUMBER: KZN/CRES/07/2021/010/T	

PRASA will benefit from the appointment of consortiums for the refurbishment and upgrade as this position is premised on the concepts of cost-effectiveness, productivity, improvement, efficiency, and employee well-being through the quality of the work environment. Cost effectiveness is to be achieved through the economies of scale where PRASA appoints a consortium for multiple stations within the corridor instead of stand-alone projects with multiple teams. There are therefore reduced costs benefits from a cost perspective in this case.

PRASA will ultimately benefit in improving the values of the assets under management.

PRASA will achieve its primary mandate of offering a railway service. In the process, the secondary mandate of generating income out of the properties through retail/commercial offerings at the stations would see PRASA reap the benefits of positive spin-offs from the subject approach. The retail/commercial package could lead to a new brand of station retail facilities that serve the commuters and the communities close to the stations.

4.3 CURRENT MECHANISMS TO ADRESS THE PROBLEM

Planned and emergency facility management as per PRASA CRES operational budget and operational procedures cannot assist in the reinstatement of the railway service adequately, even though some of the budget is allocated under the Capital Intervention Programme (CIP) Programme for the current MTEF period. The maintenance required to keep the stations within the subject corridor operational is mounting due to the age of the station facility, in some cases inadequate due to vandalism that took place at the stations within the subject corridor. Furthermore, the PRASA CRES Facilities Management operational budget is faced with challenges. This trend was exacerbated in the 2020/2021 financial year with the Facilities Management budget exhausted halfway through the financial year. At the moment only safety critical items are repaired and maintained. Even with this approach the scale of the vandalism at the stations renders the repair of safety critical items approach invalid.

2 OVERVIEW

PRASA seeks to benefit from this partnership in the following ways:

- 2.2 PRASA must receive reduced cost of acquisition and improved service benefits resulting from the Service Provider's economies of scale and streamlined service processes.
- 2.3 PRASA must achieve appropriate availability that meets user needs while reducing costs for both PRASA and the chosen Service Provider(s).
- 2.4 PRASA must receive proactive improvements from the Service Provider with respect to provision of Services and related processes.
- 2.5 PRASA's overall competitive advantage must be strengthened by the chosen Service Provider's leading edge technology and service delivery systems.
- 2.6 PRASA end users must be able to rely on the chosen Service Provider's personnel for service enquiries, recommendations and substitutions.
- 2.7 PRASA must reduce costs by streamlining its acquisition of Services, including managed service processes on a Group basis.

3 KEY OBJECTIVES OF THE RFP

This RFP has been prepared for the following purposes:

- 3.2 To set out the rules of participation in the bid process referred to in this RFP.**
- 3.3 To disseminate information on the project contemplated in this RFP.**
- 3.4 To give guidance to bidders on the preparation of their RFP bids.**
- 3.5 To gather information from bidders that is verifiable and can be evaluated for the purposes of appointing a successful bidder.**
- 3.6 To enable PRASA to select a successful bidder that is:**
 - a) technically qualified and meet the empowerment criteria described in this RFP;
 - b) Carry all the obligations of the Contract.

FURTHER DETAILS ON THE SCOPE OF WORK

The consortiums must consider the following aspects of the work required:

- a) In carrying out the design of the various facilities, the consortium shall take due consideration of the passenger/customer journey through the application of Service Design principles. It is imperative to consider the passenger journey in both directions. The journey should consider the use of all possible modes of transport that passengers use to access the stations complex. The passenger journey shall include entry into the station complex through to boarding the train. An analysis of a reverse journey that starts from alighting from the train and entering the station complex from an operational area to the exiting the station complex. The various modes of transport shall be considered when designing the pick-up points, car park, Non-Motorised Transport (NTM) parking zones, walkways, staircases, lifts, escalators, ramps, etc. where necessary. An analysis of the passenger journey that includes customer pain points would be made to provide inputs into the designs that addresses customer requirements.
- b) An analysis of station management services at the station is required. This would assist the design team in understanding the front and back of the house services that PRASA RAIL performs

for the benefit of the customers/passengers. The staff pain points need to be clearly documented for analysis when finding an optimum design solution for the station complex.

- c) The consortium shall be responsible for all specialist services when and as required such, but not limited to, retail study, pedestrian modelling, land survey, etc.
- d) Where retail/commercial facilities are part of the designs, such need shall be justified through the retail study conducted by the consortium or their specialist service provider.
- e) Pedestrian modelling shall be done to ensure that designs comply with evacuation requirements, comply with the level of service for specific stations.
- f) Passenger statistics shall be based with the latest closest statistics conducted when passenger railway services were performing at its best. The reason this approach is that due to COVID-19 pandemic and vandalism on railway infrastructure, the railway service has dwindled recently.
- g) The consultants are to consider the areas covered in Section 4.4 below when designing a station complex.
- h) The consortium shall take due consideration to create a LOOK AND FEEL based for a specific corridor based on commercial, residential, industrial, educational, cultural, historical, or related context of the specific corridor.
- i) The consortium shall prepare a model station complex based on the approved concept designs for each station within the corridor.
- j) Price for professional services must be presented in a **fixed fee, stage-gate design approval approach.**
- k) PROFESSIONAL FEES shall include all related specialist studies, such as retail study will be covered under retail specialist fees, land survey under land surveyor fees, etc.
