Project allocation

The successful bidders will be invited for close competitive bidding (Two-stage evaluation: Mandatory requirements and price and preference points) for all infrastructure procurement operations over the three-year period on "as and when" basis.

SELECTION STRATEGY

This Selection Strategy sets out how the IDT Western Cape Region will manage the CDP panel once bidders have been appointed, including how projects will be assessed, how Requests for Quotation (RFQs) will be issued to panel members, how risk will be managed, and how contracts will be awarded to meet project and business goals.

- Needs identification and complexity assessment: Prior to releasing a project, the IDT Western Cape Region will assess the scope, estimated value, technical complexity, and risk profile of the project to determine the appropriate CIDB grading cluster(s) (2GB PE, 3GB PE, 4GB PE or 5GB) on the panel from which quotations will be sought.
- Issuing Requests for Quotation (RFQs): Panel members within the applicable cluster and locality will be invited to submit quotations for the specific project through an RFQ process, issued on a rotational and/or close competitive bidding basis as set out under Project Allocation.
- Two-stage evaluation of RFQ responses: Quotations received in response to an RFQ will be evaluated in two stages. Stage 1 – Mandatory Requirements: the bidder's submission will be checked against the mandatory requirements applicable at the time of the RFQ, including the resubmission of any mandatory documents that have since expired (such as tax compliance status, CIDB registration, CSD registration, and other statutory or compliance documents with a limited period of validity). Only bidders who comply with all mandatory requirements will proceed to Stage 2. Stage 2 – Price and Preference Points: quotations from bidders who passed Stage 1 will be evaluated on price and the applicable preference points, in line with the panel allocation criteria and IDT Specific Goals set out in this document, to determine the bidder offering the best value to the IDT.
- Risk management: The IDT will monitor the performance, financial capacity, and continued compliance status (including tax compliance, CIDB registration, and CSD registration) of panel members throughout the three-year contract period, and reserves the right to withhold further RFQs from, or remove from the panel, any bidder found to pose an unacceptable risk to project or business delivery.
- Award of contracts: The contract for each project will be awarded to the bidder whose quotation best meets the specific project and business goals of the IDT, taking into account price, functionality, preference points, and the IDT Specific Goals (women, youth, people with disabilities, and black people ownership).
- Monitoring and review: This Selection Strategy will be applied consistently for the duration of the panel period and may be reviewed and updated by the IDT Western Cape Region as operational requirements evolve.
