

SCOPE OF WORK FOR CENTRAL GRID OPERATING GEAR

Supply and delivery of operating gear for a period of 36 months in Central Grid as and when required. The Equipment includes but not limited to the following:

1. Telescopic sticks
2. Silicone cloths/wipes
3. Link stick bags
4. 6-meter 20kA earths
5. 8-meter 20kA earths
6. 12-meter 20kA earths
7. Solid Link sticks
8. SNATCH BLOCKS- Block with forged steel hook
9. Phase to Earth jumper of 16mm² flexible copper with yellow translucent PVC with earth clamp on one end and a phase clamp screw on, on the other end 9m
10. Polypropylene Rope
11. "SNATCH BLOCKS -Hand Line Block,
12. Safety Orange (PSC4033478)"
13. 16mm² Earths 10m
14. 40mm² Earths 12m
15. 95mm² Earths 8m
16. 22kV single voltage – high voltage tester
17. 33kV single voltage – high voltage tester
18. 88kV single voltage – high voltage tester
19. 132kV single voltage – high voltage tester
20. 275kV single voltage – high voltage tester
21. 400kV single voltage – high voltage tester
22. Triangular telescopic link stick – 8m, 12m and 15m (rated to 132kV)
23. Round solid link stick, 5 pieces of 1,2m, total length 6m (rated to 400kV)
24. Round solid link stick, 3 pieces of 2,5m, total length 7.5m (rated 765kV)

- 25. Barricading Nets
- 26. 6m Portable Earth
- 27. 4m 20kA control earths
- 28. 8m 5kA induction earths
- 29. 6m 3kA capacitor discharge earths
- 30. TELESCOPIC DISCONNECT TOOLS (H-C4031599)
- 31. Applicator Head Control Earth Sub Station (10-20kA)
- 32. Transmission Voltage Detector TAG-330 Single Range (135 to 500kV)
