Sasria's liabilities drive the determination of its investment strategy and strategic asset allocation (SAA). As a short-term non-life insurer, Sasria's goal is to ensure that its insurance obligations are fulfilled whilst maintaining financial soundness.

Sasria's investment strategy is to invest in assets that match its liabilities. The strategy requires that there is sufficient cash and cash equivalents to cover technical requirements, and money market exposure to cover the Economic Capital Requirement (ECR); and invest the balance of assets in the protected Equity instruments, hedge funds and infrastructure funds. The money market instruments backing the ECR will be split between managers who are allowed to hold assets that have a maturity of up to 13 months, and managers that are allowed to hold assets that have a maturity of up to 24 months.

As part of the money market exposure, Sasria also runs an incubation programme of black-owned asset managers. Sasria is expected to grow assets under management to R30bn over the next 4 years. Sasria is expecting to allocate an initial allocation of approximately R800m each to two passive equity managers. By 2028, it is expected that Sasria will have approximately R3bn in passive equity exposure. Therefore, this RFP seeks to appoint 2 passive equity asset managers.
