2.3 National Industrial Participation Programme

In line with DTI requirements on important content that are above \$5million, the National Industrial Participation Programme has to be applied in order to stimulate local manufacturing capability and job creation. International manufacturers have to commit to a minimum thirty percent local participation programme through formalized DTI NIPP obligations agreements. Therefore, in line with NIPP requirements, once the contract is awarded, the international company has to complete SBD 5 form as an undertaking to DTI.

Note: The above NIPP obligation will apply only if the foreign portion is equivalent or more than the stipulated minimum threshold of \$5 million. Suppliers will be encouraged to indicate or declare how much local manufacturing / procurement spend amounts to in this transaction. In an event where the foreign content does not exceed the NIPP threshold of \$5 million, the normal SDL&I targets of skills development, Subcontracting and job creation will be applied.

2.4 Mandatory Subcontracting as condition of award

Mandatory subcontracting where feasible on contracts above R30 Million as a condition for contract award.

The successful tenderer must subcontract a minimum of 30% of the value of the contract where feasible to one or more of the following:

- i. An EME or QSE which is at least 51% owned by black people.
- ii. An EME or QSE which is at least 51% owned by black people who are youth.

Tender Returnable if the above element is a requirement.

- Proof of a sub-contract agreement/s must be submitted.

- Sub-contractor/s B-BBEE certificate / sworn affidavit must be submitted.

Subcontracting, in this instance, will be treated as a condition for contract award. A supplier awarded a contract may not subcontract more than 25% of the value of the contract to any other entity that does not have an equal or higher B-BBEE status level of a contributor than the supplier concerned unless the contract is subcontracted to an EME that has the capability and ability to execute the subcontract.

NB: The 30% subcontracting, of which the main contractor has to fulfil/comply with during the execution of the contract.

Section 3: SDL&I Objectives in line with Reconstruction and Development Programme (RDP) Goals
