Introduction

This communication serves to provide clarity and address all concerns and issues raised by bidders for the above-referenced tender.

1. Criterion B2.1

Query:

Should the Environmental Assessment Practitioner be registered with SACNASP in addition to EAPASA, or will registration with EAPASA be acceptable?

Response:

EAPASA registration for the EIA and WULA approvals is acceptable. However, please note that all Borehole Reports (Feasibility, Drilling, and Testing) must be prepared and signed off by a SACNASP-registered professional.
