1. INTRODUCTION

This document has been developed to set the standard technical evaluation criteria to be used when evaluating the tender submissions. This covers the technical evaluation for the supply and delivery of PPE accessories for Eskom and its Subsidiaries.

This document contains the evaluation criteria to be used for evaluation of PPE accessories tender.

2. SUPPORTING CLAUSES

2.1 SCOPE

SUPPLY AND DELIVERY OF PPE ACCESORIES TO NORTH WEST OPERATING UNIT AS AND WHEN REQUIRED.

The scope of work for PPE accessories is specified in the Eskom PPE specification, document 240-44175132. Sustainability division compiled the specification.

The scope of work includes items listed in page 41 Annexure A of this document.

This will include LV gloves that should conform to the following specifications:

GLOVE, ELECTRICAL: POTENTIAL: 1000 V; SIZE: 6 - 12; LENGTH: 350 MM; MATERIAL: PROTERA ATPV 8 CAL/CM2; COLOR: KHAKI; CUFF: CLUTE; TYPE: ARC FLASH; CLASS: 2

240-171000546.pdf

2.2 NORMATIVE/INFORMATIVE REFERENCES

Parties using this document shall apply the most recent edition of the documents listed in the following paragraphs.

2.2.1 NORMATIVE

- [1] ISO 9001 Quality Management Systems.
- [2] ISO 45001:2018 Management Systems: Occupational Health and Safety
- [3] 240-44175132: Eskom Personal Protective Equipment Specification
- [4] SANS 416: Chemical resistant gloves
- [5] SANS 1362: Sewing threads
- [6] SANS 1387-4,6,7: Woven cotton similar apparel fabrics. Also see if part 1,8,9,11 is relevant and part 3
- [7] SANS 1397: Industrial safety helmet
- [8] SANS 1400: Equipment (Including oculars) for eye, face and neck protection against non-ionizing radiation arising during welding and similar operations-welding helmets, hand shields, goggles and welding spectacles
- [9] SANS 1404: Eye protectors for industrial and non-industrial use
- [10] SANS1423-1: Performance requirements for textile fabrics of low flammability
- [11] SANS 1451-1: Hearing protectors' part 1 earmuffs
- [12] SANS 1451-2: Hearing protectors' part 2 ear plugs
- [13] SANS 1451-3: Hearing protectors' part 3 earmuffs attached to an industrial safety helmet

- [14] SANS 1822: Slide (zip) fasteners
- [15] SANS 10101: Standard nomenclature for stiches, seams, and stitching

- [29] 32-599: STANDARD PROCUREMENT AND SUPPLY CHAIN MANAGEMENT

2.3 DEFINITIONS

Accessories	Accessories are articles such as belts and scarves which you wear or carry but which are not part of your main clothing.
Material	Fabric or other substance from which the garment is made; this may consist of a single or multiple layers.
Personal Protective Equipment	All items, including head, face, neck and chin protection, eye protection, hearing protection, body protection, hand and arm protection, foot and leg protection, that is intended to protect a person against the thermal hazards of an electric arc.
Live Work	Maintenance, repair, building, and construction work carried out on live and operational apparatus using approved methods and equipment as specified.

2.4 DISCLOSURE CLASSIFICATION

Controlled Disclosure: Controlled Disclosure to external parties (either enforced by law, or discretionary)

2.5 ABBREVIATIONS

Abbreviation	Description
ISO	International Organization for Standardization
NWOU	North West Operating Unit
PPE	Personal Protective Equipment
SANS	South African National Standard
SHEQ	Safety Health Environmental and Quality
LV	Low Voltage

2.6 RELATED/SUPPORTING DOCUMENTS

PPE specification, document 240-44175132

3. EVALUATION CRITERIA

The aim of the technical evaluation is to establish the capability of tenderers to supply good quality PPE that complies with the relevant statutory requirement, local and international standards and with Eskom requirements and Specifications.

Technical evaluation will be done in two phases, the first phase will be a Desktop evaluation and second phase will be warehousing and sample evaluation.

In the first phase bidders are required to complete and return the PPE category document attached (Annexure A) confirming that the bidder can supply all the PPE listed. If the bidder cannot supply all the products, the bidder will not be evaluated in the second phase. A letter of support from the local manufacturer confirming that they will be the bidder 's supplier for all designated products. Bidders will be required to submit applicable standard compliance certificate (e.g., SANS,EN,CE,ANSI) and test certificates (where applicable) for the products.

The second Phase will be conducted in a centralized place organized by Eskom to confirm that their products (sample evaluation) indeed comply to the Eskom specification and SABS requirements. The bidder needs to prepare each product/s technical data sheet for evaluation.

4. REQUIREMENTS

Phase 1: DESKTOP EVALUATION

Tenderers are required to return the following:

- Test and/or standard compliance certificates for relevant products tendered for as per Eskom PPE specification.
- Completed Annexure A. clearly stating the category they will be supplying, also confirmation that their products comply with the Eskom PPE specification.
The evaluation will be per category. This means that the bidder must apply for all the products in the respective category as per Annexure A they are tendering for to be considered.
- Letter of support from the manufacturer for all designated products.

Phase 2: SITE EVALUATION

- Prepare samples for the products to be evaluated during the site visits.
- Product technical data sheet. Suppliers should provide data sheets for all items (Where applicable).

- The site/product evaluation will be conducted in a centralized place organized by Eskom.

The Eskom Technical Evaluating team will inspect the samples provided for compliance with the Eskom's PPE Specifications.

NOTE: Should the tenderer have a product that is not the same as specified in the Eskom PPE specification but can perform according to or better than the one specified, they must list it in the deviation schedule.

4.1 PHASE 1: DESKTOP EVALUATION

Phase 1 Mandatory requirements

Note: This phase is done to confirm information submitted during the first phase.

Required documents	Requirement Breakdown	Submitted Yes / No
Test and/or standard compliance certificates	Manufacturer's Test and/or standard compliance certificates per item supplied (Where applicable)	
Letter/s of Support from the Manufacturer attached	Letter of good standing/ agreement with manufacturer	
Annexure A completed	Bidder must apply for all the products per category they will be tendering for	

1. Phase 1 Evaluation Criteria

Note: This phase is done to evaluate the capability of the supplier to provide the required PPE.

Evaluation Criteria	Weighted Score	Score Breakdown	Total Score
Completed and Signed Annexure A	20%	No Annexure A – 0% Annexure submitted, but not completed and signed off – 5% Complete, signed Annexure A – 20%	
PPE Technical data sheet (Tenderer to supply technical data sheets only for PPE tendering for) Evaluated according to the Eskom PPE Specification 240-44175132.	40%	Technical data sheet submitted for 80%-100% of products in tendered category - 40% Technical data sheets submitted for 60%-80% of products in tendered category – 30% Technical data sheets submitted for 40%- 60% of products in tendered category – 20% Technical data sheets submitted for 20% -40% of products in tendered category- 10% Technical data sheets submitted for less than 20% of products in tendered category– 0%	
Proof of the tenderer being a Distributor of Manufacturer for PPE (Distributors should submit a written agreement with manufacturer, manufacturers need to submit proof of accreditation)	20%	Manufacturer with proof of accreditation: 20% Distributor with written agreement with manufacturer: 20% Manufacturer without accreditation: 10% Distributor without written agreement: 10% Nothing submitted – 0%	
Transport Proof of ownership of Vehicles. OR (Contract) Hire Letter OR Courier agreement letters to be included if vehicles will be hired.	20%	Proof submitted for 1* Bakkie – 10% Proof submitted for 2* Bakkie - 20%	
Total	100%		
Minimum Threshold	80%		

ANNEXURE A

NB: To be completed and sent back as part of the tender documents.

Annexure A must be completed as per PPE BOQ

Evaluation Criteria	Company Name	Company Score	Weight
Technical Data sheets (Where applicable) – Sample manufactured according to applicable standards e.g., SANS, EN etc. & complying with the Eskom PPE specification			20%
Samples for category tendered for			70%
Letter of support from the manufacturer to supply products. (only for Distributors) OR			10%
SABS certification (only for Manufactures)			10%
Total			100%

Score Threshold Card		
The supplier is disqualified due to none compliance to the requirements	0% - 74%	FAIL
The supplier can be awarded provided that they make changes required to comply to the requirements.	75% – 99%	Possible
The supplier completely complies with the requirements and are qualified	100%	

Should the evaluation results be less than four successful suppliers per category suppliers who have obtained 99-75% respectively afterwards will be requested to attend to the outstanding matters. The evaluation team will consolidate the report and supplier's will then be re-evaluated only once for verification within two weeks of communication.

Important:

- Annexure B (Sample evaluation criteria) will be used by the Eskom evaluation team to assess the products during sample evaluation; it should not be completed and returned as part of the returnable.
- The evaluation will be for each product listed in Annexure A.

4.3 ANNEXURE C: DEVIATION SCHEDULE

DEVIATION SCHEDULE

Any deviations from the stipulated specification shall be listed below with reasons for deviation. In addition, evidence shall be provided that the proposed deviation will at least be more cost-effective than that specified by Eskom. The deviation schedule is to be completed by all tenderers

Item	Clause	Proposed deviation

SIGNATURES

Supplier

Name (Print)

Sign

Date

5. TECHNICAL EVALUATION

The Technical Evaluation will include but not limited to: Desktop Evaluation of Technical returnable, Compliance with Gatekeepers, Site visits to Supplier/Manufacturer's' premises.

The assessment will follow documented supplier capability and capacity assessment criteria as shown in Annexure A and Annexure B. These criteria are intended to assess the technical capabilities of the supplier and the service offered for tenders to ensure it meets the tender requirements:

Points will be allocated per submission with regards to annexure:

NB: The tenderer must submit documents in line with the PPE list

6. REVISIONS
