1. SCOPE OF WORK

1.1. DESCRIPTION

South Africa is a water stressed country, and its water resources are under tremendous pressure from a growing population, on-going development, climate change, pollution, and other human impacts. To protect and conserve our valuable water resources in South Africa, water conservation and demand management is crucial. The wise use of water is vital to ensure the sustainability of water supply. Water Wise is Rand Water's education brand. The role of Water Wise is to increase awareness of the need to value water and use water in a wise manner, in terms of quantity and quality. Rand Water's Water Wise Education Team (WWET) offers edutaining (educational and entertaining) programmes, roadshows, and educational material (books, posters, brochures, etc.) for use by schools and the public. Educational programmes, roadshows and material are in line with the school curriculum and the United Nation's Sustainable Development Goals. Education for Sustainable Development is key to create Water Wise South African citizens. Educational programmes offered by the WWET aim to change people's attitude and their behaviour. Programmes teach people to become more sustainable in their everyday use of water. Different methodologies are needed to educate people and to ensure positive social behavioural change in the use of water. Roadshows have been an effective methodology in teaching school children and adults. Water Wise has six (6) meanings which are used as a foundation for Water Wise educational programmes (Figure 1).

Figure 1: The six meanings of being Water Wise, which is the foundation of the Water Wise message.

Since October 2023, Rand Water has had an external supplier who developed two 30-minute roadshows (one aimed at Foundation Phase and the other aimed at Intermediate Phase learners). The service provider has been performing the roadshows in the field (at schools). Rand Water needs an external supplier to continue with the project from October 2025 to June 2028. The project will entail the following:

OCTOBER 2025-DECEMBER 2026 (15 months)

- * Performance of the existing Water Wise theatrical roadshows for Foundation and Intermediate phase learners. The team to comprise four staff, three staff with acting skills and high energy levels, and one support staff member (coordinator) that manages the logistics and resources required to implement the roadshows (e.g. sound system, props, transport, etc). Staff need to perform the roadshows in a professional manner upholding Rand Water's and Water Wise's high-quality standard and be able to manage different crowds.
- * The actors play different roles in the roadshows, with one actor to perform as Manzi, Rand Water's Water Wise tapdick (in the form of a puppet that has a voice in the show - Photos 1-4). Apart from performing the roadshows that is aimed at learners becoming aware/educated on various aspects of water, the staff will be required to dance two songs (one for Manzi's introduction and one at the end that focuses on the 6 meanings of being Water Wise) (Figure 1).
- * The ability of the interested bidders to meet the following PRE-REQUISITES will be assessed as part of awarding the contract:
 - * As and when required, to make/propose improvement changes to the existing performances/script.
 - * As and when required, adapt props and introduce new props in line with the changed/improved scripts.
 - * Practise the changes/improvements and introduce them into the roadshows.
 - * Advertise the roadshow to public and private schools and secure bookings according to the Department of Education requirements. (Rand Water will also provide contacts when requests are received from schools. Certain areas may also need to be concentrated on according to Rand Water's needs.)
- * Perform 150 performance during the period October 2025-December 2026 (15 months) in the following Gauteng municipal areas: City of Johannesburg, City of Tshwane, Ekurhuleni, Emfuleni, Lesedi, Merafong City, Metsimaholo, Midvaal, Mogale City and Rand West City, with a distribution of performances across the different municipalities.
- * The roadshow team needs to attend a full day training session with Rand Water that includes a visit to the Vaal Dam and Rand Water's water treatment works in Vereeniging.
- * Please allow for the training of any new actors during the period of the project.

Photos 1-4: Manzi and the actors on stage

* Development of two new Water Wise Roadshows, one aimed respectively at the Foundation Phase learners and one at the Intermediate Phase learners, both approximately 25-30 minutes long. This part of the scope of work to include:

- Development of scripts, props, costumes, choreography, etc.
- Development of two new songs, one for Manzi and one Water Wise song. The songs must be applicable to the target audiences. The Manzi song should be a short introductory song for Manzi to come onto stage. The Water Wise song should be a 2- 3-minute song that covers the 6 meanings of being Water Wise. Both songs need dance choreography that the learners will enjoy and be able to participate in.

- Training of the actors to perform these roadshows.

* Rand Water is open to any new modern ideas to develop and implement the roadshows, as the above is just a suggestion.

* Interested bidders will be assessed against their experience in developing choreographed roadshows.

FEBRUARY 2027 - JUNE 2028 (15 months, which excludes December 2027 and January 2028)

* Performance of the new Water Wise roadshows for Foundation and Intermediate phases with four staff, comprising three energetic actors and one support staff member (coordinator) that manages the team and resources / logistics required to implement the roadshows (e.g. sound systems, props, transport, etc).

* Advertise the roadshow to public and private schools and secure bookings according to the Department of Education requirements. (Rand Water will also provide contacts when requests are received from schools. Certain areas may also need to be concentrated on according to Rand Water's needs.)

* Perform 150 roadshows for the period February 2027-June 2028 (15 months) in the following Gauteng municipal areas: City of Johannesburg, City of Tshwane, Ekurhuleni, Emfuleni, Lesedi, Merafong City, Metsimaholo, Midvaal, Mogale City and Rand West City, with a distribution between the different municipalities.

GENERAL REQUIREMENTS FOR THE PROJECT

* The team must consist of a coordinator to oversee all the logistics of the project i.e. bookings, team management, props, music, etc.

* The bidder needs to perform their own administration related to appointment and remuneration of staff, etc.

* Performances at schools should not be repeated in each of the 18-month cycles.

* Market the roadshow to appropriate schools and areas, including both private and public schools.

* Regular promotion of the roadshow through the supplier's social media platforms. (Please ensure that the photos used have the necessary permission.)

- * All the changes and new scripts need to be approved by Rand Water's project manager before they can be finalised.
- * All branding, songs, scripts and props will be Rand Water's copyright and at the end of the project, the service provider will be legally obligated to give them to Rand Water.
