**Financial Analysis:**

- An analysis of the tenderers latest valid financial statements will be conducted for the purposes of establishing the tenderers financial viability and ability to meet all of its contractual obligations for the duration of the contract, should the tenderer be recommended for contract award.
- The outcome of a financial analysis of the supplier's financial statements is an objective criterion that must be conducted as a due diligence and risk mitigation step as a pre- requisite to contract award. This is required to determine if the supplier is financially stable enough to execute a contract/order of the magnitude to be awarded.
- To the extent that such risks are identified as part of the analysis of the financial statements, a risk mitigation strategy must be included as part of the recommendation. If the risks cannot be mitigated to ensure performance against the contract, the contract may have to be awarded to another supplier, which may not be the highest ranked.
