PANEL OF EXPERTS FOR DBSA INTERNAL AUDIT

2024 - 2028

1. Background

The Development Bank of Southern Africa (“the DBSA” or “the Bank”) is a Development Finance Institution (“DFI”) wholly owned by the Government of the Republic of South Africa (“the shareholder”), with a mandate to finance infrastructure projects across Africa. This is achieved primarily through preparation, funding, and delivery of infrastructure projects in the markets within which the Bank operates.

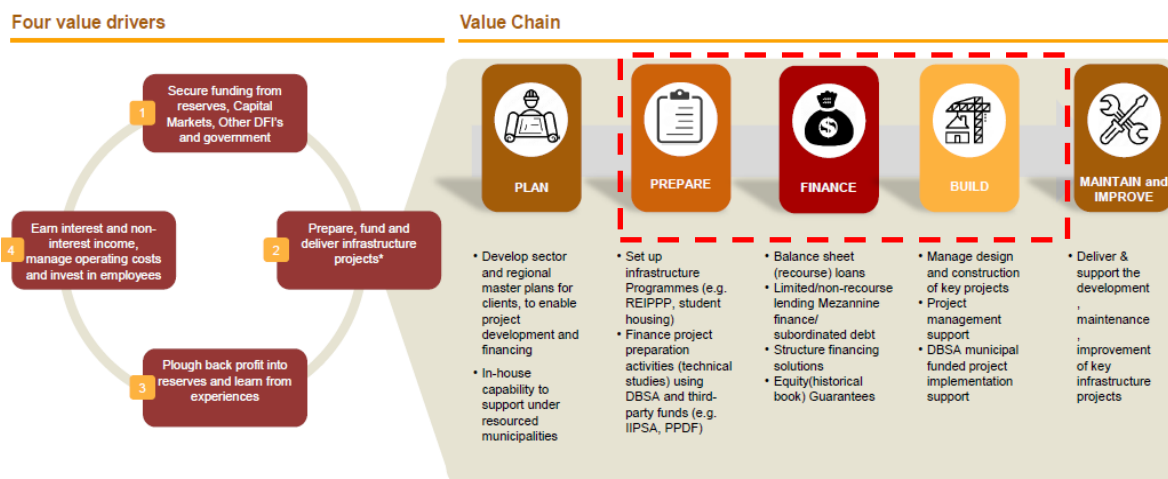

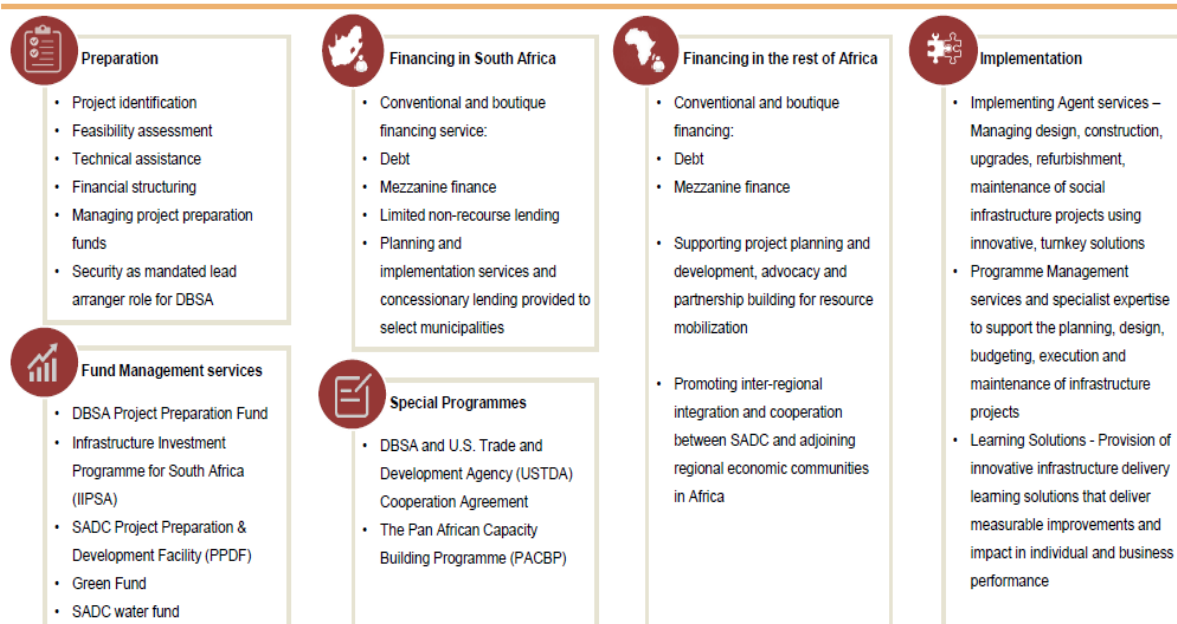

Figure 1: Primary focus areas of the DBSA

DBSA primarily plays a key role in the preparation, funding and building phases of the infrastructure development value chain. The diagram below illustrates the various services as well as the key target markets per value chain segments.

List of DBSA products and services

1. Background

The DBSA Internal Audit Unit is obliged in terms of the *International Standards for the Professional Practice of Internal Auditing (Standards)* to ensure that engagements are performed with proficiency and due professional care. In other words, internal auditors must possess the knowledge, skills, and other competencies needed to perform their individual responsibilities. The internal audit activity collectively must possess or obtain the knowledge, skills, and other competencies needed to perform its responsibilities.

Furthermore, the Standards require that the chief audit executive must obtain competent advice and assistance if the internal auditors lack the knowledge, skills, or other competencies needed to perform all or part of the engagement.

For a variety of reasons, appropriate internal audit, forensic audit and cyber forensic resources, may be scarce or unavailable in certain situations. Whether selected as a temporary alternative or permanent solution, outsourcing may be necessary to acquire competent internal auditors and forensic audit resources as well as cyber forensic resources in order to timely and professionally perform internal audit, forensic auditing and cyber forensics reviews. Common reasons include temporary staff shortages, specialty needed skills, coverage of remote business locations, special project work, requirement for independent reviews such as forensics and supplemental staff to meet tight deadlines. Also, small organizations may find it necessary to explore outsourcing due to the inability to hire permanent or fulltime internal auditors and forensic audit resources as well as cyber forensic resources.

2. Current Situation

The Development Bank of Southern Africa (DBSA), Internal Audit Services Business Unit as the sole service provider of Internal Audit Services in the DBSA, requires assistance in relation to a co-source and/or outsourcing arrangement in respect of selected assignments as well as secondment of staff that may arise over a period of five years commencing in 2024. The assistance will be required to complement the capacity of the DBSA's Internal Audit unit to render the required Internal Audit Services to the Bank in the following services:

- Accounting services;
- General audits;
- Due diligence and feasibility reviews;
- Procurement reviews;
- Construction reviews;
- Forensic audits and investigations, including legal advice;
- Cyber Forensics;
- Information system audits and IT consulting services;
- Cyber security reviews;
- Credit Models reviews;
- Treasury reviews;
- Institutional audits;
- Income Tax, VAT and other Tax;
- Compliance management reviews;
- Risk management reviews;
- Consulting services; and
- Digital Forensic laboratories.

Forensic Services have increased drastically and are required to be done at short notice. The Bank has taken on a number of Infrastructure related National Mandates to assist the government in the implementation of its national priorities.

3. Objectives of the co-sourcing and outsourcing of internal audit and forensic services

The objective of co-sourcing and outsourcing of internal audit services is as follows:

- To obtain the required services by awarding audit assignments in full or obtaining seconded staff from service providers as and when the need arises;
- Use outside service providers who are qualified in disciplines such as accounting, auditing, economics, finance, statistics, information technology, taxation, law, environmental affairs, geotech and civil engineers, quantity surveyor's, architects, environmental auditors and such other areas as needed to meet the Internal Audit Services to the Bank in the above-mentioned services:

4. Scope of Work

The scope of work will be defined per project as the need arises to either outsource or co-source these.

5. High Level Expected Deliverables, Outputs and Outcomes

The high-level deliverables include the following but are not limited to:

- The service provider must be able to conduct the requisite reviews in accordance with the IIA standards and timelines provided by the DBSA Chief Internal Auditor (CIA);
- When reviews commence the objectives, scope, budgeted timelines and deliverables will be agreed upon with the CIA;
- The service provider will be fully responsible and accountable for full management and quality control of the review and the team;
- The service provider will produce engagement and planning documents, complete and accurate work papers and quality draft and final reports; and
- These reviews will be conducted virtually and onsite where necessary, as the DBSA has implemented a hybrid Work-from-home policy, and two days in a work week is compulsory at our offices located at 1258 Lever Road, Midrand, Johannesburg.

6. Terms of Reference

The purpose of any contract/s resulting from this RFP, will be to augment the capacity of DBSA to develop strategic responses to challenges facing the Bank, to take initiatives and implement programmes which will give effect to those responses, and to undertake specific tasks, either as part of strategies to be developed, or as ad-hoc responses to particular problems which may arise.

In all cases, it is important that staff of DBSA as a whole is empowered in the process of carrying out the assignment. Staff must develop appropriate skills and experience in their interaction with the relevant consultants which will decrease the necessity in the need for future assignments of this nature.

7. Selection Criteria for the following specialisations:

- IT auditors;
- Credit modelling;
- Specialist auditors with expertise in construction - Geotech and Civil Engineers, Quantity Surveyor's, Architects, Environmental Auditors;
- Forensic auditors/investigators;
