[BID NO: ADM/2021/216]

Closing date and time: [16 MARCH 2022 at 11:00]

TENDER BOX ADDRESS:

1. INTRODUCTION

The Mandate of PSiRA derives from the Private Security Industry Regulation Act 56 of 2001. The primary objective of the Authority is to regulate the private security industry and to exercise effective control over the practice of the occupation of security service provider in the public and national interest and in the interest of the private security industry itself. The Private Security Industry Regulatory Authority was established in terms of Section two of the Private Security Industry Regulation Act (56 of 2001) in 2002.

2. BACKGROUND

The Private Security Industry Regulatory Authority (PSiRA) is the statutory body regulating the Private Security Industry in South Africa. PSiRA consist of different regional branches nationwide (Cape Town, Port Elizabeth, Durban, Umtata, Polokwane, Nelspruit, Pretoria Central, Acadia, Johannesburg, Bloemfontein and Centurion) with its Head Office in Centurion.

PSiRA recognises that if it wishes to realise its vision, it must nurture and constantly develop its winning formula. This can only be achieved if PSiRA continues to value and care for its employees and takes the management of people issues and risks in the organisation seriously.

3. PURPOSE

The purpose of the survey is to establish employee level of satisfaction with their job and work environment. Given the fact that happy employees outperform those who are not, PSiRA would like to look to interventions that increase employee satisfaction. This include recognizing and rewarding top performers, improved job perks, offering competitive wages and opportunities for growth. The survey is

further intended to evaluate the key organisational elements which have impact to the management of the organisation.

Amongst other objectives, PSiRA would like to achieve the following through this intervention:

- **To get insights into opinion**

PSiRA's management would know how employees are feeling. Sentiment analysis will reveal the thoughts and attitudes to recent changes in the organisation and help in uncovering existing problems. It can help to show how employees feel about decisions and help management make choices that will be more aligned to employee and business needs.

- **Give employees a voice**

This intervention will give a platform for the staff to speak up safely in an honest and yet confidential way.

- **Reduce staff turnover**

PSiRA invests a lot in its employees, right from recruitment to training, so losing them is costly both financially and time wise. Efficiency and productivity can also take a hit when skilled labour leaves the organisation. Therefore, the climate survey helps the organisation to drive the aspect of job satisfaction.

- **Encourage behaviour change**

When leaders get feedback from their teams on some of their methods, they are more likely to change and adopt to methods that work for the people they lead. The behaviour change can also come up if practices or leadership styles are different across departments.

4. SCOPE OF SERVICE

The scope of the project is to include all (+-370) employees of the organisation nationally with (+-15) employees who do not have computer access. This project is

strictly for internal use of the organisation. The study should cover all PSiRA's offices nationwide.

The appointed service provider should conduct employee satisfactory survey based on the following:

- a) Design and use survey tools tailored to meet the needs of all PSiRA staff.
- b) Measure the levels of employee satisfaction towards the climate prevailing in the organisation.
- c) Study the employees' perception towards management effectiveness and support.
- d) Study and understand the organisational conducive work environment and support.
- e) Identify areas of improvement in Human Capital Management domain and present the findings for consideration to PSiRA for adoption.
- f) To know whether the organisation has good collaborations with major stakeholders and has built good reputation in the sector.
- g) To evaluate the internal climate of the organisation and to assess employee perceptions of work environment through accurate assessing and understanding the level of employee satisfaction.
- h) Provide a detailed report which outlining resilience and risk factors relating to employee morale, commitment and other variables that may arise during the employee satisfactory survey project. The report should also include statistical analysis, findings and recommendations.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
