## B. Request for Proposal for the Preferred Supplier for Hardware and Consumables for a period of Three (3) Years

### 1. BACKGROUND TO SANSA

The South African National Space Agency (SANSA) has a mandate, as outlined in the South African National Space Agency Act, 2008 (Act No 36 of 2008), to co-ordinate and integrate national space science and technology programmes and conduct long-term planning and implementation of space-related activities in South Africa, for the benefit of the citizens of South Africa

### 2. SCOPE OF WORK (TERMS OF REFERENCE)

SANSA Hermanus requires a variety Hardware and consumables that are used for new installations, general maintenance, and repairs around the Hermanus site and at remote sites. These items are often required in small quantities, on a as and when/what is required basis, and/or on a project basis. The items must be according to specification.

The supplier should be able to supply an item even if it is not carried in stock. The supplier should offer conveniency, quick quoting and fast delivery times.

SANSA recognises the advantages of these services in terms of operational efficiency and in meeting project deadlines and deliverables.

Interested suppliers are requested to bid based on the item list provided. The list below contains examples of hardware consumables which may be required over a period of three (3) years.

**This is not an exhaustive list and will not be ordered, it is included in the document for evaluation purposes only**

**Any related item would be requested as and when required.**

**NB: Suppliers must bid on ALL the items. The goods should be delivered to SANSA's premises in Hermanus, Western Cape**

## C. EVALUATION CRITERIA

SANSA promotes the concept of “best value” in the award of contracts, as opposed to merely looking for the cheapest price, which does not necessarily provide the best value. Best value incorporates the expertise, experience and technical proposal of the organisation and individuals who will be providing the service and the organisational capacity supporting the project team.

SANSA is committed to achieving Government's transformation objectives in terms of the Preferential Procurement Policy Framework Act.

The value of this bid is estimated not to exceed R1 million (all applicable taxes included) and therefore the **80/20** system shall be applicable.

**Please Note: the above amount (R1 million) is not the budgeted amount for this project, but it is the Treasury threshold for written price quotations.**

The procedure for the evaluation of responsive tenders is **price, functionality (quality) and preference** method. The evaluation of the bids will be conducted in the following two stages:

- Firstly, the assessment of quality will be done in terms of the evaluation criteria (Table 3) and the minimum threshold of 70 points explained below. A bid will be disqualified if it fails to meet the minimum threshold for functionality as per the bid invitation.
- Thereafter, only the qualifying bids are evaluated in terms of the 80/20 preference points systems, where the 80 points will be used for price and the 20 points will be awarded to a bidder for attaining the specific goals in accordance with the Table below.

### 1. Preference

Specific goals for this RFP and number of points are indicated as per table 1 below. Proof of the specific goals below must be attached and submitted with the bid document in order to qualify for the preference points (specific goals).

**Note to tenderers: The tenderer must indicate how they claim points for each preference point system.**

**Table 1: Specific Goals and points**

Equity Ownership	Proof of evidence	Percentage owned <sup>3</sup>	Number of points allocated (80/20 system) (To be completed by the organ of state)	Number of points claimed (80/20 system) (To be completed by the tenderer)
