

Clarification No. 1 (08.09.2025)**TENDER E1552GXMPKR: KRIEL POWER STATION LIGHTING INSTALLATION FOR A PERIOD OF 3 YEARS.****Query****1. Item 1.1.2 on the BOQ**

- Could you please clarify the scope and intent of this item?
- Is it referring to 1.1.2 Transport (2 vehicles) and on item 3.19 LDV + Transport to site daily (**some words missing/note clear**) and Staff Transport collectively, or are these separate provisions?

Eskom Response

This is now clarified in the revised BoQ in the Notes and Additional Notes columns.

2. LDV and Staff Transport

- Kindly confirm whether LDV and staff transport are to be priced as a single item or quoted separately.

Eskom Response

This is now clarified in the revised BoQ in the Notes and Additional Notes columns.

3. SHE Requirements

- Will any special PPE be required for this contract (e.g., Arc Flash PPE Cat 2 or Cat 4)?
- If so, please provide specific requirements or reference documents for compliance.

Eskom Response

This is now clarified in the revised BoQ in the Notes and Additional Notes columns.

4. LED Lighting Specifications

- Are there particular technical specifications, models, or performance criteria for the LED fittings to be installed (e.g., lumen output, wattage, IP rating)?
- 3.12 Consumables list/ identification

Eskom Response

"For additional luminaire specifications refer to APPENDIX A: TYPICAL LED LUMINAIRE TECHNICAL REQUIREMENTS in the Eskom Generation Power Station Lighting and Small Power Installation Standard (240-55714363)"

5. BOQ in Excel Format

- Kindly share the BOQ in editable **Excel format**, if available, to facilitate accurate costings and submission.

Eskom Response

Only the BoQ published in the bulletin must be used.

NB: A reminder that the communication platform is the Eskom e-tender portal and that of National Treasury and the responsibility of the tenderer to visit regularly for possible updates. Any revised documents after site meeting, clarification information and minutes will be uploaded as such.
