TWA	means the average exposure, within a given workplace, to airborne asbestos fibres, normalized to the baseline of a 4-hour continuous period, also applicable to short term exposures, i.e., 10-minute TWA.

Z14.1 The *Employer* ensures that the Ambient Air in the area where the *Contractor* will Provide the Services conforms to the acceptable prescribed South African standard for asbestos, as per the regulations published in GNR 155 of 10 February 2002, under the Occupational Health and Safety Act, 1993 (Act 85 of 1993) ("Asbestos Regulations"). The OEL for asbestos is 0.2 regulated asbestos fibres per millilitre of air as a 4-hour TWA, averaged over any continuous period of four hours, and the short-term exposure limit of 0.6 regulated asbestos fibres per millilitre of air as a 10-minute TWA, averaged over any 10 minutes, measured in accordance with HSG248 and monitored according to HSG173 and OESSM.

Z14.2 Upon written request by the *Contractor*, the *Employer* certifies that these conditions prevail. All measurements and reporting are effected by an independent, competent, and certified occupational hygiene inspection body, i.e., a SANAS accredited, and Department of Employment and Labour approved AAIA. The *Contractor* may perform Parallel Measurements and related control measures at the *Contractor's* expense. For the purposes of compliance, the results generated from Parallel Measurements are evaluated only against South African statutory limits as detailed in clause Z15.1. Control measures conform to the requirements

stipulated in the AAIA-approved asbestos work plan.

- Z14.3 The *Employer* manages asbestos and ACM according to the Standard.
- Z14.4 In the event that any asbestos is identified while Providing the Services, a risk assessment is conducted and if so required, with reference to possible exposure to an airborne concentration of above the AL for asbestos, immediate control measures are implemented, and relevant air monitoring conducted in order to declare the area safe.
- Z14.5 The *Contractor's* personnel are entitled to stop working and leave the contaminated area forthwith until such time that the area of concern is declared safe by either Compliance Monitoring or an AAIA approved control measure intervention, for example, per the emergency asbestos work plan, if applicable.
- Z14.6 The *Contractor* continues to Provide the Services, without additional control measures presented, on presentation of Safe Levels. The contractually agreed dates to Provide the Services, including the Completion Date, are adjusted accordingly. The contractually agreed dates are extended by the notification periods required by regulations 3 and 21 of the Asbestos Regulations, 2001.
- Z14.7 Any removal and disposal of asbestos, asbestos containing materials and waste, is done by a registered asbestos contractor, instructed by the *Employer* at the *Employer's* expense, and conducted in line with South African legislation.

Z15 Supplier Development, Industrialisation and Localisation (SDL&I)

- Z15.1 The Contractor achieves in the performance of the contract the Contract Skills Development Goal (CSDG) established in the Standard for Developing Skills through Infrastructure Contracts (published in Gazette Notice No.43495 of July 2020 version 2).
- Z15.2 In the event that the *Contractor* fails to achieve its CSDG, Eskom will be entitled to claim against the SDL&I Performance bond, the difference between the contracted CSDG and CSDG achieved in the performance of the contract.
- Z15.3 The *Contractor* will receive a CSDG completion certificate if the *Employer* is satisfied that it has complied with its CSDG obligations and submitted all reports required by the *Employer*.
- Z15.4 Where the contract is part of a Strategic Integrated Project (SIP) the *Contractor* will be required to report to the Presidential Infrastructure Coordinating Commission (PICC) through the respective SIPs Skills Co-ordinators linked to the office of the SIP Co-ordinators, using the approved PICC reporting template.
- Z15.5 The *Contractor* provides the *Employer* with a Performance bond for the fulfilment of its Supplier Development, Localisation, and Industrialisation obligations equivalent to 2.5% of the total of the Prices as at *starting date*.
- Z15.6 The SDL&I Performance bond is released on the *Contractor's* fulfilment of all its SDL&I obligations.

The weightings allocated to each of the SDL&I obligations are as follows:

1. Subcontracting weighting of 30% of the SDL&I performance bond,
2. Local Production and Content weighting of 40% of the SDL&I performance bond,
3. Skills Development CSDG (Contractor Skills Development Goal) weighting of 30% SDL&I performance bond.

In the event that the *Contractor* fails to achieve its SDL&I obligations, the *Employer* will be entitled to claim against the SDL&I Performance bond.

Z16 X3 Multiple currencies: additional clause X3.3

- Z16.1 Where the *Employer* has contracted to pay the *Contractor* for imported goods/services in currencies other than the *currency of this contract* and the *Employer* has hedged the foreign currency exposure, the *Contractor* is liable for all the *Employer* costs arising out of a request to modify or cancel forward cover made by the *Contractor*.
