BID RESPONSE DOCUMENTS SUBMISSION INSTRUCTIONS

Transnet has implemented a new electronic tender submission system, the e-Tender Submission Portal, in line with the overall Transnet digitalization strategy where suppliers can view advertised tenders, register their information, log their intent to respond to bids and upload their bid proposals/responses on to the system.

The Transnet Digital Procurement System (TDPS) Supplier Submission Portal can be accessed as follows:

- a) Log on to the Transnet eSupplier website/Portal (<https://esupplierportal.transnet.net/portal/>)
- b) Click on "SIGN IN/REGISTER –to register new bidder information and ensure that all (must fill in all mandatory information is completed) OR;
- to sign in if already registered;
- c) Click on "ADVERTISED TENDERS" to view advertised tenders;
- d) Toggle (click to switch) the "Log an Intent" button in order to be able to activate the submission of a bid;
- e) Respondents are to submit bid documents by uploading them onto the system against each tender selected.

A Bidder can upload 30mb per upload and multiple uploads are permitted.

- f) Bidders to note that all pricing must be completed electronic in the eSupplier portal and Annexure C: Pricing and Delivery Schedule shall be fully completed.
- g) Bidders should ensure that electronic bid submissions are submitted at least a day before the closing date and bidders should not wait for the last hour before the deadline to submit. This is to enable them to timeously address issues which they may encounter due to internet speed, bandwidth or the size of the number of uploads being submitted. Transnet will not be held liable for any challenges experienced by bidders as a result of their own technical challenges.
- h) No late submissions will be accepted.
- i) Each company must register its own profile using its company details and use the corresponding registered profile to log an intent to bid as well as submitting any bid.
- j) Transnet will not accept a bid or will disqualify a bidder who submits a bid in the Transnet e-tender submission through another bidders'/Company's profile. In other words, each bidder must register the intent to bid and submit its bid through its own profile under the same company name that will eventually bid for the tender. No company shall submit a bid on behalf of another company regardless of the company being a subsidiary or holding company.
- k) In case of a Joint Venture, any of the parties/companies to the Joint Venture may use its registered profile to submit a bid on behalf of the Joint Venture.

A detailed bidder guide can be found on the Transnet Portal transnetetenders.azurewebsites.net.

6.2.3 Verification of References

"Transnet reserves the right to verify the references submitted by the highest-ranked bidder(s) to confirm the validity and authenticity of the experience claimed. Where a referenced organisation cannot be contacted using the details provided, Transnet will make at least three (3) documented attempts. Should these attempts be unsuccessful, Transnet will notify the bidder and allow a period of forty-eight (48) hours for the bidder to facilitate contact with the relevant referee. Transnet may also undertake reasonable due diligence measures to verify the credibility of the referee. If the experience cannot be verified to the satisfaction of Transnet, the points awarded for the relevant evaluation criterion may be withdrawn, which may result in a revision of the bidder's overall ranking."

6.2.4 Misrepresentation and Fraud

"Where any information submitted (including, but not limited to, reference letters) is found to be false, misleading, and/or fraudulent, Transnet reserves the right to take appropriate action, including the application of sanctions as provided for in clauses 5.1 and 5.2 of the Service Provider Integrity Pact."

 - first negotiate with the highest ranked bidder or cancel the bid, should such negotiations fail,
 - negotiate with the 2nd and 3rd ranked bidders (if required) in a sequential manner.

1. INTRODUCTION

The Transnet National Ports Authority's (TNPA) Marine Long-Term Ecological Monitoring Programme for South African Ports is a multi-year initiative aimed at assessing environmental quality across eight major commercial ports managed by the authority. The primary objective of the monitoring programme is to gather environmental data to assist Transnet National Ports Authority in managing the port environment and port operations for long-term ecological sustainability. This is TNPA's research initiatives that seek to use sound scientific approaches in order to contribute to the body of knowledge and support academic research empowerment, especially for the previously disadvantaged universities. As such, it contributes to addressing issues covered by relevant legislation, such as the Water Act, the National Environmental Management Act, and the Integrated Coastal Management Act, as applicable to the entire port ecosystem. The programme delivers scientifically robust data on water, sediment, and biota quality to ensure compliance with regulatory standards, inform management interventions, and support sustainable port operations.

2. PROGRAMME BACKGROUND AND OBJECTIVES

2.1 Aim of the programme

The Marine Long-Term Ecological Monitoring Programme aims to:

- Assess and track the long-term environmental health, sediment quality, and ecological integrity of port environments.
- Fulfil compliance obligations under national and international environmental legislation.
- Inform adaptive port environmental management strategies and the Dumping at Sea permit requirements for dredging TNPA ports.

2.2 Primary Objectives

The primary objectives of the Marine Long-Term Ecological Monitoring Programme are to gather environmental data to assist Transnet National Ports Authority in managing the port environment and port operations for long-term ecological sustainability. Key questions the monitoring programme attempts to address include:

- Is water and sediment quality in South African ports impaired, and if so, how significant and widespread is the impairment?
- If water and sediment quality in South African ports is impaired, is this adversely impacting on biological resources, as exemplified by benthic macrofaunal communities and mussels, and if so, how significant and widespread is the impact?

- What are the possible causes and sources of water and sediment quality impairment and adverse impacts to biological resources in South African ports?
- Is management intervention required to control and improve water and sediment quality in South African ports, what are the priorities within and amongst ports in this context, and if intervention is implemented is it effective?
- How are water and sediment quality, and the status of benthic macrofaunal communities in South African ports changing over time?

2.3 Ports to be monitored

The Long-Term Ecological Monitoring Programme focuses on the eight commercial ports managed by TNPA, namely:

- Saldanha (**Only Ad hoc Sediment Quality Monitoring**)
- Cape Town
- Mossel Bay
- Port Elizabeth
- Ngqura
- East London
- Durban
- Richards Bay

2.4 Frequency and timing of survey

The frequency and timing of the Marine Long-term Ecological monitoring should follow the following approach, but not limited to it. The monitoring comprises summer and winter surveys for each port, which are ideally performed in December/January/February and June/July/August, respectively. The summer survey focuses on water quality only, while the winter survey focuses on water and sediment quality and biological monitoring. The rationale for water quality monitoring in both surveys and sediment and biological monitoring in only one survey is that the benthic environment is far more stable compared to the water column. Conditions in the water column are variable at short timescales, and measurements thus provide only a snapshot of contamination problems/environmental conditions at the time of monitoring. The benthic environment provides a more integrated, longer-term measure of contamination problems/environmental conditions (in the order of months). Furthermore, sampling in winter avoids complications brought about by variable recruitment success in benthic macrofaunal communities and in mussel reproduction related to contaminant depuration. All the other seven ports will be monitored for the full Ecological parameters, except for the Port of Saldanha, which will only monitor Sediment Quality at ad hoc basis for purposes of dumping at sea permit application when required.

3. MONITORING PROGRAM COMPONENTS

3.1 Water Quality

3.1.1 Frequency and timing of survey

Water quality monitoring is performed in summer and winter, for the seven other ports except for Saldanha.

3.1.2 Sampling station position

The water quality monitoring and sampling positions for each port are provided in Figures 1-7. The stations have been monitored since 2015. The continued monitoring of the stations is essential to providing a long-term measurement record, which satisfies the objective of the monitoring programme of providing a long-term understanding of environmental conditions in each port. There are two types of stations, namely primary stations where the full suite of physical, chemical and biological parameters are monitored in situ or in water samples returned to the laboratory, and secondary stations where only in situ water quality monitoring is performed. The additional in situ measurements provide a more comprehensive understanding of water quality compared to only monitoring the primary stations, at minimal additional cost since samples do not need to be returned to the laboratory for analysis.

3.2 Sediment quality

3.2.1 Frequency and timing of surveys

Sediment quality monitoring is performed once a year in the winter months, for the purpose of dumping at sea permit applications for the 7 ports: Cape Town, Mossel Bay, Port Elizabeth, Ngqura, East London, Durban, and Richards Bay. The Port of Saldanha will only be surveyed on an ad hoc basis as requested by TNPA.

3.2.2 Sampling station positions

Sediment sampling positions for each port are provided in Figures 8 to 15. The continued monitoring of these stations is essential, as it satisfies the monitoring programme's objective of providing a long-term understanding of environmental conditions in each port.

3.3 Bioaccumulation

3.3.1 Frequency and timing of surveys

Contaminant bioaccumulation monitoring using mussels is performed once a year in the winter months for the seven other ports except for Saldanha.

3.3.2 Sampling station positions

Mussel sampling positions for each port are provided in Figures 16 to 22. The station positions have been

consistent in most ports. However, in instances where mussels are only available from channel markers, the station positions may be shifted depending on the recency of cleaning. The continued monitoring of consistent stations, wherever possible, is essential to providing a long-term measurement record that satisfies the monitoring programme's objective of providing a long-term understanding of environmental conditions in each port.

- Metal and polycyclic aromatic hydrocarbon concentrations in mussels are compared to targets identified for the Long-Term Ecological Monitoring Programme to classify tissue quality as good, fair, or poor.
- A tissue quality index is used to integrate the findings for metals and polycyclic aromatic hydrocarbon concentrations. The index is used to classify tissue quality as Excellent, Good, Fair, Marginal, or Poor.

28 INSURANCES

28.1 Without limiting the liability of the Service Provider under this Agreement, the Service Provider shall take out insurance in respect of all risks for which it is prudent for the Service Provider to insure against, including any liability it may have as a result of its activities under this Agreement for theft, destruction, death or injury to any person and damage to property. The level of insurance will be kept under review by Transnet, on an annual basis, to ensure its adequacy, provided that any variation to the level of such insurance shall be entirely at the discretion of the Service Provider.

28.2 The Service Provider shall arrange insurance with reputable insurers and will produce to Transnet evidence of the existence of the policies on an annual basis within 30 [thirty] calendar days after date of policy renewals.

28.3 Subject to clause 28.4 below, if the Service Provider fails to effect adequate insurance under this clause 28.4, it shall notify Transnet in writing as soon as it becomes aware of the reduction or

inadequate cover and Transnet may arrange or purchase such insurance on behalf of the Service Provider. The Service Provider shall promptly reimburse Transnet for any premiums paid provided such insurance protects the Service Provider's liability. Transnet assumes no responsibility for such insurance being adequate to protect all of the Service Provider's liability.

- 28.4 In the event that the Service Provider receives written notice from its insurers advising of the termination of its insurance cover referred to in clause 28.1 above or if the insurance ceases to be available upon commercially reasonable terms, the Service Provider shall immediately notify Transnet in writing of such termination and/or unavailability, whereafter either the Service Provider or Transnet may terminate this Agreement on giving the other Party not less than 30 [thirty] calendar days prior written notice to that effect.

29 LIMITATION OF LIABILITY

- 29.1 The Service Provider's liability under this clause 29.1 shall be in addition to any warranty or condition of any kind, express or implied by law or otherwise, relating to the Services or ancillary Services, including the quality of the Services or ancillary Services or any materials delivered pursuant to this Agreement.

The Service Provider's liability arising out of this clause 29.3 shall be limited to direct damages.
- 29.4 Subject always to clauses 29.1 and 29.2 above, the liability of either the Service Provider or Transnet under or in connection with this Agreement, whether for negligence, misrepresentation, breach of contract or otherwise, for direct loss or damage arising out of each Default or series of related Defaults shall not exceed 100% [one hundred per cent] of the Fees paid under the schedule or Work Order to which the Default(s) relates.

- b) Transnet shall be entitled to seek protection in respect of the Foreground Intellectual Property anywhere in the world as it shall decide in its own absolute discretion and the Service Provider shall reasonably assist Transnet in attaining and maintaining protection of the Foreground Intellectual Property.
- c) Where the Foreground Intellectual Property was created by the Service Provider or its researchers, agents and employees and where Transnet elects not to exercise its option to seek protection or decides to discontinue the financial support of the prosecution or maintenance of any such protection, Transnet shall notify the Service Provider who shall have the right of first refusal to file or continue prosecution or maintain any such applications and to maintain any protection issuing on the Foreground Intellectual Property.
- d) No consideration shall be paid by Transnet to the Service Provider for the assignment of any Foreground Intellectual Property from the Service Provider to Transnet, over and above the sums payable in terms of this Agreement. - 31.2 Such failure or neglect shall not in any manner affect the continued, unaltered validity of this Agreement, or prejudice the right of that Party to institute subsequent action.

32 PARTIAL INVALIDITY

6 DATABASE OF RESTRICTED SUPPLIERS

- 6.1 The process of restriction is used to exclude a company/person from conducting future business with Transnet and other organs of state for a specified period. No Bid shall be awarded to a Bidder whose name (or any of its members, directors, partners or trustees) appear on the Register of Tender Defaulters kept by National Treasury, or who have been placed on National Treasury's List of Restricted Suppliers. Transnet reserves the right to withdraw an award, or cancel a contract concluded with a Bidder should it be established, at any time, that a bidder has been restricted with National Treasury by another government institution.
- 6.2 All the stipulations on Transnet's restriction process as laid down in Transnet's Supply Chain Policy and Procurement Procedures Manual are included herein by way of reference. Below follows a condensed summary of this restriction procedure.
- 6.3 On completion of the restriction procedure, Transnet will submit the restricted entity's details (including the identity number of the individuals and registration number of the entity) to National Treasury for placement on National Treasury's Database of Restricted Suppliers for the specified period of exclusion. National

Treasury will make the final decision on whether to restrict an entity from doing business with any organ of state for a period not exceeding 10 years and place the entity concerned on the Database of Restricted Suppliers published on its official website.

- 6.4 The decision to restrict is based on one of the grounds for restriction. The standard of proof to commence the restriction process is whether a "*prima facie*" (i.e. on the face of it) case has been established.
- 6.5 Depending on the seriousness of the misconduct and the strategic importance of the Goods/Services, in addition to restricting a company/person from future business, Transnet may decide to terminate some or all existing contracts with the company/person as well.
- 6.6 A supplier or contractor to Transnet may not subcontract any portion of the contract to a restricted company.
- 6.7 Grounds for restriction include: If any person/Enterprise which has submitted a Bid, concluded a contract, or, in the capacity of agent or subcontractor, has been associated with such Bid or contract:
 - a) Has, in bad faith, withdrawn such Bid after the advertised closing date and time for the receipt of Bids;
 - b) has, after being notified of the acceptance of his Bid, failed or refused to sign a contract when called upon to do so in terms of any condition forming part of the bid documents;
 - c) has carried out any contract resulting from such bid in an unsatisfactory manner or has breached any condition of the contract;
 - d) has offered, promised or given a bribe in relation to the obtaining or execution of the contract;
 - e) has acted in a fraudulent or improper manner or in bad faith towards Transnet or any Government Department or towards any public body, Enterprise or person;
 - f) has made any incorrect statement in a certificate or other communication with regard to the Local Content of his Goods or his B-BBEE status and is unable to prove to the satisfaction of Transnet that:
 - (i) he made the statement in good faith honestly believing it to be correct; and
 - (ii) before making such statement he took all reasonable steps to satisfy himself of its correctness;
 - g) has submitted false information regarding any other matter required in terms of the Preferential Procurement Regulations, 2017 issued in terms of the Preferential Procurement Policy Framework Act which will affect the evaluation of a Bid or where a Bidder has failed to declare any subcontracting arrangements;
 - h) caused Transnet damage, or to incur costs in order to meet the contractor's requirements and which could not be recovered from the contractor;
 - i) has litigated against Transnet in bad faith.

7 PREVIOUS TRANSGRESSIONS

- 7.1 The Bidder / Supplier hereby declares that no previous transgressions resulting in a serious breach of any law, including but not limited to, corruption, fraud, theft, extortion and contraventions of the Competition Act 89 of 1998, which occurred in the last 5 (five) years with any other public sector undertaking, government department or private sector company that could justify its exclusion from its registration on the Bidder's / Supplier's database or any bidding process.
- 7.2 If it is found to be that the Bidder / Supplier made an incorrect statement on this subject, the Bidder / Supplier can be rejected from the registration process or removed from the Bidder / Supplier database, if already registered, for such reason (refer to the Breach of Law Form contained in the applicable RFX document.)

8 SANCTIONS FOR VIOLATIONS

8.1 Transnet shall also take all or any one of the following actions, wherever required to:

- a) Immediately exclude the Bidder / Supplier from the bidding process or call off the pre-contract negotiations without giving any compensation to the Bidder / Supplier. However, the proceedings with the other Bidders / Suppliers may continue;
- b) Immediately cancel the contract, if already awarded or signed, without giving any compensation to the Bidder / Supplier;
- c) Recover all sums already paid by Transnet;
- d) Encash the advance bank guarantee and performance bond or warranty bond, if furnished by the Bidder / Supplier, in order to recover the payments, already made by Transnet, along with interest;
- e) Cancel all or any other contracts with the Bidder / Supplier;
- f) Exclude the Bidder / Supplier from entering into any bid with Transnet and other organs of state in future for a specified period; and
- g) If the Supplier subcontracted a portion of the bid to another person without declaring it to Transnet, Transnet must penalise the Supplier up to 10% of the value of the contract.

9 CONFLICTS OF INTEREST

9.1 A conflict of interest includes, inter alia, a situation in which:

- a) A Transnet employee has a personal financial interest in a bidding / supplying entity; and
- b) A Transnet employee has private interests or personal considerations or has an affiliation or a relationship which affects, or may affect, or may be perceived to affect his / her judgment in action in the best interest of Transnet, or could affect the employee's motivations for acting in a particular manner, or which could result in, or be perceived as favouritism or nepotism.

9.2 A Transnet employee uses his / her position, or privileges or information obtained while acting in the capacity as an employee for:

- a) Private gain or advancement; or
- b) The expectation of private gain, or advancement, or any other advantage accruing to the employee must be declared in a prescribed form.

Thus, conflicts of interest of any bid committee member or any person involved in the sourcing process must be declared in a prescribed form.

9.3 If a Bidder / Supplier has or becomes aware of a conflict of interest i.e. a family, business and / or social relationship between its owner(s) / member(s) / director(s) / partner(s) / shareholder(s) and a Transnet employee / member of Transnet's Board of Directors in respect of a bid which will be considered for the bid process, the Bidder / Supplier:

- a) must disclose the interest and its general nature, in the Request for Proposal ("RFX") declaration form; or
- b) must notify Transnet immediately in writing once the circumstances has arisen.

9.4 The Bidder / Supplier shall not lend to or borrow any money from or enter into any monetary dealings or transactions, directly or indirectly, with any committee member or any person involved in the sourcing process, where this is done, Transnet shall be entitled forthwith to rescind the contract and all other contracts with the Bidder / Supplier.

10 DISPUTE RESOLUTION

10.1 Transnet recognises that trust and good faith are pivotal to its relationship with its Bidders / Suppliers. When a dispute arises between Transnet and its Bidder / Supplier, the parties should use their best endeavours to resolve the dispute in an amicable manner, whenever possible. Litigation in bad faith negates the principles of trust and good faith on which commercial relationships are based. Accordingly, following a restriction process as mentioned in paragraph 6 above, Transnet will not do business with a company that litigates against it in bad faith or is involved in any action that reflects bad faith on its part. Litigation in bad faith includes, but is not limited to the following instances:

- a) **Vexatious proceedings:** these are frivolous proceedings which have been instituted without proper grounds;
- b) **Perjury:** where a supplier make a false statement either in giving evidence or on an affidavit;
- c) **Scurrilous allegations:** where a supplier makes allegations regarding a senior Transnet employee which are without proper foundation, scandalous, abusive or defamatory; and
- d) **Abuse of court process:** when a supplier abuses the court process in order to gain a competitive advantage during a bid process.
