INTRODUCTION TO THE ITHEMBA LABS BUSINESS UNIT

iThemba LABS (Laboratory for Accelerator-Based Sciences) is a multi-disciplinary research laboratory based at two sites in the Western Cape and Gauteng respectively, providing facilities for:

- Basic and applied nuclear physics research using particle beams
- Research radiation biophysics
- Research in Material and Nano science
- Research in Accelerator Mass Spectrometry
- The supply of accelerator-produced radioactive isotopes for nuclear medicine and research.

Please visit the iThemba LABS website (<http://tlabs.ac.za>) for more information.

CONTEXT OF THIS PROCUREMENT NEED

iThemba LABS, as a national facility of the NRF, provides research platforms for pure and applied research and development in Accelerator-Based Sciences. The key stakeholders of iThemba LABS have a legitimate expectation of state-of-the-art equipment that is well maintained and reliable, as well as efficient service delivery and expert in-house support.

Reliable operations of the charged particle accelerators that comprise the heart of the research platforms are totally reliant on a high level of power quality. In order to deliver a reliable service to local and international research scientists, a reliable vacuum system is crucial to attain this.

At iThemba LABS, we have many vacuum pumps that range from rotary vane (RV), through to diaphragm, roots, turbo, diffusion and cryogenic pumps. As mechanical hardware, they require routine scheduled maintenance and repair from time to time.

Based on our requirements, a contract will be required for the supply of all service kits, parts, oils, lubricants, and factory service of all Leybold Vacuum branded components. The supplier will only be allowed to supply original Leybold products and be an authorised distributor of Leybold products.

For this contract, no "pirate" or "equalvalent parts would be acceptable as this would void gaurantees & warranties that we have on our newer pumps. Also most of the pumps operate in a ionising radiation enviroment and require the pumps to be reliable as possible. This is prevent unnecessary downtime and exposure to personnel.

PART A – CONTRACT

DETAILED SCOPE OF WORK

iThemba LABS requires supply, support and service Leybold Vacuum products. The range of Leybold Vacuum products that is currently on site at iThemba LABS ranges to a wide variety of vacuum equipment, such as:

- RV Pumps (Rotary Vane)
- Scroll Pumps
- Diaphragm Pumps
- Diffusion Pumps
- Turbo Pump
- MAG Turbo Pumps
- Gate Valves
- Hand valves
- Specialised connection cables

Based on our requirements, a contract will be required for the supply of all service kits, parts, oils, lubricants, and factory service of all Leybold Vacuum branded components. The supplier will only be allowed to supply original Leybold products and be an authorised distributor of Leybold products.

The supply, support and service required, but not limited to, include:

- The supply of all available service kits
- The supply of parts, oils, lubricants
- The supply of all available service manuals.
- The supply of any specialized tooling for the repair and service of afore mentioned equipment
- The supply of all electrical spares
- The supply of any power supplies/ controllers
- The provision of factory repairs and or servicing of any afore mentioned pumps

The supplier will only supply original Leybold products.

The supplier will remain an authorised distribution of Leybold products for the life of the contract (5 years). Where the supplier is removed from the authorised list, this is deemed immediate termination of the contract with the supplier

“Pirate” or “equivalent” in this case will not be acceptable as this would void all warranties and guarantees that we have on our new pumps. Also, nearly all of our vacuum equipment operates in a radiation environment and is imperative that the “down time” of the equipment is kept to a minimum. This is to reduce radiation exposure to personnel.

Reporting and document control of Leybold Vacuum Components returned to factory for service/repair.

Detailed report must be submitted before repairs commence, also, repairs/service can only be completed upon final approval from iThemba LABS

SPECIAL CONDITIONS OF CONTRACT MANAGEMENT

(Special conditions amending specific clauses of the general conditions of contract reference the specific clause in the title).

1. To provide technical support on Leybold Vacuum products.
2. To arrange factory repair/service of various Leybold vacuum pumps and equipment.
3. To provide a loan unit as when required while the “original” unit is returned for repairs.

PERFORMANCE LEVEL (General Condition of Contract Clause No: 22)

If the appointed Panel bidders fails to meet any performance level:
