Questions and Answers:

Date Received	Questions	Answers
25 May 2026	<p>I have reviewed the questions and answers provided however there seems to be a slight mis-alignment in the PDF and I would just like to clarify that configuration of the Access Points by the successful bidder is not required</p> <ol style="list-style-type: none"> 1. Configuration will be done by SITA 2. Only require mounting of Access Points 3. No cabling required as stated in Q&A ? 	<p>No successful bidder will install and configure the APs.</p> <p>No, installation and configurations .</p> <p>Yes.</p>
26 May 2026	<p>Could you please assist with clarification on the following points:</p> <p>Heat Maps</p> <ol style="list-style-type: none"> 1. What are the expectations regarding heat maps? 2. Are both pre- and post-deployment heat maps required, or has the initial (pre-deployment) already been completed, with only post-deployment validation required? <p>Wireless Controllers (BOM)</p> <ol style="list-style-type: none"> 1. There are no controllers reflected in the BOM. 2. Can you confirm whether controllers are already in place onsite and therefore excluded? 3. If so, could you also confirm their current lifecycle status (i.e., whether they are EOL or nearing EOL)? <p>Structured Cabling</p> <ol style="list-style-type: none"> 1. What is the current cabling standard being used onsite? 2. Are we permitted to arrange a site visit with our cabling contractors in order to accurately scope and price this component? <p>Interconnectivity Between Buildings</p> <ol style="list-style-type: none"> 1. The requirement references two buildings. 2. Could you clarify the interconnectivity between them: <ol style="list-style-type: none"> 1. Is there an existing fibre link (and if so, is it out of scope)? 2. Alternatively, should a wireless bridge solution be considered within scope? 	<p>This is an extension of WLAN . Points for installing additional APs have already been identified.</p> <p>There's a controller onsite has been confirmed with the OEM to be compatible with the AP range.</p> <p>No need to scope and quote for cabling.</p> <p>Is there an existing fibre link (and if so, is it out of scope)? N/A</p>

QUESTIONS AND ANSWERS -(ERP Number 362010)-RFB3222-2025- PROCUREMENT FOR SUPPLY, INSTALL AND CONFIGURE OF CISCO WIRELESS ACCESS POINTS (APS) AT PARLIAMENT 120 PLEIN STREET CAPE TOWN.

Date Received	Questions	Answers
26 May 2026	I see there is no line on the pricing spreadsheet for cabling Will you please just double check with the client	There is no need to quote for cabling.
