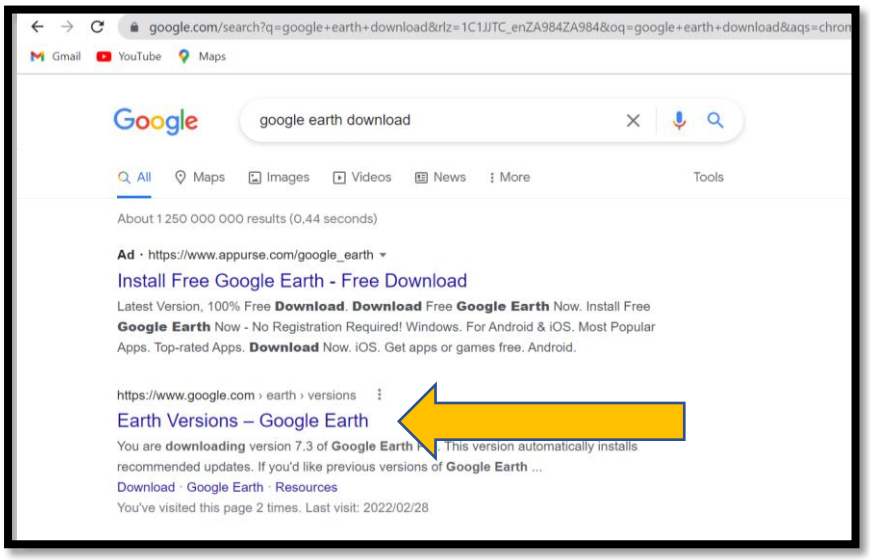
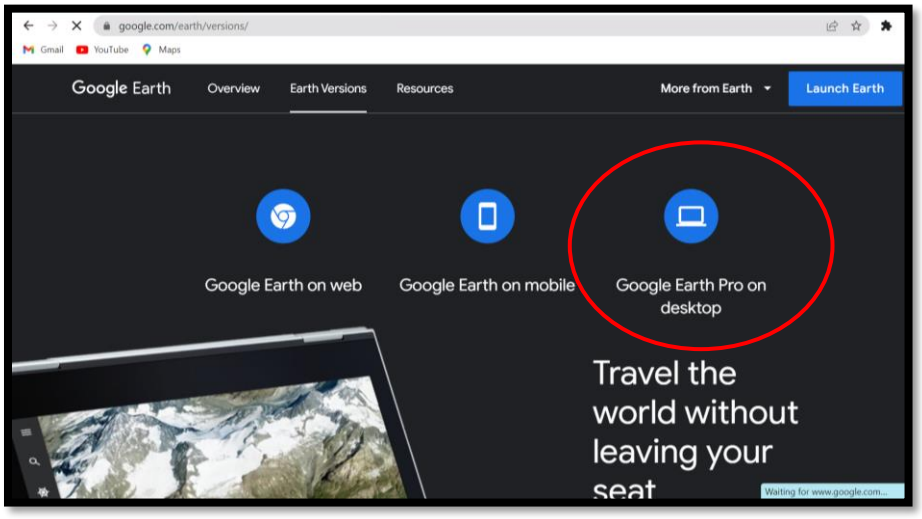
Bidder guide into the Map

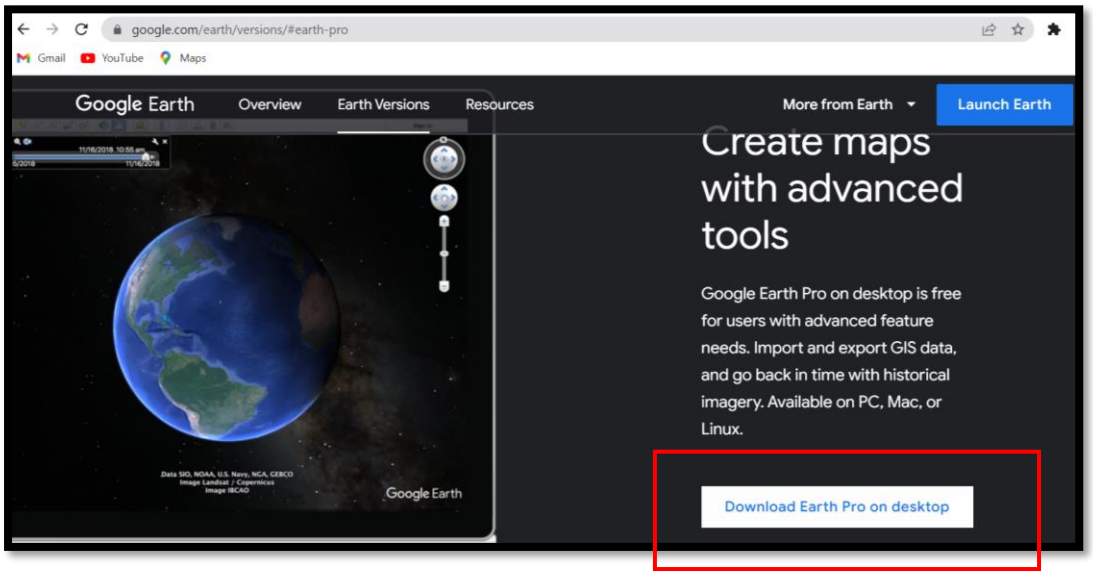
1. Must be connected to the Internet
2. Open Google Search engine
3. Search “Google Earth Download”
4. Click on “Earth Versions- Google Earth”



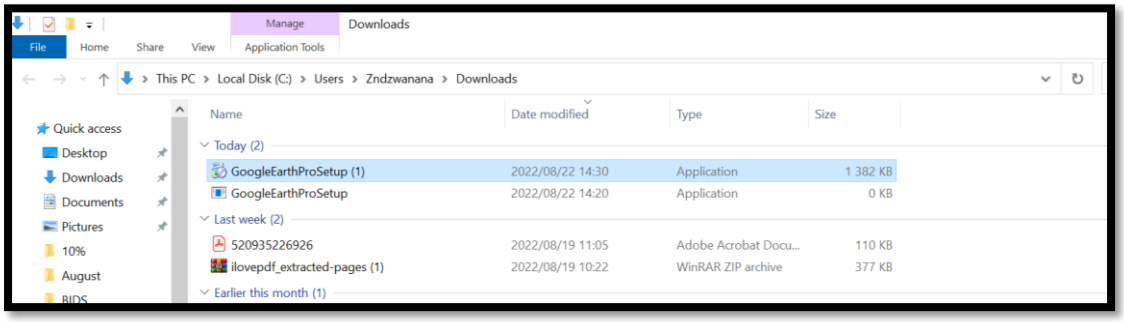
5. Click on “Google Earth Pro on desktop”



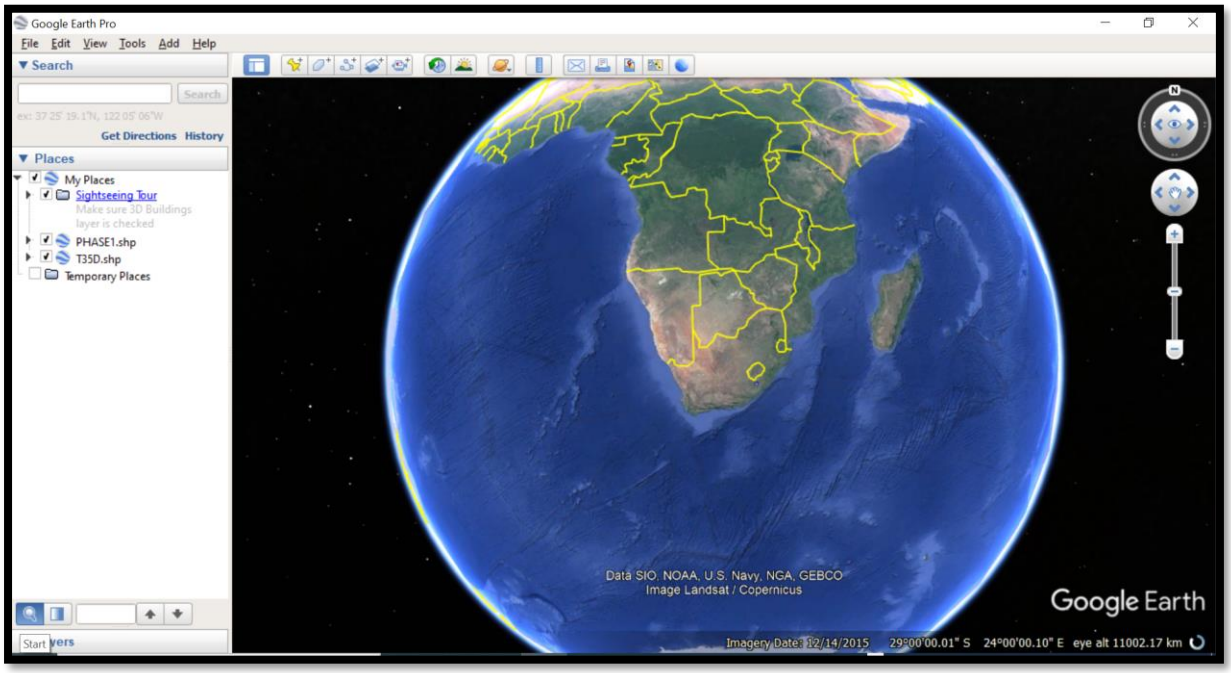
6. Click on “Download Earth Pro on Desktop”



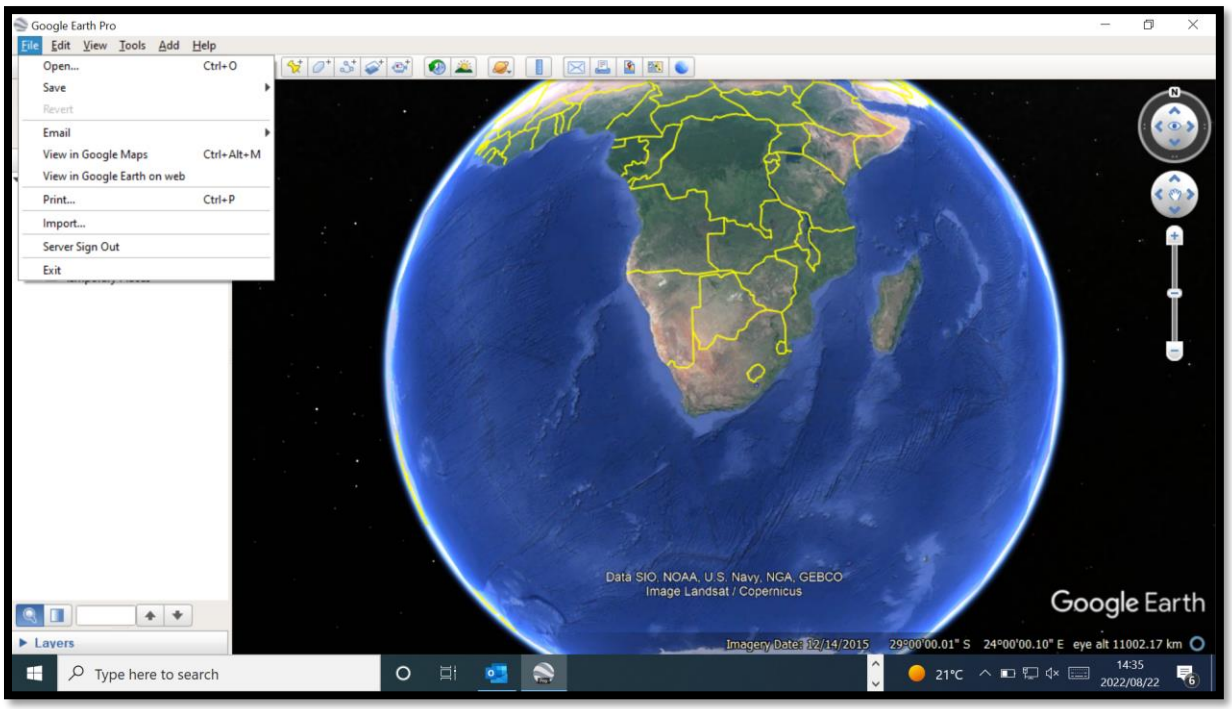
7. Once download has been complete, go to the “Downloads” folder on your laptop and click on “GoogleEarthProSetup”



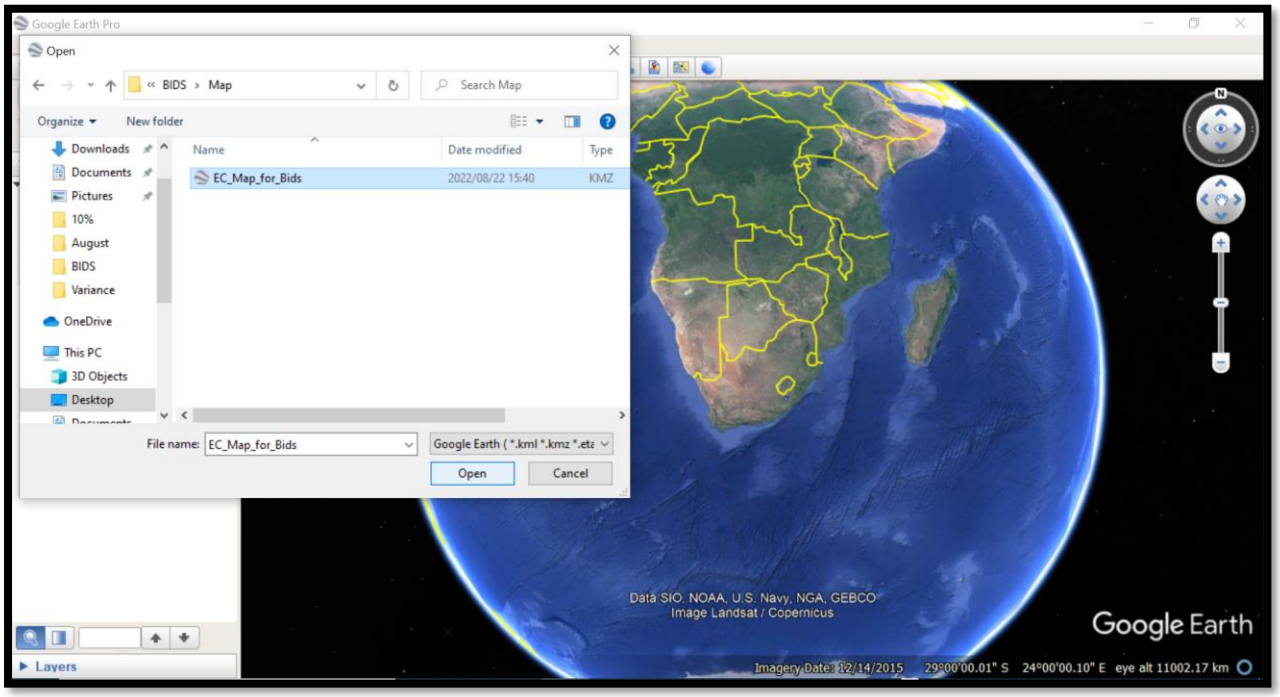
8. Once you have set-up Google Earth Pro. It will look like this.



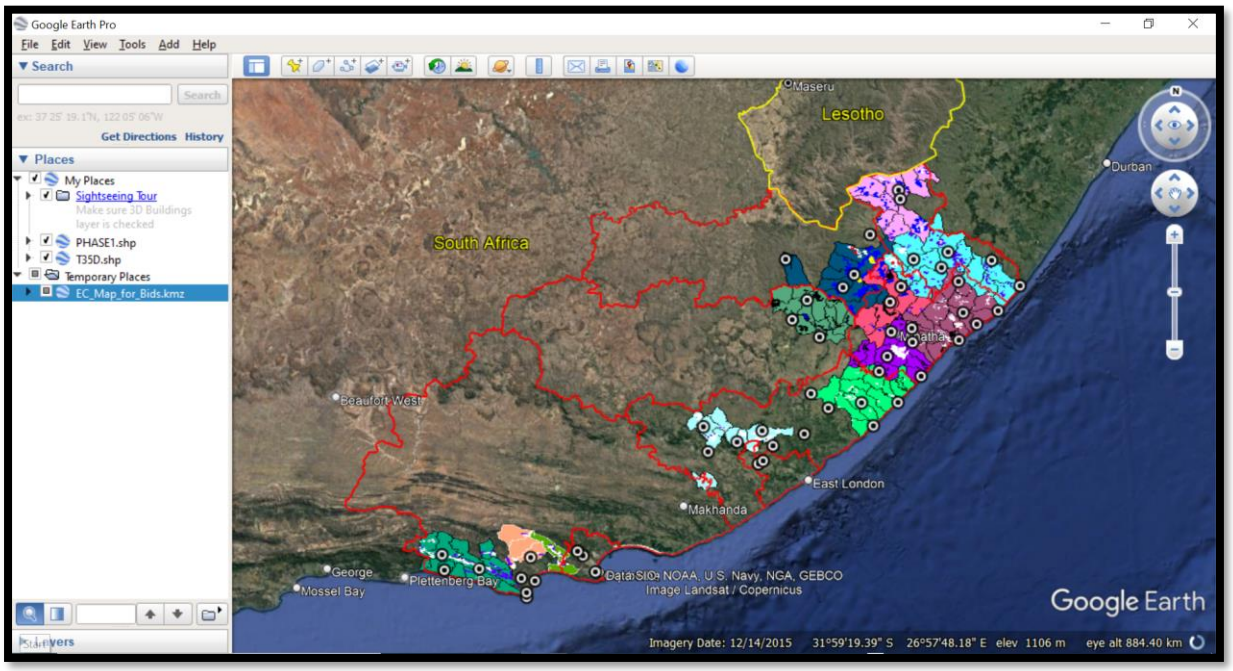
9. Click on File and Open in the application



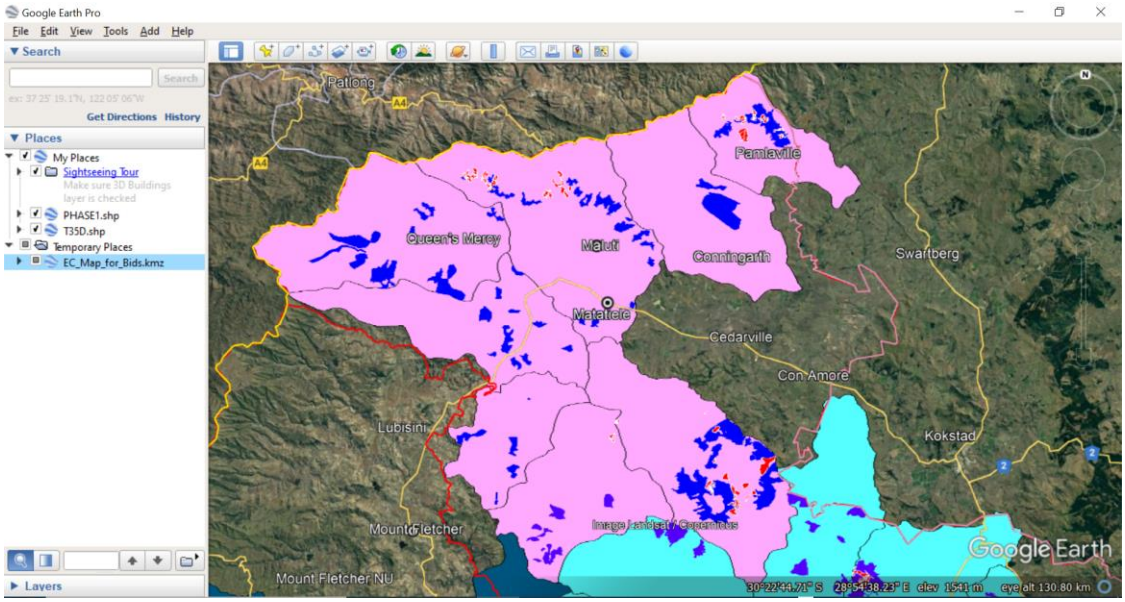
10. Open the folder that has the map file in your computer



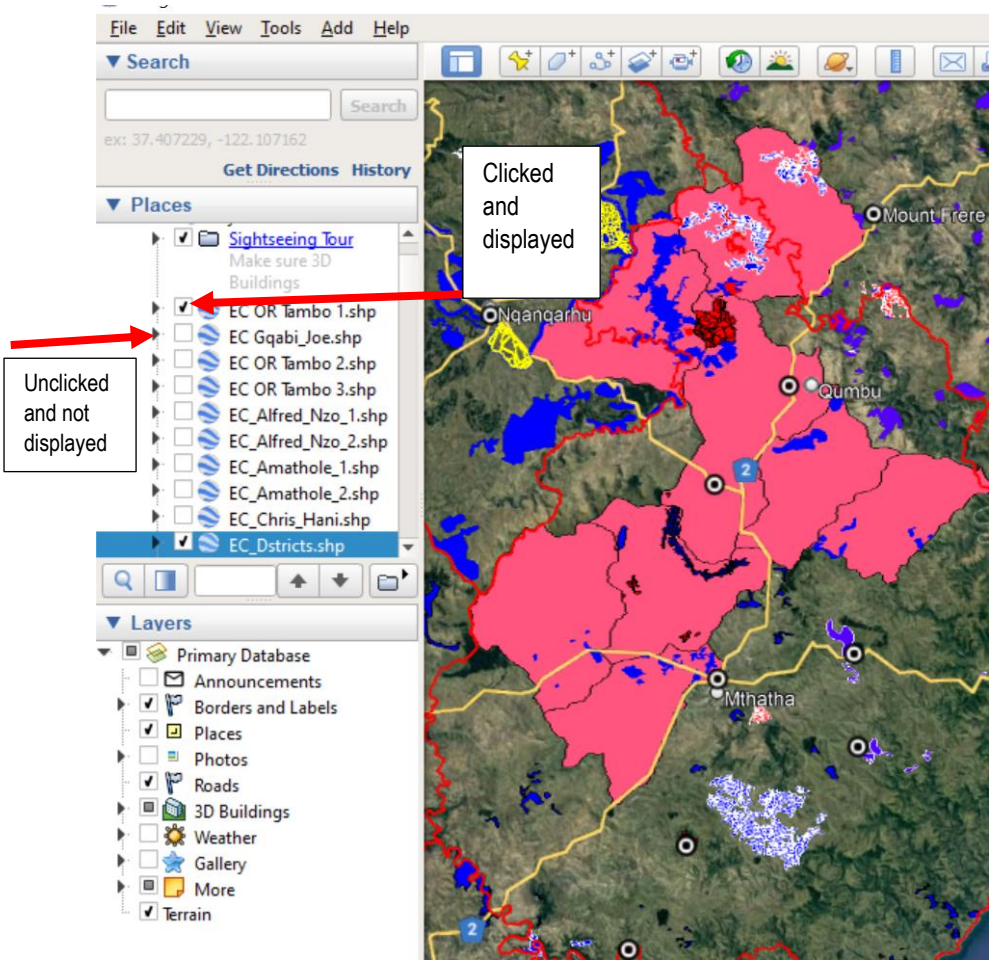
11. Once the file has been opened, it should appear like this then you can zoom in to the district that you are interested in.



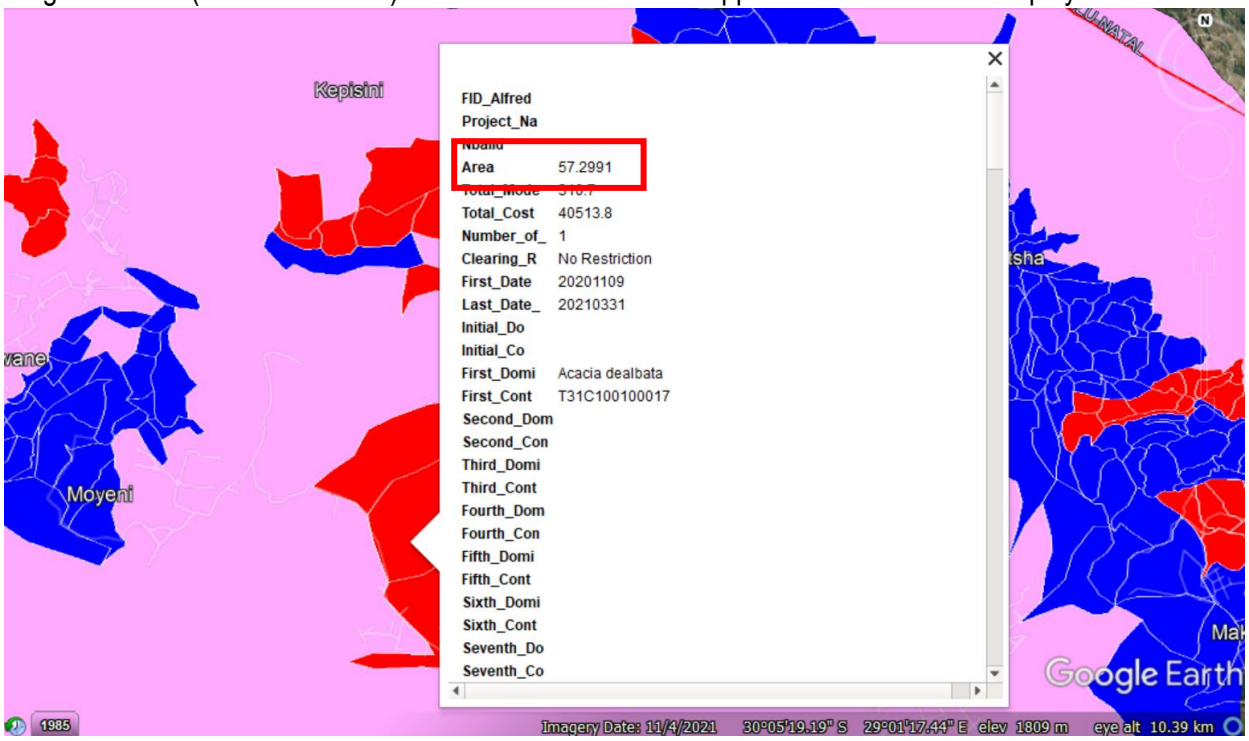
12. Zooming in should show you two colours within a District; Red for Initials and Blue for follow-ups.



13. To view what is in your interest, you can unclick all the other municipalities in the "Places" list to be able to only view the one you are interested in. The tick shows that the layer is displayed and the ones that are not ticked are not displayed.



14. Getting the area (Size in Hectares); Option 1: To get the area of a polygon, click in the polygon to get the area (Size in Hectares) and a list of attributes will appear. The area will be displayed there



15. Getting the area (Size in Hectares); Option 2: You can get the area by right-clicking on the polygon and choosing the properties option (1). Choose the measurements tab to display the area in hectares (2).
