## SECTION 1

### Introduction and Background

The Commission for Conciliation, Mediation and Arbitration (CCMA) is an independent and autonomous organization that was established by the Labour Relations Act of 1995 (LRA) to deliver dispute prevention and resolution services to the people of South Africa. The core mandate of the CCMA, as one of the organisations charged with implementing the LRA, is derived from the purpose of the LRA which, amongst others, is to advance economic development, social justice, labour peace and the democratisation of the workplace.

The CCMA places a high standard on the well-being and safety of its employees and assets and stakeholders; and acknowledges that the costs involved in accidents, incidents, security risks and exposures affect the well-being of employees, productivity and integrity the organisation and its processes and also create a negative image with subsequent impact on users and stakeholders and is therefore committed to create a healthy and safe working environment for its employees, users and stakeholders.

The CCMA Gqeberha office requires bidders to provide proposals for maintenance and upkeep of existing biometric access control on first and second floors.

The CCMA's existing current software for biometric system was installed by Multivid in 2011 but company is now called Jasco. Jasco does not have offices in the Eastern Cape region and operates from Cape Town.

Cognisance will be given to bidders with members in good standing of the Private Security Industry Regulatory Authority (PSIRA).
