## GENERAL NOTES

1. THIS DRAWING TO BE READ IN CONJUNCTION WITH ALL OTHER CIVIL ENGINEERING DRAWINGS.
2. ALL DIMENSIONS ARE TO BE CHECKED ON SITE. ANY DISCREPANCIES TO BE BROUGHT TO THE ATTENTION OF THE ENGINEER.
3. A LOCAL COORDINATE SYSTEM WAS USED.
4. THE WORKS WILL BE INSPECTED FROM TIME TO TIME BY THE CONSULTING ENGINEER TO ASCERTAIN THAT THE CONTRACTOR IS CARRYING OUT THE WORK IN GENERAL CONFORMITY WITH THE ENGINEERING DRAWINGS AND DOCUMENTS. SUCH INSPECTIONS ARE NOT CARRIED OUT FOR THE BENEFIT OF THE CONTRACTOR, AND DO NOT RELIEVE HIM OF THE RESPONSIBILITY FOR THE PROPER CONSTRUCTION OF THE WORKS IN ACCORDANCE WITH THE ENGINEERING DRAWINGS, DOCUMENTS AND GOOD BUILDING PRACTICE.
5. THE COORDINATES AND DETAILS OF THE MANHOLES ARE SPECIFIED ON THE STORMWATER SCHEDULE.
6. A PROTOTYPE JUNCTION BOX OR KERB INLET MUST BE CONSTRUCTED AT THE START OF THE PROPOSED STORMWATER NETWORK, AND WHEN APPROVED WILL BE USED AS A STANDARD TO BE MAINTAINED FOR ALL JUNCTION BOXES OR KERB INLETS IN THE SCHEME.
7. DO NOT SCALE THIS DRAWING, USE ONLY WRITTEN OR CALCULATED DIMENSIONS.
8. THE CONTRACTOR IS TO TAKE PRECAUTIONS DURING THE EXCAVATIONS OF THE PIPELINE ROUTE OF POSSIBLE UNDERGROUND SERVICES.
9. THE CONTRACTOR IS TO ENSURE THAT A HEALTH AND SAFETY PLAN IS DEVELOPED AND IMPLEMENTED ON SITE EFFECTIVELY
10. IT IS WORTH TO NOTE THAT SOME ELEMENTS OF THE DESIGN MAY CHANGE SLIGHTLY, SUCH CHANGES SHALL BE COMMUNICATED TO THE CONTRACTOR IN TIME.

GENERAL NOTES

1. MINIMUM PIPE DIAMETER TO BE 600mm.
2. MINIMUM PIPE FALL TO BE 1.00%, UNLESS OTHERWISE APPROVED BY MUNICIPALITY.
3. PIPE BEDDING TO BE CLASS B UNLESS OTHERWISE SPECIFIED.
4. ALL EXCAVATIONS AND BEDDING MUST BE INSPECTED AND APPROVED BY THE ENGINEER BEFORE LAYING OF ANY PIPES.
5. CLEAN EXISTING STORMWATER CULVERTS AND REPAIR WHERE NECESSARY (IF APPLICABLE)
6. ALL LEVELS TO BE CONFIRMED ON SITE, ANY DISCREPANCIES SHOULD BE BROUGHT TO THE ATTENTION OF THE ENGINEER
7. THIS DRAWING TO BE READ IN CONJUNCTION WITH ALL OTHER CIVIL ENGINEERING DRAWINGS

GENERAL NOTES

- MINIMUM PIPE DIAMETER TO BE 600mm.
- MINIMUM PIPE FALL TO BE 1.00%, UNLESS OTHERWISE APPROVED BY MUNICIPALITY. 3.
- PIPE BEDDING TO BE CLASS B UNLESS OTHERWISE SPECIFIED.
- ALL EXCAVATIONS AND BEDDING MUST BE INSPECTED AND APPROVED BY THE ENGINEER BEFORE LAYING OF ANY PIPES.
- CLEAN EXISTING STORMWATER CULVERTS AND REPAIR WHERE NECESSARY (IF APPLICABLE)
- ALL LEVELS TO BE CONFIRMED ON SITE, ANY DISCREPANCIES SHOULD BE BROUGHT TO THE ATTENTION OF THE ENGINEER
- THIS DRAWING TO BE READ IN CONJUNCTION WITH ALL OTHER CIVIL ENGINEERING DRAWINGS

### GENERAL NOTES

- MINIMUM PIPE DIAMETER TO BE 600mm.
- MINIMUM PIPE FALL TO BE 1.00%, UNLESS OTHERWISE APPROVED BY MUNICIPALITY.
- PIPE BEDDING TO BE CLASS B UNLESS OTHERWISE SPECIFIED.
- ALL EXCAVATIONS AND BEDDING MUST BE INSPECTED AND APPROVED BY THE ENGINEER BEFORE LAYING OF ANY PIPES.
- CLEAN EXISTING STORMWATER CULVERTS AND REPAIR WHERE NECESSARY (IF APPLICABLE)
- ALL LEVELS TO BE CONFIRMED ON SITE, ANY DISCREPANCIES SHOULD BE BROUGHT TO THE ATTENTION OF THE ENGINEER

## GENERAL NOTES

1. MINIMUM PIPE DIAMETER TO BE 600mm.
2. MINIMUM PIPE FALL TO BE 1.00%, UNLESS OTHERWISE APPROVED BY MUNICIPALITY. 3.
- PIPE BEDDING TO BE CLASS B UNLESS OTHERWISE SPECIFIED.
4. ALL EXCAVATIONS AND BEDDING MUST BE INSPECTED AND APPROVED BY THE ENGINEER BEFORE LAYING OF ANY PIPES.
5. CLEAN EXISTING STORMWATER CULVERTS AND REPAIR WHERE NECESSARY (IF APPLICABLE)
6. ALL LEVELS TO BE CONFIRMED ON SITE, ANY DISCREPANCIES SHOULD BE BROUGHT TO THE ATTENTION OF THE ENGINEER
7. THIS DRAWING TO BE READ IN CONJUNCTION WITH ALL OTHER CIVIL ENGINEERING DRAWINGS

LEGEND

|   |                               |
|---|-------------------------------|
| D | PIPE OUTSIDE DIAMETER         |
| H | HEIGHT OF HEADWALL ABOVE PIPE |
| B | LENGTH OF APRON SLAB          |

NOTES

1. THE MATERIAL FOR A DEPTH OF 150mm UNDER THE APRON SLAB MUST BE COMPACTED TO A MINIMUM DENSITY OF 90 % OF THE MOD. AASHTO DENSITY.
2. ALL CONCRETE TO BE CLASS 20/19.
3. ENERGY BREAKERS MUST BE PROVIDED WHEN REQUIRED BY THE ENGINEER.
4. THIS OUTLET STRUCTURE ONLY TO BE USED WHEN PIPE SIZE IS LESS THAN 600 mm Ø.
5. ALL BRICKS TO BE OF QUALITY FBSE30 TO SANS 227-2007 WITH WATER ABSORPTION <14% AND EFFLORESCENCE <10.
6. ALL BRICKWORK TO BE IN ENGLISH BOND.
7. NO PLASTERING OF BRICKWORK WILL BE ALLOWED.
8. THE LOWER PORTION OF ANY BRICKWORK GREATER THAN 1m IN HEIGHT SHALL BE INCREASED TO 345mm TO A MAX. OVERALL HEIGHT OF 1.75m.
9. BRICK SAMPLES SHALL BE SUBMITTED FOR TESTING.
10. IN TERMS OF THE NATIONAL WATER ACT, 36 OF 1998, A RATE OF DISCHARGE FROM AN OUTLET STRUCTURE SHALL NOT EXCEED 1m/SEC AND SHALL NOT BE GREATER THAN 100mm IN DEPTH. IF DESIGN INDICATIONS ARE THAT THESE FIGURES WILL BE EXCEEDED, ADDITIONAL ENERGY DISSIPATION MEASURES WILL BE REQUIRED.

NOTES: -

1. INLET/OUTLET APPROACHES IN FILL CONDITION TO BE GABION WALL PITCHED
2. SPLITTER BLOCK MAY BE OMITTED IF DISCHARGE VELOCITY IS LESS THAN 1.5m/s AND PROVIDED AT OUTLETS ONLY.
3. CUT OFF WALLS MAY BE OMITTED IF STRUCTURE IS FOUNDED ON ROCK.
4. FOR MULTIPLE BOX CULVERTS INCREASE DIMENSIONS "E" AND "F" BY  $(n-1)(B+80)$ mm WHERE n = NUMBER OF UNITS WHERE B = NOMINAL SPAN OF BOX CULVERT
5. H - IS THE STD BOX CULVERT HEIGHT.
6. ALL CONCRETE TO BE 20MPa. MIN COVER TO STEEL IS 40mm.
7. SQUARE MESH FABRIC (REFERENCE S.M.F. 395) TO BE PLACED CENTRALLY IN ALL APRON SLABS.
8. DIMENSIONS IN TABLE 1 ARE AS PER MANUFACTURING STANDARD OF ROCLA PORTAL CULVERTS TYPE RECTANGULAR (RP) SABS CLASS "S" AND EQUIVALENT.

**LEGEND**

D = PIPE CLASS  
Do = INTERNAL PIPE DIAMETER

**NOTES**

- ALL PIPES BELOW SIDEWALKS & OPEN AREAS TO BE CLASS 50 'D' EXCEPT WHERE COVER < 2.m ON 1200mm Ø AND GREATER THE CLASS OF THE PIPES ARE TO BE INCREASED TO 75' D'.
- FOR STORMWATER PIPES BELOW STREETS & MAIN ROUTES SEE TABLE 2.
- THE CONTRACTOR SHALL AT ALL TIMES ADHERE TO THE SAFETY PRECAUTIONS AS SET OUT IN SANS 1200 D-1988.
- IF TRENCHES ARE 200mm WIDER THAN THE SPECIFIED WIDTH IN TABLE 2 IT MAY BE NECESSARY TO CHANGE THE PIPE CLASS.
- BEDDING:
  - NORMAL BEDDING ACCORDING TO DETAIL 1.
  - BEDDING ACCORDING TO DETAIL 2.
  - CONCRETE SLAB OVER PIPE ACCORDING TO DETAIL 3.
  - CONCRETE BEDDING ACCORDING TO DETAIL 4.
- BEDDING MATERIAL:

THE MATERIAL USED CONSISTS OF SELECTED GRAVEL WITH PI ≤ 6, MUST BE FREE OF STONES LARGER THAN 20mm, ORGANIC MATERIAL AND CLAY LUMPS. THE BEDDING MATERIAL AT THE SIDES OF THE PIPE MUST BE COMPACTED TO 90% .MOD. AASHTO DENSITY AFTER THE PIPE HAS BEEN LAID.

BACKFILL TYPE A:  
THE MATERIAL USED MUST BE UNIFORM AND MUST BE COMPACTED TO 90% MOD AASHTO DENSITY IN LAYERS NOT MORE THAN 100mm AND MUST BE FREE OF:

  - ROOTS OF TREES, BUILDING RUBBLE AND ORGANIC MATERIAL.
  - CLAY LUMPS LARGER THAN 75mm.
  - STONES LARGER THAN 20mm.
- BACKFILL TYPE B:

MINIMUM G9 MATERIAL ACCORDING TO TRH14 CLASSIFICATION COMPACTED TO A MIN. OF 90% MOD. AASHTO DENSITY IN LAYERS NOT MORE THAN 150mm.
- MINIMUM PIPE SIZE TO BE 600mm DIAMETER.
- CONNECTIONS FROM ERVEN TO MUNICIPAL SYSTEM TO BE 600mm.

## LEGEND

D = DIAMETER AS SPECIFIED BY THE ENGINEER

H = DEPTH AS SPECIFIED BY THE ENGINEER

## NOTES

1. THE APPLICABLE TYPE OF SUBSURFACE DRAIN TO BE USED MUST BE SPECIFIED BY THE ENGINEER. REFER TO TRH 15.
2. THE DESIGN OF SUBSURFACE DRAIN INSTALLATIONS MUST TAKE LOCAL CONDITIONS INTO ACCOUNT, SPECIFICALLY WITH RESPECT TO LOCAL SOIL CONDITIONS.
3. USE WITH CARE IN DOLOMITIC CONDITIONS.
4. WEEPHOLES FOR TYPE D INSTALLATIONS AT MANHOLES.
5. A COST COMPARISON OF TYPES A, B, & C TO ESTABLISH THE MOST ECONOMICAL SOLUTION IS RECOMMENDED.

NOTES AND SPECIFICATIONS

GENERAL

1. MANHOLE
- 1.1 All precast manhole sections shall comply with the relevant requirements of SANS 1294.
- 1.2 No step irons shall be required unless otherwise indicated on the drawings.
- 1.3 Dimensions of precast manhole sections are approximate and may vary slightly according to different manufacturer's specifications.
- 1.4 Position of manholes shall be directly above the PI of adjoining stormwater pipes.
- 1.5 The function of the combination precast concrete/cast iron manhole cover is to replace lost cast iron covers, unless otherwise specified.
- 1.6 All concrete manhole covers shall have the letters "SW" formed or engraved on top. Each letter shall be 50mm wide, 75mm high and 5mm thick.
- 1.7 Manhole covers and frames made of other materials, like polymer concrete, must comply with the relevant SANS-Specifications, be approved by the Engineer in writing and be installed according to the manufacturer's specifications.
- 1.8 Where the total depth of the junction box/manhole combination (invert level to finished ground level) exceeds 2.0m, a structural design must be submitted by a professional engineer.
- 1.9 All bricks shall comply with SANS 227 and shall be engineering units of class FBS (Face brick Standard) with a nominal compressive strenght of 12 MPa.
2. CAST IN-SITU COVER SLABS
- 2.1 Measurement B is always smaller than L.
- 2.2 Concrete to be class 25/19.
- 2.3 Concrete to be cured for a minimum period of 7 days.
- 2.4 Minimum cover to reinforcement is 20mm.
- 2.5 Type, bar and spacing of reinforcement as specified in Table D.
- 2.6 Main reinforcement to be shape code 38, with hook length (A- dimension) not less than t minus 60, except for slabs with a span not exceeding 1000, where no hooks are required and shape code 20 is used.

SECTION C-C

NOTES AND SPECIFICATIONS

GENERAL

1. Permission must be obtained from the Engineer as well as from the Roads and Stormwater Division if any other catchpit type is proposed.
2. All bricks shall comply with SANS 227 and shall be Engineering Units of Class FBS (Face Brick Standard) with a nominal compressive strength of 12 MPa.
3. Also refer to section 502, 702, 703, 704 and 809 of the Standard Specifications for Municipal Civil Engineering Works, 3rd edition, 2005.

**TYPICAL SECTION THROUGH CULVERT SHOWING FLOOR SLAB REINFORCEMENT**

SCALE : SCHEMATIC

**DETAIL B**

SCALE : SCHEMATIC

MAIN REINFORCEMENT - HOOKS MAY BE PLACED INCLINED TO COMPLY WITH MINIMUM CONCRETE COVER REQUIREMENTS.

WINGWALL TIE - BARS Y16-500

DISTRIBUTION REINFORCEMENT

IN SITU CONCRETE FLOOR SLAB  
PANEL LENGTH - 4 500mm MAXIMUM

IN SITU CONCRETE FLOOR SLAB  
PANEL LENGTH - 4 500mm MAXIMUM

**JOINT DETAILS BETWEEN FLOOR SLAB SECTIONS**

**DETAIL A**

SCALE : SCHEMATIC

**PLAN VIEW FOR SLAB REINFORCEMENT**

SCALE : SCHEMATIC

**NOTES:**

1. CONCRETE CLASS 30/19.
2. MINIMUM COVER TO REINFORCEMENT IS 50mm.
3. ALL MAIN REINFORCEMENT TO BE FULLY ANCHORED BOTH SIDES.
4. STOOLS SHALL BE PROVIDED TO SUPPORT THE REINFORCEMENT WHERE THE SPAN OF THE PORTAL IS GREATER THAN 1 200mm.
5. THE COMBINATIONS OF FOUNDATION AND INSTALLATION CONDITIONS USED ARE DEFINED AS FOLLOWS:
  - CONDITION 1: CULVERTS IN TRENCH ON UNYIELDING FOUNDATION WITH NO PROJECTION.
  - CONDITION 2: CULVERTS UNTRENCHED ON YIELDING FOUNDATION.
  - CONDITION 3: CULVERTS UNTRENCHED ON UNYIELDING FOUNDATION FOR  $h > 1.7 \times b$ .
  - CONDITION 4: CULVERTS UNTRENCHED ON UNYIELDING FOUNDATION FOR  $h < 1.7 \times b$ .
6. WHERE  $h$  = FILL HEIGHT IN METRES  
 $b$  = OVERALL TRENCH WIDTH OR, IF UNTRENCHED, OVERALL CULVERT WIDTH, IN METRES.  
 FOR  $H < 1.5m$ , THE WIDTH =  $130mm + 2 \times \text{WIDTH OF PORTAL LEG}$   
 FOR  $H > 1.5m$ , THE WIDTH =  $150mm + 2 \times \text{WIDTH OF PORTAL LEG}$

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | S.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |  |                                                                                                                                                                                                                                                                                                                                                                                                       |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
